

# Orangebox Specification Guide

## Availability

**Electronic price list updated** with release 200.M (U.S.) and 156.M (Canada), dated June 17, 2024.

All specifications subject to change without notice. Reference the electronic catalog/Hedberg for current pricing.

Transitional products in this specification guide are **maintained for existing customers only** and are likely to be phased out over time. These products are indicated with a . Products that are scheduled to be culled are indicated with an , followed by the last order entry date.

## Surface Materials

**The surface materials team** has announced the launch of the Finish Library, found at [www.steelcase.com/finishlibrary/](http://www.steelcase.com/finishlibrary/).

► For a list of all trademarks, refer to the last page of this specification guide. © 2024 Steelcase Inc.

### For Canadian Pricing

Canadian factor can be found at [www.steelcase.com/CADpricing](http://www.steelcase.com/CADpricing). Calculate in the following order to avoid rounding errors:

- Multiply the base price and each option by the Canadian factor.
- Round each to the nearest dollar.
- Add base and options for total list price.

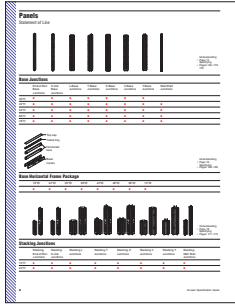

# Ten Tips: How to Get the Most Out of This Book

## Tip 1

**Watch** the tabs on the right-hand edges of the pages. They'll always indicate which chapter you are in.

## Tip 2

**Use the Statement of Line pages** for an overview of the available components, their sizes, and page references for additional information. Each *Understanding* chapter includes a statement of line after the table of contents.

## Tip 3

**Find cross references** by looking for page numbers flagged with an arrow.

## Tip 4

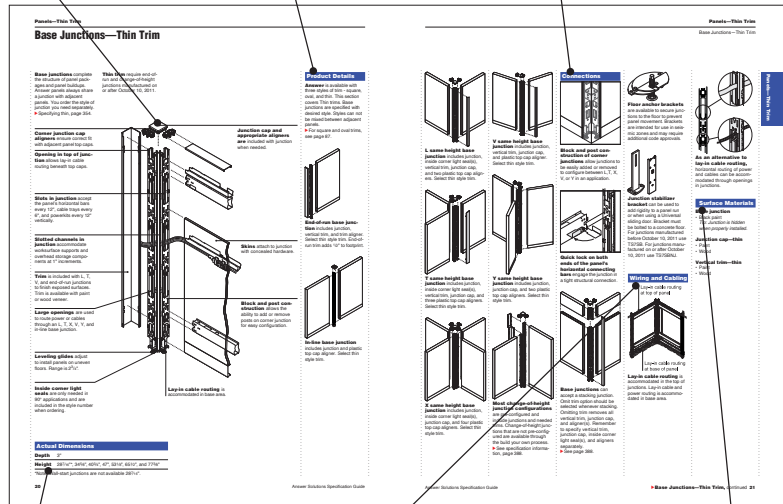

**Study the product detail pages** in the *Understanding* section to learn everything an expert knows about specific products. Each product detail page in this section contains the following features, where applicable:

- Product Drawing
- Actual Dimensions
- Product Details
- Connections
- Wiring and Cabling
- Surface Materials
- Application Topics

**Product Drawing** shows you what the product looks like and points out important features.

**Product Details** gives specific information on the product and how it is used.

**Connections** describes how the product is assembled or how it attaches to another product.

**Actual Dimensions** table lists the dimensions of the product.

**Wiring and Cabling** details the power and cable-management and cable routing capabilities of the product.

**Surface Materials** lists what material is used for each part of the product.

**Tip 5**

**Refer to the specifying pages** for all the information needed to order a product. Each product specifying page contains a variety of elements to help you complete a specification:

- Product Drawing
- Standard Includes
- Options
- Specification Information
- Dimensions
- Style Number
- Price

**Product Drawing** shows you what the product looks like.

**Standard Includes** (under the red or dark grey band) provides a list of what comes standard with the product.

**Specification Information** (under the teal or light grey band) provides product dimensions, style numbers, and prices for the standard product and any surface material choices that are available.

**Options** (under the black band) lists all the options that apply to the product, their price, and what is required to specify.

**Tip 6**

Required to Specify
Specify with <i>Customiz Stain</i>

**Italic typeface** on specifying pages usually identifies wording that you should use in your order.

i

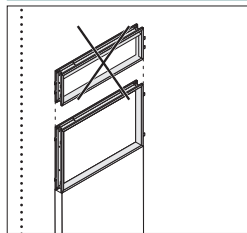

**Tip 7**

**To determine** how many skins are needed to complete a panel, consult the table at the right.

*Tip: Remember to order skins for both sides of the panel buildup.*

**Watch for tips** throughout the text that give you explanations and helpful instructions.

**Tip 8**

**Learn what you cannot do** by looking for drawings crossed out with an "X".

**Tip 9**

Style Number	Page
<b>TS7042BL</b>	131
<b>TS7042S</b>	130
<b>TS7048BL</b>	131
<b>TS7048S</b>	130
<b>TS7060BL</b>	131
<b>TS7060S</b>	130
<b>TS7072BL</b>	131

**Refer to the style number index** when you know a style number and you need to find the page that has more details about the product.

# Additional Resources

**Orangebox products** are supported with informational materials, tools, and software to help you plan, specify, and order an installation efficiently.

## Printed Materials

### Other Specification Guides

Steelcase offers a comprehensive portfolio of furniture and solutions. For the full offering of products, refer to the individual product specification guides. These can be accessed at the [www.steelcase.com](http://www.steelcase.com) web site or at [village.steelcase.com](http://village.steelcase.com)

## Computer Tools

### Electronic Catalog

Accurate sales quotations and purchase orders for Steelcase products are created with specification software that uses Steelcase Electronic Catalog data. Use the data to specify and price style numbers and options for every Steelcase product. The data is updated bimonthly by Steelcase and provided to software programs including: the Hedberg Business System, SmartTools—Steelcase's design and specification software (for more information on SmartTools, please email [SmartTools@steelcase.com](mailto:SmartTools@steelcase.com)), the ProjectMatrix Project Symbols libraries, as well as 20-20 CAP Studio.

### Furniture Symbol Graphic Data

Steelcase creates 2D and 3D furniture symbols (with attributes) for planning and initially specifying Steelcase products. This data is incorporated into several add-on software packages that work in either a Microstation or an AutoCAD drafting environment.

### Digital Publications

You can access these digital publications at [www.steelcase.com](http://www.steelcase.com) or [village.steelcase.com](http://village.steelcase.com).

## Support

### Steelcase Capabilities

Steelcase products are distributed, installed, and serviced through a network of more than 600 dealers worldwide. Steelcase is also represented with offices and corporate showrooms in 26 U.S. cities, 4 Canadian cities, and in France, Germany, Great Britain, and Japan. Every Steelcase product meets our exceptionally high standards of quality and durability and comes with the Steelcase assurance of excellence in service.

### For ordering or product assistance,

please call your local dealer, the Steelcase Solutions Resource Team, or the Steelcase Solutions Fulfillment Team at 1.888.STEELCASE (1.888.783.3522) or send an e-mail to [lineone@steelcase.com](mailto:lineone@steelcase.com).

Call the Steelcase Solutions Resource Team prior to placing an order, when working on a bid, or when you need information about product applications and specifications.

Call the Steelcase Solutions Fulfillment Team if you have submitted an order to Steelcase and you need to speak to your Solutions Fulfillment Team Representative about the order. Also call if you have any post-shipment quality concerns or service parts questions.

For warranty information, please go to: <http://www.steelcase.com/warranty/>.

Outside the U.S.A., Canada, Mexico, Puerto Rico, and the U.S. Virgin Islands, call 1.616.247.2500.

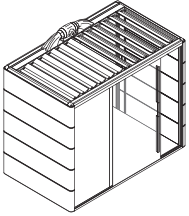

For information about Steelcase, the name of your nearest Steelcase dealer, or for product literature, call 1.800.333.9939 or visit our Web site: [www.steelcase.com](http://www.steelcase.com).

# Air<sup>3</sup>

**Air<sup>3</sup>** is a modular freestanding meeting room. Its internationally patented opening roof system features an advanced fire safety system developed specifically for sprinklered office environments.

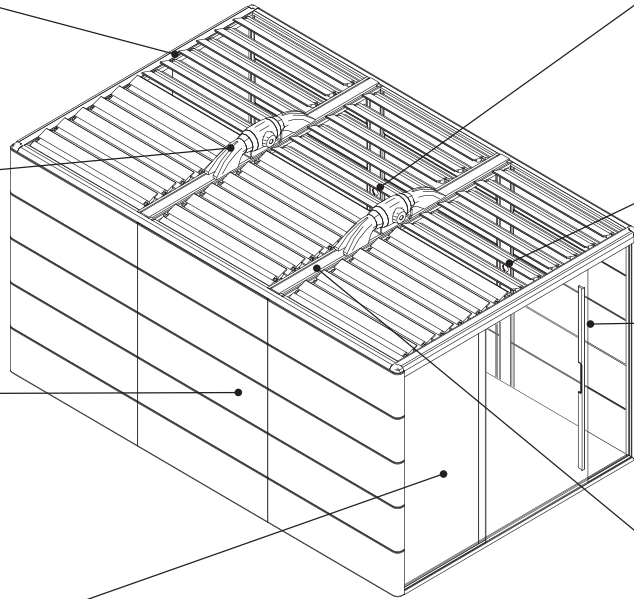

► Specifying, pages 52–58

**Louved roof** controlled by motion sensor as well as user control buttons.

**Air circulation fan.**

**Exterior and interior side panels** are upholstered acoustic panels.

**Front and back panel glass** are tempered glass.

**Service hoop control panel side** includes touch button controls for lighting, air circulation, and roof.

**Service hoop power side** includes three NEMA 5-15 3-prong power outlets and two data connection cutouts.

**Sliding glass door** can be fitted to open right to left, or left to right, at time of installation.

**Service hoop horizontal bar** includes three LED lights, two heat detectors, monitor sensor, and fan.

**Pod Dimensions**

	External Dimensions			Internal Dimensions			
	Depth	Width	Height	Depth	Width	Height*	Weight
<b>OB1AIR23</b>	5' 6"	9' 2"	8' 4"	5' 1"	8' 7"	7'	1017 lb
<b>OB1AIR25</b>	9' 9"	9' 2"	8' 4"	9' 5"	8' 7"	7'	1313 lb
<b>OB1AIR27</b>	14' 5"	9' 2"	8' 4"	14' 1"	8' 7"	7'	1738 lb
<b>OB1AIR29</b>	14' 4"	13' 4"	8' 4"	14' 1"	13'	7'	2085 lb

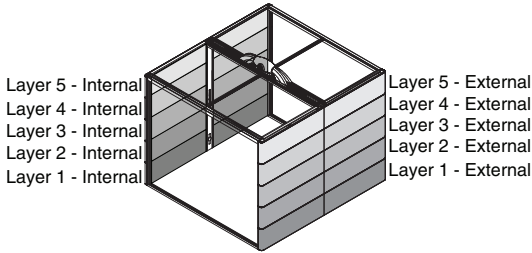

*Tip: Minimum height recommended for a sprinkler covered space is 9'3" to allow for 18" clearance between the top of the open roof blade and a sprinkler head above it. These are recommendations as it is still up to the local authority having jurisdiction to identify their building requirements.*

*\*Internal height when roof blades open is 6'9".*

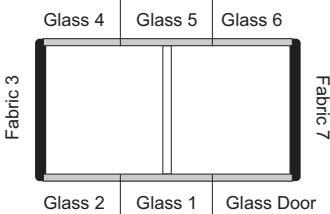

**Table Dimensions**

	Depth	Width	Height	Weight
<b>OB1AIR30</b>	69"	45"	29"	56 lb
<b>OB1AIR35</b>	24"	61"	29"	47 lb

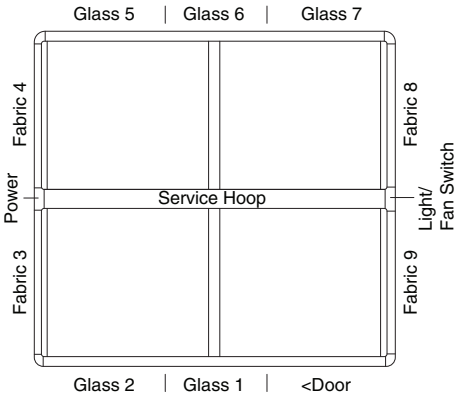

**Product Details**

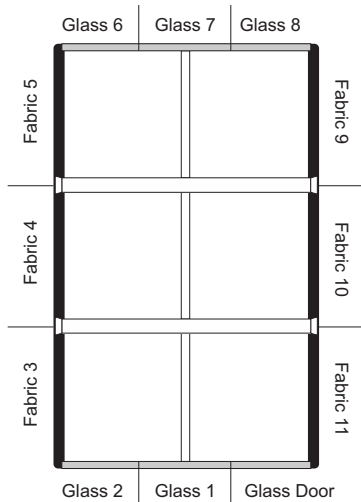

**Fabric panel layer numbering** begins from the bottom position.

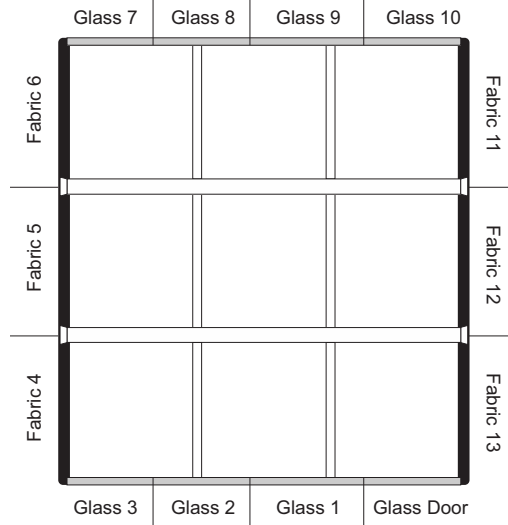

**Air23 configuration**

**Air25 configuration**

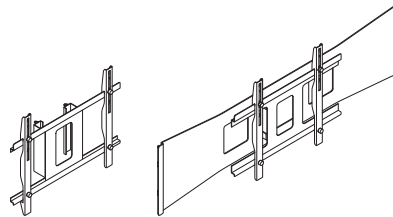

**Air27 configuration**

**Air29 configuration**

**Panel positions** account for both glass and fabric panels and are determined when standing outside of the pod with a right to left opening door.

**Optional whiteboards** can be installed in place of internal fabric panels on layers 3 and 4. Dimensions are 50<sup>3</sup>/<sub>4</sub>" x 34<sup>3</sup>/<sub>4</sub>".

**Monitor brackets** are available in two different styles and both support a monitor up to a maximum weight of 55 pounds:

- Over upholstery monitor brackets—mounted directly to the fabric panels on layers 3 and 4.
- Hoop mounted monitor brackets—attached to the power side of the service hoop.

**Space Layout Constraints**

**Do not obstruct** exit corridor. Ensure visibility to on site alarm strobes is not blocked. If sprinklers are not required interior to the unit, be advised that local codes typically prohibit obstructions within 18" (457.2 mm) of the existing building sprinklers. Ensure final placement of the unit does not block airflow inlets or outlets of the building or unit ventilation systems.

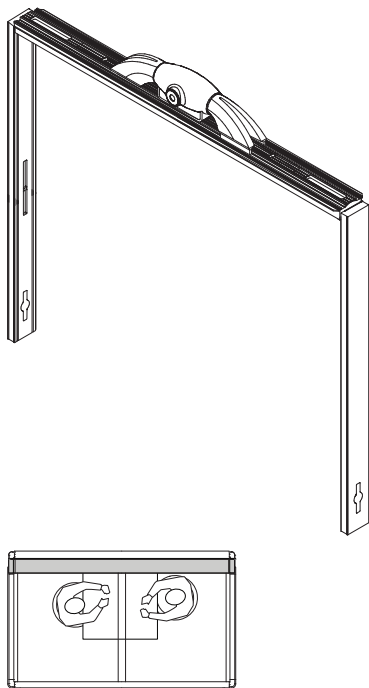

### Electrical Connections

**Hardwired units:** Electric power is delivered through a hardwired connection which must be routed to a junction box in the floor, wall, or ceiling via a conduit whip. Orangebox does not provide the conduit whip to make the power connection to the building. It is the responsibility of the qualified site electrician to supply and install a suitable power connection to the building in accordance with local codes.

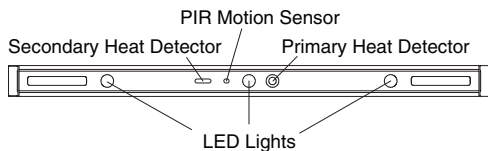

**The assembly directions and user guide** describe the enclosures which contain the electrical services such as power, lighting, and airflow. Lighting, fan, outlets, and sensors share one circuit within the unit. The enclosure may accommodate a single 15 Amp connection. The maximum loading of the components within the enclosure is 1.8 Kilowatts at 120 VAC.

**Power usage when occupied** is 100W (not including any plugged-in external equipment) per hoop.

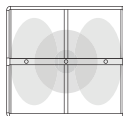

### Electrical Components

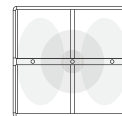

**The service hoop** contains all the electrical services, including power, lighting, and airflow.

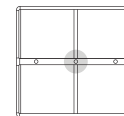

**Service hoop horizontal bar** includes three LED lights, two heat detectors, motion sensor, and fan.

**Work**  
Lux level at table height: 450-850  
Center light: 100%  
Outer light: 100%

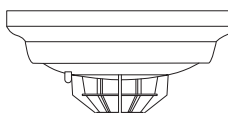

**Think**  
Lux level at table height: 120-400  
Center light: 50%  
Outer light: 20%

**Present**  
Lux level at table height: 50-60  
Center light: 20%  
Outer light: OFF

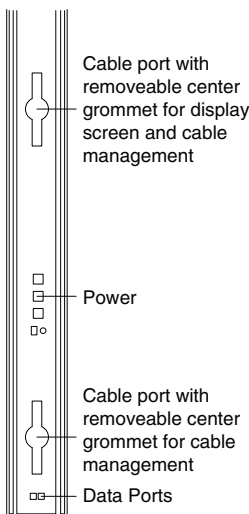

**Three LED lights** are used for illumination. The lights are 4000K with a max brightness of 1300 lumens.

**Passive inferred (PIR) motion sensor** turns on the power to the pod when activated. Power is shut off within the pod after five minutes of inactivity.

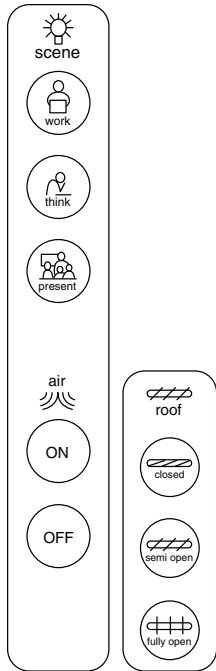

**Primary heat detector** will cut all power in the pod and open the roof fully if heat at 135°F (57°C) is detected.

**Secondary heat detector** acts as a failsafe fusible link and will cut all power in the pod and open the roof fully if heat at 150.8°F (66°C) is detected.

**Service hoop power side** comes standard with three NEMA 5-15 3-prong power outlets, two data connection cutouts, and two cable ports with removable center grommet for cable management.

**Service hoop control panel side** includes touch button controls for lighting, air circulation, and roof.

**The patented louvred roof** has three settings: fully open, semi open, and closed. When the pod is unoccupied, the roof is always open. When entering the pod, the passive inferred sensor (PIR) senses movement and closes the roof to create acoustic privacy. When the pod is occupied, it is possible to select either 10° (semi) or 90° (fully) open position manually for enhanced airflow. The PIR turns the power off after five minutes and the roof automatically opens.

**Occupancy sensor** activates the lights and fan. The sensor operates at low voltage and utilizes both ultrasonic and infrared sensing to avoid false triggering.

### Airflow and Handling

**Ventilation fans** are rated at 330 cubic feet of air per minute (CFM) and 23 dBA.

*Tip: Fan CFM ratings alone cannot be used to determine the actual system ventilation rate.*

### Building and Fire Code Compliance

**Seismic considerations:** For seismic considerations, the building’s Structural Engineer of Record (SEOR) must be consulted. Seismic structural analysis report prepared by a licensed professional engineer may be required for specific locations.

**Fire suppression:** Sprinkler requirements are an important consideration for product assembly. Local codes may impact the number and location of mandated sprinklers. It is important to check with the local authorities to ensure product installation meets local requirements. If required, sprinkler location options within the unit are identified in product-specific assembly directions.

**Fire alarms:** National Fire Protection Agency (NFPA) 72 requires a fire alarm to be at least 15 dB above ambient to ensure occupants can hear the alarm. This is an on-site requirement. This may require a visible and/or audible notifier within the unit. If the unit is equipped with a fire detection system, some jurisdictions may require it be connected to the building’s fire detection system.

**Energy efficiency:** ASHRAE 90.1 and California Energy Commission (CEC) Title 24 identify lighting controls and power density requirements. This is an on-site requirement. Ensure this unit in its final environment adheres to these standards by confirming with local authorities.

# Campers & Dens

## Camper

**Louvered roof** is controlled by a motion sensor as well as user buttons.

**Service hoop control panel side** includes touch button controls for lighting, air circulation, and roof. Control panel side of hoop is on the door side.

**Service hoop power side** includes 3 NEMA power outlets. Data and HDMI can be selected as an option. Power side of hoop is opposite of the door.

**Service hoop horizontal bar** includes LED lights, smoke detector, motion sensor, and fan.

**Fascia** is available in paint or fabric.

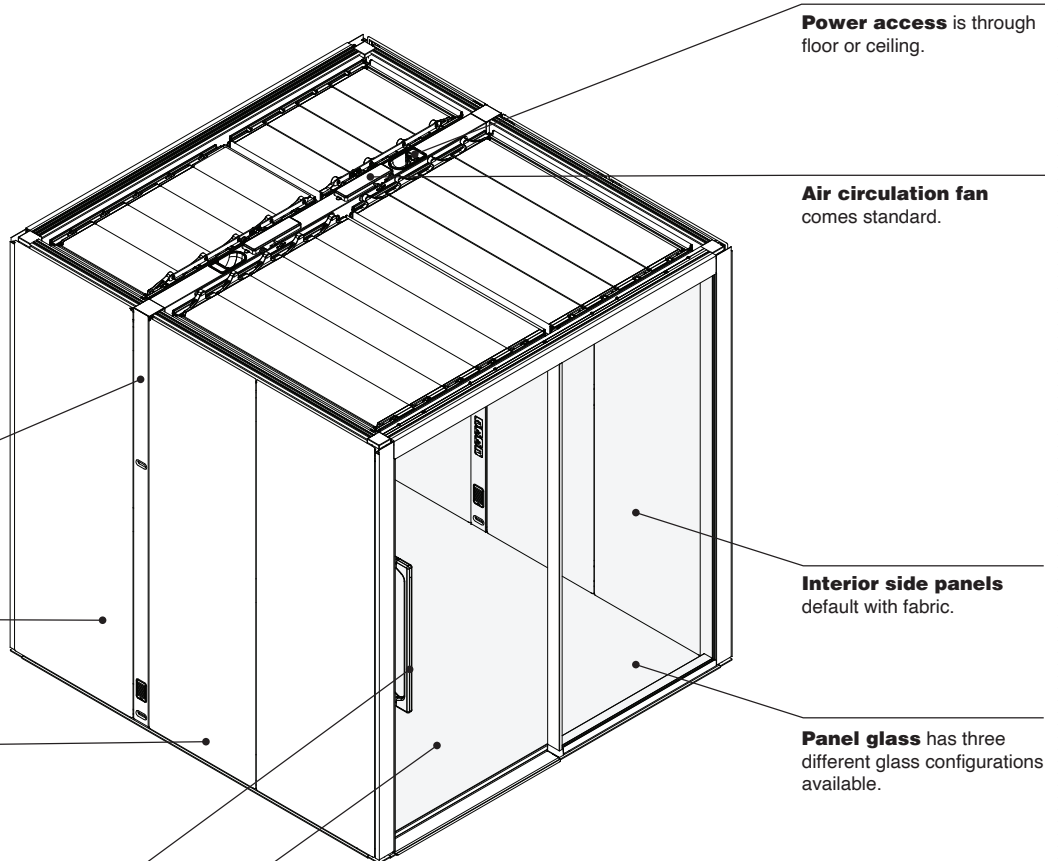

**Frame** comes standard in black paint.

**Exterior side panels** come with fabric, laminate, or plywood.

**Contrasting panels** can be selected where one panel per wall can be a contrasting fabric or laminate. Interior panels cannot have two hard surfaces meet at corners.

**Door handle** is available in natural oak or black oak.

**Sliding glass doors**, right or left-handed style numbers available. Handedness is indicated by door position when facing unit.

**Power access** is through floor or ceiling.

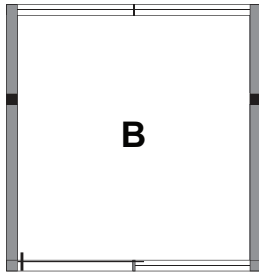

**Air circulation fan** comes standard.

**Interior side panels** default with fabric.

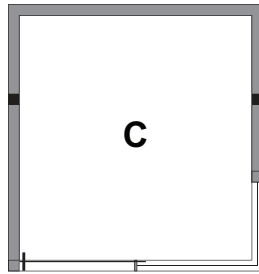

**Panel glass** has three different glass configurations available.

**Product Details**

**Panel specification:** internal and external panels can be specified by wall or by individual panel. If contrasting is selected, only one panel per wall can be contrasting.

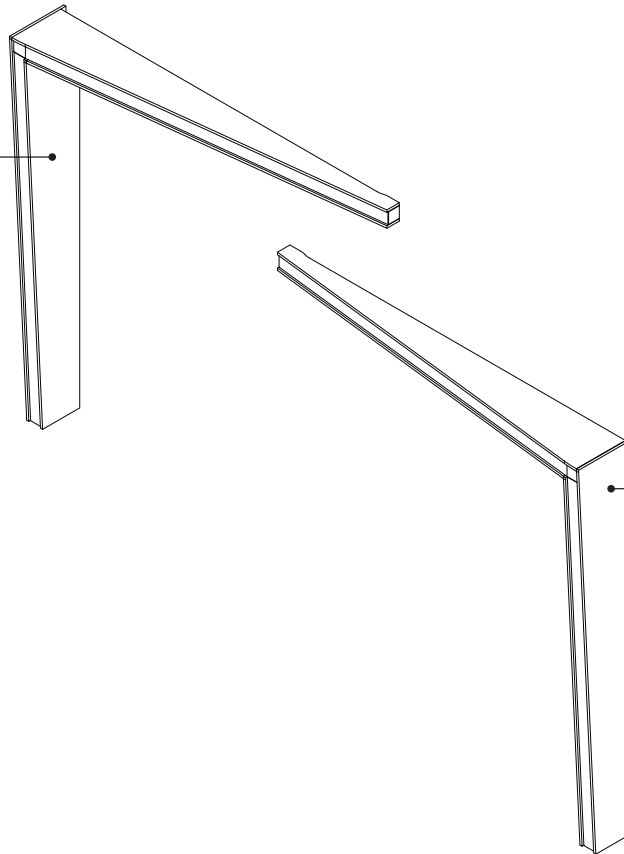

*Tip: Only a single panel will be specifiable as contrasting.*

# Campers & Dens

## Kink

**Fascia** is available in painted black.

**Interior and exterior** are available in laminate, fabric, or plywood.  
*Tip: Kinks can only be applied to the front door wall. Handedness matches the door opening direction.*

**Frame** comes standard in black paint.

# Campers & Dens

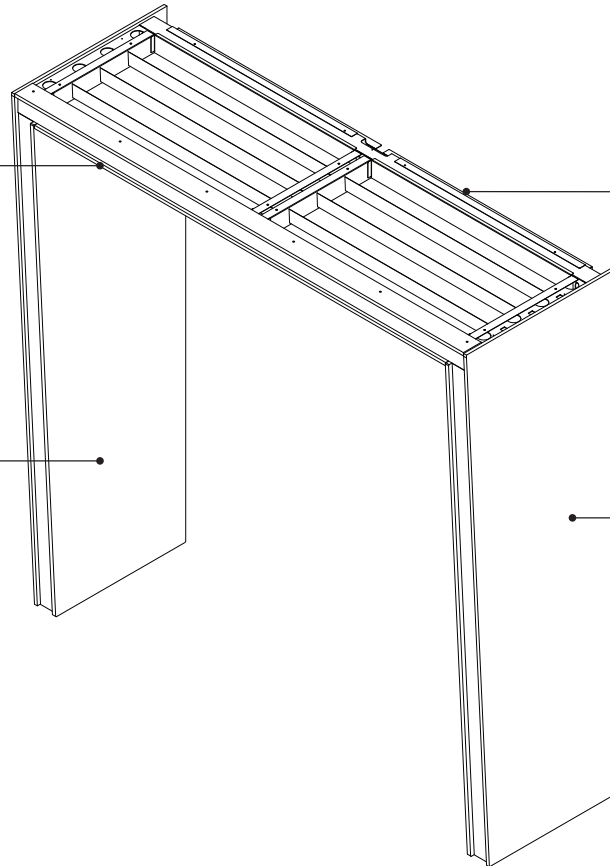

## Cabin

**Roof** is available as a solid or slatted roof.

**Cabin** LED lighting can be added as an option, mounted under the roof near the back of the cabin. Additional power from the building is required for the lights.

*Tip: Cabins can only be applied to the back of the camper (wall 2).*

**Interior panels:** fabric

**Fascia of cabin** is always black.

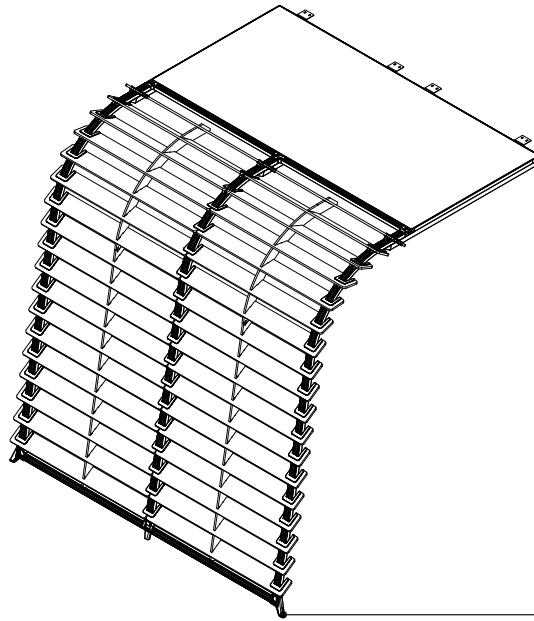

**External panels** come with fabric, laminate, or plywood.

# Campers & Dens

## Awning

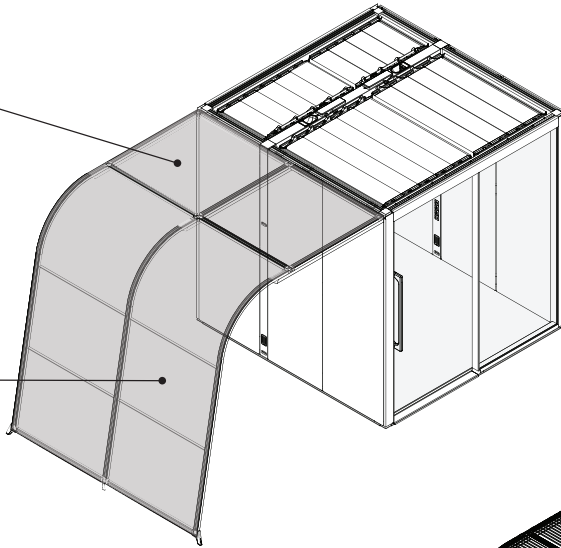

**Frame** is available in black paint.

*Tip: Awnings can attach to any wall of a camper, including the front.*

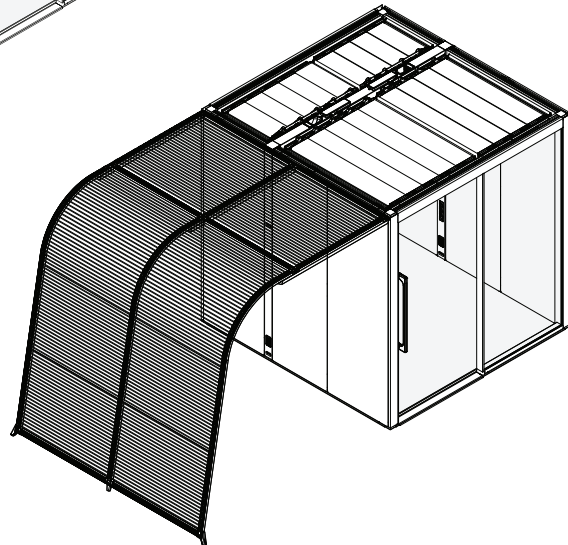

**Foot** is available in natural oak or black oak.

**Top** is available in sheer fabric or cord.

**Side** is available in sheer fabric, cord, PET slats, or plywood slats.

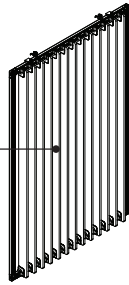

# Campers & Dens

## Hacking

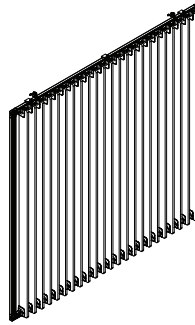

**Hackings** are made out of poplar plywood.

**The slat design** is available with straight or wavy slats.

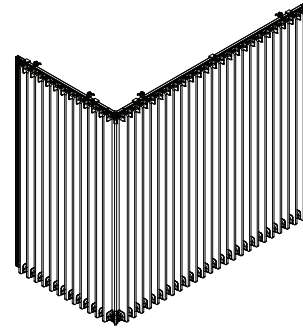

*Tip: Hacking cannot cover door or share wall with cabin, kink, or awning.*

Up to Glass Corner

Full Pod Depth

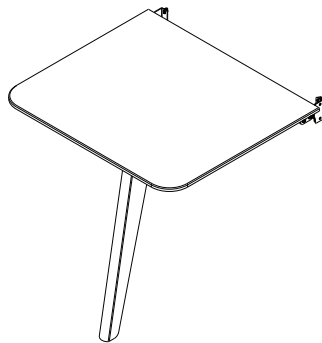

Around Corner

# Campers & Dens

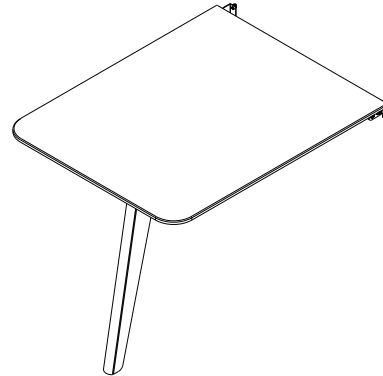

## Tables

**Tables** come standard with a blade edge.

**Tables** can be mounted on the camper center panel.

Small Wall Mounted Table

Medium Wall Mounted Table

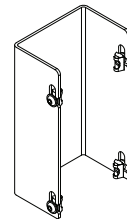

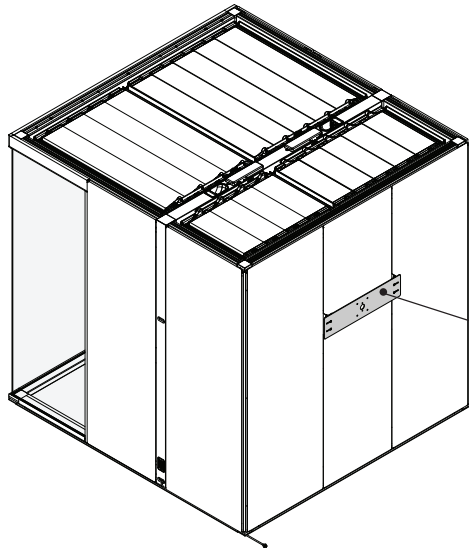

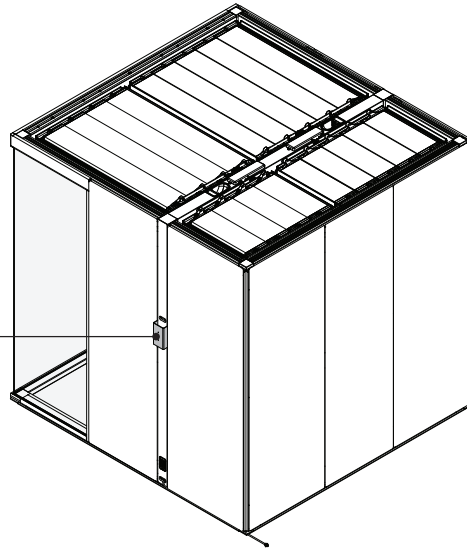

# Campers & Dens

## Monitor Brackets

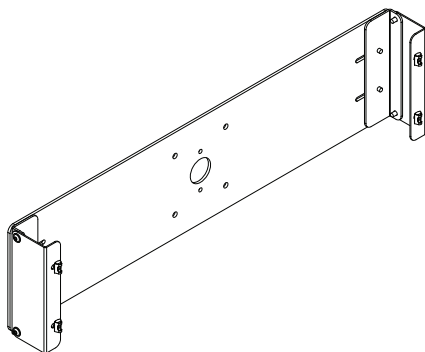

**Monitor brackets mount** to hoop on the interior or exterior of the camper.

**Mount height of the mount location** is flexible and can be determined during the installation.

Hoop Mounted Monitor Bracket

**Off hoop (panel) mounts** are centered on a panel.

Off Hoop (Panel) Mounted Monitor Bracket

### Space Layout Constraints

**Do not obstruct** exit corridor. Ensure visibility to on site alarm strobes is not blocked. If sprinklers are not required interior to the unit, be advised that local codes typically prohibit obstructions within 18" (457.2 mm) of the existing building sprinklers. Ensure final placement of the unit does not block airflow inlets or outlets of the building or unit ventilation systems.

**The product** contains a magnet in the door-post assembly.

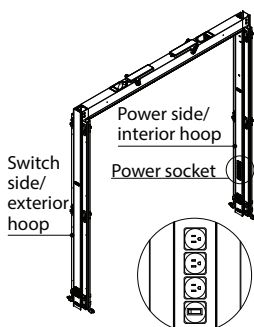

### Electrical Connections

**The camper** includes a 9-foot cord attached to the power side of the hoop on the outside of the pod powering the pod and one set of outlets on the interior power side of the camper. Power cords can accommodate either floor or ceiling sources. All power cords can be rerouted to the inside of the pod for floor power located inside the pod.

**The power placement in the floor** should be located on the power side of the hoop. Additional floor power is required for accessories in awning and den. We recommend the floor power be located at the base of the switch side on the outside of the pod.

**The assembly directions and user guide** describe the enclosures which contain the electrical services such as power, lighting, and airflow. Lighting, fan, outlets, and sensors share one circuit within the unit. The enclosure may accommodate a single 15 Amp connection. The maximum loading of the components within the enclosure is 1.8 Kilowatts at 120 VAC. Power usage when occupied is 100W (not including any plugged-in external equipment) per hoop.

### Electrical Components

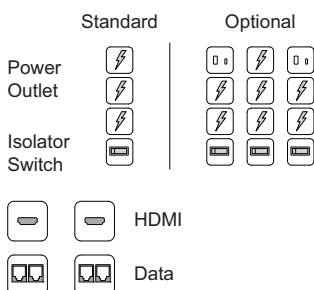

**The service hoop** contains all the electrical services including power, lighting, and airflow.

### Power Options

**Power** is located on the power-side of the interior of the service hoop. This is the side that is opposite of the camper door.  
*Tip: The hoop can be reversed at installation so that the power is located on the same side as the door.*

**The standard power** includes three power outlets. USB A + C can be added as an option in place of one of the power outlets.

**HDMI, data ports, and cables** can be added as an option. If selected, these ports are located on the service hoop at the worksurface height.

### Building and Fire Code Compliance

**Seismic considerations:** For seismic considerations, the building's Structural Engineer of Record (SEOR) must be consulted. Seismic structural analysis report prepared by a licensed professional engineer may be required for specific locations.

**Fire suppression:** Sprinkler requirements are an important consideration for product assembly. Local codes may impact the number and location of mandated sprinklers. It is important to check with the local authorities to ensure product installation meets local requirements. If required, sprinkler location options within the unit are identified in product-specific assembly directions.

**Fire alarms:** National Fire Protection Agency (NFPA) 72 requires a fire alarm to be at least 15 dB above ambient to ensure occupants can hear the alarm. This is an on site requirement. This may require a visible and/or audible notifier within the unit. If the unit is equipped with a fire detection system, some jurisdictions may require it be connected to the building's fire detection system.

**Energy efficiency:** ASHRAE 90.1 and California Energy Commission (CEC) Title 24 identify lighting controls and power density requirements. This is an on-site requirement. Ensure this unit in its final environment adheres to these standards by confirming with local authorities.

### Surface Materials

**Frame finish (camper, awning, cabin, and kink)**

- Black

**Paint**

- Accent Paint
- Lux Coatings
- Perfect Match
- Smooth Metallic Paint
- Smooth Paint
- Textured Paint

- VP03 Black Oak

# On the QT

## On the QT phone booths

were designed to provide compact enclosed space in open plan workspaces to allow work to be carried out more effectively with reduced distractions.

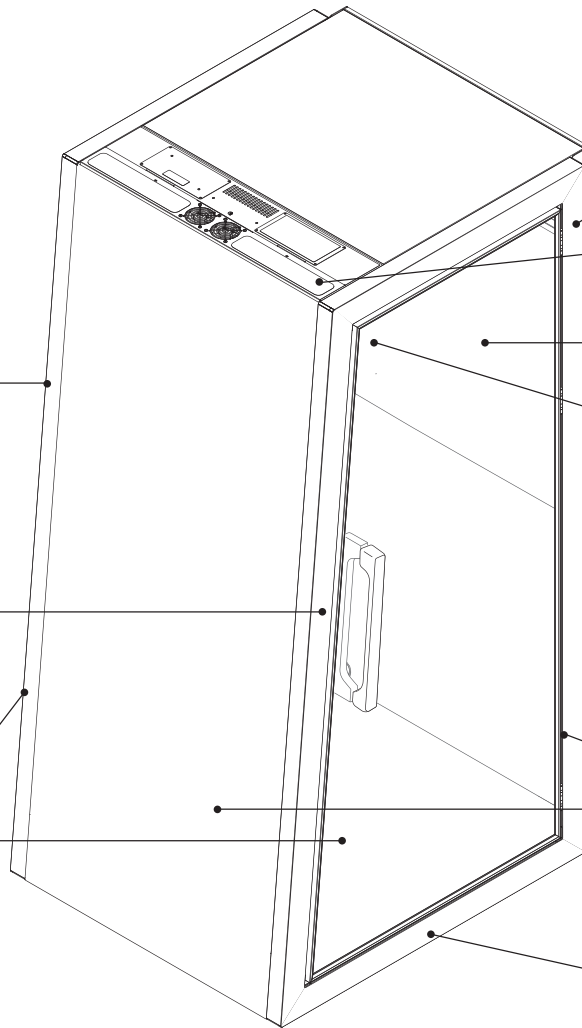

► Specifying, pages 92–99

**Frame** constructed of aluminum.

**Cover caps** frame the glass door and glass wall. Available in a range of paint finishes.

**Front and back panel glass** are clear laminated glass.

**Seat** designed with ergonomic focus to promote comfortable longer term use.

**Occupancy light** illuminates red when booth is in use.

**Fan** built discretely into the roof panel.

**Interior cladding** is polyester felt.

**Lighting** positioned near the front of the booth for optimal work lighting.

**Front and rear cladding** is laminate as standard, with option of fabric, painted steel, plywood, or whiteboard.

**Threshold height** is 5" min to 7" max.

**Tablet** included as standard.

**Angled seat face** creates a comfortable pivot space to enter the booth and sit.

Phone Booths

On the QT

On the QT, continued

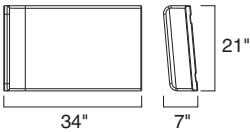

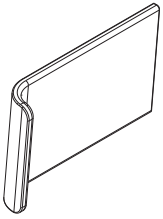

**Product Details**

**Left hand (LH) and right hand (RH)** are determined by the location of the door hinge when entering the booth.

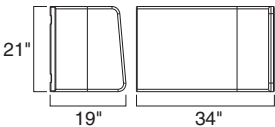

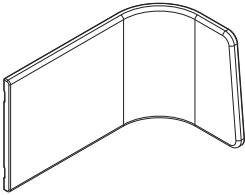

**Front and rear** are determined based on the user seated position. "Front" will indicate the wall the user faces, while "rear" will indicate the wall behind the user.

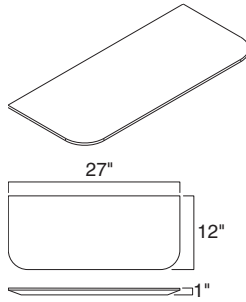

**Baffles** can be optioned to add an additional layer of visual and acoustic privacy. These fully upholstered baffles are available as a privacy screen or lean pad.

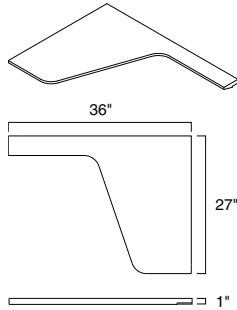

**Privacy screens** install to the front of the phone booth and sit above worksurface height.

**Lean pads** install to the rear of the phone booth and sit at shoulder/head height.

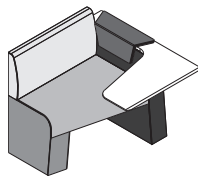

**Shelf** can be specified in both the short and tall phone booths. When specified, the shelf height is 28<sup>3</sup>/<sub>4</sub>" in the short booth and 41<sup>3</sup>/<sub>4</sub>" in the tall booth.  
*Tip: Shelf should not be optioned if an On the QT furniture unit (OB1QTF01 or OB1QTF02) is specified.*

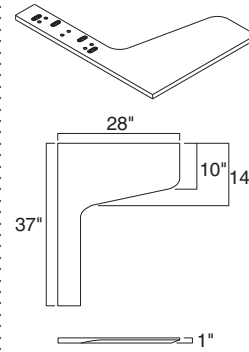

**L-shelf** can be specified in the tall phone booths only. When specified, the shelf height is 41<sup>3</sup>/<sub>4</sub>".

**All worksurfaces** come standard in High-Pressure Laminate.

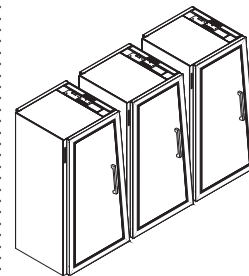

**Contrasting upholstery** option available on lounge furniture units with four specifiable upholstery surfaces.

**Each furniture unit** comes standard with an integrated worksurface in laminate.

**Occupancy light** is available as an option. When the phone booth is in use, the occupancy light will illuminate red. When not specified, illumination will not occur.

**Do not obstruct exit corridor.** Ensure visibility to on site alarm strobes is not blocked. If sprinklers are not required interior to the unit, be advised that local codes typically prohibit obstructions within 18" of the existing building sprinklers. Ensure final placement of the unit does not block airflow inlets or outlets of the building or unit ventilation systems.

**Electrical Connections**

**Hardwired units:** Electric power is delivered through a hardwired connection which must be routed to a junction box in the floor, wall, or ceiling via a conduit whip. Orangebox does not provide the conduit whip to make the power connection to the building. It is the responsibility of the qualified site electrician to supply and install a suitable power connection to the building in accordance with local codes.

**The assembly directions and user guide** describe the enclosures which contain the electrical services such as power, lighting, and airflow. Lighting, fan, outlets, and sensors share one circuit within the unit. The enclosure may accommodate a single 15 Amp connection. The maximum loading of the components within the enclosure is 1.8 Kilowatts at 120 VAC.

**Cord and plug units:** The unit is provided with a flexible power cord which is to be plugged directly into a building's hardwired electrical receptacle. A minimum spacing of 4" between the receptacle and the assembled unit is needed to protect the plug from damage.

**Total cord length** is 12' from the point of connection at the power distribution unit (PDU). Exposed length will be dependent on exit location.

Short phone booth:

- 116" when exiting from front
- 77" when exiting from rear

Tall phone booth:

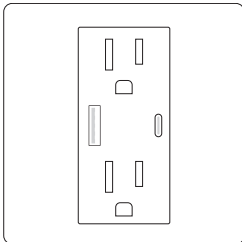

- 103" when exiting from the front
- 64" when exiting from the rear

**Power usage:** when occupied is 30W (not including any plugged-in external equipment).

## Electrical Components

**Occupancy sensor** activates the lights and fan. The sensor operates at low voltage and utilizes both ultrasonic and infrared sensing to avoid false triggering. Three minutes after the booth is vacated, all features will power down.

**One LED light panel** is used for illumination. The light is 3000K and 450 lux at worksurface height.

**When selected,** unit includes two power outlets, one USB A, and one USB C port. Each outlet will supply 3 Amps max with a total of 4.5 Amp max draw collectively.

**An isolator switch** is located directly below the power outlets and can be used to turn off all power to the booth.

## Airflow and Handling

**The air handling ventilation system** is designed to provide a minimum of 10 air changes per hour when the unit is occupied, per Business & Institutional Furniture Manufacturer's Association (BIFMA) Guidance for Pods (2020) and American Society of Heating Refrigerating and Air Conditioning Engineers (ASHRAE) 111 Testing, Adjusting, and Balancing of Building HVAC Systems.

**On the QT** has been designed to perform 35 (short booth) and 30 (tall booth) air changes per hour (ACH).

**Ventilation fans** are rated at 21.9 CFM and 21.5 dBA.

*Tip: Fan CFM ratings alone cannot be used to determine the actual system ventilation rate.*

## Building and Fire Code Compliance

**Seismic considerations:** For seismic considerations, the building's Structural Engineer of Record (SEOR) must be consulted. Seismic structural analysis report prepared by a licensed professional engineer may be required for specific locations.

**Fire suppression:** Sprinkler requirements are an important consideration for product assembly. Local codes may impact the number and location of mandated sprinklers. It is important to check with the local authorities to ensure product installation meets local requirements. If required, sprinkler location options within the unit are identified in product-specific assembly directions.

**Fire alarms:** National Fire Protection Agency (NFPA) 72 requires a fire alarm to be at least 15 dB above ambient to ensure occupants can hear the alarm. This is an on-site requirement. This may require a visible and/or audible notifier within the unit. If the unit is equipped with a fire detection system, some jurisdictions may require it be connected to the building's fire detection system.

**Energy efficiency:** ASHRAE 90.1 and California Energy Commission (CEC) Title 24 identify lighting controls and power density requirements. This is an on-site requirement. Ensure this unit in its final environment adheres to these standards by confirming with local authorities.

### PerfectMatch

PerfectMatch is a service that allows you to create your own paint color. Refer to the *Surface Materials Reference Guide* for more information about this program.

# Aspect

**Aspect** is a high back, semi-enclosed sofa line. Aspect sofas can be connected via a screen to create semi-private working booths with power and media capabilities.

► Specifying, pages 101–115

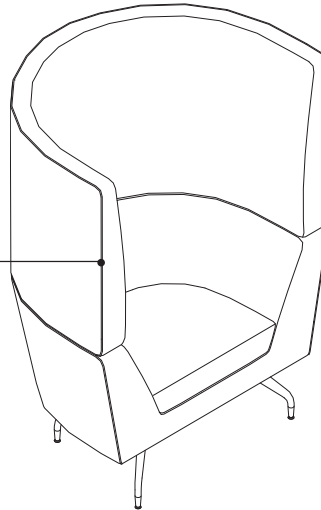

**Feet adjustable** up to 1/2".

**Legs** 8" high.

**Table top** available in laminate with tapered edge detail.

**Reveal seam** intrinsically designed for contrast, matching seat as standard.

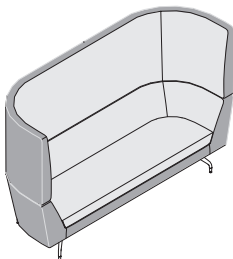

## Actual Dimensions

	Depth	Width	Height	Weight	Seat Depth	Seat Height	Worksurface Depth	Worksurface Width	Worksurface Height
<b>OBASPECT07HB</b>	29"	41"	54"	100 lb	19"	17"	N.A.	N.A.	N.A.

<b>OBASPECT59HB</b>	87"	97"	54"	457 lb	19"	17"	63"	32"	29"

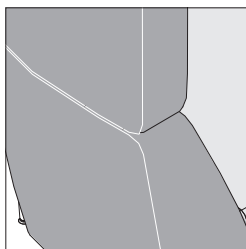

## Product Details

**Two-tone contrasting upholstery option** is available through specifying inner and outer contrasting colorways.

*Tip: Inner/outer selection must stay in the same fabric family.*

**Patterned fabric** works best when specified on the seat only. Patterns should be avoided on the upper and lower body due to predominant double stitch seams making pattern matching unachievable.

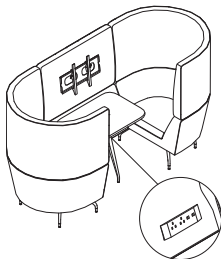

**Reveal seam** matches seat as standard but can match body finish or "other." Other allows specification to be independent of the seat and body finish selection.

*Tip: Reveal seam not allowed to match seat when patterned.*

*Tip: Reveal seam may only be vinyl if body is also vinyl.*

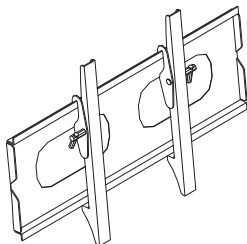

## Power and Media

**Power** integrated in lower screen when optioned on media den units.

- 4 power outlets
- 2 power, 1 CAT6 data, 1 dual USB-A outlets
- 2 power, 1 CAT6 data, 1 HDMI outlets
- 2 power, 2 CAT6 data outlets

**72" cord length** exits through bottom of lower screen and comes fitted with a standard NEMA 5-15 plug.

**Tilting monitor brackets** available as an option on media den units. Monitor bracket supports a single screen up to 32" and 44 pounds.

**Wire channel and grommet** are located in the upper screen for cable management.

Product Details

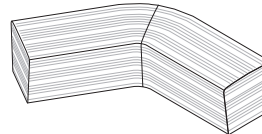

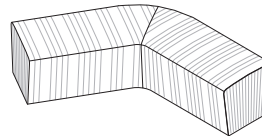

**Contrasting upholstery option** possible through specifying each surface independently.

The four main upholstery surfaces are:

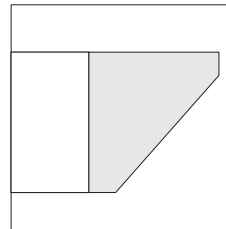

- Seat
- Backrest inner
- Backrest outer
- Screen

**Patterned fabric** works best when specified on the seat or inner back only. Patterns should be avoided on the outer back and screen due to predominant double stitch seams making pattern matching unachievable.

**Away from the Desk** is upholstered utilizing the width of fabric rolls. This means when a pattern is specified it will always lie railroad.

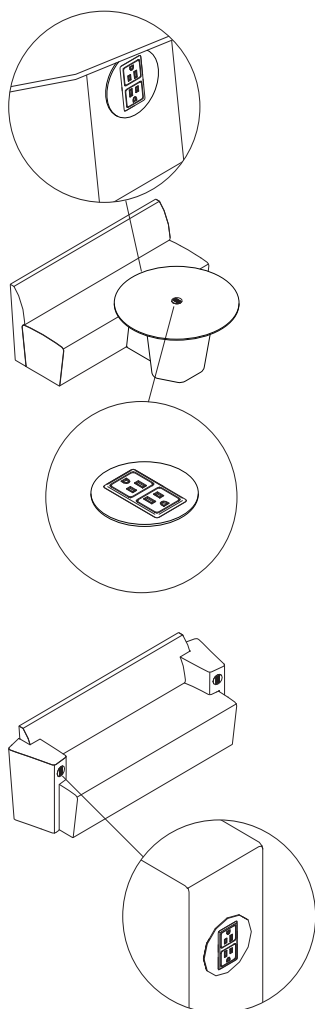

**The use of patterned fabrics on curved units** may result in the "chevron effect". This effect is apparent at the seam of two fabric panels that run in different directions.

**Edge profile** is tapered as standard on tables and tablets.

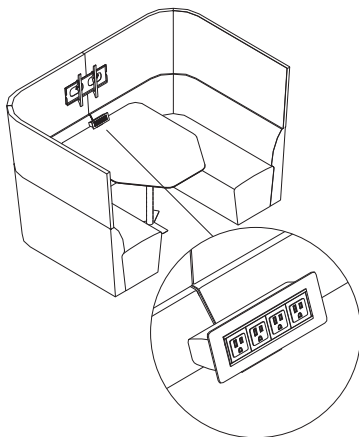

**Power and Media**

**Round power modules** are available as an option on table tops, table bases, and arm:

- 2 power outlets
- 1 power, 1 dual USB-A outlets
- 1 power, 1 HDMI outlets
- 1 power, 1 CAT6 data outlets

**Table mounted power** is available as an option for booth style numbers:

- 4 power outlets
- 2 power, 1 CAT6 data, 1 dual USB-A outlets
- 2 power, 1 CAT6 data, 1 HDMI outlets
- 2 power, 2 CAT6 data outlets

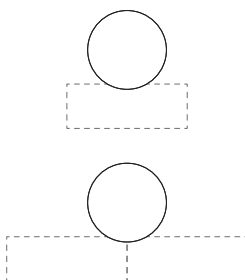

**72" cord length** exits through base of the tables and arms and comes fitted with a standard NEMA 5-15 plug.

**Tilting monitor brackets** available as an option on media den units. Monitor bracket supports a single screen up to 32" and 44 pounds.

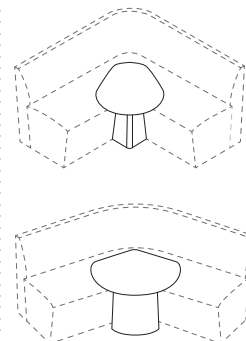

**Application Topics**

**Handedness of units and connection points** are determined based on the user sitting position.

**Arms** can only connect to the outer most ends of a configuration.

**Tables** can connect to the center of a single unit or at the junction between units.

**Dedicated tables AD-71 and AD-72** can only be specified for use with 90° and 120° units respectively.

**Surface Materials**

**Table tops**

- Fiber HPL
- Micro HPL
- Patina HPL
- Solid HPL
- Speckle HPL
- Textured Woodgrain HPL
- Woodgrain HPL
- Textured Industrial HPL
- Open Line laminate

**Upholstery**

- Fabric
- Customer's Own Material (COM)

*Tip: This product does not use glue due to the environmental impact. Because of this, occasional dressing of the upholstery may be required.*

**Power**

- 4118 Warm Platinum
- 7015 Silk Textured
- 7207 Black

# Cubb Seating

**Cubb seating** is a succinct range of chairs and stools with a clear personality, delivering robust functionality for any environment.  
 ▶ Specifying, pages 191–204

**Upholstered arms.**

**Wood legs** made of solid white oak with glides.

**Metal chassis** secure legs to each other as well as seat shell.

**Wire arms** designed to complement wire frame base.

**Wire frame base.**

**Plastic glides** suitable for all surfaces.

**Seat shell** is gently curved, offering integrated lumbar support.

**Trestle base** allows 360° of swivel and is available in polished chrome or black.

**Hard glides** are standard. Soft glides available as an option.

**Gas lift** allows for travel up to 5" of seat height adjustment.

**Five-star base** available in polished chrome or black.

**Casters** are 2½" in diameter. Hard casters for use on carpet as standard.

## Product Details

**Cubb seating** utilizes the same core seat with a combination of two arm options and four base styles.

**Both the trestle and five-star base options** swivel 360°.

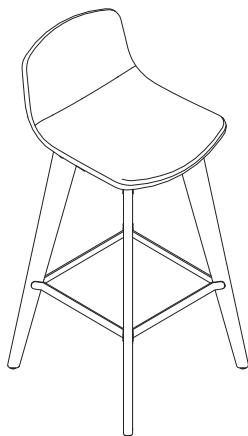

**A foot rail cover** is available as an option on wire base stool.

**Two-tone contrasting upholstery option** is available.

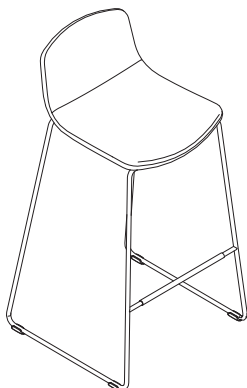

*Tip: If two-tone upholstered option is selected, contrasting price groups are available. Total seat finish and outer seat finish price is driven by highest price group selection.*

**Cubb seating** does not stack.

**Armless seat on wood base** available as bar height stool.

*Tip: Foot rail finish will match that of chassis.*

**Armless seat on wire frame base** available as bar height stool.

<b>OBCUBBSSM01</b>	36"	36"	30"	57 lb

**Product Details**

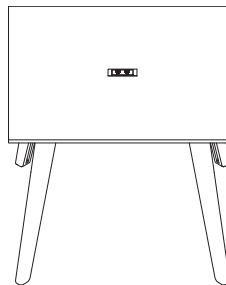

Edge profile is tapered as standard.

**Integrated power** available in all meeting and project table worksurfaces. All power cords are 10' long and available with either a standard three prong NEMA plug or hardwire.

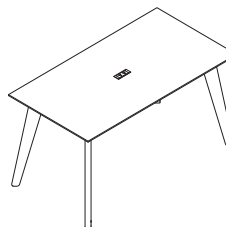

**Round meeting tables** can accept a single centrally located round face power unit in the following configurations:

- 2 power outlets
- 1 power, 1 dual USB-A outlets

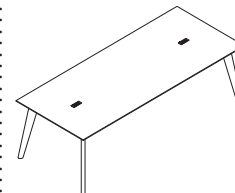

**Square meeting tables** can accept a centrally located rectangular face power unit in the following configurations:

- 2 power outlets
- 1 power, 1 dual USB-A outlets

**Small, rectangular meeting tables** can accept a centrally located rectangular face power unit in the following configurations:

- 2 power outlets
- 1 power, 1 dual USB-A outlets
- 3 power, 1 dual USB-A outlets
- 2 power, 2 dual USB-A outlets
- 3 power, 1 USB-C outlets

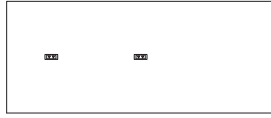

**Medium and large rectangular meeting tables** can accept multiple rectangular face power units in the following configurations:

- 2 power outlets
- 1 power, 1 dual USB-A outlets
- 3 power, 1 dual USB-A outlets
- 2 power, 2 dual USB-A outlets
- 3 power, 1 USB-C outlets

Cubb Tables, continued

Center only

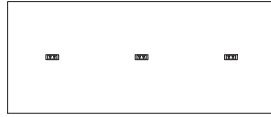

Left and center

Left and right

Left only

Left, right and center

Center and right

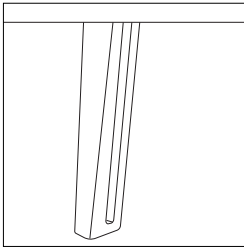

Right only

When multiple power units are specified, power location can be left, right, or center of the table.

Tip: Location and quantity allowed is dependent on the style number.

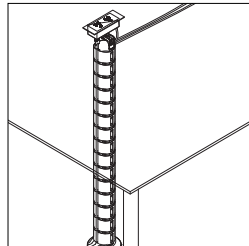

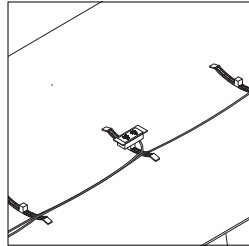

**Wiring and Cabling**

**Wood legs** designed with a channel for seamless cable management. Each leg come standard with a channel and rubber riser insert (black).

When multiple power units per table are specified, Interlink daisy chaining will come standard with a single plug located at the end of the configuration.

Multiple hardwire power units per table do not daisy chain and require independent connections.

Additional cable management options are available through specification of a set of cable clips or a vertical cable carrier, AHCC.

**Surface Materials**

**Worksurface**

- Fiber LPL
- Solid LPL
- Woodgrain LPL
- Fiber HPL
- Micro HPL
- Patina HPL
- Solid HPL
- Speckle HPL
- Textured Woodgrain HPL
- Woodgrain HPL
- Textured Industrial HPL
- Open Line laminate

Woodgrain laminate on single-piece tables will always be oriented at 0° with the grain direction running parallel with the length of the table top.

Woodgrain laminate on multi-piece tables will always be oriented at 90° with the grain direction running perpendicular with the length of the table top.

Woodgrain laminates cannot be grain matched.

**Wood leg base**

- 31WK Medium Walnut on Oak
- 3652 Dark Distressed Oak Stain
- V3AK Natural Oak
- VP03 Black Oak

**Metal chassis**

- Accent paint
- Accessory paint
- Smooth metallic
- Smooth paint
- Textured paint
- Textured metallic

Tip: Project table foot rail will always match finish of the chassis finish.

**Power**

- 0835 Black
- 4242 Milk
- 4799 Platinum
- 7360 Merle

Applies to:  
• Metal chassis

**Custom Surfaces**

**Perfect Match**

PerfectMatch is a service that allows you to create your own paint color Refer to the *Surface Materials Reference Guide* for more information about this program.
