He was the recipient of the Prince Felipe Award for Business Excellence and he has also won the German Design Award.

Maarten,

What defines a real icon?

Collection designed by Víctor Carrasco, 2017

Maarten's story is one of contained minimalism: surprisingly synthetic in its silhouette but extraordinarily welcoming in its soft version.

Since 2012, Víctor Carrasco decided to play with the contrast of a very defined structure and an upholstery that spared no wrinkles. It is an upholstery that is pleasant to the touch as well as to the eyes, a seat that invites you to stay in it for hours, and that—depending on the base you choose—is capable of immersing you in the intimacy of a residential space, in the versatility of an installation or in the comfort that projects dedicated to hospitality seek.

"I understood we needed a timeless chair with comfortable forms, because the market was forgetting the universal fact that the human being is more important than the object. 1970s silhouettes, polished but wrinkled at the same time, were starting to be forgotten. And the

design industry was paying more attention to rigorous forms: very focused on aesthetics, but almost inhuman.

I also wanted to pay a homage to the Belgian designer Maarten van Severen, who had passed away not long ago. He was pure elegance, representing a warm minimalism which deserved all my respect."

No one ever knew more about how to adapt to a space nor on how to attract the attention of acquaintances and outsiders. This is because, from the very beginning, the collection wanted to put the people who would enjoy it at the center of the equation. There is no design which is easier to understand than that of a chair. However, there is nothing more complex than designing "for and towards comfort". For this same reason, in order to adapt to all kinds of moments and contexts, we have recently added new bases: pyramidal, pyramid with wheels, flat, skate or four wooden legs. There is a free choice on this subject.

Maarten & Food

Restaurants — Our lifestyle tells us about experiences and moments, what determines the space around us and how we share it. In the hospitality projects, a simple detail such as a rotating base allows guests not only to increase their sense of comfort, but also to enhance their communication. The warmth lies in the small details.
