# Levitt Armchair & Sofa

---

Designed by L + R Palomba

Catalogue - EN

## L+R Palomba

Ludovica + Roberto Palomba, the golden couple of Italian design, for over 25 years have been designing products that escape the trends.

First of all, they have a philosophical approach: the search for essence in every project, closer to the concept of balance of oriental heritage rather than to the nordic style, the goal of their work is not only an aesthetic result but the well-being.

A bold design, without inconsistencies, equidistant from the excess in the decoration and radical minimalism, the result of a selection of values and themes rather than a downsizing project.

The curved lines of the organic form and the strict squareness, conflicting worlds that they've been able to make them talk to each other, for example in the bathroom world that recognizes them as absolute protagonists.

# Levitt,

## Sensual and suggestive design

Armchair & Sofa  
designed by L+ R Palomba, 2007

*“Levitt literally embraces every guest who sits on it. Its silhouette is a statement of intent at first sight. An exercise in pure ingenuity, of friendly design thought by and for people.”*

We know products that are capable of living several lives. They are pieces that come to enjoy different stages according to the finishes they are given. Levitt is one of these promising cases. Both the sofa and the family seat designed by Ludovica & Roberto Palomba enjoy extraordinary comfort. Since 2007, its sensual

and suggestive design has been able to endure over time: evolving and being able to assume new upholstery.

Levitt literally embraces every guest who sits on it. Its silhouette is a statement of intent at first sight. An exercise in pure ingenuity, of friendly design thought by and for people.

In 2009, Ludovica and Roberto Palomba materialized the Levitt collection, portraying the best of a relaxed and contemporary Italian design. A line seeking optimum comfort for the user through a suggestive, proportional and unexpected design of modules, enabling multiple combinations. A sofa with the exact dose of personality and sensorial forms that converse with anyone who sits on it.
