

**Steelcase®**

**Leap®**  
Office Chairs

Leap is an ergonomic office chair that lets you dial in a precise fit in all the places you need it most. It's highly intuitive and you'll love the way the seat glides back and forth as you recline, keeping you connected to your work.

## Proven Performance

Leap owns a reputation as our most adjustable chair, providing customizable support whatever your body shape or style of work. It's also a proven productivity booster. In fact, in an independent health and productivity study, we saw a 17.8% increase in productivity for one group after a year.

## Absolute Adjustability

Leap was designed to fit each unique body and balance the need for stability and support and freedom of movement.

## Performance Features

### Back Support

Our first chair designed with LiveBack® technology which allows the back to contour and adapt to mimic and support the natural movement of your spine.

### Manual Adjustments

A manual adjustable chair gives you total control over the adjustments to dial-in the level of resistance you feel in the backrest.

### Fully Adjustable Arms

Standard 4-dimensional arm support adjusts to preferred height, width, depth, and pivot.

### Lumbar Support

Includes standard height-adjustable lumbar and a lower back firmness dial that lets you adjust the amount of firmness you feel in your lower back for additional lumbar support.

### Seat Ergonomics

Seat includes flexible edges that offer a bit of a bend, right where you need it - providing a pressure-free sit and supporting different sitting styles.

### Recline Adjustments

Recline range includes full recline with four recline angle stop settings and an upright back lock.

### Adjustable Labels

Adjustments are labeled in English and Braille for ease of use.
