KWICKSCREEN[®]
MAKING SPACES

Whatever your environment, our team will guide you through the process of choosing prints to suit your space. Please choose your images using the codes underneath the images displayed and refer these back to your representative.

Your design can be printed onto either semi-transparent, frosted or opaque panels. Semi-transparent and frosted screens are a good option for when visual monitoring is necessary, and opaque is perfect for privacy. Please let your representative know your preference.

The number of prints you can choose will vary depending on the product. Please refer to the table below to check how many images you need to select for your products.

Product	Panels	Dimensions of Printed Images
