The Vecos electronic locker system

The Vecos electronic locker systems are designed entirely in-house, in Eindhoven, the Netherlands. The production is done by one of our strategic partners, also located in Eindhoven. The products are produced according to CE, ISO and other quality standards.
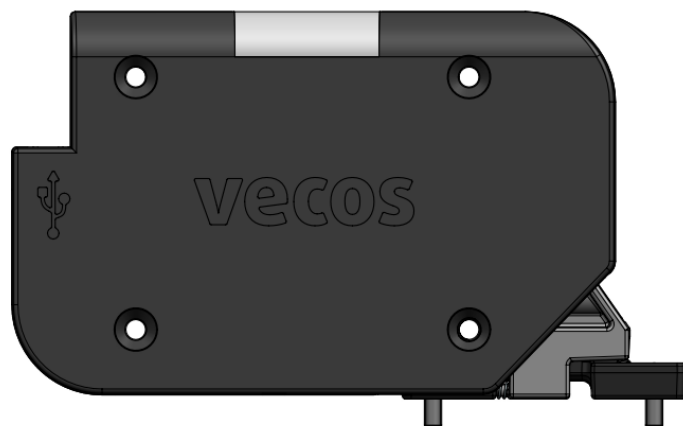

The V3 system is Vecos' standard system, where lockers are always assigned via a central terminal with a card reader.

The V3 lock has the following unique features:
- For handle less doors, the lock is based on the 'push-to-open' principle.
- The lock has lighting to provide better visibility and an exclusive look;
- The lock enables the charging via USB of for example mobile phones;
- Use of the Vecos App or integrated with a 3rd party App like desk/room booking;
- Support of the company badge (or mixed mode with App)

**Impressions of the system and lock**

The V3 lock has the following unique features:
- Dimensions : 134 x 85 x 29mm (h x w x d)
- Safety & EMC : CE, cULus, FCC Part 15B Class A, : ICES-003 Class A, RoHS, REACH
- Mounting Lock : 4x DIN 965 M4 x 40 or : 4x DIN 7982 3.9 x 45
- Mounting Slider : 2x DIN 7985 M5 x 16 or : 2x DIN 7891 3.9 x 16
- Extra details on the VECOS V3 Lock Datasheet Rev 1.2

Dimensions:

The LBC3 has the following unique features:
- Dimensions : 190 x 134 x 62mm (h x w x d)
  - o (+ brackets) : 190 x 157 x 62mm
  - o (+ reader) : 190 x 240 x 62mm
- QR code content : Serial number and MAC address
- Glass type : Gorilla glass 5
- Safety & EMC : CE, cULus, FCC Part 15B Class A, : ICES-003 Class A, RoHS, REACH
- Mounting : Bracket and screws included
- Extra information 'LBC3 Data sheet Rev 1.6'

- Dimensions : 159 x 81 x 30mm (l x w x h)
- Safety & EMC : CE, cULus, FCC Part 15B Class A, : ICES-003 Class A, RoHS, REACH
- Max. locks : 24 pcs VECOS V3 series locks
- Safety & EMC : CE, cULus, FCC Part 15B Class A, : ICES-003 Class A, RoHS, REACH
- Mounting : 2x DIN 7985 M4 x 16 or : 2x DIN 7891 3.9 x 16
- Extra information 'HUB V3-24 Datasheet Rev 1.2'

Overview of the system with terminal, hubs and locks:

Activities furniture companies:
- Mount lock + slider
- Mount lock cables
- Milling work for lock and lock cable
- LBC3 milling in the locker cabinet

Find below some example pictures how to embed the Vecos lock inside the locker furniture:

Vecos is available via sales@vecos.com to answer any specific questions on integrating the technology into your furniture.

We trust to have provided you with a sufficient information.

Best Regards,

Vecos Europe B.V.
