

Behind the striking simplicity is a sophisticated intelligence. Emerge desk system facilitates today's fundamental changes in the way people work and relate with each other, without compromising on ergonomic comfort, cable management and other important issues. The ability to handle data and communication equipment and cabling is integrated into the design.

Various shapes and Sizes workspaces

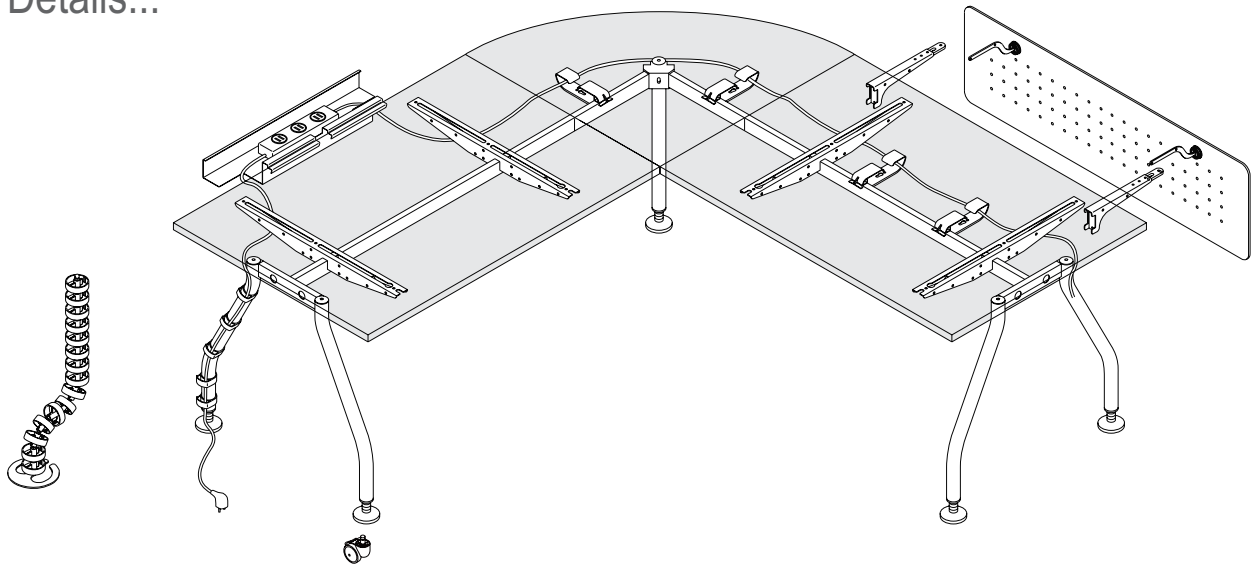

Combination of individual desk can create a conference-like configuration

Over 20 unique worksurface shapes, different architectures and configurations meet your varied work, design and budget requirements.

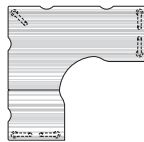

Details...

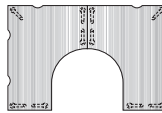

Product Details

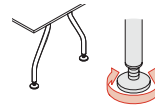

Straight Edge Detail
28mm thickness

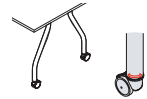

Corner Cove
allows smaller footprint planning because of its concave corner top shape. Depth of work surface is adequate to accommodate computer terminal in corner.

Extended Corner
applicable for use U-shaped work-setting.

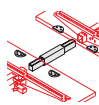

Adjustment foot
Black plastic
Desk height H680-760mm

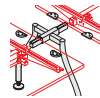

Leg with lockable castor
50mm diameter, black plastic
Desk height H720mm

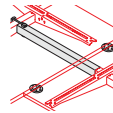

Connections

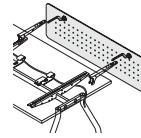

Linear Connector

Middle Leg with Linking Option

Angle Connector

Modesty Panel

Werndl Collection

...environment friendly

Reduce

the design and simple structure of Werndl Collection products help to reduce the amount of raw materials used and eliminate waste in the manufacturing process. Knock down packaging also minimises the amount of packaging materials used and reduces energy consumption during transport and distribution.

Reuse

the simple structure makes replacing parts easy. The multi-functional products can be reconfigured to meet changing work needs, extending the life of Werndl Collection products.

Recycle

the design and use of materials for Werndl Collection products ensure that parts can be separated by material and recycled at the end of their lifecycle.

The Werndl Collection is an excellent example of how Steelcase's commitment to the environment is integrated into every aspect of a product's lifecycle. Designed and built to minimize the use of resources, in its manufacture, use and disposal, the Werndl Collection embodies the Steelcase environmental philosophy – Reduce, Reuse, Recycle.
