## CREATING STYLISH FLEXIBLE WORKPLACES

The FrameOne system enables the creation of workplaces that enrich the varying levels of mobility and collaboration individuals encounter throughout their day. It provides a Palette of Place through an ecosystem of interrelated settings to support various modes of work, together with a Palette of Posture that encourages people to sit, stand and move while they work throughout the day, while supporting the multiple technologies they use.

## EXCEPTIONAL USE OF SPACE

The light elegant lines of FrameOne's modular steel structure support the shaping of space to meet the changing needs of organizations, teams and individuals. A simple menu of components and elements, easy integration of Steelcase worktools and integrated cable management enables the customizing of workspaces to support individual ways of working, while creating space-efficient working environments suited to Asian workplaces.

## CUSTOMIZING WORKING ENVIRONMENTS

Blending elegance with functionality, FrameOne extends space efficiency into management, meeting and training spaces, with an array of options for creating desks and meeting tables. Offering clear worksurfaces, space efficient structure and legs, modesty and privacy panels, they enable the tailoring of individual and team work environments.

### SINGLE-SIDED BENCH

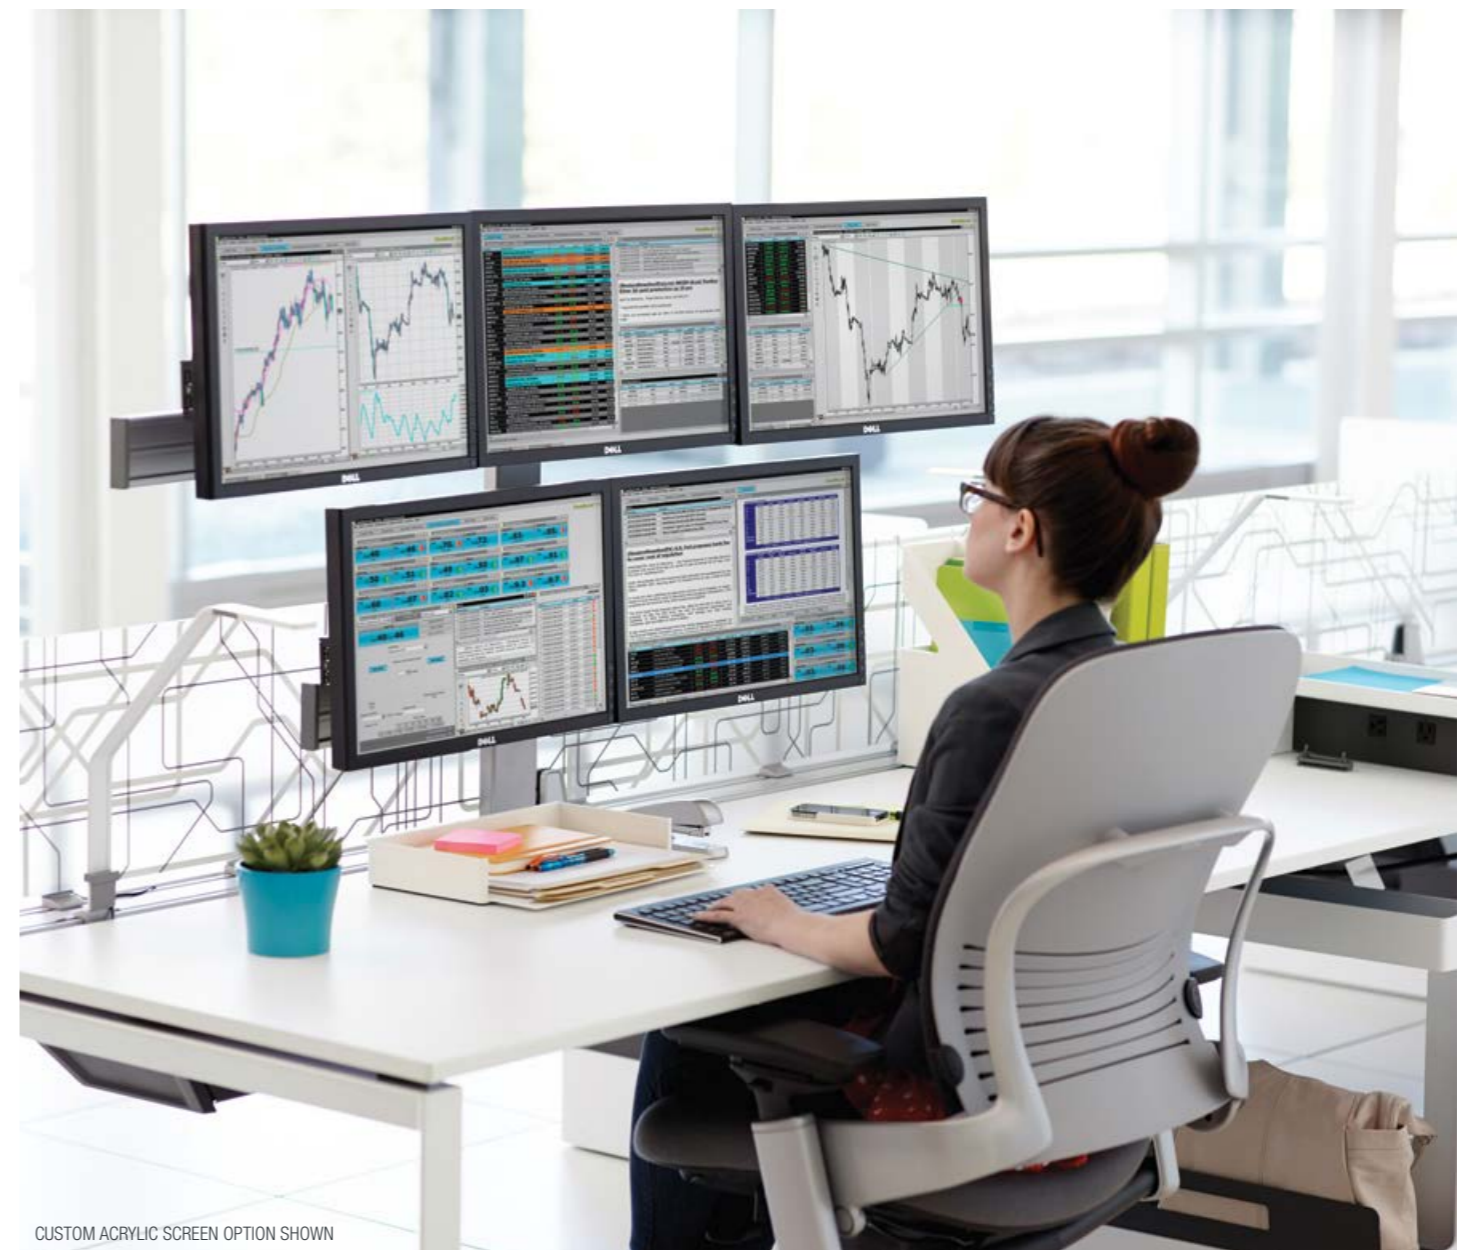

The single-sided bench allows designers to work around building and space constraints. It seamlessly connects to a dual-sided bench providing flexibility throughout the floor plan. It can also be used in aiseways or against walls.

## EXPANDING THE USE OF SPACE

The strong steel structure supports the simple integration of Steelcase worktools, to expand the use of space both above and below the worksurface. The ability to add multiple monitors, open and closed storage, organizational tools and screens enables the creation of flexible and efficient workspaces, that meet the diverse and changing needs of dynamic organizations.

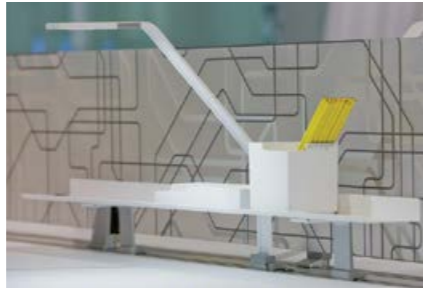

CUSTOM ACRYLIC SCREEN OPTION SHOWN

# PERSONALIZE INDIVIDUAL SPACE

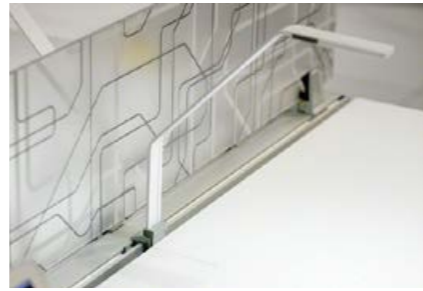

FrameOne supports the needs of individual workers and the work at hand with adjustable privacy components, flexible storage, versatile computer support and an innovative collection of worktools.

**Eyesite Monitor Arms**  
Fixed or adjustable arms for supporting single through to multiple screens above the worksurface, for efficient use of space and sharing of information.

**SOTO shelf, Utility Box and Tool Box**  
An integrated rail allows the convenient placement of small boxes and shelves above the worksurface for handy access to everyday tools and resources.

**SOTO LED Task light**  
The slimline aesthetic is unobtrusive when not in use, yet the 4-watt LED provides bright spot lighting when required with minimal power consumption.

**Divisio**  
The movable sidescreen let you instantly personalize your space and privacy, while enabling collaboration with colleagues. The magnetic surface keeps items visible.

**Functional Screen**  
High enough to provide privacy and a sense of boundary, the integrated pocket is great for keeping frequently used documents close at hand.

**SOTO II Launch Pad**  
Provides a handy area on the desktop to hold mobile devices and other personal items. Two/three power outlets on each side keep devices charged and running.

**SOTO II Mobile Caddy**  
Anticipates the need to stow personal items and workbags. In-line casters make it easy to roll out to drop in bags or backpacks, as well as creating a sense of boundary.

**Mid Storage**  
Raised above the worksurface, it blends privacy while seated with convenient storage for tools and resources and display of information.

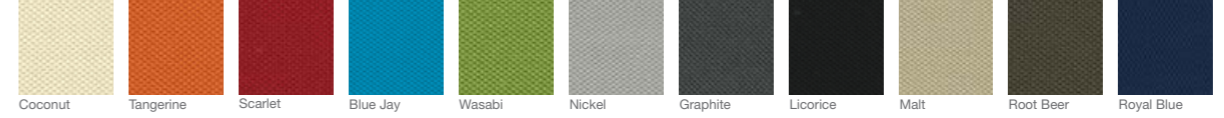

**Cable Tray**  
Integrated into the structure below the worksurface, it keeps cabling out of the way while providing easy access for cable management.

## SURFACE MATERIALS

### Buzz2

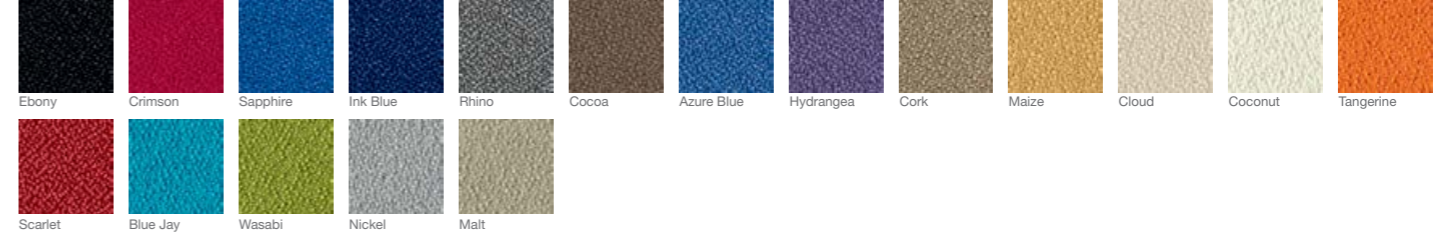

### Cogent Connect

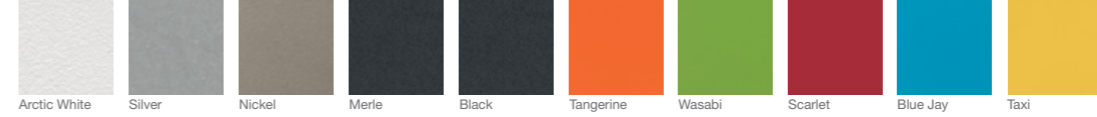

### Medley

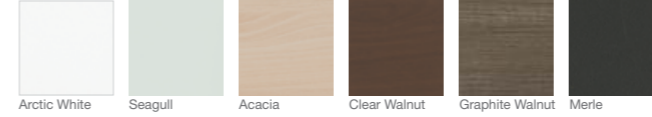

### Omni-R

### Paint (for Leg and Storage divider)

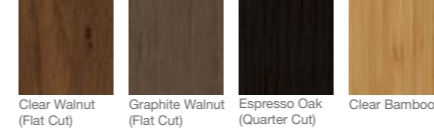

### Laminate

### Veneer (Standard Veneer)

### Veneer (Premium Veneer)

Digital surface material images are provided as a preliminary color reference and should not be used for final color selection.

## SUSTAINABILITY

### PEOPLE.PLANET.PROFIT

We take a life-cycle approach to the design, use and disposal of our products. From materials, production, transportation and use, right through to end of life, each element in the FrameOne range is designed to reduce its impact on the environment.
