

Simple Seating Collection

Turnstone Simple Seating is a go-to collection of reliable pieces that can flex with changing needs and be called into service at a moment's notice. When attractive reliability is the goal, Simple Seating is simply outstanding.

Simple Lounge

What exactly is the right recline and pitch in a simple lounge chair? We found out through user research and created the Simple Lounge. With a roomier seat, its comfort and design are enhanced with arms, cushions, and slipcovers. Stackable. Lightweight. Expressive.

Simple Stool

Stools invite leaning in, sharing coffee and ideas, landing for a while then moving on. The Simple Stool does everything you want in a stool plus one more thing that most stools can't do: it stacks. Create a cafe environment in minutes. Then store it to repurpose the room.

Simple Chair

The Simple Chair is the easiest chair to add anywhere. Pull up to a teammate's desk. Populate a conference room. Meet on the fly. Use the Simple Chair unadorned or with optional cushions and slipcovers for added comfort and design expression. Stackable four high, Simple Chair is a lightweight, practical solution that accommodates everyone.
