Piero Lissoni

Piero Lissoni has studied Architecture at the Politecnico di Milano and on graduating in 1985, he begins collaborating as designer and Art Director with furniture manufacturers Boffi, Living Divani and Porro.

In 1986 together with Nicoletta Canesi, Piero Lissoni opens the studio Lissoni Associati; in 1996 they create Graph.x to develop graphic projects.

The work of the studio embraces architecture, graphic and industrial design projects, ranging from furniture, accessories, kitchens, bathroom and lighting fixtures to corporate identity, advertising, catalogues and packaging. Interior design projects include hotels, showrooms, trade stands, private houses, shops and yachts.

“The modular parts make the work of the interior designer easier. This is so because there is nothing like having total freedom when it comes to creating a space. There is nothing like playing with the silhouette of different objects, like creating relaxed and flexible environments in which to promote collaboration.”

Season, Surprising and Unexpected Details

Collection designed by Piero Lissoni, 2011

Designed by Piero Lissoni, the Season collection represents the balance between simplicity and a carefully thought design.

We know that clear and defined forms penetrate the mind faster and longer. This is where we find the real reason for the existence of contemporary design. The modular parts make the work of the interior designer easier. This is so because there

is nothing like having total freedom when it comes to creating a space. There is nothing like playing with the silhouette of different objects, like creating relaxed and flexible environments in which to promote collaboration. Each and every element that makes up the Season family has been born from surprising and unexpected details.

collaboration

On the right page, a set of modules of the Season sofa with an Aleta low table brass structure and black table top.

2017 — Halfway between rationalism and sensuality, the Season sofa is in line with the rest of the collection designed by Piero Lissoni. It is composed of two rounded volumes: a cube and a vertical rectangular piece, capable of generating a suggestive geometric play.

It offers 3 different versions that can be perfectly combined with each other and in a totally intuitive way: the modules can be straight, open or closed. In addition, just like the chair in the collection, it includes a washable technical fabric protection for the area that is most exposed to the footwear. Is there a better offer?

The three modules of the Season sofa allow the creation of different compositions, giving more value to the lounge experience concept created in 2011.
