# Orders

## Orders

Please send P.O.s to [orders@amqsolutions.com](mailto:orders@amqsolutions.com).

## Cancellations

Orders may be cancelled within 48 hours of order placement in writing via email to [orders@amqsolutions.com](mailto:orders@amqsolutions.com). Please note that orders are not officially cancelled until a confirmation is sent via email from AMQ. Custom or made-to-order products are not eligible for cancellation.

## Returns and Exchanges

We do not accept returns or exchanges on products; sales are final once acknowledgments are sent. If a product is ordered by mistake or other issue arises, contact us at [orders@amqsolutions.com](mailto:orders@amqsolutions.com).

## Change Orders

Orders may be changed within 48 hours of order placement. The request must be made via email to [orders@amqsolutions.com](mailto:orders@amqsolutions.com). The change order is subject to approval and is not accepted until an AMQ acknowledgment is sent to the dealer. In the event that a change order is accepted, change fees may apply. Lead time starts on the day of approval of changes.

## Pricing/Order Entry Errors

Claims for pricing or order entry errors must be made no later than 48 hours from receipt of an AMQ acknowledgment. After the 48 hour grace period, customers will be responsible for orders as they are acknowledged.

Please send emails to [orders@amqsolutions.com](mailto:orders@amqsolutions.com) along with your order acknowledgment number, line number with error and detail of the error.

## Lead Times

Lead times vary by product - refer to our Lead Time table. Lead time begins the day after receipt of a clean P.O., including receipt of deposit if applicable. When your order is shipped, a tracking notification will be emailed to the contact specified on your purchase order.

## Order Fulfillment

We make every attempt to ship all of our orders complete. In the event of a partial or split shipment, you will be notified and an estimated date will be provided for the backordered items. We cannot guarantee which warehouse the product will ship from.

Customer has 10 calendar days after delivery at the specified location to file a claim with AMQ for missing items or AMQ errors not obvious at the time of delivery. If AMQ determines missing items or error was made by AMQ, AMQ's sole obligation is to replace the missing items or correct error and ship at AMQ's expense. AMQ does not cover labor or trip charges. Customer waives right to file a claim if filed after 10 calendar days of receipt of shipment.

# Warranties

Product warranties vary; refer to the Warranty sheet in Dealer Tools.

AMQ's obligation under this warranty is limited to replacing any product or part that it determines to be defective after inspection by its authorized representative, following receipt of written notice of the defect from the purchaser within the warranty period. This warranty shall apply to the original purchaser only, is non-transferable, and is not applicable outside the United States, Canada, and Mexico.

This warranty is based on normal installation and use of the product in an 8-hour shift. This warranty does not apply to:

- Damage in shipment caused by a carrier
- Defects caused by improper installation
- Products subject to improper use and conditions
- Customer modifications to the product
- Any product that has been modified, altered, tampered with or repaired by any person other than an authorized representative of AMQ
- Normal wear and tear

Labor charges and/or damage incurred in the installation, repair, or replacement of any products are excluded; AMQ will replace the product if the claim is approved.

## Product Design

The right is reserved by AMQ to make changes in design and material, as well as discontinuance of parts and units when such action is deemed to be an improvement in design, function and/or construction.

## Warranty Claims

Please email claims to [cc@amqsolutions.com](mailto:cc@amqsolutions.com).

Lead Time	Product	Order Size

	25 Day	
West Elm Work Brighton		

<sup>1</sup>The default lead time is 12 days when 10 days is not requested.

<sup>2</sup>Larger orders may extend past 25 days depending on inventory availability.

# Shipping

## Will Call

AMQ offers Will Call upon request; please contact [orders@amqsolutions.com](mailto:orders@amqsolutions.com) for details.

## Freight Terms

Freight is included in pricing for all \$1500+ Net Orders, and Seating- or Accessories-only Orders regardless of Net, shipped within the 48 contiguous United States. For orders under \$1500 Net, a \$100 surcharge is added.

All shipments within the 48 contiguous United States, except those designated ports of disembarkation, will be shipped FCA Factory, freight prepaid and allowed regardless of weight. AMQ may select the most appropriate mode of shipment from the manufacturing point of its choice. Special shipping methods and/or handling (including customer requested split shipments) will be subject to an additional charge. Any special freight requirements must be requested prior to order placement and are subject to approval by AMQ. Please contact AMQ Customer Care team for details.

## Freight – Canada/Hawaii/Alaska

For shipments to Canada, AMQ pricing only includes Transportation fees (dock to dock). Any other fees or costs associated with shipment, such as customs clearance and import duty/taxes shall be paid directly by the Customer. For shipments to Hawaii/Alaska, AMQ pricing does not include freight. Customer will be responsible for arranging and paying all shipping costs.

## Commitment Delivery Option

AMQ offers 12 day delivery on 97% of our portfolio, when requested. Delivery times are at the discretion of the carrier within reasonable transit time unless special arrangements have been agreed to in writing between the Customer and AMQ prior to shipment. There is an additional charge to guarantee delivery on a specific day. These charges will be quoted at Customer request.

## Redelivery and Re-consignment of Freight

The Customer will be charged for redelivery or re-consignment of all orders (regardless of shipping terms agreed to) if redelivery or re-consignment was caused by a Customer change after the goods have left AMQ's dock.

## Shipment Damage Claims

All shipments must be carefully inspected by Customer before acceptance. The Customer must record any damage or shortages noted at time of delivery on the Bill of Lading, and provide this information to AMQ immediately along with photos of any damage. AMQ will arrange inspection by the carrier. If Customer believes it has uncovered further damage after delivery they must take photos of the damage and immediately request inspection by the delivering carrier. Damaged freight must be kept at point of delivery in original packaging for inspection by carrier until further notice by AMQ. If carrier is designated by AMQ, then AMQ will seek recourse on behalf of the Customer. Freight Claims must be filed within 10 days of delivery date.

AMQ warrants to the original purchaser that the products it manufactures are free from defects in design, material and workmanship. Subject to the limitations below, AMQ warrants each product in this catalog to be free from material defects in materials and workmanship.

## Title

Title and risk of loss or damage shall pass from AMQ to Customer/Dealer upon delivery to the carrier, including Steelcase trucks.

## Submission of Claims

Please submit all order fulfillment, shipping, and warranty claims to [cc@amqsolutions.com](mailto:cc@amqsolutions.com).

## Order Processing

Please send purchase orders to [orders@amqsolutions.com](mailto:orders@amqsolutions.com).

- Lead times start from the next day after receipt of clean P.O.
- P.O.s with missing information/finishes or incorrect pricing will be placed on order processing hold and the lead time will not start until the revised P.O. is sent to Customer Care ([orders@amqsolutions.com](mailto:orders@amqsolutions.com)).
- Please provide .sif file and AMQ quote number along with P.O., if applicable.
- Orders will be acknowledged within 24-48 hours with an AMQ acknowledgment number.
- Claims for quote errors, pricing, order entry errors and/or incorrect finishes must be made within 48 hours of receipt of acknowledgment. After 48 hours, AMQ will not be responsible for errors.
- P.O.s must include your Joey Coin # in order to obtain Joey points. Register at [amqsolutions.com/joey](http://amqsolutions.com/joey) and within 5 business days you'll receive your Joey Coin #.

**Please be sure to check order acknowledgments to confirm accuracy of products, fabrics and finishes against your purchase order.**

## Payments & Deposits

Terms of payment will be established based on the credit rating and credit information provided by and for specific customers. Orders are invoiced at the time of shipment or will call date. Standard payment terms are net 30 days.

	Orders Under 40,000 Net	Orders Over 40,000 Net
Deposit	No Deposit Required*	50% Deposit Due Upon Order
Balance Due	Net 30	Net 30

\*First order with new dealership requires 50% deposit.

# Worksurfaces

**AMQ worksurfaces are low pressure laminate (LPL).**

Available in linear, 90° and 120° degree shapes in thirteen colors: Acacia, Arctic White, Ash Wenge, Clay Noce, Clay Wenge, Clear Maple, Clear Oak, Clear Walnut, Graphite Walnut, Milk White, Natural Cherry, Seagull, and Virginia Walnut.

---

## Specifications

---

LPL (low pressure laminate)

---

1 inch/25mm thick

---

3mm PVC on four sides

---

Linear, 120, extended corner

---

Our linear worksurfaces come in 48", 54", 60", 66" and 72" widths at 23", 24", 29", or 30" depths. Plus 46", 52", 58", 64" & 70" widths at 23", 24", 29", or 30" depths.

72" width

66" width

60" width

54" width

48" width

Worksurfaces are 1" thick with 3mm PVC on 4 sides.

120° worksurfaces also available for ACTIV PRO 3 height adjustable base.

# Privacy Screens

We offer 3F privacy screens for your open plan environments.

3F Felt Screens offer 5 attachment options with varying functionalities

### 3F Screens

AMQ 3F felt screens are 18mm thick made from 100% Polyester.

Oeko-Tex Standard 100

### Screen Clips and Brackets

AMQ screen clips vary by product line and configuration. All sold in pairs (separately from screens). Activ base clips work with worksurfaces between .7"-1.5" (18mm and 40mm) thickness.

Iline

Kinex double run

Top Mounted Bracket

Top Mounted Bracket Clamp

Undermounted Sleeve Bracket

Fixed Privacy Modesty Bracket

Height Adjustable Bracket

Screen Corner Connector

3F Screens

## Modesty & Insert Panels

---

### **Kinex End Panel**

End Panel for 24" and 30" DR applications.  
Available in Platinum and White.

# Workstation Design Guidelines & Requirements

## Overview

Designed for movement with dynamic seating, adjustable work tools and height-adjustable desks are important for today's office workers.

To determine the best height-adjustable solution, consider these four criteria:

1. Adjustability needed: What is the height range requirement? (seated or sit-to-stand)
2. Worksurface size needed: What does the physical space look like? (worksurface configuration)
3. Equipment/tools used: What type of computer equipment and other work tools are being used on the worksurface? (Load capacity)
4. Use: What is the height adjustable desk being used for (individual or shared, touchdown space or full workstation, sit-to-stand or seated)?

### **WARNING**

Risk of Serious Injury. If not used as intended, moving work-surfaces can pinch or injure people, or damage property. Always follow these Instructions:

1. Keep height-adjustment range free from obstructions above and below the worksurface.
2. Plan for a minimum 1" gap against a panel or wall.
3. Plan for a minimum 1" gap to adjacent furniture.

## Tips

### Obstructions

Moving worksurfaces can collide with other objects. Do not install overhead storage, stationary pedestals or components in the path of height-adjustable desks.

### Weight

The maximum allowable load (varies by height-adjustable desk) should be evenly distributed and must not be exceeded.

### Width

Specify a minimum 1" gap to adjacent furniture. This eliminates any pinch points between a height-adjustable desk and a fixed object.

### Depth

When placing a height-adjustable desk against a panel or wall specify the worksurface depth shorter to provide a minimum 1" gap. This eliminates pinch points and adds clearances for cable access.

### Managing Technology

Design workstations with computer equipment in mind so that the height-adjustment range of the height-adjustable desk is not impeded because of cables. Consider the addition of a cable riser, cable basket, or cableway to help harness these wires and cables.

### Power

Plan easy and unobstructed access to electrical outlets for computer equipment and height-adjustable desks (when applicable).

AMQ Specification Guide

### **WARNING**

Risk of serious injury.

Bases-only warranty limitations and potential for injury: The use of worksurfaces that do not comply with the AMQ defined criteria and limitations could cause personal injury or property damage due to pinch points, instability, or other problems, and voids all AMQ Warranties, expressed or implied.

The use of worksurfaces that do not comply with AMQ criteria voids any AMQ claims of compliance with ANSI/BIFMA, UL, LEED, or other applicable requirements. The use of non-AMQ worksurfaces on AMQ height adjustable bases may not be accepted as compliant to municipal electrical codes or OSHA federal workplace standards, because this use does not create an NRTL (UL, ETL, etc.) listed product. AMQ is not responsible for the ultimate determinations of compliance for height-adjustable bases with non-AMQ worksurface, and assumes no liability for their compliance with standards when height adjustable bases are used without a AMQ worksurface as intended.

### Worksurface Criteria and Limitations

The use of non-AMQ worksurfaces is not recommended. Any use of a non-AMQ worksurface requires additional investigation by the customer regarding the appropriateness for use. It is the sole responsibility of the customer to determine the suitability and safety of the selected worksurface construction and attachment means. The following information is provided as a guideline, but does not address all potential issues. Customers should seek professional guidance as to the appropriateness of their chosen worksurface.

## Tips

- Height-adjustable bases include fasteners intended for use with AMQ worksurfaces. These fasteners may be suitable for worksurfaces meeting the following criteria: Medium-density or higher particleboard or berboard cores, with High- or Low-Pressure Laminates and backers.
- Thickness of 1" or greater.
- Fasteners located a minimum distance of 1" from any edge.

## Electrical — General

---

We use the USA-based company Byrne Electrical for all our power and data.

The Byrne 8-Trac System and Phase 3 are UL recognized as an Office Furnishing Accessory (UL 1286), and are UL Listed as a Manufactured Wiring System (UL 183) in full compliance with electrical specifications found in the National Electrical Code (NEC). It also complies with municipal standards such as New York, Los Angeles and San Francisco.

To learn more about Byrne, visit their website at [www.byrne-electrical.com](http://www.byrne-electrical.com)

# Electrical — 3 Circuit/5 Wire

The Byrne Phase 3 System is similar to 8-trac system except is a double sided 3-Circuit/5-Wire system. It Includes flexible mesh conduit jumpers (UL1286 only). Also offers multiple circuit configurations selected by the receptacles.

---

## Wire Diagram for 3 Keying

# Electrical — 4 Circuit/8 Wire

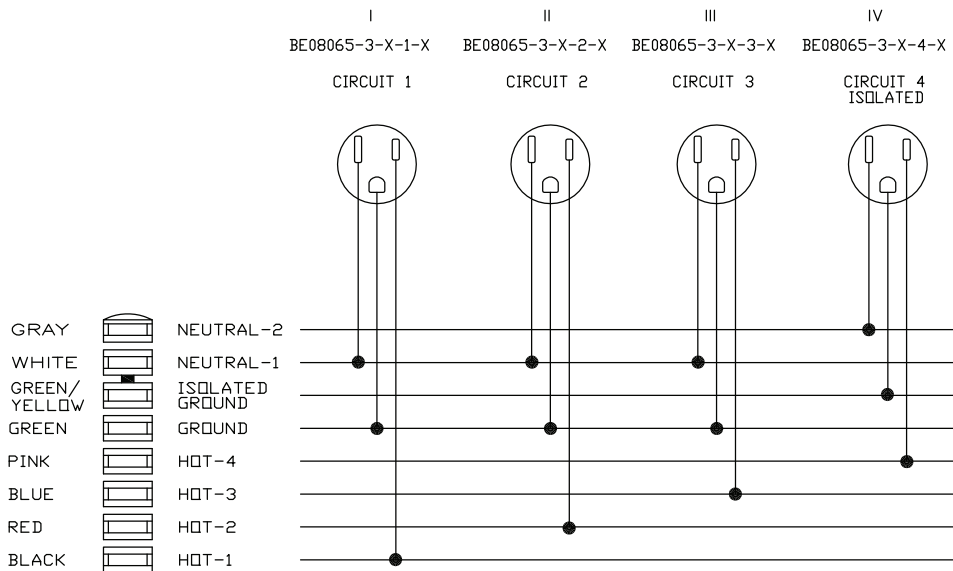

## BYRNE 8-TRAC SYSTEM

The Byrne 8-Trac System is rated for 15 amps allowing the use of 4 circuits with 4 line conductors, 2 neutrals and 2 grounds. Under NEC requirements, up to 13 duplex receptacles maybe used per circuit, with a total of 52 available receptacles if all circuits are used, per single power entry. The line conductors are 12 AWG, and share 12 AWG ground and a 10 AWG neutral. The fourth circuit is isolated and dedicated, and is serviced by its own line conductor, neutral and isolated ground. The Byrne System can be wired in both single and 3-phase configurations, 240/120V, 208/120V respectively. Additionally, a 3 hot, 3 general, 2 ground (3-3-2) wiring system is available.

The System accommodates panel applications of 2" to 3½" thick harnesses available from 12" to 1800" in length.

Assemblies are 100% electrically tested to ensure the highest quality and reliability.

Four-circuit, 3 + 1 Receptacle Option

2+2 special order

## General — Unique Electrical Codes

The primary electrical code used in the United States is the National Electrical Code (NEC) (NFPA70). While most states and cities use the NEC as is, some have created their own electrical code using the NEC as the basis for the requirements. There are 3 cities that have unique requirements that directly affect office furnishings installations:

New York, Chicago, and San Francisco. These unique requirements are detailed below.

---

### Chicago

Chicago has their own electrical code based on the NEC.

Chicago does not allow the use of any modular systems. All electrical must be hardwired by a licensed electrician.

The specific wording of the 2009 Chicago Electrical Code is as follows:

**18-27-605.2. General.** Wiring in and on office partitions shall conform to all applicable chapter provisions. Relocatable wired partitions are not considered portable and, as such, plug and jack connections are not acceptable. All wiring is to be contained in listed and labeled electrical raceways and outlet boxes.

(a) Use. Wired relocatable office partitions shall be installed and used only as provided for by this Article. The biggest ambiguity is what product types will require TR receptacle for code compliance applications. For example, the NEC TR code dwelling requirements specify "appliances" as exempt from the scope of TR receptacles. Relocatable Power Taps are often grouped into this category.

Hardwire accessories can be used in Chicago if they have a metallic enclosure. This includes Mho, Assemble, Axil, Glenbeigh, and Wonderbar product lines. These hardwire units can be provided as a Chicago version which includes 15" of conduit and a 4X4 junction box.

---

## New York City

- Allows the use of Office Furnishings Systems (as permitted by Article 605 of the NEC) but requires that licensed electricians install the electrical components into the furniture.
- Does not allow the use of any non-metallic liquid tight conduit.
- Metallic liquid tight conduit can only be 18" long.
- Flexible metal conduit used on infeeds can only be 6' long.
- Does not allow Manufactured Wiring Systems in furniture.

As of 2009, New York City allows the use of Relocatable Power Taps in office environments.

The New York Electric Code exception of Article 604 for Manufactured Wiring Systems includes Article 604(3) Such wiring may only be used for general lighting circuits above the hung ceiling line.

Until now, this statement was interpreted as lighting circuits must be above the ceiling, while other Manufactured Wiring Systems can be used below the ceiling line.

The new official interpretation requested by BIFMA indicates Manufactured Wiring Systems can only be used for lighting and must be above the ceiling. This applies to Byrne 8-Trac, Byrne 4-Trac and Byrne Phase 3 product lines. This interpretation has not been published on the official NYC Codes site even though more recent interpretations have been. BIFMA continues to work on a resolution to this issue.

---

## San Francisco

San Francisco uses the California Electrical Code which in turn uses the NEC. San Francisco has additional / revised requirements that are called out as an addendum to the code. San Francisco does not allow the use of non-metallic liquid tight conduit and only metallic liquid tight conduit is permitted.

### ARTICLE 356 – LIQUIDTIGHT FLEXIBLE NONMETALLIC CONDUIT: TYPE LFNC

- 356.10      Revise the first sentence of this section as follows:  
 356.10      Uses Permitted.

LFNC shall be permitted to be used in exposed or concealed locations for systems not exceeding 50 volts for the following purposes:

356.12 Uses Not Permitted

356.12 Revise item 4 of this section as follows:

- (4) Where the operating voltage of the contained conductors is in excess of 50 volts, nominal, except as permitted in 600.32(A).

## ACTIV PRO 2.0

Understanding	54
Specifying	64

# ACTIV PRO 2.0 Height-Adjustable Desks and Bases

**ACTIV PRO 2.0** supports wellbeing at work by allowing users to move between seated and standing postures throughout the workday.  
► Specifying, page 64

**Telescoping frame** adjusts to fit any worksurface width from 44"W–72"W.

**The 2-stage desk** adjusts from 27"H–46.7"H.

**Desk** has a wood core with a Low-Pressure Laminate worksurface and is 1" thick.

**Internal motors with electronic synchronization drive.**

**Leveling glides** adjust ½" to install desk on uneven floors.

**ACTIV PRO 2.0 desks** are available in 90 degree and 120 degree 3-leg configurations.

**Bases** support a maximum distributed weight capacity of 225 pounds (2-stage) and 250 pounds (3-stage).  
*Tip: When calculating lifting capacity, subtract weight of the worksurface.*

**Push button with four programmable settings** adjusts from 1<sup>3</sup>/<sub>10</sub>" inches per second.

**Edge** is available in 3 mm edge profile.

**The 3-stage desk** adjusts from 22.6"H–48.7"H.

**ACTIV PRO 2.0** offers both T- and C-leg configuration for the rectangle desk.

**The 3-leg desks** have a height range of 22.6"–48.7".

**The 3-leg corner desks** are available in T-leg configurations.

## Product Details

### Low-Pressure Laminate

**Front (user's) edge profile** is available in 3 mm edge profile.

**PVC-free, 3 mm edge profiles with matching 1 mm side and back edges** are also PVC-free. ▶ See *Surface Materials* in this book for specific PVC-free availability, page 541.

**Edge profile finishes** always match laminate finishes.

**Square corners** are standard and have 90° corners on all four sides.

**Overhang** is available. The maximum overhang available as a standard option is 15"W.

**T-leg configuration** is available on ACTIV PRO 2.0 in 23"/24" and 29"/30" depth worksurface options. Corner desks are available in a T-leg configuration.

**3-leg configuration** is available on ACTIV PRO 2.0 in 23"/24" and 29"/30" depth worksurface options.

**ACTIV PRO 2.0** 3-stage desk adjusts from 22<sup>3</sup>/<sub>5</sub>"H–48<sup>7</sup>/<sub>10</sub>"H, while the 2-stage desk adjusts from 27"H–46<sup>7</sup>/<sub>10</sub>"H in any increment.

**4 pre-set programmable controller** allows users to set the seated and standing height positions or pre-set heights for multiple users. When activated, the digital display will show the height of desk.

**Obstruction sensing technology** is standard with all ACTIV PRO 2.0 desks. The worksurface will backtrack when it makes contact with an object.

**Casters** are available as an option on ACTIV PRO 2.0. The front two casters lock while the back two casters do not.

**Rectangle and 3-leg corner desk sizes** are listed in actual dimensions to allow for 1" gap to adjacent furniture eliminating any pinch points.

## Wiring and Cabling

**Electric motor with whisper quiet operation** adjusts at 1<sup>3</sup>/<sub>10</sub>" per second. Motor is 24V DC and includes a 9' power cord. Motor for 2-leg and 3-leg desks have a 0.2W standby power.

**ACTIV PRO 2.0 desks and bases** are listed by ETL.

▶ See page 58

**Power and data strips** are field-installed on worksurface. Specify appropriate attachment bracket depending on application.

▶ See page 167 for *Work Tools*.

**Cable management** includes a simple wire tray that screws to the worksurface to help manage desk cables.

**The corner desks** come standard with two simple wire trays to manage cables.

## Surface Materials

### Low-Pressure Laminate Desk

24L0	Graphite Walnut
25L5	Virginia Walnut
25L8	Clear Walnut
26L1	Natural Cherry
2L09	Clear Maple
2L30	Arctic White
2L83	Seagull
2L84	Milk White
2LAW	Ash Wenge
2LCN	Clay Noce
2LCW	Clay Wenge
2LAK	Clear Oak
2LAT	Acacia

### 3 mm edge profile

• Plastic

### Height-adjustable base

F1	Platinum
F2	White
F3	Black
F4	Merle

### Application Topics

**Moving desks** can collide with other components. Do not install overhead storage, desk-height power, or desk accessories in the path of height-adjustable desks.

**Universal boundary screens** are not permitted on height-adjustable desks, as they do not pass minimum safety requirements which could result in the desk tipping over.

21"H pedestal

**On extended height desks**, any storage higher than 18<sup>3</sup>/<sub>4</sub>" will impede height range of desk. On basic height desks, any storage higher than 24" will impede the height range of the desk.

**All assemblies** meet or exceed ANSI/BIFMA standards.

**Keyboard assemblies** are not allowed on 23"D or smaller than 46"W height-adjustable desks. They do not meet minimum safety requirements.

**Steelcase keyboard assemblies** can be installed on 29"/30"D ACTIV PRO 2.0. Specify with an 11" track.

### WARNING

Read base only warranty limitations.

### Installation

**Height-adjustable base** requires attachment to the worksurface.

**Base** supports a maximum of distributed weight capacity of 225 pounds (2-stage) and 250 pounds (3-stage).

## CLUVO

Understanding	82
Specifying	88

# CLUVO Height-Adjustable Desks and Bases

**CLUVO** supports wellbeing at work by allowing users to move between seated and standing postures throughout the workday.

► Specifying, page 88

## Product Details

### Low-Pressure Laminate

**Front (user's) edge profile** is available in 3 mm edge profile.

**PVC-free, 3 mm edge profiles with matching 1 mm side and back edges** are also PVC-free. ▶ See *Surface Materials* in this book for specific PVC-free availability, page 541.

**Edge profile finishes** always match laminate finishes.

**Radius corners** are standard with a 2" radius on all four sides.

**Overhang** is available. The maximum overhang available as a standard option is 15"W.

**T-leg configuration** is available on CLUVO in 29"/30" depth worksurface options.

**C-leg configuration** is available on CLUVO in 24" and 29"/30" depths worksurface options.

**CLUVO 3-stage desk** adjusts from 22<sup>3</sup>/<sub>5</sub>"H–48<sup>7</sup>/<sub>10</sub>"H, while the 2-stage desk adjusts from 27"H–46<sup>7</sup>/<sub>10</sub>"H in any increment.

**Deluxe switch** includes the ability to personalize the LED display, allows users to set seated and standing heights, and set reminders to change postures.

**Up/down controller** is available as an option and easily adjusts height of desk, at a rate of 2" per second, by simply pushing the up and down arrows.

**Obstruction sensing technology** is standard with all CLUVO desks. The worksurface will backtrack when it makes contact with an object.

**Casters** are available as an option on CLUVO. The front two casters lock while the back two casters do not.

**Rectangle desk sizes** are listed in actual dimensions to allow for 1" gap to adjacent furniture eliminating any pinch points.

## Wiring and Cabling

**Electric motor with whisper quiet operation** adjusts at 2" per second. Motor is 24V DC and includes a 9' power cord. Motor for 2-leg desk has a 0.2W standby power.

**CLUVO desks and bases** are listed by ETL. ▶ See page 86

**Power and data strips** are field-installed on worksurface. Specify appropriate attachment bracket depending on application. ▶ See page 167 for *Work Tools*.

**Cable management** includes a simple organizer to manage desk cables.

**Cable baskets**, available as an option or ordered separately, support cable management below the worksurface.

**Leg sleeves**, available as an option, help route the power cords down to the floor and provide additional finish options.

**Controller** can be mounted on either the left- or right-hand side of the top and is field installed.

## Surface Materials

### Low-Pressure Laminate Desk

24L0	Graphite Walnut
25L5	Virginia Walnut
25L8	Clear Walnut
26L1	Natural Cherry
2L09	Clear Maple
2L30	Arctic White
2L83	Seagull
2L84	Milk White
2LAW	Ash Wenge
2LCN	Clay Noce
2LCW	Clay Wenge
2LAK	Clear Oak
2LAT	Acacia

**3 mm edge profile**  
• Plastic

**Height-adjustable base**  
F1 Platinum  
F2 White

**Feet and leg sleeves**  
F1 Platinum  
F2 White  
F4 Merle  
F9 Burnished Bronze  
F10 Brass

## Application Topics

**Moving desks** can collide with other components. Do not install overhead storage, desk-height power, or desk accessories in the path of height-adjustable desks.

**Universal boundary screens** are not permitted on height-adjustable desks, as they do not pass minimum safety requirements which could result in the desk tipping over.

**On extended height desks**, any storage higher than 18<sup>3</sup>/<sub>10</sub>" will impede height range of desk. On basic height desks, any storage higher than 24" will impede the height range of the desk.

**All assemblies** meet or exceed ANSI/BIFMA standards.

**Keyboard assemblies** are not allowed on 23"D or smaller than 46"W height-adjustable desks. They do not meet minimum safety requirements.

**Steelcase keyboard assemblies** can be installed on 29"/30"D. Specify with an 11" track.

**⚠ WARNING**

Read base only warranty limitations.

**Installation**

**Height-adjustable base** requires attachment to the worksurface.

**Base** supports a maximum of distributed weight capacity of 250 pounds (2-stage) and 300 pounds (3-stage).

# CLUVO 2-Stage Specifications

Handset	Up/down switch with lock or deluxe switch with LED
Safety	Obstruction detection technology

*Tip: Compatible with any bracket other than height adjustable bracket.*

*Tip: Full desk L screens have a 23" side depth.*

# 3F

## Screens

*Tip: Half desk L screens are non-handed. Two half-desk L screens are required to wrap a full worksurface.*

*Tip: Half desk L screens have a 30" side depth. For worksurfaces <30" deep, half desk L screens can overhang the front of the worksurface to provide additional privacy.*

*Tip: Top mount is compatible with top mounted brackets.*

*Tip: Half desk L screens are designed to work with 48", 60", and 72" wide worksurfaces. Mounting a pair of screens on a different size worksurface will create a gap between screens.*

*Tip: Outer wrapped is compatible with sleeve brackets and fixed privacy modesty brackets.*

### Standard Includes

- Desk screen: PET felt

# Monitor Arms Specifications

Monitor Support	Up to 30"
Monitor Weight	4.5 – 20 lbs
Monitor Tilt Range	-85° – 15°
Height Adjustment Range	12"
Arm Extension	20"
Arm Retraction	6"
VESA hole sizes	75×75mm / 100×100mm

**Intro display supports** are available in single and dual assembly with universal slider bar tilt heads.

**Intro monitor arm** supports one or two monitors. Quick release tilt head standard.

**Cable management** is included.  
*Tip: Monitor arms utilize the VESA hole pattern to connect monitor to arm. Apple monitors do not connect without optional adapter plate. Plate must be acquired through Apple.*

## Product Details

**Intro monitor arms** are standard with 100 VESA plate and tilt head.

**Intro monitor arms** allow for monitor to rotate portrait to landscape orientation.

**Monitor arm assemblies** include mounting bracket options of C-clamp and through-mount.

**Intro single and dual arm brackets** can be C-clamped or through mounted.

**Brackets** are available in desk C-clamp and through-mount.

**All monitor arms** utilize the VESA hole pattern to connect monitor to arm. Apple monitors do not connect without optional adapter plate. Plate must be acquired through Apple.

# LED Intro Task Lights

**LED intro task lights** provides ease of user adjustments to direct light where needed, plus a three-step dimming feature. LED light source for energy efficiency.

**Capacitive touch switch** is located on the back of the light source with dimming control. The first touch is 10% illumination, second touch is 50%, third touch is 100%, and the fourth touch turns off.

**Light source knuckle and base knuckle** provide articulation points for ease of adjustments to where the light is needed.

**Freestanding base** is ideal for placing on desk or table tops. Painted to match the entire light fixture and weighted to prevent tipping.

## Product Details

**LED intro single-arm lights** are for use with worksurfaces 58"W or smaller.

**LED intro double-arm lights** are for use with worksurfaces 60"W or larger.

**LED light performance** with 3000K color temperature and a 90 color rendering index rating.

**Adjustability** at the light source and base directs light where needed.

### Examples

- Light head swivels 350° (side to side)

- Light head pivots up and down 180° (up/down)

**Capacitive touch on/off switch and dimming feature** comes standard with three levels: 10%, 50%, and 100%.

**Color temperature of LED** is 3000K.

**Color rendering index (CRI)** is 90.

**Connections**

 Freestanding base

**Wiring & Cabling**

**Light** comes standard with single touch on /10%–50%–100% / off.

**Power supply** uses a modular cord with standard two prong plug, cord length 75".

**Surface Materials**

**Paint**

- 4135 Black Matte
- 4142 Platinum Gloss
- 4143 White Matte

**Application Topics**

**Power cord** length is 75". Consider distance from light to power receptacle, and if surface or under the work-surface power receptacle may be needed.

## Powerstrip Intro

► Specifying, page 190

## Product Details

**Powerstrip intro** offers two power, one USB-A and one USB-C intelligent 20W with a C-clamp mount for the desktop.

### Desktop power configuration options and specifications include:

- Two power, one USB-A and one USB-C 20W
- Power outlet is 15A, 120V, 60Hz
- Tamper resistant power outlets

### Meets spill test criteria.

### Two power with 20 watt intelligent USB A+C (3 port):

- If only USB-C in use: delivers what the device needs up to 20 watts
- If only USB-A in use, up to 10 watts
- If both USB A+C in use, USB-A delivers up to 10 watts and 10 watts to USB-C. If USB-A device needs less than 10W, the remainder up to 20 watts goes to the USB-C device
- USB-A watt/amp output (2 port) is 10W/2A per port with dedicated charging ports

**Under worksurface optional utility power-blocks** do not ship with independent mounting hardware. They are designed to mount into the universal cable management kit without additional hardware.

**Cable management kit** comes standard with each powerstrip. Mounts under the worksurface to manage cords.

## Optional Under Worksurface Utility Power

**The bottom of each utility powerstrip block** has slots. The slots allow the block to slide onto raised bars in the universal cable management trays. These help keep the powerstrip in place when the tray is opened or closed.

**Universal cable management tray**—small tray holds four outlets and large tray holds seven outlets under worksurface utility power.

## Overcurrent protection via a circuit breaker

prevents one powerstrip intro assembly from drawing more than 15 amps of power.

**Overcurrent protection** is included as standard with powerstrip intro configurations with more than four outlets and is an option on configurations with less than four outlets. Check with your local authorities having jurisdiction to see if overcurrent protection is required for assemblies with less than four outlets.

**Powerstrip intro** includes a 6-foot standard smooth cord with a diameter of 3/8".

**Powerstrip intro** includes a standard straight 3-prong plug. An overcurrent protection (OCP) 90-degree plug is also an option. Check with your local authorities having jurisdiction to see if overcurrent protection is required.

**Overcurrent protection (OCP)** includes a circuit breaker rated for 15 amps.

**C-clamp** is designed to accommodate worksurfaces up to 1 1/2" thick.

## USB A+C 20W

**Powerstrip intro USB ports** are recommended for charging: cell phones, tablets, headphones, wearable fitness trackers, or other small electronic devices. Not recommended for devices needing higher output, more than 20-watts, like compact laptops. See Powerstrip Plus for higher output USB options.

**Universal Cable Management Kit**

► Specifying, page 191

**Product Details**

**Universal cable management kit** provides easy management and access to cords, cables, and power blocks under a workstation.

**Optional smart straps** allow for easy management of cables and cords in the cable management tray. Straps are 5<sup>3</sup>/<sub>4</sub>" long.

**Cable management tray** is designed to fit behind the stretcher bar and understructure of most height-adjustable tables.

**Cable management tray** provides tool-free and hardware-free mounting of under worksurface utility power.

**Cable management tray** allows for a 4<sup>5</sup>/<sub>8</sub>" gap around all four sides between the tray and the worksurface when mounted to allow for cable egress.

**The small 15<sup>1</sup>/<sub>2</sub>" cable management tray** is designed to hold one, 4 outlet, utility powerstrip. The tray does not have the capacity to hold more than one utility powerstrip.

**The large 30" cable management tray** holds two utility powerstrips in the raised bars section. There is capacity to add three utility powerstrips, two in the raised bar area and one more in the tray, strapped down.

**Surface Materials**

**Cable tray**  
• 6527 Merle

**Actual Dimensions**

**Depth** 6<sup>5</sup>/<sub>16</sub>"  
(7<sup>4</sup>/<sub>8</sub>" with bracket)

**Width** 15<sup>1</sup>/<sub>2</sub>", 30"

**Height** 2<sup>5</sup>/<sub>8</sub>"  
(3<sup>1</sup>/<sub>2</sub>" when installed)

SOTO tool box, utility box, and personal box are not offered individually. Available as bundles only, see page 192.

## SOTO Tool Box

► Specifying, page 192

### Product Details

**SOTO tool box** accommodates pens, pencils, Post-it® notes, and other small office tools.

**SOTO tool box** is standard with a translucent removable dividing insert to keep items separate.

**SOTO tool box** will fit inside c:scape furniture drawers and on shelves.

### Surface Materials

**SOTO tool box**  
• 6009 Arctic White

### Actual Dimensions

**Depth** 3½"

**Width** 3¼"

**Height** 3½"

**Weight** 0.3 lb

## SOTO Utility Box

► Specifying, page 192

### Product Details

**SOTO utility box** is for use on 3" shelf, inside personal box, or on worksurface.

**SOTO utility box** will fit inside c:scape furniture drawers and on shelves.

### Surface Materials

**SOTO utility box**  
• 6009 Arctic White

### Actual Dimensions

**Depth** 3⅞"

**Width** 9"

**Height** 1¼"

**Weight** 0.3 lb

## SOTO Personal Box

► Specifying, page 192

### Product Details

**SOTO personal box** provides user controlled area for small business or personal items.

**SOTO personal boxes** may be used freestanding or on 10" shelf.

**SOTO personal boxes** may be used individually or stacked horizontal. Boxes interlock when stacked horizontal.

**SOTO storage box set of three** fits neatly inside personal box.

**SOTO personal box** will fit inside c:scape furniture drawers and on shelves.

### Surface Materials

**SOTO personal box**  
• 6009 Arctic White

**Depth** 9"

**Width** 9"

**Height** 2"

**Weight** 0.3 lb

# Slatwall

**Slatwall** allows for vertical stacking anywhere on the tile.

► Specifying, page 193

**Slatwall tiles** are standard in 12" or 18" heights and seven different widths.

**Mounting brackets** are available to correspond with selected furniture system and are ordered separately.

**Slatwall** can be panel-mounted or wall-mounted. 12" high Slatwall can be freestanding.

## Actual Dimensions

	Freestanding slatwall stanchions	Slatwall tiles	Slatwall brackets
Depth	3"	1/2"	N.A.
Width	3 1/2"	24", 30", 36", 42", 45", 48", or 60"	2"
Height	16"	12" or 18"	12 1/3" or 18"

**Product Details**

**Slatwall tiles** are available for straight mounting applications only.

**Slatwall tiles** support a maximum of 60 lb.

**Freestanding Slatwall stanchions** are for use with 12"H Slatwall tiles only. Stanchions and Slatwall tiles must be ordered separately.

**Freestanding Slatwall stanchions** clamp to work surfaces  $\frac{3}{4}$ " to 2" thick and uses a 2" footprint on the work surface.

**Worksurface** must be a minimum depth of 18" and able to support a maximum weight of 60 lb when using freestanding Slatwall stanchions.

**In freestanding application**, top of Slatwall is 15 $\frac{1}{2}$ " above mounting surface and is a fixed height. Rubber feet under stanchions ensure a tight fit without marring work surface.

**Slatwall** can overhang freestanding stanchions by 12" for tiles 48"W or less and 15" for 60"W tiles.

**When using freestanding Slatwall stanchions**, a 2" clearance is required below work surface to accommodate C-clamp.

**Freestanding Slatwall stanchions** cannot work in a corner application.

**Freestanding Slatwall stanchions** are not for use with glass, bullnose, knife edge, or other non-standard work surface edges.

**Panel mount Slatwall brackets** cannot be used with transaction top work surfaces.

**Panel or wall-mount applications** require a minimum of 13" vertical space between work surface and overhead bins or shelves.

**Wall mount brackets** must be installed in a wall stud.

**Surface Materials**

**Slatwall tiles, stanchions, and brackets**  
• 4799 Platinum

# Freestanding Worktools

## Trays

► Specifying, page 196

### Product Details

**Trays** are available to accommodate letter, legal, and A4 filing.

**Trays** may be used with Slatwall or freestanding applications.

**Trays** are 2½"H and stackable.

**Tray** holds a maximum weight of 7 lb per tray.

**Trays** stack four high on 12"H Slatwall and six high on 18" Slatwall.

### Surface Materials

## Binder Holder

*Tip: Binder holder requires 9½" of clearance under overhead bins and shelves.*

► Specifying, page 197

### Product Details

**Binder holder** may be used with Slatwall, or freestanding applications.

**Binder holder** mounts in tall orientation for most materials or short orientation for large binders.

**Binder holder** holds a maximum weight of 10 lb and holds up to 4" of materials.

### Surface Materials

#### Binder holder

- 6009 Arctic White
- 6544 Frost

### Actual Dimensions

**Depth** 9½"

**Width** 4¾"

**Height** 11¾"

**Weight** 1.2 lb

## PaperFlo Manager

*Tip: PaperFlo Manager requires 11" of clearance under overhead bins and shelves.*

► Specifying, page 197

### Product Details

**PaperFlo Manager** may be used with Slatwall or freestanding applications.

**PaperFlo Manager** is standard with three sloped slots with non-handed wire dividers and sturdy base.

**Blank identification tags** are included.

**PaperFlo Manager** holds a maximum weight of 15 lb.

### Surface Materials

#### PaperFlo Manager

- 6009 Arctic White
- 6544 Frost

### Actual Dimensions

**Depth** 12"

**Width** 9¾"

**Height** 9¾"

**Weight** 2 lb

### Universal Shelves

► Specifying, page 197

#### Product Details

**Universal shelves** are sloped for storing 2<sup>3</sup>/<sub>4</sub>" of materials.

**Universal shelves** may be positioned vertically for letter-size material or horizontally for legal-size material.

**Universal shelves** are available in either a single pack or three pack.

**Universal shelf** holds a maximum weight of 7 lb per shelf.

#### Surface Materials

**Universal shelves**

- 6009 Arctic White
- 6544 Frost

**Weight** 1.5 lb

**Personal Shelf**

► Specifying, page 199

**Product Details**

**Personal shelf** is standard with raised front edge to prevent items from falling.

**Surface Materials**

**Personal shelf**

- 7018 Pewter

**Actual Dimensions**

**Depth** 71/8"  
**Height** 131/2"  
**Weight** 3 lb

**Telephone Caddy**

*Tip: Telephone caddy is not compatible with Cisco phones.*

► Specifying, page 199

**Product Details**

**Telephone caddy** mounts off desktop at an optimal angle to view numbers and dialing.

**Telephone caddy** is standard with vertical channel for managing telephone cable.

**43/4" clearance** required to mount on Slatwall.

**Surface Materials**

**Telephone caddy**

- 7018 Pewter

**Actual Dimensions**

**Depth** 2"  
**Width** 8"  
**Height** 11"  
**Weight** 6 lb

### Tackstrip

► Specifying, page 200

#### Product Details

**Tackstrip** is a slim tack-able surface for posting reminders or photos.

**Tackstrip surface** is self-filling, reducing the sight of holes from frequent use.

#### Surface Materials

**Tackstrip**  
• 6000 Black

#### Actual Dimensions

**Depth** 5/16"

**Width** 15"

**Height** 3 1/8"

**Weight** 0.5 lb

### Wastebasket

► Specifying, page 200

#### Product Details

**Wastebasket design** allows wastebasket to hug wall and provide greater foot room underneath worksurface.

**Wastebasket** is made of recycled materials.

**Capacity of wastebasket** is four gallons.

**Recycling labels** are available at no charge and must be ordered separately.

#### Surface Materials

**Wastebasket**  
• 6000 Black

#### Actual Dimensions

**Depth** 10"

**Width** 10"

**Height** 15"

**Weight** 5 lb

### Coat Hook

*Tip: Coat hook is not recommended for use at end of panel run configurations.*

► Specifying, page 200

#### Product Details

**Coat hook** is one piece, solid steel and for use with Tektis.

#### Surface Materials

**Coat hook**  
• 7018 Pewter

# LED Linear Shelf Lights

**A properly diffused light source under the linear head** provides a softly blended light pattern that reduces eye strain.  
 ▶ Specifying, page 201

**Optional occupancy sensor** turns off after 30 minutes of no activity and will turn back on upon return.

**Magnetic mounts and wood mount bracket hardware**, both come standard with both LED light and optional occupancy sensor.

**Single touch on/off pad plus touch and hold dimming** for easy individual user control.

**Continuous dimming** from 100% to 15% with last state memory.

**Light widths** available in 17", 31", and 44".

**Cord** exits from either end of the light. When needed, allow 1 3/4" cord bend clearance. With optional occupancy sensor, allow additional 4 3/4" clearance from the light fixture.

## Actual Dimensions

	Light	Occupancy Sensor
Depth	2"	2"
Width	17", 31", or 44"	2 9/10"
Height	1/2"	7/10"

**Product Details**

**LED linear stand alone and daisy chain starter lights** include the lamp, power supply, and both magnetic mounts, and wood bracket hardware with adhesive cord managers.

**LED linear daisy chain lights** include the lamp, daisy chain cords, and both magnetic mounts, and wood mount bracket hardware with adhesive cord managers.

**Optional occupancy sensor** is a separate component that connects to the light fixture and activates in 30 minutes when no movement is detected to conserve energy. It will also turn back on upon return.

**Average rated lamp life of LED linear shelf lights** is 50,000 hours.

**Color temperature of LEDs** is 3500K.

**Color rendering index of LEDs** is 92.

**Automatic turn off after 10 hours** (+/- 15 mins.); standard with both models.

**Connections**

**Lights** mount recessed or flush depending on design of overhead storage bin or shelf. Installation is done in the field.

**Magnet mounts** allow shelf lights to be installed without tools under most metal overhead storage bins or shelves.

**Wood mount brackets** allow shelf lights to be mounted to wood shelves.

**Specify** LED linear shelf light for use under 24" wide bins.

Light width	Number of LEDs in Standard Output	System Wattage Standard Output
17"	24	9.1
31"	48	17.6
44"	72	25.9

**Wiring & Cabling**

**Light** is standard with single touch on/off and touch control dimming.

**User adjustable touch and hold dimming pad** includes continuous dimming range of 100% to 15%.

**Power supply for 17" linear stand alone only** uses a straight plug with a 9' 18 watt 24 volt wall transformer.

**LED Linear Shelf Light Power Supply Dimensions**

*Tip: Cord length is 9'.*

**Power supply for 31", 44", or 17" starter light;** 65 watt compact in-line brick straight plug. The cord is 11', 6' from power supply to power outlet and 5' from power supply to fixture.

**LED Linear Shelf Light Power Supply Dimensions**

*Tip: Applies to 31", 44", and daisy chained.*

*Tip: Daisy chain starter light comes with a 65 watt power supply to support up to a limited number of lights – refer to chart for daisy chaining fixture. Daisy chain secondary lights do not come with a power supply, but instead come with two daisy chain jumper cords, one 8" and one 30" set.*

▶ See page 186.

## SOTO Box Bundle

<b>AMQPCDB3</b>	\$147
-----------------	-------

**Standard Includes**

- LED task lamp
- Power cord

**Options**

Color	Walnut	No cost
-------	--------	---------

**Specification Information**

Style Number	Price
--------------	-------

**Linear Wood LED Task Lamp**

<b>AMQWEM61</b>	\$374
-----------------	-------

**Standard Includes**

- Pair of Slatwall stanchions: 4799 Platinum
- Non-marring rubber feet

**Specification Information**

Dimensions	Weight	Style Number	Price
Depth	Width	Height	

**Freestanding Slatwall Stanchions**

3"	3 1/2"	16"	3.5 lb	<b>SWALLFS</b>	\$248
----	--------	-----	--------	----------------	-------

*Tip: Position top of Slatwall a fixed height of 15 1/2" above mounting surface.*

*Tip: Slatwall can overhang stanchions up to 12".*

*Tip: For use on worksurfaces 3/4" to 2" thick.*

*Tip: Worksurface/table must be able to support 60 lb.*

*Tip: Stanchion cannot be used in a corner application or on a glass surface.*

*Tip: Requires 18"D worksurface and uses 2" surface footprint.*

*Tip: Freestanding Slatwall stanchion is for use with 12"H tiles only.*

# Work Tools

*Tip: Total dimensions of worktools specified should not exceed slatwall dimensions.*

*Tip: Slatwall is not dedicated to the exact panel width; a 12" overhang is acceptable.*

*Tip: Two slatwall tiles cannot be used in a corner application.*

*Tip: Tiles require a minimum worksurface depth of 18" for stability.*

*Tip: A clearance of 2" is required under worksurface to accommodate C-clamp.*

*Tip: Tiles cannot be used on glass, bullnose, knife edge, or other non-standard worksurface edges.*

*Tip: Supports up to 140 lb.*

*Tip: Slatwall is 1/8" shorter than stated without end caps installed.*

## Standard Includes

- Slatwall tile: 4799 Platinum

## Specification Information

Dimensions			Weight	Style Number	Price
Depth	Width	Height			

### 12"H Slatwall Tiles

# Monolithic Panels

**Panels** are constructed with a rigid, tubular steel frame and are shipped fully assembled. Remember to order trim separately.

**Vertical slots in panel** accommodate hang-on components, overhead storage bins, shelves, worksurface supports, and connector brackets. Components can be mounted at 1" increments.

**Base cavity** accepts a factory-installed powerway  
 ▶ See *Powerways*, page 238.

**Removable base cover** has receptacle knockouts. Base covers have a receptacle opening on the left and right side of the base cover. *Exception: 24"W base covers have a receptacle opening in the center of the base trim.*

**Leveling glides** adjust 1 1/2" to install panels on uneven floors.

## Actual Dimensions

<b>Height</b>	42", 48", 54", or 66"
<b>Width</b>	24", 30", 36", 42", 48", or 60"
<b>Thickness</b>	2"
<b>Base Raceway Height</b>	3 5/8"
<b>Glides</b>	1 1/2" adjustment

**Product Details**

**Tackable acoustical** has a skin on each side, covered with horizontal surface fabric.

**Wiring & Cabling**

**Panel frames** have hollow interior to allow routing cables from top cap through to base raceway.

**Chicago electrical code** requires that all electrical connections be hardwired in the field. Order a non-powered panel and have the electrician obtain conduit and receptacles (Leviton 5325) to make the connections in the field.

**Surface Materials**

**Base cover, top cap, and border**

- Paint

**Panel surface**

- Fabric

*Tip: Fabric is applied horizontally on the screen. Fabric must be of the same fabric group and color on both sides.*

# Monolithic Panels and Stacker Options

**TEKTIS** allows a wide variety of panel arrangements to meet specific functional and aesthetic needs.

## Stacking Guidelines

**Stackers** are available in 12"H, 18"H, or 24"H in tackable acoustical or glass.

**Maximum height** is 78".

**Maximum number of tackable acoustical stackers** is three.

**Maximum number of glass stackers** is one.

**Any height base panel** can be used with stackers.

### 42"H Base panels

### 42"H Base panels with stacker

### 48"H Base panels

### 48"H Base panels with stacker

### 54"H Base panels

### 54"H Base panels with stacker

### 66"H Base panels

### 66"H Base panels with stacker

# Panel Stackers

**Stackers** are constructed with a rigid, tubular steel frame and are shipped fully assembled.

**Top cap and top cap aligner** from base panel are used to trim the top of stacker.

**Vertical slots in stackers**, identical to slots in base panel, accommodate overhead storage, laminate common shelves, and connector brackets.

## Actual Dimensions

<b>Height</b>	12", 18", or 24"
<b>Width</b>	24", 30", 36", 42", 48", 60", or 72"
<b>Thickness</b>	2"

**Product Details**

**All existing base panels** accept stackers.

**Stackers** do not include vertical trim, must be specified separately.

**Two smaller stackers** cannot be attached to the top of a larger stacker or panel.

**Stackers** are available in two surface options.

**Tackable acoustical**—skin on each side, covered with horizontal surface fabric.

**Glass**—single pane of clear, tempered safety glass on panel centerline, surrounded by painted border.  
*Tip: Fabric and glass stackers cannot be combined on the same panel.*

**Base panels** can accept one, two, or three stackers, up to a total height of 78". Base panels can only accept one glass stacker. All stackers are load bearing, but load cannot be mounted above 66" height.  
▶ See page 220.

**Two fork connectors** are included with every stacker.

**Attaching stackers to panels** will not cause disruption to existing panel connections.

**Spanning stackers** are available in 48", 60", or 72" widths.

**Stacker** can span over an in-line connection between two base panels or two stackers. Width of stacker must equal total width of two base panels.

**Application Topics**

**Maximum height with base panel and stackers** cannot exceed 78".

**Maximum number of stackers** is three.

**Any base panel** can accept stackers.

**Bins and shelves** can hang from first or second, stacker, not above 66" in height.

**When** adding a stacker to existing panels with a power or cable pole connected at L-, T-, or X- corner, the universal panel connector can not be used. Contact [orders@amqsolutions.com](mailto:orders@amqsolutions.com) to order service parts for special connections.

**Panel stackers** cannot be used in a V- or Y-configuration.

**Surface Materials**

**Border**  
• Paint

**Panel surface**  
• Fabric  
• 6500 Clear Glass

*Tip: Fabric is applied horizontally on the screen. Fabric must be of the same fabric group and color on both sides.*

# Panel Trim

**Steel top caps** are standard in low height.

## Product Details

**Vertical corner trim** allows cables to be laid in before the cover is snapped into place and can be removed for cable access. Corner trim is required for L-, T-, and X-configurations.

**Always specify vertical corner trim** the same height as the tallest panel.

### L-configurations:

## Actual Dimensions

	Vertical Corner Trim	End-of-Run Trim	Change-of-Height Trim
Height	42", 48", 54", or 66"	42", 48", 54", 60", 66", 72", or 78"	6", 12", 18", 24", or 36"
Standard Thickness	1/4"	1/4"	1/4"

**T-configurations:**

Low universal end cap

Low universal end cap

Low universal end cap

**X-configurations:**

Low universal end cap

*Tip: In an X-configuration, carrier and vertical corner trim must be attached to one panel prior to installation of last panel.*

Low universal end cap

Low universal end cap

**End caps:**

Low universal end cap

**Vertical corner trim and corner change-of-height trim** are required in combination for L-, T-, and X-configurations when stackers are used. All corner trims include a low trim end cap.

**Always specify vertical corner trim** the same height as the tallest base panel. Specify vertical corner change-of-height trim to cover the ends of stackers.

**Vertical end-of-run trim** covers the exposed end of panels and includes a low trim end cap.

**Vertical end-of-run trim** must match height of base panel.

**Vertical end-of-run trim** must match combined height of base panel and stacker.

**Vertical in-line change-of-height trim** is available 6"H, 12"H, 18"H, 24"H, and 36"H. Trim covers the exposed section of the taller panel when panels of different heights are joined.

**120° vertical corner trim** is required for all 120° connections. The same 120° vertical corner trim is used for two- and three-way connections. Both two- and three-way end caps are included with each 120° vertical corner trim package.

► Page 275

**Application Topics**

**Always** specify vertical corner trim the same height as tallest panel.

**When specifying a base panel and a stacker**, specify corner trim to match base panel and change-of-height trim piece to cover the ends of stacker.

**When base panel and stacker** are specified in end-of-run trim must match total overall height.

**Surface Materials**

**Trim**  
• Paint

# Panel Connectors

**Universal connector package** joins panels of the same height in a straight line or in L-, T-, or X-configurations. The package, included with panels, contains two universal connectors—one for the top and one for the bottom connection.

**Same connector** is used at both the top and bottom of panel.

**Different slots** are used to create in-line, L-, T-, or X-conditions.

Left Hand  
Right Hand

Change-of-Height Connector

Universal Connector

120° Connector

Wall Start

**Product Details**

**Wall start connector package** is used to anchor a panel run to a perpendicular wall. Mounting screws that connect the brackets to the panel are included in each package.

*Tip: Vertical end-of-run trim is not required at the end of panel that is attached to the wall.*

**Change-of-height in-line and corner panel connector package**

is used to join panels at varying heights in a straight line or at 90° angles. Package contains left and right connectors for both in-line and corner configurations.

*Tip: Change-of-height in-line and corner panel connectors cannot be used in 120° configurations.*

**Left and right in-line connectors** are required to connect panels in a straight line.

**One-handed corner connector** is required for connecting panels at 90°.

**To connect panels in a 120° application**, a 120° panel connector is required. A two-panel connection requires one 120° connector package. A three-panel connection requires three 120° connector packages.

*Tip: Change-of-height in-line and corner panel connectors cannot be used in 120° configurations.*

▶ Page 277

**120° connectors** are for the same height panels only.

**120° and 90° connections** can occur within the same workstation.

**Surface Materials**

**Universal and 120° connector**

- 0835 Black

# Stability Guidelines

## Tackable Acoustical Panels without Components

**Two-panel run**

**Three-panel run**

**Four-panel run**

**Multiple panel run**

## Tackable Acoustical Panels

### Two-Panel Run with Supported Components

**Optional worksurface supports:**

- 20"W H-leg
- Pedestal with filler
- Lateral file
- End panel

*Tip: Overhead storage bins cannot support any load on top.*

**Tackable Acoustical Panels, continued**

**Three-Panel Run with Supported Components**

**Optional worksurface supports at 30"H:**

- 20"W H-leg
- Pedestal with filler
- End panel

*Tip: Overhead storage bins cannot support any load on top.*

**Tackable Acoustical Panels without Components**

**120° Connection**

**Tackable Acoustical Panels with Supported Components**

**One Panel—120° Connection**

**Optional worksurface supports:**

- Pedestal with filler
- 90° panel connection—panel width must match worksurface depth
- End panel

**Optional worksurface supports:**

- 90° panel connection—panel width must match worksurface depth
- 20"W H-leg

**Tackable Acoustical Panels with Supported Components, continued**

**Two-Panel Run—120° Connection**

**Optional worksurface supports:**

- Pedestal with filler
- 90° panel connection—panel width must match worksurface depth
- 20"W H-leg

**Three-Panel Run—120° Connection**

*Tip: Same rule applies if using 120° worksurfaces in place of straight worksurfaces.*

**Tackable Acoustical Panels—Three-Way 120° Connection**

**Three Panel 120° Connection with One Supported Component**

**Three Panel 120° Connection with 120° Worksurface and up to One Additional Component**

*Tip: Loads must be counterbalanced in this application.*

*Tip: Worksurface needs to be supported to floor or application needs to be counterbalanced.*

**Panels and Panel Stackers**

**Base panels** can accept one, two, or three stackers, up to a total height of 78". Base panels can accept only one glass stacker. See below for additional rules and exceptions.

**Universal or change-of-height connectors** must be used at top of base panel and each stacker wherever possible to increase stability.

### Panels and Panel Stackers, continued

All stackers are load bearing, but load cannot be mounted above 66" height.

# Circuit Specifications

Detailed Information for the Electrical Engineer

## Five wiring schematics

are available for TEKTIS—two 3-circuit systems and three 4-circuit systems.

## All the components in an electrical distribution network

must use the same wiring schematic. The components (power poles, base power-ins, and receptacles) snap together and are keyed to make it impossible to connect mismatched parts. Color-coded and labeled components make it easy for installers to identify which wiring schematic each component is dedicated to.

## Color coding

For power components manufactured before June 19, 2023:

- 3 circuits shared = Black
- 3 circuits separate = White
- 4 circuits 3+D = Black
- 4 circuit 3I+1 = Tan
- 4 circuit 2+2 = Grey

For power components manufactured on or after June 19, 2023:

- 3 circuits shared = Blue
- 3 circuits separate = Rust
- 4 circuits 3+D = Black
- 4 circuit 3I+1 = Black
- 4 circuit 2+2 = Brown

## Overview

### Three-circuit electrical components with shared neutrals

are standard with 5 wires to provide three circuits that share one oversized neutral and one ground.

**Three-circuit with separate neutrals** have 8 wires providing three circuits, each with its own separate neutral. The first two circuits share an isolated ground; the third uses the system ground.

**Four-circuit 3+D** are standard with 8 wires to provide four circuits. Three of these circuits share an oversized neutral and a system ground while the remaining circuit has its own neutral and isolated ground.

**Four-circuit, 3I+1** again have 8 wires but with three circuits that share an oversized neutral and isolated ground. The fourth circuit has its own neutral and is attached to the system ground. This electrical system is like the standard 3+D, but the grounds are switched, providing three isolated circuits and one general purpose circuit as compared to one isolated circuit and three general purpose circuits.

**Four-circuit 2+2** also have 8 wires but provide two circuits that share an oversized neutral and a system ground and an additional two circuits with a second oversized neutral and an isolated ground.

### 3 Circuit Shared Neutral, 5 Wires

### 3 Circuit Separate Neutral, 8 Wires

### 4 Circuit 3+D, 8 Wires

### 4 Circuit 3I+1, 8 Wires

### 4 Circuit 2+2, 8 Wires

# How to Calculate Power Needs

Use This to Determine How Many Power-Ins You'll Need

**When planning a power network,** you must calculate the amperage requirements of all your electrical components so you can provide sufficient electricity to power them.

**If your usage is not known in advance:** The National Electrical Code (NEC) allows a maximum of 13 receptacles on each 20-amp circuit. This provides up to 30 receptacles for each 3-circuit power-in.

**If your usage is known in advance:** Add up the amperage used by each piece of equipment in the workstation. Whenever you reach 60 amps (20 amps times 3 circuits) from items that are likely to be used at the same time, you have reached the limit for a single power-in. Specify another power-in and continue until all equipment is powered.

If the circuits will normally be subject to a continuous load (three or more hours of continuous use, such as lights or computers), the NEC requires that circuit capacity be "de-rated" by 20 percent. Therefore, treat circuits used for continuous loads as if they were rated at 16 amps instead of the regular 20 amps.

Try to anticipate future increases in power requirements and build some excess capacity into your plan.

▶ See table at right for typical and actual amperage usages for components.

To calculate amperage when the wattage of a device is known, divide watts by 120.

Some appliances, such as large copiers, coffee makers, or space heaters require most of the current available on a 20-amp circuit. It is recommended that such devices be supplied with their own receptacle/circuit, directly from the building. This leaves the capacity of the furniture circuits available for the more dynamic requirements of the office equipment.

Local electrical codes vary. Consult a qualified electrical contractor or engineer for the proper planning of electrical circuits in your locale.

## Approximate power consumption for common devices

Device	Wattage	Amperage	Voltage	Number of Devices Supported on Single 20 Amp Circuit*
Laptop	90	0.8	110	20
CPU/Desktop Computer	120	1.1	110	15
Monitor	60	0.5	110	29
Phone	5	0.0	110	352
High Power Tablet (e.g. Surface Pro)	40	0.4	110	44
Low Power Tablet (e.g. iPad Air)	15	0.1	110	117
Desktop Printer	40	0.4	110	44
42" LCD Screen	210	1.9	110	8
DVD Player	25	0.2	110	70
Projector	175	1.6	110	10
Desktop Lamp	19	0.2	110	93
Large Printer/Copier (high)	1900	17.3	110	1
Large Printer/Copier (low)	850	7.7	110	2
Paper Shredder	360	3.3	110	5
Desktop Fan	20	0.2	110	88
Standing Fan	180	1.6	110	10
Coffee Maker (high)	1200	10.9	110	1
Coffee Maker (low)	600	5.5	110	3
Microwave (high)	400	13.6	110	1
Microwave (low)	150	5.5	110	3
Refrigerator (high)	1500	3.6	110	4
Refrigerator (low)	200	1.4	110	12
Vacuum (high)	1500	13.6	110	1
Vacuum (low)	200	1.8	110	9
Space Heater (high)	1500	13.6	110	1
Space Heater (low)	750	6.8	110	2

*Tip: These calculations are estimations and are meant solely for informational purposes. It is important to conduct proper power planning for each installation to prevent overloading a circuit.*

# Special Requirements for Chicago

	Chicago Code	Specification:	Electrician will supply:
<p><b>Panel Requirements</b></p> <p><b>Chicago code</b> requires hardwiring of all electrical components.</p>	<p><b>Panel</b> must be hardwired in the field.</p> <p><b>Electrician hardwires</b> all receptacle boxes and conduits into panel bases in the field.</p> <p><i>Tip: Panel depth prohibits use of standard device boxes for back-to-back receptacles in Chicago.</i></p>	<ul style="list-style-type: none"> <li>• <b>Order panels</b> with factory-installed power base covers with receptacle knockouts where you intend to install receptacles. <i>Tip: Chicago code doesn't require a special base cover with different receptacle locations.</i></li> <li>• <b>Receptacles</b> in Chicago are supplied by electrician. Contact <a href="mailto:orders@amqsolutions.com">orders@amqsolutions.com</a> to order service parts for special connections. <i>Tip: Because receptacles in Chicago cannot be installed back-to-back, you may want to avoid powered panels that are 30"W or less. These panels only have one receptacle location on each side, so these panels can only accommodate one duplex-size receptacle.</i></li> <li>• <b>Order corner fillers</b> for L-, T-, and X-configurations separately to conceal electrical conduits.</li> </ul>	<ul style="list-style-type: none"> <li>• Connection to building power supply</li> <li>• Wires</li> <li>• Fittings</li> <li>• Duplex receptacle (Leviton 5325-Decora style)</li> <li>• Electrical components</li> </ul>

**Test and verify capacities for your individual situation.** We recommend that testing be conducted using your specific cable, as well as the furniture configuration you are considering. Cable capacities in this table are based on actual cable studies performed by an independent contractor following EIA/TIA codes and practices and can be taken as an accurate assessment of maximum practical capacity. Actual cable capacities may vary slightly depending on which manufacturer produced the cable and the specific field conditions.

**Cable capacities** are based on Category 6 and Category 6a cables at 55% fill capacity.  
*Tip: Low top cap does not accept any cables.*

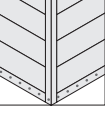

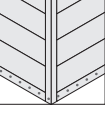

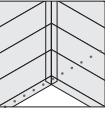

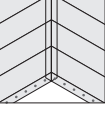

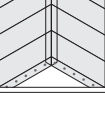

**Cables Tested**

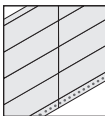

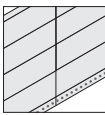

**A CommScope Systemax Gigaspeed 1071E Series Category 6 Cable**  
 OD=0.23"

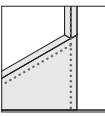

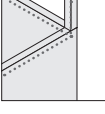

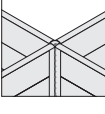

**B CommScope Systemax X10D 1091B Series Category 6A Cable**  
 OD=0.285"

**Powerways reduce cable capacity.** An average of 10-15 cables will be reduced per powerway used. However, this number varies according to installation practices and the type of cables used.

**When laying cables vertically behind skins,** capacity is dependent on skin width.

		A	B
<b>L, T, X, V, and Y Horizontal Routing</b>			
	Lay-in cable routing (corner) at base of panel <b>with</b> power in L, T, or V configuration	9	5
	Lay-in cable routing (corner) at base of panel <b>without</b> power in L, T, or V configuration	32	21
	Lay-in cable routing (straight) at base of panel <b>with</b> power in X or Y configuration	9	5
	Lay-in cable routing (corner) at base of panel <b>with</b> power in X or Y configuration	9	5
	Lay-in cable routing (straight) at base of panel <b>without</b> power, or with powerway routed above in X or Y configuration	32	21
	Lay-in cable routing (corner) at base of panel <b>without</b> power, or with powerway routed above in X or Y configuration	32	21

		A	B
<b>Straight Horizontal Routing</b>			
	Lay-in cable routing at base of panel <b>with</b> power	8	5
	Lay-in cable routing at base of panel <b>without</b> power or with powerway routed above	32	21

		A	B
<b>Straight Vertical Routing</b>			
	Vertical cable routing inside power pole (used on an end, L or T configuration an end)	28 Hi	18 Hi
	Vertical cable routing inside power pole	28 Hi	18 Hi
	Through center of X	24	16

*Tip: Low top cap does not accept any cables.*

# Powerways

**Powerways** that are installed in the panel base cavity allow power to be distributed wherever panels go. They are concealed when properly installed.

**On June 19, 2023,** TEKTIS power components changed design. Power components manufactured before June 19, 2023 are not compatible with power components manufactured after June 19, 2023.  
▶ See *Power Components Transition Details* on page 246.

**All the components in an electrical distribution network** must use the same wiring schematic. Components are color coded and keyed to make it impossible to connect mismatched parts.

**Electrical systems** are designed in compliance with the National Electrical Code (NEC) and Canadian Electrical Code (CEC) to function as a multi-wire branch circuit. Installations should be made in accordance with the NEC or CEC provisions for multi-wire branch circuits.

**Local electrical codes** vary. Consult a qualified electrical contractor or engineer for the proper installation of electrical equipment. Chicago, New York City, and Los Angeles have special requirements.

**Product Details**

**Straight connection** is formed when a harness connector from one powerway attaches to the powerblock of the adjacent powerway.

**L-connection** is formed when a powerway connector harness turns to the left or right and connects to the powerblock of the adjacent panel.

**T-connection** is formed by two powerway connector harnesses each turning in the same direction.

**X-connection** is formed by three powerway connector harnesses, each turning in the same direction.

The **powerway connector harness** comes attached to each powerway and can be removed in the field.

**Removing the powerway connector harness and adding it to the opposite end of the powerway powerblock** can be used to correct planning and installation oversights.

**Power** can be routed through the base of panels in a two- and three-panel, 120° connection.

(inside measurement)  
**2" x 2" power and cable poles** can bring building power and data from the ceiling to a 120° panel application at the end of a run or 90° connection only.

**Application Topics**

**Factory included powerway** for field installation replaces need to order separate powerways.

**Wiring and Cabling**

**Chicago, New York City, and Los Angeles** have special requirements.

**Chicago electrical code** requires that all electrical connections be hardwired in the field. Order a non-powered panel and have the electrician obtain conduit and receptacles (Leviton 5325) to make the connections in the field.

**Underwriters Laboratory (UL)** listed. These products have been designed to meet U.S. and Canadian national electrical and energy codes and most local building codes. Local electrical codes vary, so consult with your local authority having jurisdiction as they have final say if the products as installed are compliant with local code. Consult with a qualified electrician or electrical engineer for proper installation of all electrical equipment.

# Receptacle

**Receptacles** are ordered separately and installed in the field in the base cover knockout opening. Receptacles snap into the powerblock in the field. Receptacles are designed to link to a specific circuit.

**On June 19, 2023,** TEKTIS power components changed design. Power components manufactured before June 19, 2023 are not compatible with power components manufactured after June 19, 2023.

► See *Power Components Transition Details* on page 246.

**All receptacles** are duplex (two outlets) and are available in 15-amp.

## Product Details

**Numbers** printed on the receptacles indicate the line number. Label on receptacle indicates which circuit the receptacle connects to, so the user can control which devices are on specific circuits.

**With the 3-circuit separate neutral system,** these designations are with letters A, B, or C as compared to 1, 2, 3, or 4 in the other systems.

**All the components in an electrical distribution network** must use the same wiring schematic. Components are color coded and keyed to make it impossible to connect mismatched parts.

**Available** in 6000 Black plastic only.

**Receptacles** come in packages of six receptacles.

**Receptacles** snap into both faces of the powerblock in the field.

**Controlled receptacle** must be indicated when tying into the building management system. Duplex receptacles have an option for a factory permanent, pad stamp power icon symbol with the word controlled per compliance with the Energy Code.

# 2" x 2" Power and Cable Pole

**Power poles** bring building power from the ceiling to the powerways in the base cavity of panels. They can also be used to run cables into the top cap or into the panel base cavity. All five wiring schematics are available.

**Trim** conceals powerway and cables routed to the base of the panel.

**Knockout**

**The power pole harness** attaches to either end of a powerway.

**Hanger bar** secures the top of the pole to the ceiling grid.

**Ceiling trim plate**

**Cable poles** provide a space to route cables from the ceiling to the high top cap or base cavity of a panel.

**Knockouts** allow data distribution in change-of-height conditions.

**Retainer** attaches to the end of a panel with screws that attach below the top cap. Panel remains undamaged so power and cable pole can be removed and relocated later.

**On June 19, 2023,** TEKTIS power components changed design. Power components manufactured before June 19, 2023 are not compatible with power components manufactured after June 19, 2023.  
 ▶ See *Power Components Transition Details* on page 246.

**All the components in an electrical distribution network** must use the same wiring schematics. Components are color coded and keyed to make it impossible to connect mismatched parts.

**Product Details**

**Power and cable poles** accommodate ceiling heights up to 10'4"H.

**Height of the pole** must correspond with the height of the panel it is attached to so that the pole will connect under the top cap. Adjacent panels can be lower. Ceiling heights up to 10'4" can be accommodated.

**Power and cable pole packages** ship with one left-hand and one right-hand corner change-of-height connector. A separate change-of-height package may be required in certain X configurations.

**In T configurations,** height of power and cable pole must correspond to the height of the center panel.

**120° vertical corner trim** is required for all 120° connections. The same 120° vertical corner trim is used for two- and three-way connections and is available with a low end cap only. Both two- and three-way end caps are included with each 120° vertical corner trim package.

▶ Page 275

**Surface Materials**

**Power pole**

- Paint

**Ceiling trim plate**

- 4790 Sodium paint

# Base Power-In

**Base power-ins** are field installed and connect the panel electrical system to the building power source.

**Power-ins** are UL listed and CSA certified. Local electrical codes vary, so consult with your local authority having jurisdiction as they have final say if the products as installed are compliant with local code.

**All the components in an electrical distribution network** must use the same wiring schematic. Components are color coded and keyed to make it impossible to connect mismatched parts. Building power source can come from the floor, wall, or column.

**On June 19, 2023**, TEKTIS power components changed design. Power components manufactured before June 19, 2023 are not compatible with power components manufactured after June 19, 2023. ▶ See *Power Components Transition Details* on page 246.

**Connector on end of base power infeed harness** occupies one receptacle location in powerblock.

**Flexible harness** secures hardwired connection to building monument. The harness must be back fed through the base trim prior to connection into the building monument.

**Cover** is included with base power to conceal the connection.

## Product Details

**Power-in** brings power to panel run by connecting to a designated receptacle location on either end of the powerway. Power-ins fit standard-size receptacle openings if the green end of the powerway is located behind the receptacle opening.

**Paint color** is required for base power-in for use in New York.

**Special requirements** are needed for San Francisco.

▶ See page 17

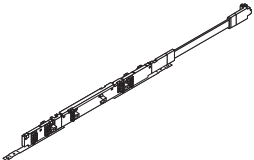

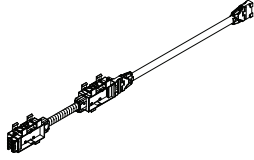

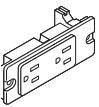

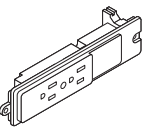

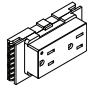

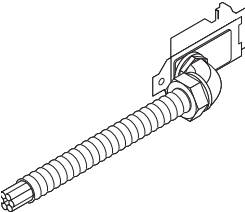

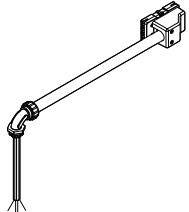

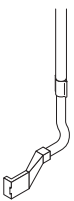

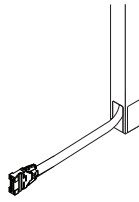

# Power Components Transition Details

On June 19, 2023, TEKTIS power components changed design. Power components manufactured before June 19, 2023 are not compatible with power components manufactured after June 19, 2023.

The style numbers of power component have changed. The panel style numbers have not changed. Any panel segment ordered with power after June 19, 2023 will include the new power component design.

How power is specified remains unchanged. Power can be optioned on to the panel segment. Powerways can be specified as installed in the factory or installed in the field.

Components included in the design change are powerways, receptacles, base power-ins, and the harness included in the power pole.

Power before June 19, 2023	Power after June 19, 2023
<b>Powerways</b>	
	
<b>Receptacles</b>

<b>Difference between power components</b>		
<b>What is different</b>	<b>Power before June 19, 2023</b>	<b>Power after June 19, 2023</b>
<b>Connector flag/harness</b>	Mesh connector flag is not removable from the powerway.	Mesh connector flag is removable from the powerway.
<b>Power access in 24" and 30" wide panel segments</b>	24"W and 30"W base covers have a standard-size opening on one side of the panel and larger size opening on the reverse side.	24"W and 30"W base covers have standard-size openings on both sides of the panel.
<b>Receptacle size</b>	Receptacles were available in two sizes– standard and larger.	All receptacles are standard size.
<b>Receptacle cutout locations on base covers</b>	Receptacle location differs before and after June 19, 2023. See details under <i>Receptacle Location Change</i> . Page 249	Receptacle location differs before and after June 19, 2023. See details under <i>Receptacle Location Change</i> . Page 249
<b>Base power-in</b>	Connection at receptacle location does not include an aesthetic cover.	Connection at receptacle location includes an aesthetic cover.
<b>Receptacle connection to powerway</b>	Receptacle connect to powerway with screws.	Receptacle snaps into the powerway without any screws.
<b>Wiring schematics</b>	All five wiring schematics available. Color-coding and keying have changed.	All five wiring schematics available. Color coding and keying have changed.

**Planning with power components manufactured before and after June 19, 2023.**

Power components manufactured before June 19, 2023 can still be used but do not connect to power components manufactured on or after June 19, 2023. The following two approaches can be used when both power systems are used:

Cluster with all power components manufactured before June 19, 2023.

Cluster with all power components manufactured on or after June 19, 2023.

Organize by cluster: Power systems can be organized by workstation cluster. Some clusters can use power components manufactured before June 19, 2023 and other clusters can utilize power components manufactured on or after June 19, 2023.

Utilize multiple infeeds in a single cluster: A single workstation cluster can use both power systems by utilizing multiple infeeds. Power components manufactured before June 19, 2023 can power part of the workstation and have its infeed and power components manufactured on or after June 19, 2023 can power part of the workstation and have its infeed. Each power system covers part of the workstation and the two systems do not connect to one another.

**Receptacle location change**

**Receptacle location for base Trims manufactured before June 19, 2023**

**Receptacle locations for base trims manufactured after June 19, 2023**

**Status of power components manufactured before June 19, 2023**

Powerways, panel connectors, receptacles, base power-ins and harnesses included in the power pole manufactured before June 19, 2023 are no longer supported.

Basecovers with receptacle cutouts for the receptacle locations of the pre-June 19, 2023 powerways are supported as service parts.

Receptacle knockout fillers for both the pre-June 19, 2023 and post-June 19, 2023 are available as a service part.

The pre-June 19, 2023 wire separator, which supports the powerway in the panel, is available as a service part.

**How to convert a TEKTIS panel manufactured before June 19, 2023 with post June 19, 2023 power components.**

1. Remove all pre-June 19, 2023 power components and the pre-June 19, 2023 wire separator.
2. Order from service parts a post June 19, 2023 wire separator, a post June 19, 2023 powerway and a post June 19, 2023 set of base covers of the appropriate width. Powerways, wire separators, and base covers are not available as style numbers.
3. Add post June 19, 2023 components to base area of the panel frame manufactured before June 19, 2023.

# Worksurface-Height Grommet

**Power** can be accessed at or near worksurface height by using a grommet.

**Grommet**

## Product Details

**Grommets** are available in packages of 10 to finish exposed edges of field-installed openings in the worksurface for vertical cable routing.

**Grommets** are available in black plastic only.

# Worksurfaces

**Worksurface** has a wood core with laminate top and plastic edge band. Low-Pressure Laminates are available. Plastic edge band color is selectable.

**Systems worksurfaces —with 1/2" cord drop** feature built-in cable management flexibility, allowing cords to drop below the worksurface at any point along the back edge.

**Systems worksurfaces —full depth** feature a tighter fit to panels for a cleaner aesthetic.

**Grommet** is standard on corner worksurfaces only. Field-installed grommet requires a 3" diameter hole in the worksurface.

**Front (user's) edge** is a plastic edge band with a 3 mm radius. Back and side edges are flat.

**Full-depth worksurfaces** fit flush against panels.

**Worksurface** has a wood core with a Low-Pressure Laminate surface and is 13/16" thick.

## Product Details

3 mm edge profile

**PVC-free, 3 mm edge profiles** are proprietary polyolefin blend for all solid colors and seven woodgrain finishes. Matching 1 mm side and back edges are also PVC-free.

**Edge profile finishes** are specified separately from laminate color.

**Corner bracket** is included to connect the back corner of worksurface to panels.

**30"D straight cantilevered worksurfaces** require additional floor support along the front edge, such as a pedestal, end panel, post leg, side support bracket, or an adjacent return worksurface.

## Edge Profiles

**Edge Profile** is applied to front (user's) edge only.

**Connections**

Post leg

H-leg with bracket

Cantilever with tie plate

Universal Cantilever with tie plate

Side support brackets

Tie plates

In-line support plate

Reinforcing channel

End panels—standard height

**Supports** are ordered separately and installed in the field. The following supports are available for use with worksurfaces:

- Post leg
- H-leg
- Cantilever with tie plate
- Universal cantilever with tie plate
- Side support brackets
- Tie plates
- In-line support plate
- Reinforcing channel
- On-module end panel

**Cantilever with tie plate** works in left-hand, right-hand, or shared applications.

**Worksurface spans greater than 54"** require additional support of a cantilever, pedestal, intermediate support, or leg. Exception; worksurfaces can span up to 60" in heavy load applications and up to 72" in light load applications if a reinforcing channel is used. Reinforcing channel must be specified separately.

▶ Specifying, page

Transaction

**Worksurfaces** are available in a wide variety of worksurface shapes. Directional laminate grain direction is shown.

# Worksurface Legs and Supports

**On-module supports** can be used to panel support worksurfaces in various configurations.

**Cantilever** can be used to panel-support a worksurface at any height.

**Side support brackets** can be used to support the ends of straight and corner worksurfaces and to support the back corner of any corner worksurface.

**Universal cantilever** features alignment tab used to set a depth for straight worksurfaces with 1/2" cord drop. This tab is bent down when installing full-depth worksurfaces.

**Post Leg**

**H-leg with bracket**

## Product Details

**On-module worksurface supports** engage the slots in the vertical uprights of panels.

**Side support brackets** support worksurfaces at any height in 1" increments. Brackets ship as a left- and right-hand pair and are ordered separately.

**Side support brackets** can be used to support the end of a worksurface that is wrapped by a panel with the same width dimension that matches the worksurface depth.

**Single side support bracket** can be used to support the rear corner of corner, extended corner, and 120° corner worksurfaces. It is standard with these corner worksurfaces.

## Actual Dimensions

	Universal cantilever	Cantilever	End panel	Post leg	H-leg
Height	12 1/4"	13"	28 1/2"	28 1/2"	28 1/2"
Depth	15 1/2"	16"	23 3/4" or 29 3/4"	N.A.	14" or 22 3/4"
Glide Range	N.A.	N.A.	1 1/4"	2"	2 3/4"

Left

Shared

**Cantilevers** support worksurfaces at any height in 1" increments. Cantilever is non-handed and can be used to support either end of a worksurface, or shared to support two worksurfaces at the same height simultaneously. One tie plate ships with each cantilever.

**30°D straight, cantilevered worksurfaces** require additional floor support along the front edge, such as a pedestal, end panel, post leg, side support bracket, or an adjacent return worksurface.

**End panels** can be used to support the end of a worksurface for additional panel stability. Refer to the applicable panel stability guidelines for specific requirements.  
▶ See page 228

**End panels** are available in seated height, and cannot be used in freestanding applications.

**All panel mounted supports** can be removed and repositioned later without any permanent damage to panels or skins.

**Pedestals and lateral files with a filler** can be used to support the end of a worksurface in place of an end panel.

**Worksurface spans greater than 54"** require additional support of a cantilever, pedestal, intermediate support, or leg. Exception; worksurfaces can span up to 60" in heavy load applications and up to 72" in light load applications if a reinforcing channel is used. Reinforcing channel must be specified separately.  
▶ Specifying, page 404

### Surface Materials

#### Side support bracket and reinforcing channel

- Black paint only

#### Cantilever, post leg, and end panel

- Paint

# Freestanding Guidelines

For Tektis Worksurfaces with Legs

The following section on freestanding worksurfaces gives some guidelines to be used with common freestanding configurations. Consult your local dealer or AMQ representative prior to deviating from these guidelines.

**With post legs.**

72" max.

**Combined worksurfaces** can give each other support when joined with an 11" W H-leg and tie plate.

**Corner worksurface** attached to adjacent worksurfaces requires 11" W H-leg. Tie plate is recommended to align worksurfaces. This application only good for 48" W corner worksurfaces. The 36" W and 42" W corner worksurfaces do not meet ADA requirements.

72" max. 72" max.

**20" W H-leg** can support adjacent worksurfaces up to 72" W.

**120° worksurface.**

**H-leg** can be used to support adjacent perpendicular worksurfaces up to 72" W.

**Reinforcing channel (AMQTSATRC)** is available to add support to worksurfaces that have 60" or more of unsupported kneespace and that are heavily loaded.

# Pedestals

**Pedestals** provide fixed storage for personal items and filing of infrequently referenced materials.

**Top of pedestal** is open to attach beneath the worksurface.

**Finished back and sides** are standard.

**Leveling glides on pedestals** adjust to install furniture on uneven floors. Leveling glide range is 1".

**Locks** ship with a lock face ring and removable plastic plug to accommodate a lock cylinder installed on site.

**Standard lock cylinders and keys** are included with Tektis pedestals. If a master key is specified, **AMQLOCK9201XF** must be specified to be included.

**Ledge pulls** are available on drawers.

## Product Details

**Ledge pulls** are available on drawers.

**Pencil tray for use with fixed pedestals** are included and available as an option.

**To file legal-size or side-to-side letter-size filing in pedestal file drawers**, rails are included with pedestals and available as an option.

**Counterweight packages** are required to ensure product stability in freestanding applications and must be added. Counterweights are available as Steelcase Service Parts (**1444111001SR**).

## Actual Dimensions

### Fixed Pedestals

Depth	21 <sup>3</sup> / <sub>16</sub> " , 27 <sup>13</sup> / <sub>16</sub> "
Width	15"
Height	27"

### Connections

**Fixed pedestals** are intended for use under a panel-mounted or freestanding worksurface. Attachment hardware is provided.

**Pedestal filler**, ordered separately, adds structure and fills the gap between the pedestal and panel. Pedestal filler works with panels only.  
 ▶ Page 297

**Additional supports** are required if worksurface overhang is 7" or larger.

### Wiring & Cabling

**Fixed pedestals** do not accommodate cable-routing. Plan accordingly when installing pedestals underneath worksurfaces with grommets or other cable-routing accessories.

### Surface Materials

#### Pedestals

- Case**
- 4799 Platinum Metallic
- Ledge pull** (default)
- 4799 Platinum Metallic

- Case**
- 7207 Black
- Ledge pull** (default)
- 7207 Black

- Case**
- 7243 Seagull
- Ledge pull** (default)
- 4799 Platinum Metallic

### Shipping

**Fixed pedestals** are normally shipped in heavy-duty, recyclable stretch wrap to reduce the amount of corrugated board needed.

# Bins

**Bins** can be attached to TEKTIS with integrated hooks. These storage bins provide overhead storage in the workspace.

**On-module attachment hooks** are integral to the end supports and are used to mount bins on panels of the same width as bins.

**Safety catch** locks overhead storage unit to frame to prevent accidental removal.

**Bin** is steel and ships assembled.

**Backstop** prevents notebooks and equipment from damaging the surface of the panels or walls.

**Flat-front lift-up doors** open and close quietly. When up, the doors rest on top of the case to provide more storage space inside.

## Product Details

**Lock in bin** is concealed from view beneath the shelf. Field-installed locks are standard with random keying options. Master-keyed locks are also available. **AMQLOCK9201XF** must be specified separately. ▶ *Lock and Keying*, page 406

**Back of storage bin** is open to allow panel surface to show. Metal backstop prevents contents of bin from damaging panel surface.

**Overhead storage bin height** accepts standard and A4 binders.

## Actual Dimensions

<b>Depth</b>	15 <sup>3</sup> / <sub>4</sub> "
<b>Width</b>	24", 30", 36", 42", 48", 60", or 72"
<b>Height</b>	16 <sup>1</sup> / <sub>4</sub> "

**Connections**

**Steel support hooks on end** supports insert into the slotted channel of a panel or wall channel and lock into place with a safety catch.

**On-module steel support hooks** can be used above and adjacent to TEKTIS panels.

**Width of overhead bin** must match the width of the panel or panels that it is attached to. Bin may span up to two frames.

**Bin** may be mounted at 38"H or lower if another panel-mounted component prevents it from being seated upon.

**Bins** cannot be attached to upmount brackets.

**Surface Materials**

**Overhead bin**  
• Paint

**Lock**  
• 9201 Polished Chrome

**Application Topics**

**Clearance between worksurfaces and bottom of overhead bins** is 21<sup>3</sup>/<sub>8</sub>" when storage unit is installed in the highest position on a 66"H panel and glides are adjusted all the way into the panel.

**On-module brackets and hooks** are used to mount overhead bins and common shelves to panels with vertical slot patterns. Panels can support on-module attachment brackets.

**Common shelves** can attach on-module to panels.

**Width of overhead storage unit** must match the width of the panel or panels that it is attached to. Storage bins or shelves may span up to two panels.

**Additional support for stability** may be required when shelves and overhead storage bins are attached to panels. Loads on the opposite sides of the panels increases stability.

**On-module attachment brackets** install in panel seams.

**On-module brackets** can be used with a panel stacker on panels. Follow standard panel stacker guidelines for each panel.

**Stability Guidelines**

▶ Page

**Bins and shelves** can hang from the first stacked tier only.

# Laminate Common Shelves

**Laminate common shelf** has a wood core and is covered with Low-Pressure Laminate. Plastic edge band is selectable.  
*Tip: For anticipated heavy loads on 42" and 48"W laminate common shelves, a field-installed reinforcing channel (AMQTSATRC) can be used.*  
▶ page 282

Laminate common shelf

## Product Details

**Laminate common shelf** ships with steel support brackets. Support brackets hook into the vertical panel slots or wall channel and lock into place with a safety catch. Support brackets can be used in either orientation.

**Shelf** may be mounted at 38"H or lower if another panel-mounted component prevents it from being seated upon.

## Surface Materials

### Shelf

- Laminate

### Edge

- Plastic

### Supports

- Paint

## Actual Dimensions

# Wall Hang Channels and Horizontal Braces

For Use with Overhead Storage Bins and Shelves

Wall Hang Channels and  
Horizontal Braces

**Slotted steel channel** can attach to wall of building to accept shelves, overhead storage bins, or worksurfaces. Channel will accept all universal bins and shelves, Tektis bins and shelves introduced prior to March 2007.  
▶ Specifying, page 283  
*Tip: Must specify bin or shelf with Tektis bracket to hang on wall channel.*

## Product Details

**Wall channel** can be positioned on wall at height needed.

## Connections

**Wall channels** can be used to support shelves, overhead storage bins, or worksurfaces. Wall channels can be shared.

### Field install:

- Concrete walls with Hilti type anchors.
- Drywall or plywood with  $\frac{5}{8}$ " thick Toggler R-type  $\frac{3}{16}$ " wall anchors with countersunk flat head screw.
- Steel or wood studs with #10 sheet metal or wood screws of appropriate length with countersunk flat head screw.

**Anchors** must be used in each screw hole location on the wall channel.

**Components attach** at 1" increments, but screws block some slot locations.

**Component limits for each pair of wall channels** are as follows:

- Two bins or shelves
- One worksurface and two shelves
- One worksurface and one bin

**Horizontal brace** is available to reinforce vertical wall channels that support storage bins, shelves, or worksurfaces that are attached to walls. Bins and shelves that are 48"W or less do not require a horizontal brace. All worksurfaces require horizontal braces.

**Wall channel horizontal brace** is required for EACH storage bin or shelf that is wider than 48". The brace should be placed at the position along the vertical wall channel where the top of the bin or shelf will be placed.

**Width of horizontal brace** must match width of shelf or storage bin.

**Wall channel horizontal brace** is also available in 42" and 48" widths and can be used in applications where there is concern regarding the strength of the wall. These braces must also be used with wall-mounted worksurfaces.

**Wall hang channels** for shelves or overhead storage bins cannot be used with a wall start junction.

**Worksurfaces** may be attached to wall channels with cantilevers, subject to the following application guidelines:

- All worksurfaces must be 24"D or less.
- Worksurfaces must be supported by a cantilever or legs every 42" or 48". Cantilevers can be shared when worksurfaces are adjacent.
- Wall channel horizontal braces must be installed directly behind all wall-mounted worksurfaces, and also at the top of the wall channels.
- Worksurface-supported pedestals cannot be hung from a wall-mounted worksurface.

## Application Topics

**Reinforce** wall by positioning studs where wall channels will be attached. See dimensions below.

Distance between center lines of reinforced wall channels matches width of overhead storage unit.

*Tip: Wall channels can be shared.*

## Surface Materials

### Wall channel

- Paint

### Horizontal brace

Height 66" (1676 mm)

# Boundary Screens

**Boundary screens** have a thin profile and provide light scale space division and visual boundary.

**Tektis boundary screens** attach to the Tektis panel at end-of-run and middle-of-run junctions.  
 ▶ Specifying, page 299

**Screens** are available in classic woodgrain or solid laminates.

**Boundary screens** come standard with adjustable glides, with a range of 1½". The glides are located 3" from the outside of each edge.

**Tektis boundary screens** have a thickness of 1⅜".

## Product Details

End-of-Run Single Sided Screens

**Boundary screens** can connect to panels at the end-of run junction and middle-of-run junction.

**Boundary screens** cannot be used as a support in place of a leg, pedestal, or other worksurface support.

**Screens** are made of 1⅜" board with Low-Pressure Laminate.

## Actual Dimensions

<b>Height</b>	28½", 42", 48", or 54"
<b>Single-Sided Width*</b>	26", 26½", 32", 32½", 38", 38½", 44", 44½", 50", 50½", 56", 56½", 62", 62½", 74", or 74½"
<b>Spanning Width*</b>	50", 53", 62", 65", 74", or 77"
<b>Split Width per Side*</b>	49", 49½", 55", 55½", 61", 61½", 73", or 73½"
<b>Return Width*</b>	25⅜" and 31⅜"
<b>Thickness</b>	1⅜"

\* Dimensions above include extra inches of trim when connecting to a panel.

Tip: 28½"H boundary screens are available for end-of-run junctions for spanning and split boundary screens.

**Boundary screens** have modular heights and widths.  
 Note: Tektis panels are available in 66"H, but Tektis boundary screens are not available in 66"H.

**Boundary screen heights** align with thin trim top cap panel heights at 42", 48", and 54". 28½"H boundary screens are also available for end-of-run junctions for spanning and split boundary screens.

**Tektis boundary screens** are available in six different configurations.

**1. Single-sided boundary screens** provide boundary to one side of a Tektis panel and are specified either as left or right. Available in end-of-run and middle-of-run configurations.

2" Tektis panel thickness

**Single-sided boundary screens** will always include the 2" thickness of the Tektis panel to which they attach. For a 72" width screen (72"W inside, +2"W for the Tektis panel thickness for a maximum of 74"W). The above is shown with a right-handed screen application.

*Tip: The above image shows a 72" specified width. The planning width is 74".*

**2. Spanning boundary screens** use one screen segment to provide boundary of equal widths to both sides of a Tektis panel. Available in end-of-run and middle-of-run configurations.

**Spanning boundary screens** will always extend in equal dimension from the panel to which it attaches and include the 2" thickness on the Tektis panel.

**For a 48"W spanning boundary screen** (48"W inside, and 2" for the Tektis panel thickness for a total of 50"W minimum). For a 72"W spanning boundary screen (72"W inside, and 2" for the Tektis panel thickness for a total of 74"W maximum).

**3. Split boundary screens** use two screen segments to provide boundary to both sides of a Tektis panel. Both sides of a split boundary screen must be the same height. Available in end-of-run and middle-of-run configurations.

**Split boundary screens** can either be equal or asymmetrical in dimension from the Tektis panel to which they attach and include the 2" thickness of panel in total.

**For a 36" width split** (36"W inside, and 1" for half of a Tektis panel thickness for a total of 37"W minimum) for each side of the panel. For a 72" width split (72"W inside, and 1" for half of a Tektis panel thickness for a total of 73"W minimum) for each side of the panel.

*Tip: The above image shows a 37" specified right width and a 73" specified left width. The planning right width is 36" and the planning left width is 72".*

**4. Single-sided L return boundary screens** provide boundary and additional privacy to one side of a Tektis panel. Both screen segments (primary and return screen) are the same height and are specified as either left or right-handed.

2" Tektis panel thickness

**Single-sided L return boundary screens in modular widths** have inside clearance in 6" increments to wrap standard width worksurfaces in 6" increments. Panel connected segments (the primary screens) are available in widths of 27" (24" inside, return width 27", and 2" for Tektis panel thickness) to 75" (72" inside, and 2" for Tektis panel thickness). The inside width of modular returns are 24" or 30". There is an additional 13/16" that will be added to the return width for the primary screen thickness. Both boundary screens have equal heights and are specified as either left or right handed.

*Tip: The above image shows a 75" specified width. The planning width is 72".*

**5. Spanning L return boundary screens** provide boundary and additional privacy to both sides of a Tektis panel. Both screen segments (primary and return screen) are the same height. Spanning L configuration screens and returns must have symmetrical widths.

**6. Split L return boundary screens** consist of four segments to provide boundary and additional side privacy to both sides of a Tektis panel. Split L configuration screens do not have to have symmetrical widths but must have the same height.

**Split L return boundary screens in modular widths** have inside clearance in 6" increments to wrap standard width worksurfaces from 24" to 72" in 6" increments for each side of the split. The inside width of modular returns will be 24" or 30". There is an additional <sup>13</sup>/<sub>16</sub>" that will be added to the return width for the primary boundary screen thickness. Each panel connected segment is available in widths from 25<sup>1</sup>/<sub>2</sub>" (24" inside, and 1<sup>1</sup>/<sub>2</sub>" for half of the Tektis panel thickness) to 73<sup>1</sup>/<sub>2</sub>" (72" inside, and 1<sup>1</sup>/<sub>2</sub>" for half of the Tektis panel thickness).

*Tip: The above image shows a 61<sup>1</sup>/<sub>2</sub>" specified left width and a 73<sup>1</sup>/<sub>2</sub>" specified right width. The planning left width is 60" and the planning right width is 72".*

### Connections

**Boundary screens** cannot be taller than the Tektis panel they attach to.

**End-of-run single-sided boundary screens** must always attach either at the height of the base panel or the height of the base panel with stackers.

**End-of-run spanning boundary screens and end-of-run split boundary screens** can be shorter than the height of the base panel and base panel with stackers.

**Boundary screens at the end-of-run junction** may be shorter than connecting Tektis panel. In this situation, specify change-of-height trim separately (with the exception of single-sided.)

**All middle-of-run boundary screens (single-sided, spanning, and split)** must be attached to a base panel or base panel with stacker at the same height.

**On spanning and split boundary screens**, a metal plate is used to cover the bracket that connects the boundary screen to the panel. The cover is located 12<sup>1</sup>/<sub>8</sub>" from the bottom of the screen and is 3<sup>5</sup>/<sub>8</sub>"W and 13<sup>1</sup>/<sub>2</sub>"H.

**Middle-of-run boundary screens** add an additional <sup>13</sup>/<sub>16</sub>" to the overall panel run.

**Return segments** have a metal plate that covers the connection the return screen to the primary screen segment.

**In spanning and split boundary screen junction**, no worksurface supports (i.e., cantilever, pedestal, end panel) under 28"H can be used with the Tektis panel with the exception of side-support brackets.

**In single-sided applications**, all worksurface support brackets may be used on the panel channel cantilever, pedestal, end panel, etc.

### Surface Materials

**Boundary screens:**

- Laminate

**Edge on laminate:**

- Plastic

**Bracket cover:**

- Paint

*Tip: When specifying the paint finish for the bracket, select a finish that compliments the selected laminate finish.*

**Grain direction rules:**

**Boundary screens less than 60" wide** can have vertical or horizontal grain direction. Boundary screens 60" wide or larger must be horizontal.

**For a split with one side greater than 60"W**, both sides of the split screen must have a horizontal grain direction.

**All boundary screen sides** will have the same finish applied.

**Application Topics**

**Middle-of-run screens** cannot attach on anything higher than a 54"H base panel.

**Tektis boundary screens** fulfill the same stability requirements as Tektis panels of the same heights and widths. Tektis boundary screens do not support hang-on components. ▶ See *Stability Guidelines, page 228*

**Boundary screens** can attach to panels with fabric stacker and glass stacker application.

**Boundary screens** are not for use with wall starts.

**Boundary screens with returns** cannot be used in a free-standing application. Boundary screens must be attached to a corresponding Tektis panel.

**End-of-Run Single Sided Boundary Screen**

**End-of-Run Split Boundary Screen**

**Single-sided and split boundary screens** are available left and right handed. This is determined by the user facing the attaching Tektis panel.

*Tip: For split boundary screens with returns, returns do not have to mirror the opposite screen.*

**End-of-Run Split Boundary Screen**

**Split boundary screen widths in both end-of-run and middle-of-run configurations** do not have to be symmetrical.

**All L-return boundary screens** have a step miter detail at the adjoining edge.

# Hanging Markerboard

**Hanging markerboard** can be added to Tektis panels and is a writable surface that provides visual display and invites collaboration.  
▶ Specifying, page 305

**Markerboards** are non-magnetized.

**On-module attachment hooks** are used to mount markerboards on panel(s) of the same width.

## Product Details

**Clearance** needed between worksurface and bottom of markerboard is 1 1/8".

**Width of markerboard** must match the width of the panel or panels that it is attached to. Markerboards may span up to two panels.

**Hanging markerboard** can attach to Tektis wall channel with a horizontal brace.

**Four hooks** must be attached on each corner of the markerboard.

## Actual Dimensions

<b>Height</b>	24"
<b>Width</b>	24", 30", 36", 42", 48", and 60"
<b>Thickness</b>	1/2"

## Monolithic Panels

*Tip: Factory-included powerway for field installation option replaces need to order separate powerways.*

*Tip: Remember to order end-of-run trim and vertical corner trim packages.*

*Tip: Factory-installed wire separator is only an option on panels without power. A wire separator is included with the powerway in panels specified with power.*

### Standard Includes

- Tackable acoustical panel with two fabric surfaces: fabric price group 01
- Base covers with receptacle knockouts: paint price group 01
- Low top cap: paint price group 01
- Top cap aligner: black plastic
- Universal connector package
- Frame: Fire Retardant polyurethane foam.

### Options

## Fixed Pedestals

*Tip: Fixed pedestals are intended for use under a panel mounted or freestanding worksurfaces.*

*Tip: File drawer rails are required to file legal-sized files or side-to-side letter-sized files in pedestal.*

*Tip: Counterweight packages are required to ensure product stability in freestanding applications and must be added. Counterweights are available in Steelcase Service Parts (1444111001SR).*

*Tip: If the master key plug is optioned, **AMQLOCK9201XF** must be specified separately to be included.*

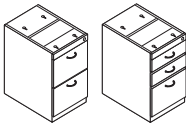

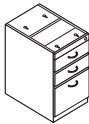

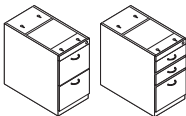

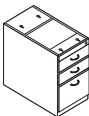

### Standard Includes

- Pedestal: paint price group 01
- Ledge pull: metal
- Lock face ring with plastic plug to accommodate lock cylinder, if keyed lock selected: 0835 Black
- Attachment hardware
- Lock cylinder included in package, field-installed
- Steel ball-bearing suspensions on box and file drawers
- Package of two rails: black
- Pencil tray: black only
- Adjustable glides: black

## End-of-Run Boundary Screens for Use with Tektis Monolithic Tackable Panels

*Tip: When attaching a boundary screen to a Tektis panel with a stacker segment, order a boundary screen and add a change-of-height trim when panel is taller than connecting screens.*

*Tip: Additional hardware upcharge is applied only when end-of-run spanning or end-of-run split style number is specified.*

*Tip: When specifying the paint finish for the bracket cover, select a finish that compliments the selected laminate finish or matches panel trim finish.*

*Tip: When specifying a boundary screen taller than the Tektis panel, order a change-of-height trim.*

*Tip: Trim varies between single sided and split/ spanning screens. Single-sided screens are a spine bracket while the spanning/ split screens are a cover.*

*Tip: When specifying an end-of-run split boundary screen, two screen widths will need to be specified (left and right).*

### Standard Includes

- Screen: Low-Pressure Laminate price group 01
- Edge on laminate screen: plastic
- Trim finish: paint price group 01
- Attachment hardware
- Glides

# EMBANK Pedestals

Fixed and Mobile

**Fixed pedestals** are floor standing and can support worksurfaces at 27<sup>11</sup>/<sub>32</sub>"H.  
 ▶ Specifying, page 359–360

**Top** is open on fixed pedestals and accommodates attachment to a work surface. Attachment hardware is included.

**Drawer fronts** are available in Low-Pressure Laminate and are full to the bottom of the case (no toe kick).

**Finished back and sides** are standard on pedestals.

**File drawers** open their full depth for total access to the contents and have an integrated U-channel on the drawer bodies for hanging file folder frames.

**Mobile pedestals** can be moved wherever storage is needed. They provide an auxiliary worksurface when you need more space to spread out your work.  
 ▶ Specifying, page 360

**Top on mobile pedestal** is 1<sup>1</sup>/<sub>8</sub>" thick and is available in Low-Pressure Laminate.

**Pulls on pedestals** are available in a ledge style only.

**Lock** is standard on pedestals. Lock is located in the bottom drawer, and locks the drawer it is located in and the one above. Locks are standard on lateral files and secure all drawers. Lock cylinders are field-installed.

**Standard lock cylinders and keys** are included with Embank pedestals. If a master key is optioned, **AMQLOCK9201XF** must be specified to be included. All lock cylinders are field-installed.

**Leveling glides** adjust to install pedestals on uneven floors and have a 1<sup>1</sup>/<sub>2</sub>" adjustable glide range.

**Mobile pedestal cushion top** provides a temporary seat ideal for informal gatherings. Cushion top is ordered separately and requires field installation.

▶ Specifying, page 283  
*Tip: Two-High mobile pedestals with a cushion top will not fit under a desk.*

**Four casters** are hard composition and non-locking, with a full-rotation swivel.

## Actual Dimensions

	Mobile Pedestals Box/File
<b>Depth</b>	18 <sup>7</sup> / <sub>8</sub> " and 22"
<b>Width</b>	15 <sup>3</sup> / <sub>4</sub> "
<b>Height</b>	23 <sup>2</sup> / <sub>3</sub> "

	Fixed Pedestals Box/Box/File and File/File
<b>Depth</b>	24" and 30"
<b>Width</b>	15 <sup>3</sup> / <sub>4</sub> "
<b>Height</b>	27 <sup>5</sup> / <sub>16</sub> "

	Mobile Pedestals Box/Box/File and File/File
<b>Depth</b>	22"
<b>Width</b>	15 <sup>3</sup> / <sub>4</sub> "
<b>Height</b>	27 <sup>3</sup> / <sub>32</sub> "

*Tip: 2-High mobile pedestals without a cushion fit under an Embank desk shell.  
 Tip: 2-High mobile pedestals with a cushion top do not fit under an Embank desk shell.*

**Product Details**

**Box drawers** are black, bore and dowel construction.

**File drawer body** is standard with integrated U-channel to accommodate hanging folder files.

**All pedestal file drawers** accommodate front-to-back and side-to-side letter filing.

**24"D and 30"D pedestal file drawers** also accommodate side-to-side legal filing.

**Pencil tray to hold small office supplies** is standard with pedestals with box drawers.

**27<sup>5</sup>/<sub>16</sub>" H fixed pedestal** can be used in combination with other Two-High lower storage to create a variety of storage options.

Ledge pull

**Pulls** are available in a ledge style only.

**Lock cylinders** are field-installed. Pedestals are shipped installed with plugs, with lock cylinders separate.

▶ Lock and Keying, page 406

**Counterweight packages** are included and required to ensure product stability.

**Mobile pedestal cushion top** is field installed with screws. See assembly instructions for details.

**Connections**

**Fixed pedestals** are intended to attach under a worksurface for security and support. Pedestals can be paired with EMBANK common top.

**Fixed pedestals** are not to be used alone as a free-standing unit, and must be used with other furniture.

**Pedestals using common tops** must be attached to other storage, a perpendicular worksurface, or a panel. A maximum 6" overhang of the worksurface is allowed on either side, or back.

**Surface Materials**

**EMBANK storage** can be specified with contrasting case, headset, top laminate finishes, and edgeband.

# EMBANK One-High, 1.5-High, and Two-High Lower Storage and Lateral Files

**One-High, 1.5-High, and Two-High EMBANK lower storage and lateral files** are floor standing and can support worksurfaces at 15<sup>3</sup>/<sub>8</sub>"H, 21<sup>3</sup>/<sub>8</sub>"H, or 27<sup>5</sup>/<sub>16</sub>"H.

**Top** can be optioned on to low storage and laterals, and are 1<sup>1</sup>/<sub>8</sub>" thick. If no top is selected, low storage and laterals accommodate attachment to a worksurface or common top. Attachment hardware is included.

**Drawer and door fronts** are available in Low-Pressure Laminate are full to the bottom of the case (no toe kick).

**Finished back and sides** are standard on low storage and lateral files.

**File drawers** open their full depth for total access to the contents and have an integrated U-channel on the drawer bodies for hanging file folder frames.

**Adjustable shelf thickness** is <sup>3</sup>/<sub>4</sub>".

**Pull on low storage with doors and laterals** is available in a ledge style only.

**Standard lock cylinders and keys** are included with Embank low storage with doors and lateral files. Lock is located on the top left corner of the right handed door of lower storage with doors. Lock is located in the bottom drawer of lateral files, and locks the drawer it is located in and the one above. Locks secure all drawers. If a master key is optioned, **AMQLOCK9201XF** must be specified to be included. All lock cylinders are field-installed.

**Leveling glides** adjust to install low storage and laterals on uneven floors and have a 1<sup>1</sup>/<sub>4</sub>" adjustable glide range.

\* The top (if specified) matches the depth of units with drawers and doors.  
 Tip: All heights are without top. Add either 1<sup>1</sup>/<sub>8</sub>" to achieve overall height with top.

## Product Details

**Drawers** are black, bore and dowel construction.

**File drawer body** is standard with integrated U-channel to accommodate hanging folder files.

**36" W file drawers** accommodate front-to-back and side-to-side letter filing, as well as front-to-back legal filing. 24"D file drawers also accommodate side-to-side legal filing.

**30" W file drawers** accommodate front-to-back and side-to-side letter filing, as well as front-to-back legal filing. 24"D file drawers also accommodate side-to-side legal filing.

**Two-High lower storage** has three holes for adjustable shelf placement, spaced 1 1/4" apart. When the adjustable shelf is in the bottom position, the top shelf has 12 1/4" of usable space, and the bottom shelf has 10 1/16" of usable space.

**1.5-High lower storage** has three holes for adjustable shelf placement, spaced 1 1/4" apart. When the adjustable shelf is in the bottom position, the top shelf has 6 5/16" of usable space, and the bottom shelf has 10 1/16" of usable space.

**Pulls** are available in a ledge style only.

**Locks** are field-installed. Low storage with doors and lateral files are shipped installed with plugs with the lock cylinders separate.

► Lock and Keying, page 406

**Counterweight packages** are included and required to ensure product stability.

**One fixed shelf** is included in 1.5-High and Two-High open and hinged door configurations.

**Ganging hardware** is available to provide alignment by joining adjacent components side-by-side, back-to-back, or both.

**Side-by-side units with individual tops** will result in a nominal 3/32" gap.

## Surface Materials

**EMBANK storage** can be specified with different case, headset, and top laminate finishes.

*Tip: Credenzas with kneespace are standard with a  $1\frac{1}{8}$ "-thick top, included in the overall height.*

**Product Details**

**Open/open credenzas** are divided evenly with a single center support in all widths.

**Open/lateral file credenzas in 60"W** include 30"W file drawers. 66"W and 72"W open/lateral file credenzas include 36"W file drawers.

**Lateral file/lateral file credenzas in 60"W** include 30"W file drawers. 66"W lateral file/lateral file credenzas include 36"W (left) and 30"W (right) file drawers. 72"W lateral file/lateral file credenzas include 36"W file drawers.

**Lateral file/cabinet credenzas in 60"W** include 30"W file drawers. 66"W and 72"W lateral file/cabinet credenzas include 36"W file drawers.

*Tip: "Handedness" option of lateral file/open or lateral file/cabinet credenzas determine the location of the lateral file.*

**Cabinet/cabinet credenzas** are divided evenly with a double center support in 60"W, 66"W, and 72"W cases. All widths include four doors.

**Pulls** are available in a ledge style only.

**File drawer body** is standard with integrated U-channel to accommodate hanging folder files.

**Modesty panels and back panels** have horizontal grain direction.

**End panels** have vertical grain direction.

**Basic cushion** is available for use on credenzas. Basic cushions are ordered separately and requires field-installation. *Tip: Basic cushion is available on EMBANK credenzas with a top only.*

**Locks** cylinders are standard and are field-installed. ▶ Lock and Keying, page 406

**Counterweight packages** are required to ensure product stability and are included in credenzas.

**Storage capacities and dimensions** ▶ See page 352

**Surface Materials**

**EMBANK credenzas** can be specified with different case, headset, and top laminate finishes.

**EMBANK common top** is used to create storage applications with a seamless top, or as a table or desk with legs.

**EMBANK worksurfaces and tops** use a 1<sup>1</sup>/<sub>8</sub>" core.

## Product Details

**Common tops** are available in Low-Pressure Laminate.

**Common tops** are standard 1<sup>1</sup>/<sub>8</sub>" thick.

**Common tops** have 3 mm plastic edge banding on the front (user's) side. Sides and back have matching 1 mm edge.

**Reinforcing channels** must be used with tops larger than 54"W for 54"W or more of unsupported kneespace. Any common top used as a table with legs equal to or larger than 30"D x 72"W requires two reinforcing channels.

**Support plates** are available to connect two worksurfaces and allow one to support the other.

**Tie plates** are available to provide added strength and alignment between two worksurfaces.

# EMBANK Desks, Desk Shells, Returns, Return Shells, and Bridges

**Desks** are freestanding and are available with and without pedestals, to create a desk shell, single pedestal desk, or double pedestal desk.

► Specifying, page 373

**Returns** are available with and without pedestals, to create a single pedestal return or return shell. Returns attach to desks or credenzas to form an L-shape configuration. Attachment brackets are included with returns.

► Specifying, page 375

**Bridges** must attach to a worksurface on each side to create a U-shape configuration. Attachment brackets are included with bridges.

► Specifying, page 377

Actual Dimensions					
	Desks (with pedestal)	Desk Shells	Returns	Return Shells	Bridges
Depth	30" and 36"	24", 30", and 36"	24"	24"	24"

# EMBANK D-Shape and P-Shape Worksurfaces

**EMBANK D- and P-shape worksurfaces** offer unique support for meetings.

**D-Shape**

**P-Shape**

Left-hand unit

## Product Details

**D- and P-shape worksurfaces** must be attached to a bridge, return, or adjoining worksurface to form a flush-height, L- or U-shaped configuration and to provide stability. Right-hand P-shape worksurfaces pair with left-hand returns. Left-hand P-shape worksurfaces pair with right-hand returns.

**D- and P-shape worksurfaces** include an end panel, and are available with and without modesty panels.

**Modesty panels** are available in either full height or 1/4-height. Full-height modesty panels go to the floor.

**Column leg diameter** is 6".

## Product Details

**Tower and wardrobe** combines coat storage, box and file drawers, and shelves.

Door hinged on left

Door hinged on right

**Door on wardrobe** is full height and can be hinged on the left or right. Coat hook is always located on the same side as the door hinge.

**Box drawers** are a black, bore and dowel construction.

**File drawer body** is standard with integral top rail to accommodate hanging file folders.

Ledge pull

**Pulls** are available in a ledge style only.

**Standard lock cylinders and keys** are included with Embank towers and wardrobes. If a master key is optioned, **AMQLOCK9201XF** must be specified to be included. All lock cylinders are field-installed.

▶ Lock and Keying, page 406

**Adjustable shelves on 54<sup>1</sup>/<sub>8</sub>"H and 66<sup>1</sup>/<sub>2</sub>"H side access towers** are recessed from the side of the tower.

**AMQCRTWSABBFL, AMQCRTWSABBFR, AMQCRTWSAFFL, and AMQCRTWSAFFR:**

- **41<sup>25</sup>/<sub>32</sub>"H and 47<sup>31</sup>/<sub>32</sub>"H towers** have one bottom fixed shelf.
- **54<sup>1</sup>/<sub>8</sub>"H towers** have one bottom fixed shelf and one adjustable shelf.
- **66<sup>1</sup>/<sub>2</sub>"H towers** have one bottom fixed shelf and two adjustable shelves.

**AMQCRTWBFL, AMQCRTWBFR, AMQCRTWFFL, AMQCRTWFFR, AMQCRTWDBFL, AMQCRTWDBFR, AMQCRTWDFFL, and AMQCRTWDFFR, Box/ File configuration:**

- **41<sup>25</sup>/<sub>32</sub>"H towers** have one bottom fixed shelf.
- **47<sup>31</sup>/<sub>32</sub>"H and 54<sup>1</sup>/<sub>8</sub>"H towers** have one bottom fixed shelf and one adjustable shelf.
- **66<sup>1</sup>/<sub>2</sub>"H towers** have one bottom fixed shelf and two adjustable shelves.

**AMQCRTWBFL, AMQCRTWBFR, AMQCRTWFFL, AMQCRTWFFR, AMQCRTWDBFL, AMQCRTWDBFR, AMQCRTWDFFL, and AMQCRTWDFFR, File/ File configuration:**

- **41<sup>25</sup>/<sub>32</sub>"H and 47<sup>31</sup>/<sub>32</sub>"H towers** have one bottom fixed shelf.
- **54<sup>1</sup>/<sub>8</sub>"H towers** have one bottom fixed shelf and one adjustable shelf.
- **66<sup>1</sup>/<sub>2</sub>"H towers** have one bottom fixed shelf and two adjustable shelves.

**Ganging hardware** is available to provide alignment by joining adjacent storage components side-by-side, back-to-back, or both.

**Wardrobes** must be attached to two additional wardrobes, another storage unit, or a wall to ensure stability and prevent wardrobe from tipping over. Contact [orders@amqsolutions.com](mailto:orders@amqsolutions.com) to order service parts for special connections.

**Counterweight packages** are included and required to ensure product stability.

**Side access tower construction** is as follows:

- Front panel over top panel
- Top panel over back panel

## Surface Materials

**EMBANK storage** can be specified with different case and headset laminate finishes.

**Tower door fronts and front panels** will not have matching grain direction with drawer fronts.

### Low storage or lateral file case and headsets

# EMBAK Bookcases

**Bookcases** offer convenient storage for binders, books, and other objects.

**Top** is standard 1"H laminate.

**Finished back** is standard.

**Shelves** adjust in 1<sup>1</sup>/<sub>4</sub>" vertical increments using a reversible bracket.

**Shelf thickness** is 3<sup>3</sup>/<sub>4</sub>".

**Leveling glides** adjust up to 1<sup>1</sup>/<sub>4</sub>" to install bookcase on uneven floors.

## Actual Dimensions

	Bookcase	Stacking Bookcase
Depth	15"	15"
Width	30" and 36"	30" and 36"
Height	41 <sup>25</sup> / <sub>32</sub> ", 47 <sup>31</sup> / <sub>32</sub> ", 54 <sup>1</sup> / <sub>8</sub> ", 66 <sup>1</sup> / <sub>2</sub> ", and 72 <sup>11</sup> / <sub>16</sub> "	25 <sup>5</sup> / <sub>8</sub> ", 37 <sup>31</sup> / <sub>32</sub> ", and 44 <sup>3</sup> / <sub>16</sub> "

**Product Details**

**Bookcases** are available with adjustable shelves. Shelves can be repositioned without using tools.

**The number of adjustable shelves per bookcase** depends on case height:

- 41<sup>25</sup>/<sub>32</sub>"H—2 adjustable shelves
- 47<sup>31</sup>/<sub>32</sub>"H—2 adjustable shelves
- 54<sup>1</sup>/<sub>8</sub>"H—3 adjustable shelves
- 66<sup>1</sup>/<sub>2</sub>"H—4 adjustable shelves
- 72<sup>11</sup>/<sub>16</sub>"H—4 adjustable shelves

**25<sup>5</sup>/<sub>8</sub>"H stacking bookcases** include adjustable shelf. All other heights include two adjustable shelves.

**Standard-size binders** will fit in bookcases with adjustable shelves.

**Ganging hardware** is available to provide alignment by joining adjacent components side-by-side, back-to-back, or both. EMBANK bookcases 66<sup>1</sup>/<sub>2</sub>"H and larger must be placed against a wall, if not ganged back-to-back.

**Stacking bookcases** are designed to align with other EMBANK tall storage. 25<sup>5</sup>/<sub>8</sub>"H stacking bookcases align with 54<sup>1</sup>/<sub>8</sub>"H tall storage. 37<sup>3</sup>/<sub>16</sub>"H stacking bookcases align with 66<sup>1</sup>/<sub>2</sub>"H tall storage. 44<sup>3</sup>/<sub>16</sub>"H stacking bookcases align with 72<sup>11</sup>/<sub>16</sub>"H tall storage.

**When specifying stacking bookcases,** selecting the correct worksurface thickness of the application ensures that the stacking bookcase aligns with other tall storage.

**Stacking bookcases** must be used with One-High, 1.5-High, or Two-High laterals or lower storage. Stacking bookcases cannot be freestanding.

**Surface Materials**

**Bookcase case**

- 24L0 Graphite Walnut

- 2LAW Ash Wenge
- 2LCN Clay Noce
- 2LCW Clay Wenge

**Adjustable shelf brackets**

- Brushed nickel

**Application Topics**

**Storage Capacities and Dimensions**

▶ Page 352

**66<sup>1</sup>/<sub>2</sub>"H and 72<sup>11</sup>/<sub>16</sub>"H freestanding bookcases** need to be placed back-to-back or against the wall.

**Stacking bookcases** can be shorter than the supporting worksurface as long as a worksurface support or side panel of a storage unit is used under the worksurface within 6" of where the side of the stacking bookcase is loaded.

# EMBANK Overheads and Organizers

**EMBANK overheads and organizers** provide storage above a worksurface and can be used in a variety of applications.

**Sliding door overheads** have a non-locking sliding door. Door is available in Low-Pressure Laminate, and optional markerboard surface.  
*Tip: Markerboard is slightly thicker than the standard laminate.*

**Hinged door overheads** have two, three, or four locking doors depending on width. Doors are available in Low-Pressure Laminate.

**Open overheads** have two equal-spaced openings.

**Stacking overheads** have end panels that allow the storage to sit on top of a worksurface. Stacking overheads allow for easy installation, and do not require anchoring to a wall. Stacking overheads must be placed up against a wall or back to back with a similar height unit.

**Stacking overheads** include a 1 1/2" reveal for cable management.

**Finished top, back, and sides** are standard on overheads and organizers.

**Personal overhead and organizer configurations** provide access on one side of a unit. Cases have a fixed divider in the middle.

**Standard lock cylinders and keys** are included with Embank towers and wardrobes. If a master key is optioned, **AMQLOCK9201XF** must be specified to be included. All lock cylinders are field-installed.

## Actual Dimensions

### Standard Widths

	Overheads with Sliding or Hinged Doors	Overheads with Open Fronts	Organizer
Depth	16"	15"	15"
Width	36", 42", 48", 60", 66", and 72"	36", 42", 48", 60", 66", and 72"	36", 42", 48", 60", 66", and 72"
Height	15"	15"	8 <sup>27</sup> / <sub>32</sub> "

**Product Details**

**Organizers** are available personal or shared. Personal provides storage on one side only. Shared storage is divided down the center, with half storage on one side and half storage on the opposite side. Personal storage has a center divider.

**Stacking overheads**

attach to the top of a credenza, desk, desk shell, or Two-High freestanding laterals or low storage, using hardware included with the overhead unit. When placed on top of multiple lateral files or low storage, the storage units must be ganged together. Stacking overheads have a 1½" reveal for cable pass-through.

**Stacking overheads**

cannot be used with lateral file/lateral file credenza configurations.

**Stacking overheads**

cannot be used with P- or D-shape freestanding worksurfaces.

**Wall mount overheads** have a 1" gap between the back panel and end panel.

**Locks** are standard on overheads with hinged doors. Lock cylinders are standard and are field-installed.

▶ Lock and Keying, page 406

**Stacking overheads**

are designed to align with other EMBANK tall storage heights. 38"H stacking overheads align with 66"H tall storage. 44"H stacking overheads align with 72"H tall storage. Selecting the correct worksurface thickness of the application ensures that the stacking overhead aligns with other tall storage.

**Application Topics**

**Hanging components** cannot hang in front of a double-pane window.

**Bracket options**

▶ See below

**Stacking overheads**

can be shorter than the supporting worksurface as long as a worksurface support or side panel of a storage unit is used under the worksurface within 6" of where the side of the stacking bookcase is loaded.

**Connections**

**Horizontal wall attachment brackets** are available to attach overhead storage to the wall of building.

**Overheads and organizers** have many different attachment methods.

▶ See below

**Overhead cabinets** can attach so they align with tower, vertical cabinet, and panel heights.

**Wiring and Cabling**

**Vertical wire managers**

are available to conceal cords that are routed from light mounted beneath overhead storage.

**Surface Materials**

**Case and headsets**

- 24L0 Graphite Walnut

# EMBANK Tackboard

**Tackboard** finishes the space between an overhead unit and a worksurface. It is a fabric-covered tackable surface.

## Product Details

**Tackboards** provide a fabric covered tackable surface above the worksurface.

**The ends of wall-mounted tackboards** are finished.

**Tackboards for use with stacking overhead applications** will automatically deduct 2¼" from the overall width of the tackboard. Specify the width of the overhead it is being used with.

**Stacking overheads** include a 1½" space at the bottom of the end panel for cable management. When specifying a tackboard with a stacking overhead, remove 1½" from the overall height to account for this clearance.

- 37.9875"H stacking overheads should use a 21.4375"H tackboard for cable management.
- 44.17475"H stacking overhead would use a 27.6875"H tackboard or cable management.

## Connections

**Tackboards** attach with hook and loop fasteners. The attachment hardware is standard with the tackboard for field installation.

# EMBANK Rectangular Conference Tables

## Product Details

**Table tops** have a wood core with a Low-Pressure Laminate surface.

**Table tops** are available in 1 1/8" core thickness.

**Table tops** features a 3 mm square edge profile.

**Two-piece tops** will occur when the top is in Low-Pressure Laminate and is greater than or equal to 96"W. Tops will be split into two equal sections and ship with connecting hardware.

**Two-piece tops** will not have matching grain patterns.

**Rectangular table base** is available in Low-Pressure Laminate, and accommodates routing of power and data cords. Access is provided by a hinged door.

### Edge profile

- 3 mm plastic

### Hinged door power unit

- 8043 Clear Anodized Aluminum

### Power outlet

- Black plastic

### Power cord

- Black plastic

## Power, Wiring & Cabling

**Grommet option** allows for either no grommet or hinged door power unit.

### Hinged door power unit

has two power outlets and openings for two data ports. The bottom of the units is open to allow pass-through of power and data cables to the floor. Available as an option on conference table tops. The door has a 6' power cord.

### Rectangular table base

accommodates routing of power and data cords. Access is provided by a hinged door.

# EMBANK Collaborative Table & Cafe Height Table

## Embank collaborative and café height tables

come in two heights and two shapes.

► Specifying, pages 397–399

**Table tops** are 1<sup>1</sup>/<sub>8</sub>" thick with edge band color default to match laminate.

**Casters** are available as an option on working-height post legs. Come in a package of four (two locking and two non-locking).

**Square table tops** come with all four edges crowned.

**Café-height tables (42"H)** are supported with column bases.

► Specifying, page 397

**Power** can be added to the collaborative and café height table, ordered as a separate style number.

► See page 400

**Collaborative tables (28<sup>1</sup>/<sub>2</sub>"H)** come standard with post legs on glides and are 1<sup>1</sup>/<sub>2</sub>" in diameter with 1" of leveling. Casters and column bases are available as an option on this table.

### Actual Dimensions

	Collaborative	Café-Height
Square	●	●
Round	●	●

### Product Details

**Embank tables** come in two heights and two shapes:

- Collaborative, 28½"H. Shapes—Square, round,
- Café or standing height, 42"H. Shapes—Square and round.

**Table tops** are 1½" thick with edge band color default to match laminate.

**Bases** vary in size depending on the size of the table top.

▶ See page 346

**Square tops** come with all four edges crowned.

### Power Specifications

**Single power unit** comes standard with plastic clips and two Velcro straps for cord management.

#### Single power unit

- Two power or one power/one dual USB-A
- 10 or 15 foot cord length

Determining power cord length depends on the size of the table top and distance to power source.

### Column Matrix

**Column and base sizes** are determined by the size of the table top.

Table Width	Up to 30"W	31-54"W	55"-72"W

### Hinged Door Power Unit

#### Product Details

**Hinged door power unit** provides two electrical outlets and two open ports for data adapters. Power unit features a hinged door that opens 90° for access to power and data and is flush with the worksurface when closed. It has a 6' cord with grounded plug. Available on conference table tops only.

**Hinged door power unit** is field installed in a factory cut hole.

**Power cord length** 6'

# Directional Laminate and Edge Profile Detail

Directional Laminate and  
Edge Profile Detail

EMBANK

**The appearance of laminate** may change slightly depending on the angle from which it is viewed. This natural phenomenon is called polarization, and it can be seen on natural veneer, and to a lesser extent on composite veneer. Polarization is often noticed on worksurfaces installed at a 90° angle with each other. Please refer to the following illustrations for an understanding of grain direction on your installation.

\* 36"W–61½"W overhead back panels have vertical grain direction. 63"W–75"W overhead back panels have horizontal grain direction.

\* Towers, wardrobes, bookcases, returns, return shells, and bridges back/modesty panels have vertical grain direction.

\* Desks, desk shells, and credenza back/modesty panels have horizontal grain direction.

## Product Details

**3 mm radius front edge profile**  
(1/8" thick)

**3 mm Edge Profile Locations**

**User side only**

**Worksurfaces:**

- Desks
- Desk shells
- Credenzas
- Returns
- Bridges

**Tops:**

- Lateral files
- Lower storage
- Credenzas
- Storage cabinets
- Overhead storage and wall-mounted overhead storage
- Towers
- Wardrobes
- Bookcases

## D-Shape and P-Shape Worksurfaces

Right-hand unit

Tip: Width and Depth is specified for the D-Shape Top.

Tip: D-shape and P-shape worksurfaces with column leg are not freestanding units. They must be attached to a bridge, return, or adjoining worksurface to form a flush-height, L-, or U-shaped configuration for proper stability.

Tip: Width A, Depth B, and Depth C is specified for the P-Shape Top.

Tip: Right-hand P-shape worksurfaces pair with left-hand returns. Left-hand P-shape worksurfaces pair with right-hand returns.

### Standard Includes

- Worksurface: Low-Pressure Laminate case with matching or contrasting Low-Pressure Laminate top
- Column leg: paint price group 01
- Adjusting leveling glides
- Ships ready to assemble

## Tackboard

*Tip: Remove 1 1/2" in height from the tackboard if paired with a stacking overhead to utilize cable passthrough.*

*Tip: Tackboard comes with a spacer for a shelf light cord to be routed to the cable passthrough at the bottom of the overhead storage cabinet.*

*Tip: Tackboards cannot be attached to walls covered by textured paint or wallpaper.*

*Tip: Width denotes the width of the overhead the tackboard is pairing with. The application option will account for any dimensional changes needed. By selecting stacking, 2 1/4" will be removed from the overall width of the tackboard. By selecting wall mount, tackboard will ship with the exact specified width.*

### Standard Includes

- Tackboard: fabric price group 01
- Attachment hardware
- Modular sizes:
  - Width: 36"W–72"W
  - Height: 20 1/4"H and 26 1/4"H

# Lock and Keying

## For TEKTIS, UPTAKE, and EMBANK Products

**All locking products** are standard with field-installed, keyed-random locks. Locks will ship with lock plug installed. Lock cylinder will be packaged separately and field-installed.

*Tip: If the master key plug is optioned, **AMQLOCK9201XF** must be specified separately to be included.*

**Locks** consist of a field-installed lock cylinder and a field-installed lock face ring.

**Two types of locks** are available — the standard keying system (FR series) and the master keying system (XF series). All the locks in the XF series can be opened with a single master key.

### Field-Installed Keying

**Field-installed locks** are always key random (standard) or master key random (option). Key random means that the locks will be assigned arbitrarily at the factory with key numbers ranging from FR305 to FR454 (Master keying numbers: XF1001 to XF1150). All locks within a unit will be keyed alike.

*Tip: Random keying can mean that different furniture units will have the same key number.*

#### Key Random

FR305

*Tip: Width of shelf is sized to fit one shelf into one side of double-wide locker. If a shelf is required for each side of double-wide locker order a quantity of two shelves.*

# UPTAKE Lockers

**UPTAKE lockers** provide a space to store a variety of objects including coats, bags, and personal belongings.  
 ▶ Specifying, page 422

**Coat hooks or coat rod** can be specified.

**Leveling glides** adjust to install on uneven floors and have a 1" adjustable range.

**Finished back** is standard.

**Single-Wide Locker**

**Ledge pulls** come standard when keyed locks are specified.

**Adjustable shelf** is available as an option to aid in the division of storage space when needed.

**Double-Wide Locker**

**Digilock VERSA electronic keypad locks** are available as an option.

## Product Details

**Four different door configurations** are available.

**Single- or double-wide lockers** are available.

**Door on locker** can be hinged on the left or right. Pull and lock are located on the opposite side of the hinge.

**Headset** available in full front only.

## Actual Dimensions

<b>Depth</b>		18 <sup>7</sup> / <sub>8</sub> " or 24"
<b>Width</b>	Single wide	12", 15", or 18"
	Double wide	24", 30", or 36"
<b>Height</b>		41.75", 47.9375", 54.125", 66.5", or 72"

**The inset top construction** provides consistent door gaps and a tighter fit of adjacent units when ganged together.

**A pair of coat hooks** are standard in each opening for 1-door and 2-door units. Coat hooks are available as an option in 3-door and 4-door units.

**Coat rod** is available as an option on 1-door and 2-door units that are 24"D only.

Ledge pull

**Ledge pulls on lockers** are defaulted when standard or master key plug is specified. No pull is available when electronic locks are specified.

**If the ledge pull** is specified, locks are available factory-installed and are keyed random only. Master-keyed locks are also available. **► Lock and Keying**, page 406

**Digilock Versa**

**Digilock Versa electronic keypad locks, mounted in a vertical orientation**, are available as an option.

**Digilock Versa electronic keypad locks** are powered by two lithium 2450 batteries.

**Programming and manager keys** must be ordered separately.

**Application Topics**

**Adjustable shelves** can be added to lockers for additional storage or piling space. Shelves are recessed from the side of the locker. A maximum of two adjustable shelves can be added. See interior configuration rules for restrictions. Mounting holes are located 1¼" apart starting 12" from bottom going to 12" from top. **► See Interior Configuration Rules** for restrictions, page 414.

**Shelf pin holes** are always included even if adjustable shelves are not specified as an option on the locker. This allows for long term flexibility and the addition of adjustable shelves after the initial order (adjustable shelf style numbers **EMLKSHFS** and **EMLKSHFD**).

**1-door lockers 54"H and above** have a fixed shelf located at the top. *Tip: See interior configuration rules for size restrictions for coat hooks, coat rods, and adjustable shelves.* **► Page 414.**

**Individual single- or double-wide lockers** cannot stand alone. They must be ganged to other lockers or secured to the building structure. Minimum locker numbers depend on depth and width. **► See Stability Guidelines** on page 417.

**Ganging hardware, provided**, joins adjacent storage units side-by-side, back-to-back, or both.

**Storage Capacities and Dimensions**

**Grain Direction**

**Uptake Lockers**

**Single Column**

**Double Column**

## Single Run of Lockers

Individual single- or double-wide lockers cannot stand alone. If not secured to the building structure, the minimum locker numbers that need to be ganged depend on depth, height, and width, and are shown in the table below.

If locker widths vary in the application, rules for the narrowest width applies. A double-wide locker counts as two lockers.

Locker Depth (inches)	Locker Height (inches)	Locker Width (inches)	Minimum Locker Number
18 ≤ D ≤ 24	≤ 70	any	3
	> 70	≥ 15	4
		< 15	6

## Back-to-Back Lockers

Individual lockers cannot stand alone. If not secured to the building structure, the minimum locker numbers that need to be ganged depend on width and are shown in the table below.

If locker depths are different on both sides, then the rules for the shallower depth applies. A double-wide locker counts as two lockers. These guidelines apply to all locker heights (41.75"–72").

Depth	Locker Width	Minimum Locker Number side-to-side
Any	≥ 12"	2
	> 12"	3

# Electronic Lock Option

**Keypad** has visual and audible indicators.

## Product Details

**Digilock Versa electronic keypad locks** are surface mounted on the door.

**Digilock Versa electronic keypad locks** come set to a shared use mode. The user locks with their credential and unlocks with the same credential. Once unlocked, the lock is reset for another user.

**Digilock Versa electronic keypad locks** are powered by two lithium 2450 batteries.

**The programming key and manager key,** ordered separately, are required if the electronic lock option is selected.  
▶ Specifying, page 432

## Surface Materials

**Lock body**  
• 9211 Nickel

- **Digilock Versa electronic keypad locks** enable facility managers to modify lock programming with a unique programming key and override locks using manager keys.
- Programming and manager keys are required if keyless lock option is selected.
- **▶ Specifying, page 432**

**The programming key** is used during installation to pair the manager key to the lock.

**The manager key** is used to override the lock when a credential is lost or forgotten or the battery loses power. Additional manager keys can be paired at any time. One manager keys may be paired to infinite locks; however, each lock may only pair with up to six manager keys.

## How to Program

1. Insert the programming key. A two-toned beep will be heard and the LED light will start to flash.
  2. While the LED light is flashing, insert one manager key at a time. A beep will be heard for each manager key that is programmed.
  3. Insert the programming key. A two-toned beep will be heard and the LED light will stop flashing.
  4. Repeat previous steps for each lock.
- Tip: The locks will arrive in the factory setting. During the process of pairing the manager key(s), the locks will be programmed into the shared setting.*

# Specifying UPTAKE Lockers

<b>UPTAKE Lockers</b>	<b>422</b>
<b>UPTAKE Adjustable Shelf</b>	<b>431</b>
<b>UPTAKE Digilock Keys</b>	<b>432</b>

# Uptake Lockers

*Tip: Lockers have an inset top construction which provides consistent door gaps and a tighter fit of adjacent units when ganged together.*

*Tip: Heights do not apply to all configurations.*

*Tip: Pricing is per shelf. Adjustable shelf option applies per opening.*

*Tip: If Digilock Versa is selected, the Digilock programming key and manager key must be specified separately for proper setup. Additional keys are available.*

*Tip: Shelf option is per opening. For example, if one adjustable shelf is optioned on a 3-door unit, three adjustable shelves will be included.*

*Tip: Coat rod available on 24"D lockers only regardless of height.*

## Standard Includes

- Locker: Low-Pressure Laminate (LPL) price group 01
- Headset: Low-Pressure Laminate (LPL) price group 01
- Ledge pull, if keyed lock selected: 9201 Polished Chrome
- Lock face ring with plastic plug to accommodate lock cylinder, if keyed lock selected: 9201 Polished Chrome
- Fixed shelf on one-door units 54"H and taller
- Two coat hooks on 18"D locker, if selected
- One coat rod on 24"D locker, if selected
- 1 1/4" adjustable leveling glides
- Ganging hardware

# Uptake Lockers

Tip: Widths do not apply to all configurations.

Tip: Adjustable shelf for double-wide locker includes one shelf for use in one side of the double-wide locker.

Tip: Width listed for double-wide locker is locker width, shelf width will be sized to fit in one side of double-wide locker.

Tip: EMLKSHFS and EMLKSHFD should only be specified as separate line items if extra adjustable shelves are needed beyond what can be optioned on. Otherwise, specify adjustable shelves as options within the locker style numbers.

## Standard Includes

- Shelf: Low-Pressure Laminate case, price group 01
- Mounting hardware

# Greenpoint Private Office

**Greenpoint private office** offers a contemporary take on the private office with its distinct visual language and fresh material options.

**Private desk worksur-**  
**faces** are 1 $\frac{1}{8}$ " thick. They  
are specified with High-  
Pressure Laminate. Height  
of the private desk is 29 $\frac{1}{2}$ ".

**Desk returns** are avail-  
able for private desks and  
can be specified with a leg  
support.

**A modesty panel** is avail-  
able and ordered separately.  
They can be specified in  
High-Pressure Laminate.  
Modesty panel can be  
mounted flush or inset.

**Leveling glides** provide  
1 $\frac{1}{2}$ " adjustment.

**Product Details**

**Private desks** are available in a range of sizes and come standard with two legs. Desk returns and modesty panels are also available.

**Legs** are welded metal.

**Glides** are adjustable and provide 1 1/2" adjustment.

**Desk returns** are used with private desks to form L-shape configurations, where everything is in reach.

**Modesty panels** cannot be used on the return side of this configuration.

**Modesty panel** can be mounted flush or inset. Height can be adjusted to provide cord pass-through.

**Surface Materials**

**Worksurface and modesty panel**

- 2409 Clear Maple
- 2410 Graphite Walnut
- 2412 Natural Cherry
- 2535 Virginia Walnut
- 2538 Clear Walnut

# Brighton Lounge Seating

**Inspired by the traditional wood frame joinery of mid-century design,** Brighton lounge seating offers an updated take with sleek metal construction. It's configurability allows Brighton to arrange into infinite formations, while freestanding lounge and table options create even more choice.

**Ganging tables** are available in laminate. Tables come with ganging brackets to attach between or on the end of lounge units.

**Frame caps** are offered in black paint.

**Lounge seat and backs** are fully upholstered.

**Arms** are available on lounge units. Arm caps are black oak.

**Frames** are offered in black paint.

**Frame feet** are black paint.

**Freestanding tables** are available in laminate. Frames are offered in black paint.

**Product Details**

**Frame feet** are offered in black paint.

**Frame caps** are offered in black paint.

**Armcaps** are solid oak wood and are available on both one- and two-seat lounges in black oak.

**Button tufting** is standard on all lounges that are upholstered in fabric. One-seat lounges come standard with one button, two-seat lounges come with three buttons.

Arm Right

Arm Left

**One- and two-seat lounges** are available with and without arms and can be specified with ganging hardware or as freestanding.

**Lounges** must be specified with ganging hardware when used with end or ganging tables. Ganging hardware and arms cannot be specified on the same side of a lounge unit.

**Ottoman** is upholstered with a metal frame that is available in black paint.

**Ganging tables** are available in two options: 90° and straight. Tables can be attached facing either direction and must be attached between lounge units.

**End table** is available in one size 28" square and can be added to either side of a lounge unit.

**Freestanding tables** are available in 28" square and 28"D x 42"W rectangle.

**Power module** has a 9' cord.

# Mesa Lounge Seating

**Mesa lounge seating** adds style to any workspace with its modern form and tapered legs. Modular pieces can easily create common areas of any size.

**Connector brackets** are standard with all lounges and ottomans.

**Lounge units** can be connected together to create an L- or U-configuration. Two corners can be used together for a two-seat sofa.

**Lounge units** are available in two-seat lounge, right- and left-hand chaise lounge, and corner lounge.

**Upholstered seat and back cushions** are attached.

**Frame** is a unibody construction with finger jointed plywood.

**Tapered legs** are cast aluminum and coated in WE01 Antique Bronze.

**Ottoman** is freestanding.

**Product Details**

**Chaise lounge** can be specified in a right- or left-hand configuration.  
*Tip: Handedness is determined while in the seated position.*

**Integrated ganging device** is included and keeps units aligned.

**Lounge seating** features five fully upholstered, complementary models: two-seater lounge, right-hand chaise lounge, left-hand chaise lounge, corner lounge, and ottoman. All models feature a four-leg, cast aluminum base with a powder coat painted finish.

**Surface Materials**

**Upholstery**

- Billiard

**Legs**

- WE01 Antique Bronze
- Tip: Contrasting fabric is not available on Mesa.*

# Sterling Seating

**Sterling** is a family of seating inspired by classic mid-century design. The style and generous sit brings retro-inspired comfort to the office. Hardwood legs or a classic aluminum base and arm options make the Sterling collection relevant across the floor plan.

**Arms** are optional on guest chair and conference chair. Arms are always upholstered.

**Optional tilt mechanism** enhances user comfort. Available on the five-star base.

**Seat height** adjusts 5", from 16<sup>1</sup>/<sub>2</sub>"H to 21<sup>1</sup>/<sub>2</sub>"H, with a pneumatic adjustment mechanism.

**Casters** have hard, dual-wheels that roll smoothly on carpets.

**Five-star base** is aluminum and available polished or in black paint.

**Pneumatic cylinder** is always black.

**Wood leg** is beech hardwood and available in VP03 Black Oak.

**Sterling stools** have a 360° swivel feature that comes standard and does not have auto-return feature.

**Glides** are polyethylene for superior durability on carpeted and hard floors.

**Sterling stools** include footrest for added comfort. *Tip: The footrest is 8<sup>1</sup>/<sub>2</sub>" from the ground on the counter-height stool and 14<sup>1</sup>/<sub>4</sub>" on the bar-height stool.*

**Product Details**

**Five-star, and four-leg** chairs are available with and without arms.

**Optional tilt mechanism** is available on five-star chairs and has 10° rearward and 2° forward tilt range. The seat and back always remain in a fixed position relative to each other (i.e. no recline).

**360° adjustable height swivel mechanism** is standard on five-star base.

**Adjustment Features****Seat Adjustments**

**Seat height** adjusts pneumatically. To lower, pull lever up while seated. To raise, pull lever up and keep your weight off the chair.

**Surface Materials****Upholstery**

The diameter of the chair with the five-star base is 26".

# Lucas Seating

**Modern lines** give Lucas a streamlined look, while a wide seat and reclined pitch make it a comfortable spot to sit during long meetings and busy days.

**Lucas** comes standard with arms at a height of 20½".

**The wire base** comes standard in West Elm WE05 Burnished Bronze with black glides.

**Seat height on wire base chair** is fixed at 18½".

**Swivel base** comes standard in 8046 Polished Aluminum. Swivel is a full 360° without an automatic return.

## Product Details

**Cushion** is detachable.

**All product in the Lucas product line** ships fully assembled.

## Surface Materials

**Swivel base** is 8046 Polished Aluminum.

**Wire base** is WE05 West Elm Burnished Bronze.

**Upholstery**  
• Billiard

**Contrasting fabric** is not available.

# Slope Seating

**Simple yet timeless design** allows the Slope family of seating to blend seamlessly into the modern office. A wide range of paint colors and upholstery options ranging from muted to playful add personality.

**Seat and back** are always fully upholstered.

**Stackable base configuration** allows for easier storage and cleaning. Stacking chairs can be stacked up to five high.

**Wire frame base** is painted.

**Glides** are polyethylene for superior durability on carpeted and hard floors. Glides are available in black.

**Five-star base** is available in hot rolled steel finish or black paint.

**Seat height** adjusts 4", from 17½"H to 20½"H, with a pneumatic adjustment mechanism.

## Product Details

Guest chair

Stacking chair

Lounge chair

Bar-height stool

Conference chair

**Five-star and wire-frame bases** are available for guest chair and stool.

**360° adjustable height swivel mechanism** is standard on five-star base models.

**Slope** ships knocked down and the seat must be assembled to the frame on site, with the exception of the stacker with arms and the guest chair with arms which ship fully assembled. All slope styles come in a single carton.

**Arms** are available as an option for guest, stacking, and conference chair.

**Slope stacking chairs** can be stacked up to five chairs high.
