

Steelcase®
LEARNING

Table Collection
Agree by Smith System

Easy to reconfigure for any learning mode, Agree by Smith System tables foster connection and engagement in active learning spaces.

FEATURES

Simple to Rearrange

Whether students are working on their own, in a small group or in lecture mode, smooth-rolling casters or table glides make it easy to reconfigure active learning spaces to support any learning mode.

Intentional Table Shapes

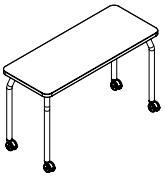

Keystone and chevron table shapes form a soft arc with clear sightlines between students when arranged in lecture mode, while trapezoid tables can be combined and reconfigured for interesting zones and versatile layouts that support the flow of active learning. ADA-compliant, the large personal table (24" x 40") is an accessible option for all learners.

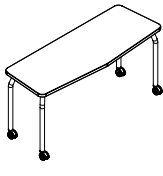

Convenient Whiteboard Docks

Display work or create privacy between tables with optional center storage and side docks designed to support Verb Personal Whiteboards.
