

Steelcase

Universal Storage Storage

The Universal Storage family consists of medium-to high-capacity cupboards made from sustainable materials. The design easily complements other furniture, making it a flexible element to structure and optimize spaces to create focus and collaboration settings.

Applications

Designed for Individuals

Individuals can keep items close at hand, giving them peace of mind to focus on work knowing that their things are secure and within reach.

Designed for Collaboration

Teams can leverage the multiple design options to collaborate, store shared project materials and display information, keeping groups organized and productive.

Designed for Versatility

Universal Lockers can be easily configured to fit any space or need, from small reception areas and hallways to large open offices and workshops.

Designed for Teams

Smart space division helps teams easily transition from one area to another while keeping personal and team resources within easy reach.
