

Flowform® Soft Seating

Ottoman 26"

MODEL#: SMSFS55001

OVERVIEW

The 26" ottoman pairs well with our Soft Rocker (#55000) to create comfortable work spaces for young adult learners. Collaborate with others and interact in a close knit space. The ottoman comes with glides.

MATERIALS

The frame is constructed of durable 18mm plywood veneers, each piece interlocking with adjacent pieces to create sturdy load bearing connections. Thermoplastic polyester fiber upholstery batting minimizes telegraphing of the framework through the vinyl exterior. The seating pad is made from flexible polyurethane foam, meeting FR CA117 standards and contains no added flame retardant chemicals.

The fabric is Designtex 100% vinyl, phthalate free, with a Polyester backing. Highly durable with a 100,000 Wyzenbeek double rub (CD) rating. The fabric is easily cleanable with a 10:1 Water:Bleach mixture.

DESIGNTEX
