

# Campers & Dens

Intuitively define *your* workspace

Campers & Dens is a comprehensive system of enclosed campers, semi enclosed cabins and awnings which can be used individually or in combination to provide a wide variety of workspace solutions to facilitate collaborative team meetings and individual focused work.

Campers & Dens has been designed to remove the complexity that comes with commissioning fixed solutions. In comparison to built-in, bespoke or partitioned office solutions, Campers & Dens is much faster, cleaner and simpler. They can be assembled, dis-assembled and readily re-located to be used again.

Campers come with integrated lighting, air circulation fan and power. When assembled they only need to be connected to a main power source using a standard 15A plug. The lighting system, air fan and opening roof system automatically activate when a person enters the camper, and automatically turn off after the camper is vacated.

Accessories like cabins and awnings help create layers of privacy to meet employee's individual needs and organizational goals.

## Product Description

### Standard Product Description

**Roof Height:** 92.5"

Roof open height: 92.5"

Minimum ceiling height: 9'3"

**Sliding Door:** As standard.

**Glass:** 8mm tempered glass.

**Hoop Power:** 3 NEMA Power Outlets.

**Fan:** Integrated Ventilation system.

**Roof:** Opening Roof as standard.

**Integrated Lighting:** As standard.

**Door Handle:** V3AK Natural Oak or VP03 Black Oak

**Fascia Panels Finish Options:**

Fabric from one of the following collections:

Billiard Multi-Use, Buzz2, Intersection, Stencil, and a number of graded-in fabrics.

**Internal/External Vertical or Horizontal Fabric Panel Options:**

Fabric from one of the following ranges:

Billiard Multi-Use, Buzz2, Intersection, Stencil, and a number of graded-in fabrics.

### Standard Materiality Selection – Kinks

**Fabric:** Billiard Multi-Use, Buzz2, Intersection, Stencil, and a number of graded-in fabrics.

**Laminates:** Solid HPL, Woodgrain HPL, Speckle HPL, Fiber HPL, Markerboard, Micro HPL, Patina HPL.

**Plywood:** 3863 Poplar Plywood.

### Standard Materiality Selection – Tables

**Table Top Finishes:** Laminate Group options - Solid HPL, Woodgrain HPL, Speckle HPL, Fiber HPL, Micro HPL, Patina HPL.

**Table Legs:** V3AK Natural Oak or VP03 Black Oak.

### Standard Materiality Selection – Awnings

**Finish Options:**

**Cord:** 9023 Bright Orange, 9024 Dark Olivine, 9025 Pewter, 9026 Black.

**Plywood Slats:** 3863 Poplar Plywood.

**PET Slats:** PC16 Empire or PC17 Flatiron.

**Sheer Fabric:** P451 Merle, P452 Seagull, P453 Storm Cloud, P454 Chardonnay.

**Foot Finish:** V3AK Natural Oak or VP03 Black Oak.

### Standard Materiality Selection – Hacking

**Plywood Hacks:** Straight Plywood Slats or Wavy Plywood Slats.

### Optional Upcharges – Campers

**Hoop Power:** Various plug type power options are available. Please refer to the spec guide for the information on options for power.

**Optional Whiteboard:** Available on both Internal and External Panel options. Available on any Vertical Panel.

**Monitor Bracket:** Hoop Mounted Monitor Bracket and Panel Mounted Monitor Bracket options available as an upcharge.

**Table Fixing Points:** Small and Medium Panel Mounted Table options available as an upcharge, and can be mounted centered on the hoop or on a center panel.
