

# Steelcase

## Implicit Personal Storage

Implicit pedestals make smart use of space, offering a range of solutions for resident and nomadic workers. Organizational accessories keep the interior tidy and make it easy to find what you need.

## Applications

### Smart, Flexible Storage for Hybrid Workers

Implicit pedestals make the transition between working from home and working from the office smoother. They provide a safe and convenient storage solution for people wishing to leave some of their personal belongings at the office.

### Extra Convenience for Individual Work

Whether located in an open plan or a private office, these pedestals provide quick access to notebooks, files, snacks, and other items essential for day-to-day activities. People can focus on tasks with everything they need close at hand.

### Elevated Comfort for Collaborative Work

The top of a mobile pedestal doubles as an informal seat for people stopping by for a quick chat on the projects they're working on. The optional top cushion makes the entire experience more comfortable, encouraging people to work together.

### Personal Storage for Office Nomads

People can quickly set down their bags without making a sound using the PET-lined bag drop on the days they're coming to the office. For even more comfort, the optional toolbox keeps small work tools organized and easy to move from meeting to meeting.

## Features

The broad product range includes Implicit Lease – a pedestal designed for today's nomadic workers. Featuring a PET-lined bag drop and toolbox, this pedestal helps people quickly settle into space.

Premium fronts showcase a vertical accent-color line that adds a touch of style to any setting. The pedestals are available in melamine, steel and veneer, to support any design preferences.

Implicit supports individual and collaborative work, in an open-plan or private office space. They are compatible with a wide range of Steelcase desks and provide attractive extras, like top cushions or juxtaposed pedestals.

### Availability and Manufacturing

Implicit and Implicit Lease\*\* is manufactured in Madrid (Spain) and Stribro (Czech republic) by Steelcase for the EMEA market (Europe, Middle East and Africa).

Implicit Lease\*\* is available in all EMEA, except for Iberia.

### Sustainability

We create products that are good for people, and good for the world. Our products and operations are designed around a commitment to reduce climate change, reinforced by sustainable practices across our value chain.

Our Sustainable Design framework ensures our products are designed with consideration of life cycle thinking and cradle-to-cradle principles:

- Source materials responsibly
- Minimize global warming and other life cycle impacts
- Ensure material health
- Enable end-of-use strategies
