产品介绍

初代 Cubb 系列以休闲悠然的腔调大受欢迎，而如今为了更好地服务团队协作，现推出办公和休闲两种高度的团队桌可供选择。

当协作型团队桌成为大型智慧办公环境中的核心产品时，在广受欢迎的 Cubb 系列中增添团队桌自然成为大势所趋。应运而生的团队桌共有办公及休闲两种不同高度，承袭了初代 Cubb 系列产品的休闲和悠然风格，同时还支持高度定制化，木材颜色、金属饰面和工作台表面均有各种选项可供选择。

正如初代 Cubb 系列一样，团队桌的每一个部件都经过精心审慎的设计及测试，只为确保其卓越高效的性能。这些团队桌还可配备各种电源及照明设备，此外，其电缆管理经认真考量后，在设计上与桌腿无缝结合，完全隐藏于工作台表面之下。

智能型部件一起搭建出整个系列的精致架构，设计师也可创新探索，打造出最符合其项目特色的个性化家具。

cubb

rigorously
simple
tabling.

The laid-back, informal attitude that helped make the original Cubb range so popular has now been translated into great team tabling, at both work and café height.

With collaborative team tables now central to great Smartworking[®] environments, expanding the popular Cubb range with team tabling was a natural next step. The resulting range of complementary work and café height tables shares the laid back, informal appeal of the original Cubb range, and also offers the same high level of customisation, with a choice of timber stains, metal finishes and work surfaces.

As with the original Cubb range, each and every component of the team tables has been meticulously designed and tested to ensure that it performs its role efficiently and effectively. Tables come with a range of power and lighting options, and careful consideration has of course been paid to cable management, which sees cables running seamlessly up the legs and being concealed beneath the work surface.

Structurally smart components add to the range's architectural refinement, and can also be exploited by designers to create individual pieces of great character that perfectly match their project criteria.

"The design personality of the first range of Cubb seating and tables lies intrinsic to its success. We knew that this gave Cubb additional scope and potential, and this has now been realised with this extensive range of team tables."
