Lasting Flexibility

How do you design for a dynamic present and ever-changing future?

Convey™ modular casework provides an elevated level of choice, quality and design flexibility. A spectrum of modular components support smart space planning and dynamic care needs.

Components align along a continuous rail and micro-adjust for a perfect fit. Precision engineering enables consistent, flexible performance across a variety of settings, floors and facilities. As needs change, Convey adapts.

ADAPTABLE SPACES

Convey integrates with V.I.A.™ modular wall to create spaces for focused work or consultation. Fully modular, this solution installs with ease, minimal disruption and the ability to repurpose components later.

IM#: 18-0105266

DESIGNED FOR HEALTH

With supplies and utilities in easy reach, clinicians can focus on patients and families. White interiors increase visibility for cleaning. Soft-close hinges prevent pinches and keep noise levels low.

IM#: 18-0105265

QUALITY + PERFORMANCE

Convey looks, feels and fits like custom carpentry. It is engineered and tested to meet stringent standards, manufactured with precision, and backed by expert support and a limited lifetime warranty.

Clear Walnut	Ash Wenge	Shiraz Cherry

Colors are representative and may vary slightly from actual material.

For more information on these and other finishes and options, including the full range of available laminates and solid surfaces, visit us online and view our *Specification Guide*. Additional solid surface finishes are available through the Steelcase Health Graded-In Program.

SUSTAINABILITY

At its heart, sustainability at Steelcase is about people. It's about creating and supporting the economic, environmental and social conditions that allow people and communities to reach their full potential.

Research and insights direct our path. It's not only about creating goods, it's about creating good. It's not only about creating value, it's about living our values. It's not just about reducing our footprint, it's about expanding our reach. It's about creating lasting and meaningful change to enable the long-term wellbeing of current and future generations.

Innovative products and solutions result. In the development of our products, we work to consider each stage of the life cycle: from materials extraction, production, transport, use and reuse, until the end of its life. We demonstrate performance through third-party verified certifications and voluntary product declarations.

Steelcase's sustainability promises, actions and results are communicated in an annual Corporate Sustainability Report.
