

BAMBOO SOFA SERIES

竹子沙发

design by grado

竹子沙发的座面软包用面料内嵌的工艺，使得不同座位块块分明，宛如竹子的节状形态，挺直有序，不失灵动，为办公空间增加了自然气息。竹子是一种中国化的植物，将这种中国元素融入到沙发的形态中，更具有中国特色和记忆点。

Upholstered fabrics embedded in the cushion, Bamboo Sofa adopts the segmented shape of bamboo, adding a sense of nature to the whole office. The square yet flexible Bamboo Sofa features a typical Chinese style with the representative bamboo element integrated into its design.

竹子沙发通过简单的排列组合，形成各种秩序不一的形态，高低错落、巧妙灵动，为空间增添了几分趣味性，并且不乏实用性，可以适用于商务办公、休闲娱乐、公共休息等多种空间。

Bamboo Sofa can be grouped into different shapes in perfect match. Among the ingenious high and low staggers, the sofa decorates the space to be more vivid and appealing. The highly pragmatic Bamboo Sofa is suitable for a variety of spaces involving business, leisure, entertainment and public rest.

Steel frame: black flat powder coating

GENTLE POUF 君子坐墩 design by grado

一个空间中，不仅需要功能强大的办公系统和宽大舒适的沙发，灵活小巧的 Pouf 也是必不可少。这款带滑轮的 pouf 可以非常灵活方便地在房间里移动并自带了可随时做会议记录的小桌板，很好地丰富了整个空间。

Apart from efficient office equipment and cozy sofas, a manoeuvrable and compact pouf is also essential for a comfortable space. This pouf is a good choice for enriching a space, not only for it's easy to move with its wheels, but also for it offers a great place for minuting meetings with its boardtable.
