For Canadian Pricing

Canadian factor can be found at www.steelcase.com/CADpricing.

Calculate in the following order to avoid rounding errors:

- Multiply the base price and each option by the Canadian factor.
- Round each to the nearest dollar.
- Add base and options for total list price.

Additional Resources

The West Elm Work Collection is supported with an array of informational materials, tools, and software to help you plan and install efficiently.

Surface Materials

West Elm Work Collection Materials Swatches Individual swatches, larger memo samples, and family group swatch cards are available by contacting Ad Stock at 1.800.784.0358 or by ordering electronically at village.steelcase.com.

Computer Tools

Digital Publications You can access these digital publications at www.steelcase.com or village.steelcase.com.

Electronic Catalog

Accurate sales quotations and purchase orders for West Elm products are created with specification software that uses West Elm Electronic Catalog data. Use the data to specify and price style numbers and options for every West Elm product. The data is updated bimonthly by Steelcase and provided to software programs like the Hedberg Business System, 20-20 CAP Studio.

Furniture Symbol Graphic Data

Steelcase creates 2D and 3D furniture symbols (with attributes) for planning and initially specifying Steelcase products. This data is incorporated into several add-on software packages that work in either a Microstation or an AutoCAD drafting environment.

For more information about these and other software tools to help you plan effective work environments, please email fsl@steelcase.com.

Support

Steelcase Capabilities

Steelcase products are distributed, installed, and serviced through a network of more than 600 dealers worldwide. Steelcase is also represented with offices and corporate showrooms in 26 U.S. cities, 4 Canadian cities, and in France, Germany, Great Britain, and Japan. Every Steelcase product meets our exceptionally high standards of quality and durability and comes with the Steelcase assurance of excellence in service.

For ordering or product assistance,

call your local dealer, the Steelcase Solutions Resource Team, or the Steelcase Solutions Fulfillment Team at 1.888.STEELCASE or send an e-mail to lineone@steelcase.com.

Call the Steelcase Solutions Resource Team prior to placing an order, when working on a bid, or when you need information about product applications and specifications.

Call the Steelcase Solutions Fulfillment Team if you have submitted an order to Steelcase and you need to speak to your Solutions Fulfillment Team Representative about the order. Also call if you have any post-shipment quality concerns or service parts questions.

For warranty information, please go to <http://www.steelcase.com/warranty/>.

Outside the U.S.A., Canada, Mexico, Puerto Rico, and the U.S. Virgin Islands, call 1.616.247.2500.

Belle Lounge Seating

Belle lounge features deco inspired tufted forms and soft curves that have been expertly tailored to create an inviting venue for solo work and coworker congregations alike. Each modular piece has been thoughtfully designed to function either freestanding or connected, setting the stage for applications that are both expressive and memorable. Generous corners and versatile ottomans allow limitless flexibility in planning, where Belle's curves can be appreciated from any angle.

Lounge units are available in one-seat lounge, two-seat lounge, and corner lounge.

Lounge units can be connected together to create a wide range of configurations.

Upholstered seat and back cushions are attached.

Integrated ganging brackets are included.

Glides are not adjustable.

Product Details

Lounge seating features four fully upholstered, complementary models: one-seat lounge, two-seat lounge, corner lounge, and ottoman. Legs are concealed for a streamlined profile.

Lounges are available in contrasting seat and back fabrics. Seat and back fabrics do not have to be in the same fabric family.

Contrasting all option is available on the one-seat lounge, two-seat lounge, and corner lounge. Back channels and seat can be specified separately.
Tip: Contrasting back channels must be in the same fabric family.

Contrasting fabrics are specified from the right handed seated position.

Integrated ganging device is included and keeps units aligned.

Crown of back channels may vary depending on stiffness of fabric. It is recommended to use the same back fabric when connecting multiple pieces.

Comfort wrinkles are expected to occur over time. Smooth the cushion fabric with a sweeping/wiping motion to reduce the definition.

Tufted seams can loosen over time or during installation and may require occasional manual adjustment by pushing fabric into seams.

Boardwalk Lounge Seating and Occasional Tables

East meets west in the design of our modular Boardwalk system. Pillow-like cushions inspired by Japanese "zaisu" are lifted off the ground by a simple modular platform with natural wood detailing—a nod to California-cool residential design. In a celebration of minimalism, Boardwalk offers a respite within an office landscape and configures to provide seating, table surfaces, and power access.

Boardwalk lounge system is based on a 30"D x 30"W planning module with platforms available in 30"D x 30"W, 30"D x 60"W, and 30"D x 90"W sizes.

Cushions or open table positions can be specified in each 30" module. Cushions can be specified as single seat only, mid back, left corner, or right corner.

Edge finish has an edge band that is defaulted to match the laminate surface, or can be specified in another color.

Mounting holes for cushions are symmetrical, allowing for them to be positioned facing any direction.

Lounge units can be connected together to create a variety of configurations.

Connector brackets are not included with lounge units but can be ordered separately as style number: **TS31410**.

When a module is specified with no cushion, that module is left open as a table position. It will have a surface in the finish specified for the rest of the platform with no holes or cutouts for mounting cushions. Cushions are not retro-fittable.

Cushions are bolted to the seating platform. They are not retro-fittable to open table positions. Legs, platform, and cushions ship separately and require assembly.

Legs are hardwood oak and available in several hardwood finishes that complement platform finishes.

Units specified with seat cushions can be used to create ottomans or benches.

Cushion orientation can be changed or determined in the field. However, specifiers should be mindful of fabric direction when using directional or patterned fabrics on adjacent cushions.

Power units can be installed beneath lounges and tables. All lounge and table platforms are shipped with inserts on the underside for power units to be mounted. Power style number (**COSISPWR**) must be ordered separately. ▶ See *Coalesse Seating Specification Guide*.

Product Details

Single Seat

Mid Back Seat

Corner Seat

Cushions can be specified as seat only, mid back, left corner, and right corner. Lounge styles must have at least one cushion specified.

Single Platform

Double Platform

Triple Platform

Platforms and tables come in three sizes: 30" x 30", 30" x 60", and 30" x 90". Platforms are 11"H with a seat height of 16³/₄", when a cushion is specified. Tables are available in 11"H or 15"H. The same platform is used in both the seating and the 11"H table applications.

Tables are also available in a 40" round and 65" x 35" oval version.

Left Corner

Right Corner

Corner cushions can be specified as left or right. Orientation is determined in the seated position. Corners are symmetrical; however, the fabric direction for the seat is determined by left or right specification.

Ganging plate (TS31410) can be ordered separately to permanently gang units.

Power block style number (COSISPWR) can be mounted to any platform.
▶ See *Coalesse Seating Specification Guide*.

Power blocks can be specified with either two power, one USB A dual port or one power, or one USB C single 60"W.

Brighton Lounge Seating

Inspired by the traditional wood frame joinery of mid-century design, Brighton lounge seating offers an updated take with sleek metal construction while optional brass accents add a deco-friendly spark. It's configurability allows Brighton to arrange into infinite formations, while freestanding lounge and table options create even more choice.

Ganging tables are available in laminate or veneer. Tables come with ganging brackets to attach between or on the end of lounge units.

Lounge seat and backs are fully upholstered. Back shells can be specified with contrasting fabric.

Frame caps can be specified to match or contrast the frame. Caps are offered in a range of powder coat finishes, antique brass, and brushed nickel.

Frames are offered in a range of powder coat finishes.

Arms are available on lounge units. Arm caps are solid oak and can be specified in a range of finishes.

Freestanding tables are available in laminate and veneer. Frames are offered in a range of powder coat finishes.

Frame foot can be specified to match or contrast the frame. Feet are offered in a range of powder coat finishes, antique brass, and brushed nickel.

Product Details

Frame feet can be specified to match or contrast the frame. Feet are offered in a range of powder coat finishes, antique brass, and brushed nickel.

Frame caps can be specified to match or contrast the frame. Caps are offered in a range of powder coat finishes, antique brass, and brushed nickel.

Armcaps are solid oak wood and are available on both one- and two-seat lounges in a range of wood finishes.

Button tufting is standard on all lounges that are upholstered in fabric, vinyl, and faux-leather. One-seat lounges come standard with one button, two-seat lounges come with three buttons. There will be no button tufting when leather upholstery is specified.

When leather is specified on the two-seat lounge, there will be an additional seam down the center of the seat and back.

Arm Right

Arm Left

One- and two-seat lounges are available with and without arms and can be specified with ganging hardware or as freestanding.

Lounges must be specified with ganging hardware when used with end or ganging tables. Ganging hardware and arms cannot be specified on the same side of a lounge unit.

Ottoman is upholstered with a metal frame that is available in a range of powder coat finishes. Contrasting frame caps are optional.

Ganging tables are available in three options: 60°, 90° and straight. Tables can be attached facing either direction and must be attached between lounge units.

End table is available in one size 28" square and can be added to either side of a lounge unit.

Freestanding tables are available in 28" square and 28"D x 42"W rectangle.

Power module has a 9' cord.

Mesa Lounge Seating

Mesa lounge seating adds style to any work-space with its modern form and tapered legs. Modular pieces can easily create common areas of any size.

Product Details

Chaise lounge can be specified in a right- or left-hand configuration.
Tip: Handedness is determined while in the seated position.

Integrated ganging device is included and keeps units aligned.

Lounge seating features five fully upholstered, complementary models: two-seater lounge, right-hand chaise lounge, left-hand chaise lounge, corner lounge, and ottoman. All models feature a four-leg, cast aluminum base with a powder coat painted finish.

Willow Seating

Willow is a fresh take on the classic club chair. Sporting either a smooth upholstered interior for a clean and versatile look or soft upholstery treatment that's casual and elevated, Willow can blend in or stand out.

Seat height is 19" from the ground.

Willow comes in either a fixed or swivel base. Swivel automatically returns to center.

Upholstery treatment is available in smooth or soft and refers to the inside of the back of the chair.

The base of the chair has 1 1/2" of clearance for both the fixed and swivel bases.

Fabric is applied in vertical direction. Optional contrasting fabric is available between the seat interior and outer shell.

Product Details

An optional swivel base is available. The swivel has an auto-return feature.

All product in the Willow product line ships fully assembled in one package.

Surface Materials

See surface materials matrix on page 272 for upholstery options.

Optional contrasting fabric is available between the seat interior and outer shell.

Slope Seating

Simple yet timeless design allows the Slope family of seating to blend seamlessly into the modern office. A wide range of paint colors and upholstery options ranging from muted to playful add personality.

Seat and back are always fully upholstered.

The double-needle stitch down the center of the slope seat and back is an iconic detail of the slope chair. As an option, slope upholstery can be specified with this seam.

Wire frame base is painted and available in a range of standard, accent and Lux Coatings.

Stackable base configuration allows for easier storage and cleaning. Stacking chairs can be stacked up to five high.

Seat height adjusts 4", from 17½"H to 20½"H, with a pneumatic adjustment mechanism.

Glides are polyethylene for superior durability on carpeted and hard floors. Glides are available in milk or black.

Five-star base is available in hot rolled steel finish only.

Product Details

Guest chair

Stacking chair

Lounge chair

Counter-height stool

Conference chair

Bar-height stool

Five-star and wire-frame bases are available for guest chair and stool.

Slope wire frame stool is available in two heights to pair with counter and bar height tables.

360° adjustable height swivel mechanism is standard on five-star base models.

Slope ships knocked down and the seat must be assembled to the frame on site, with the exception of the stacker with arms and the guest chair with arms which ship fully assembled. All slope styles come in a single carton.

Arms are available as an option for guest, stacking, and conference chair.

Slope stacking chairs can be stacked up to five chairs high.

Sterling Seating

Sterling is a family of seating inspired by classic mid-century design. The style and generous sit brings retro-inspired comfort to the office. Hardwood legs or a classic aluminum base and arm options make the Sterling collection relevant across the floor plan.

Sterling stools have a 360° swivel feature that comes standard and does not have auto-return feature.

Sterling stools include footrest for added comfort.
Tip: The footrest is 8 1/2" from the ground on the counter-height stool and 14 1/4" on the bar-height stool.

Glides are polyethylene for superior durability on carpeted and hard floors.

Sterling lounge is available with arms only.

Sterling four-star chair comes with 360° swivel and height adjustable mechanism. It does not have an auto-return feature or tilt option.

Four-star base is available in polished aluminum only.

Glides are polyethylene for superior durability on carpeted and hard floors. Casters are not available.

Sterling lounge has a seat height of 17 1/4" and more reclined seat and back to encourage a more relaxed posture.

Product Details

Five-star, four-star, and four-leg chairs are available with and without arms.

Optional tilt mechanism is available on five-star chairs and has 10° rearward and 2° forward tilt range. The seat and back always remain in a fixed position relative to each other (i.e. no recline).

360° adjustable height swivel mechanism is standard on five-star and four-star base models.

Adjustment Features

Adjustability instructions are included with every swivel-base chair. Instructions can also be found at www.steelcase.com.

Seat Adjustments

Seat height adjusts pneumatically. To lower, pull lever up while seated. To raise, pull lever up and keep your weight off the chair.

Kent Seating

Soft, modern minimalism meets the performance and comfort needed for today's collaborative workplace with West Elm Work Kent seating. The broad collection offers a range of application possibilities – from meeting rooms to the private office.

Kent is available in five base options and three seat backs. Base options are five-star, four-star (with glides or casters), guest chair (four-leg), or stool. Seat back options are armless, with arms, and high-back with arms.

Five-star seat height adjusts 5" from 17 $\frac{1}{4}$ " to 22 $\frac{1}{4}$ ".

Hard, dual wheeled casters are standard for use on carpets. Soft, roll-control, dual-wheel casters are available for use on hard floors or chair mats. Casters are 2 $\frac{1}{2}$ " diameter.

Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Five-star base is only available with casters.

The five-star base includes tilt and lock features on the standard application.

Four-star base swivels and is not height adjustable. It is available with casters or glides.

Stool seat height adjusts 7", from 25" to 32".

Stools cannot be specified with a high-back.

If arms are specified, they are always upholstered.

Glides come standard in black.

Product Details

All products in the Kent product line ship in one package. The four-leg guest chair ships fully assembled. Four-star, five-star, and stools ship knocked down and feature a tool-less assembly.

Adjustment Features

Adjustability instructions are included with every swivel-base chair. Instructions can also be found at www.steelcase.com.

Seat Adjustments

Seat height adjusts pneumatically. To lower, pull lever up while seated. To raise, pull lever up and keep your weight off the chair.

Greenpoint Private Office

Greenpoint private office offers a contemporary take on the private office with its distinct visual language and fresh material options.

Executive desk work-surfaces are standard 4" thick overall. They can be specified in either wood veneer or High-Pressure Laminate. Executive desk is available in a 72" width. Height of the executive desk is 29¹/₂".

Square tube steel legs are flush with the outside of the desk and are offered in a range of powder coat finishes. Legs are fixed height with top of surface at 29¹/₂".

Three box drawers open their full depth using ball-bearing suspensions.

Leveling glides provide 1¹/₂" adjustment.

Private desk work-surfaces are 1¹/₈" thick. They can be specified with either wood veneer or High-Pressure Laminate. Height of the private desk is 29¹/₂".

Desk returns are available for private desks and can be specified with a leg or pedestal support.

A power cutout can be specified in the center, the left, or the right side of the desk worksurface. The desk power unit is ordered separately.

*Tip: The style number for desk power unit is **WESINDPWR**.*

A modesty panel is available and ordered separately, in widths from 48" to 78". They can be specified in either wood veneer or High-Pressure Laminate. Modesty panels are specified one size smaller than the desk to allow for 3" clearance on both ends to accommodate the legs. Modesty panel can be mounted flush or inset.

Leveling glides provide 1¹/₂" adjustment.

Product Details

Credenzas come in two non-locking configurations—storage and filing. Storage credenzas have two sets of doors with adjustable shelves. Filing credenzas have two drawers and a set of doors with adjustable shelves. Back panels are finished. Leveling glides provide 1 1/2" adjustment.

Counterweights are included with filing credenza.

Door and drawer fronts on credenzas, lateral files, pedestals, and executive desk drawers that are specified in High-Pressure Laminate have a corresponding painted top edge. For more information, see the matrix in *Surface Materials* section.

Cutout in lower cabinet shelf is standard on all credenzas to allow cord pass-through.

Executive desks are available in 30"D and 36"D. Overall thickness of the worksurface is 4" and inner drawer height is 2 1/2". Executive desks come standard with three non-locking drawers. Modesty panels are also available. Power cutouts are available in center, left, and right.

▶ See wiring on cabling, page 62.

Legs are welded metal.

Glides are adjustable and provide 1 1/2" adjustment.

Private desks are available in a range of sizes and come standard with two legs. Desk returns and modesty panels are also available. Power cutouts are available in center, left, and right.

▶ See wiring on cabling, page 62.

Desk returns are used with private desks to form L-shape configurations, where everything is in reach. Specify with leg or pedestal support.

Modesty panels cannot be used on the return side of this configuration.

File/file

Box/box/file

Under-worksurface pedestals are available 18"D and 24"D for desk returns. Pedestals are available in file/file or box/box/file configurations.

Lock comes standard on pedestals.

Modesty panel can be mounted flush or inset. Height can be adjusted to provide cord pass-through.

Box drawers are a welded steel construction and available with wide integral pull fronts. One divider is included with each box drawer.

File drawers are a welded steel construction and available with wide integral pull fronts. Drawer body sides are full height and accommodate front-to-back filing of hanging letter-size file folders.

Optional rails accommodate side-to-side filing of letter-, A4-, and legal-size hanging folders.

Exception: Legal-size file folders cannot be filed in 17¹/₈"D or 18³/₈"D pedestals.

Pencil tray to hold small office supplies

comes standard with each box/box/file and mobile pedestal, but can be excluded in the basic drawer option.

Optional basic drawer interior allows box/box/file pedestals to be ordered without rails, box drawer dividers, or pencil trays.

Pull on drawer and door fronts is full width and integral.

Drawer and door fronts are available in wood veneer or High-Pressure Laminate.

Door and drawer fronts on credenzas, lateral files, pedestals, and executive desk drawers that are specified in High-Pressure Laminate have a corresponding painted top edge. For more information, see the table *High-Pressure Laminate Top Edge* from the next page.

3"H base is integral to pedestal and lateral cases.

Leveling glides adjust to install under-worksurface pedestals and lateral files on uneven floors.

Lateral files are ideal for high-density paper storage.

Hanging folder bar accommodates side-to-side filing of letter-, A4 international-, and legal-size hanging folders.

Rails accommodate front-to-back filing of letter-, A4 international-, and legal-size hanging folders. Rail packages accommodate two rows of letter-size files in 30"W and 36"W drawers.

Dividers accommodate side-to-side filing of expandable folders and other objects. Divider packages include three dividers and one hanging folder bar per drawer.

Metal lateral files and mobile pedestals have limited finishes.

Metal mobile pedestals are 18"D. Clearance from the ground to the bottom of the pedestal is 2¹/₂".

Basic cushion enhanced is ordered separately for use on mobile pedestals. Basic cushion enhanced is field-installed and attaches to the existing top with hook and loop fastener.

Counterweight packages are required to ensure product stability and are ordered as an option or separately.

Four casters are hard composition and non-locking, with a full-rotation swivel mechanism. Casters are exposed at the base of box/file pedestals.

Bookcases offer convenient storage for binders, books, and other objects.

Storage

Tall Open

Low Open

Narrow Open

F - Fixed shelf

Bookcases, are available in several different configurations and ship fully assembled. Shelf inside storage bookcase is adjustable. Shelves are standard 1/2" thick and can carry a load of 100 pounds. Back panels are finished. Shelf inside storage bookcase is adjustable.

Bookcases and lateral files cannot be used to support worksurfaces.

Storage bookcases align with executive desks, private desks, and storage or filing credenzas.

Cutout in lower cabinet shelf is standard on storage bookcase to allow cord pass-through.

Metal bases are standard on all credenzas, bookcases, and wood lateral files. Leveling glides provide 1¹/₂" adjustment.

Lock and Keying

Locks are available field-installed. Field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Lock cylinders must be specified separately.

Locks are standard on under-worksurface pedestals, metal pedestals, and metal lateral files. Lock is located in the top drawer. Key will lock both drawers if applicable. Locks are standard factory installed, keyed random.

▶ *Lock and Keying*, page 274

Wiring and Cabling

Field-installed 2½" grommet, ordered separately, provides wire and cable management for workspaces.

Worksurface power modules are available on executive and private desks. Cutouts can be specified for left, center, and right locations.

Power modules are available in three simplex and two simplex/USB configurations. The one-touch retractable door allows easy access.

Cable tray is available to keep cords and cables out of the way.

Application Topics

Modesty panels are specified one size smaller than the desk to allow for 3" clearance on both ends to accommodate the legs.

When a power cutout has been specified, modesty panel must be mounted flush to front of desk.

Greenpoint Benching

Greenpoint benching

is designed to keep things simple while providing a rich range of design options that blends performance with a light and airy appeal.

Privacy screens provide privacy and are available for single- or dual-sided applications. Available in tackable fabric and glass. Glass options include clear or fluted.

A 2 1/2" gap between worksurfaces accommodates screens, worktools, and cords.

Credenzas can be used to support worksurfaces and provide storage. All brackets and mounting hardware are included.

Upmount bins offer convenient storage above the worksurface. Optional whiteboard inserts are available.

Optional center power cutout is available. Power units are specified separately.

End legs are available on dual-sided units in 48" and 60" widths. End legs are designed to be flush with the corners of the worksurface and include all brackets and mounting hardware. Leveling glides provide 1 1/2" adjustment. Legs are fixed height with top of surface at 28 1/2"H.

Dual-sided worksurfaces are available in overall depths of 24" and 30". Worksurfaces are 1 1/8" thick and can be supported by legs or credenzas. Widths range from 48" to 78".

Intermediate legs are used to connect dual-sided units. Intermediate legs are 30"W for 48"W and 60"W dual-sided worksurfaces and include all brackets and mounting hardware. Leveling glides provide 1 1/2" adjustment. Legs are fixed height with top of surface at 28 1/2"H.

End legs are available on single-sided units in 24" and 30" depths. End legs are designed to be flush with the corners of the worksurface and include all brackets and mounting hardware. Leveling glides provide 1 1/2" adjustment. Legs are fixed height with top of surface at 28 1/2"H.

Intermediate legs are used to connect single-sided units. Intermediate legs are available in 24" and 30" depths to match the depth of the worksurface and include all brackets and mounting hardware. Leveling glides provide 1 1/2" adjustment. Legs are fixed height with top of surface at 28 1/2"H.

A modesty panel is available and ordered separately, in widths from 48" to 78". They can be specified in either wood veneer or High-Pressure Laminate. Modesty panels are specified one size smaller than the desk to allow for 3" clearance on both ends to accommodate the legs. Modesty panel can be mounted flush or inset.

Leveling glides provide 1 1/2" adjustment.

Bench returns offer additional worksurface space and are available in depths of 18" or 24" and widths of 42", 48", 54", and 60" for single- and dual-sided applications.

Continuous tops are available in a depth of 48". Worksurfaces are 1¹/₈" thick and can be supported by legs or credenzas. Widths range from 48" to 78".

End legs are designed to be flush with the corners of the worksurface and include all brackets and mounting hardware. Leveling glides provide 1¹/₂" adjustment. Legs are fixed height with top of surface at 28¹/₂"H.

Optional center power cutout is available. Power units are specified separately.

Intermediate legs are used to connect continuous tops. Intermediate legs are 30"W for the 48"D continuous top worksurface and include all brackets and mounting hardware. Leveling glides provide 1¹/₂" adjustment. Legs are fixed height with top of surface at 28¹/₂"H.

Greenpoint Benching

Round, Square, and Half-Round Tables

Round tops are available in 48" or 60" diameters. The worksurface is 1 1/8" thick.

Square tops are available in 48" x 48" or 60" x 60". The worksurface is 1 1/8" thick.

Legs for both the 48" round and square tops are inset by 4 3/4" and 7 1/2" from the edge of the worksurface. Legs for both the 60" round and square tops are inset by 5 7/8" and 9 1/8" from the edge of the worksurface.

Leveling glides provide 1 1/2" adjustment. Legs are fixed height with top surface at 28 1/2"H.

Half-round tops are available in 48" or 60" diameters.

Half-round tops must attach to a continuous top or dual-sided bench of the same dimension.

Legs for the half-round tops are inset by 8 7/8" for the 48"W and 10 3/8" for the 60"W from the edge of the worksurface.

Half-round legs include all brackets and hardware to attach a half-round top to either a continuous top or dual-sided bench.

Product Details

Worksurfaces are available for single-, dual-sided, or continuous top applications in depths of 24" or 30" for single- and dual-sided, and 48" for continuous top, and widths of 48", 54", 60", 66", 72", and 78". Leg and credenza supports are sold separately.

Tip: 78"W not available in credenza/credenza application.

Half-round worksurfaces must attach to a continuous top or dual-sided bench of the same dimension.

Worksurfaces using one credenza support are 3" wider than those used between leg supports. Worksurfaces used with credenza supports on both ends are 6" wider. Mounting hardware is included with credenzas for applications with credenza support.

Dual Sided End Leg

Single Sided End Leg

Dual Sided Intermediate Leg

Single Sided Intermediate Leg

X-Leg

T-Leg

Leg support single- and dual-sided applications used to support worksurfaces at the end-of-run or intermediately.

24"W or 30"W single-sided end legs are to be used with 24"W or 30"W single-sided worksurfaces.

48"W or 60"W dual-sided end legs are to be used with 48"W or 60"W dual-sided worksurfaces.

Round and square worksurfaces must be specified with round/square legs. Half-round worksurfaces must be specified with half-round legs and be adjacent to a continuous top or dual-sided bench.

Intermediate legs are to be used between a run of worksurfaces. Dual-sided intermediate legs are 30"D and work for both 48"D and 60"D worksurfaces. Single-sided intermediate legs are available in 24"D and 30"D.

Bench returns are available on dual- and single-sided applications in depths of 18" or 24" and widths of 42", 48", 54", and 60".

Bench returns include return worksurface, leg support, all brackets, and mounting hardware.

Bench returns can be used with a leg-leg worksurface or leg-credenza worksurface.

Returns must be placed flush to either end of the worksurface.

Returns can span equally across adjoining worksurfaces.

Personal credenza

End credenza

Credenzas are available in two configurations – personal and end. The case can be specified as an inward or outward orientation, and single or dual-sided application, resulting in the correct hardware. If specifying as a stand-alone credenza, the orientation and application do not matter.

Personal credenzas can be used facing inwards or outwards in dual-sided applications. Specify with 24"D worksurfaces when orienting towards the user to allow easier access to storage drawers. In single-sided applications, the credenza must face outward.

End credenzas can face inward or outward in 24"D single-sided applications. When 30" single-sided is specified, inward facing end credenza is not allowed. In dual-sided applications, credenza must face outward. Both open and closed sections come with adjustable shelves.

Steel bases are standard on credenzas.

Dual- and single-sided worksurfaces using credenza/credenza support cannot exceed 72"W.

Uppmount bins are double-sided and provide additional above worksurface storage as well as privacy in dual-sided benching applications. Bins are available in widths of 60", 66", and 72" for use with worksurface widths of 66", 72", and 78". Worksurface mounting brackets are included.

Uppmount bins extend 5" over the worksurface on each side of a dual-sided application.

Whiteboard upmount bin inserts can be specified separately in packages of two. Inserts are easily removed as needed and are held in place using strong magnets.

Uppmount bins cannot be used on dual-sided applications with leg/credenza or credenza/credenza worksurfaces.

A modesty panel is available and ordered separately, in widths from 48" to 78". They can be specified in either wood veneer or High-Pressure Laminate. Modesty panels are specified one size smaller than the desk to allow for 3" clearance on both ends to accommodate the legs. Modesty panel can be mounted flush or inset.

Glass screens are available for single- or dual-sided applications. Worksurface mounting brackets are included. Screens align with a 42"H datum from the floor.

Glass screens are available in clear or fluted glass.

Open

Full

Universal screens will have a 3" gap to the end of a bench run and 6" gap between screens. Screens do not run full worksurface width.

48"D desks have 10 1/4" clearance to intermediate leg. 60"D desks have 16 1/4" clearance.

Storage must be at least 6" from centerline when trays are used.

Storage can nest under the bench. The clearance is 27 1/4" except when within 4 1/2" of an intermediate leg, the clearance is 25 5/8".

Storage can nest under the return. The clearance is 25 5/8".

Wiring and Cabling

Modular power cannot be routed through personal and end credenzas in any configuration.

Worksurface power modules are available on dual- and single-sided bench units. Cutouts are centered on the worksurface.

Power modules are available in three simplex and two simplex/USB configurations. The one-touch retractable door allows easy access.

Tip: When using modular power under the worksurface, specify 18" L cord length.

Continuous top power modules are available in six simplex and four simplex/USB configurations. The one-touch retractable door allows easy access.

Tip: When using modular power under the worksurface, specify 18" L cord length.

Power trays are optional and provide under the surface cord management and accommodate standard capacity power only. Power trays include all brackets and mounting hardware.

Power trays work with single-sided and dual-sided benches as well as continuous tops.

If center cutout is specified on single-sided worksurfaces, specify either left-hand or right-hand power tray.

Single-sided tray extension

Dual-sided tray extension

Extension trays conceal conduit or wires between sections using power trays. They also allow for wires or conduit to be brought up through the bottom.

Power covers can be added to provide decorative trim around receptacles. Power covers are available for dual- and single-sided applications.

If power covers are not selected, any connection points on modular power blocks not being used by a harness, infeed, or connector must be filled with dust covers. Order style number (FMVBK) separately.

End caps can be added to power trays and are sold in pairs. End caps are painted metal.

Power support is required when using modular power and provides an attachment location for a modular power block. Location is centered between worksurfaces for dual-sided applications and off-center for single-sided applications.

Round and square worksurfaces can be specified with a power cutout. Round/square power comes in configurations of 1 power or 2 USB and has a 72" cord length.

Related Products

The following monitor arms work with the Greenpoint bench dual- and single-sided worksurfaces: **CFINTRO** and **CFINTROSLIDE**, single FYI monitor arm with C-clamp mounting bracket, and single and dual Volley monitor arms with C-clamp mounting bracket. For more information, see *Worktools Specification Guide*.
Tip: Dual monitor mounts are not approved on 24"D worksurface applications.

Universal Tackable Center Screens

For Use with Greenpoint

Universal tackable center screens provide a boundary element along the bench. They are available in two heights to accommodate varying levels of privacy.
 ▶ Specifying, page 208

Product Details

Universal tackable center screens are tackable and available in 13½"H and 19½"H. These screens are available in widths from 48"W-78"W.

Brackets are included with screens. Two brackets are used on all screens.

Open

Full

Universal screens will have a 3" gap to the end of a bench run and 6" gap between screens. Screens do not run full worksurface width.

The edge of the screen is comprised of two different materials. The upper segment is merle plastic. The lower portion is PET which can be specified in medium heather grey to provide contrast or dark heather grey for a uniform visual.

Greenpoint Benching

Distribution and Access

Power blocks can be attached to power supports that are mounted to the underside of the worksurface. The location is centered on dual-sided application and off-center on single-sided applications.

Because single-sided application is off-centered, the power tray (**WESINDPTSS**) is either left- or right-handed.

Standard-capacity power includes one power block, provides back-to-back power, and accepts two receptacles per side.

Modular harness is used to connect power blocks and distribute power through the bench.

Wiring and Cabling

Standard-capacity power includes one power block, provides back-to-back power, and accepts two receptacles per side.

Chicago hardwire box is available. It accommodates two receptacles per side.

Duplex receptacles are available in 15- and 20-amps, isolated or system ground, with multiple line options. Receptacles have two outlets and are ordered separately.

USB receptacles are available in three wiring schematics with multiple line options. USB receptacles offer easy access to two charging ports. Each port provides 1 ampere of output. USB receptacles conveniently charge a wide range of electronic devices. Some devices may not be compatible.

Modular harnesses are used to connect power blocks.

► See *Power Routing Harness Chart*, page 76, to determine lengths needed.

Power unit can be added when a worksurface cutout is specified. It is centered on the surface and provides user access to power.

If power unit and cutout is not specified, power and data is accessible under the worksurface. Dual-sided power trays can be removed without tools to provide additional clearance to plug in devices if needed. Single-sided power trays require tools to remove.

Power trays are available on dual- and single-sided units. Power trays hang from the underside of the worksurface and include all brackets and mounting hardware to provide cord management and conceal the standard capacity power blocks and conduit.

Modular power in a dual-sided base or extension unit, without trays, must be secured with a strain relief bracket. Order style number (**FMBVK**) for each unit.

Power infeed on single- and dual-sided applications must be secured with a strain relief bracket. To order one, use style number (**FMBVK**) for each unit.

Filler packages are available to fill unused power or data options. Order separately in packages of 20.

Three wiring schematics are available—3+1, 2+2, and three circuits with separate neutrals (3SN). All the components in an electrical distribution system must use the same wiring schematic. For safety, the components are keyed, labeled, and color-coded to make it impossible to connect mismatched parts.

All electrical components are cULus listed to the appropriate industry standards in accordance with the National and Canadian Electrical code.

Local electrical codes vary, so consult with your local authority having jurisdiction as they have final say if the products as installed are compliant with local code. Consult a qualified electrical contractor or engineer for the proper installation of all electrical components.

Greenpoint Benching

Building Interface

Building power and data can interface with the bench from floor or wall. Both modular and hardwire infeeds are available.

Infeeds can enter anywhere along the bench. If power trays are being used, infeeds can enter approximately 18" from either end of the bench section.

A vertebral riser is available to conceal the power and data.

Hardwire-to-modular power infeed is available in 6, 12, and 24 foot lengths. If a shorter harness is needed, it can be cut by the electrician. The hard-wired end is connected by an electrician to a junction box wherever it is located in the building. The harness is routed into the bench and connected to a power block. Non-PVC is standard. PVC version can be optioned.

Modular-to-modular power infeed is available in 6, 12, and 24 foot lengths. A straight/flush modular junction box faceplate cover is standard and is wired to a 4¹/₁₆" square junction box located in the building. The harness is then routed into the bench and connected to a power block. A 90° junction box faceplate can be optioned and is recommended for use at a wall or column. The straight/flush is generally used in the floor. Non-PVC is standard. PVC version can be optioned.

Straight/
Flush

90°

Modular junction box faceplate can be ordered separately and used with any modular harness length when 12 and 24 foot lengths are not appropriate. Straight/flush and 90° faceplates are available. A 90° junction box faceplate is recommended for use at a wall or column. Non-PVC is standard. PVC version can be optioned.

New York power infeeds are available. The junction box is mounted to the underside of the desk. A 50" harness is included to reach the first power block in the bench. If a shorter harness is needed, it can be cut by the electrician. Non-PVC is standard. PVC version can be optioned. Hardwire-to-modular infeeds can also be used.

Hardwired/Chicago power infeeds are supplied by the electrician.

San Francisco can use hardwire or modular infeeds. When infeed is coming from floor or wall, liquid tight metallic conduit may be required. In this case, order infeed specific to San Francisco.

Base power infeeds are not available.

Vertebral riser can attach to the lower tray or simple tray. Its position is approximately 18" from either end of the desk unit. Length is 30".

Extension vertebral riser can be used to conceal conduit and cables along the floor. Length is 15". Risers can be linked to each other for longer length requirements.

Power and data can enter the bench through the end of the power tray. The opening is approximately 14" from the end of the desk.

Three wiring schematics are available—3+1, 2+2, and three circuits with separate neutrals (3SN). All the components in an electrical distribution system must use the same wiring schematic. For safety, the components are keyed, labeled, and color-coded to make it impossible to connect mismatched parts.

Non-PVC modular electrical components are the standard offering with the option to order PVC on some components. For those trying to gain the LEED Innovation and Design credit, non-PVC should be selected.

All electrical components are cULus listed to the appropriate industry standards in accordance with the National and Canadian Electrical code.

Local electrical codes vary, so consult with your local authority having jurisdiction as they have final say if the products as installed are compliant with local code. Consult a qualified electrical contractor or engineer for the proper installation of all electrical components.

Greenpoint Benching

Stability Guidelines

Maximum run on dual-sided and extension is 26'.

▶ See page 72 for approved monitor arm on dual-sided worksurfaces.

Maximum run on single-sided and extension is 26'.

▶ See page 72 for approved monitor arm on single-sided worksurfaces.

Greenpoint Benching

Directional Laminate and Edge Profile Detail

The appearance of laminate may change slightly depending on the angle from which it is viewed. This natural phenomenon is called polarization, and it can be seen on natural veneer, and to a lesser extent on composite veneer. Polarization is often noticed on worksurfaces installed at a 90° angle with each other. Please refer to the following illustrations for an understanding of grain direction on your installation.

Product Details

3 mm radius front edge profile
(1 1/8" thick)

3 mm edge profile is on all four worksurface sides.

Sutton

Rectangle Height-Adjustable Desks and Bases

Rectangle height-adjustable desks bring mobility and wellbeing, allowing users to change posture and location to suit their work needs. Optional integrated power includes a single power cord that comes out of the desk for ease of movement.
▶ Specifying pages 232-236

Desk has a wood core with a High-Pressure Laminate or wood veneer surface, and is 1" thick.

Radius corners are available with a square edge profile. Corners feature a 2" radius.

Square edge is available in 3 mm edge profile, when High-Pressure Laminate or wood veneer is selected.

Basic height-adjustable base adjusts from 27³/₈"H–46⁹/₁₀"H in any increment.

Square corners are available with a square edge or blade edge.

Extended height-adjustable base adjusts from 22³/₈"H to 48⁷/₁₀"H in any increment.

Leveling glides adjust 1/2" to install desk on uneven floors. Glides are black.

Push button simple touch controller adjusts height at a rate of 1 1/2" per second.

Base supports a maximum distributed weight load of 360 pounds (2-leg).
Tip: When calculating lifting capacity, subtract the weight of the worksurface, understructure, and options selected.
▶ See page 88 for worksurface weights.

Active touch controller is Bluetooth-enabled; is standard and includes digital display, two preset buttons, double-tap automatic drive, and active motion posture reminders.
Tip: Steelcase Rise mobile app is available that pairs with any active touch controller to support preferences, presets, and activity tracking.

Lifting column is controlled by central control box for synchronization. Columns are precision balanced to minimize surface vibrations.

Blade edge is available on the front user edge when square corners are selected.

Product Details

Radius corners have rounded 2" corners on all four sides with a continuous user edge. Radius corners eliminate sharp edges and are appropriate for free-standing furniture. Radius corners are not available in combination with a blade edge profile.

Square corners have a 90 degree corner on all four sides.

Blade edge profile is available on the front user edge with a clear coat over MDF. It is not available on desks with radius corners.

Desk overhang is not available. Distance from edge of worksurface to lift column is 4.96".

High-Pressure Laminate Desks

Edge profile is available in 3 mm edge profile for desks with radius corners and square corners. Blade edge profile is not available on desks with radius corner profile.

PVC-free, 3 mm edge profiles are proprietary polyolefin blend for all solid colors and woodgrain finishes.

Edge profile finishes are specified separately from laminate color.

Wood Veneer Desks

Edge profile is available in 3 mm edge profile for desks with radius corners and square corners. Blade edge profile is not available on desks with radius corner profile.

Simple touch controller is available as an option and easily adjusts height of desk, at a rate of 1 1/2" per second, by lifting or pressing down on the controller.

Active touch controller is Bluetooth-enabled; is standard and includes digital display, two preset buttons, double-tap automatic drive, and active motion posture reminders.
Tip: Mobile app is available that pairs with any active touch controller to support preferences, presets, and activity tracking.

Obstruction sensing technology is standard with all desks. The worksurface will backtrack when it makes contact with an object.

The overall depth of the worksurface is 23"D or 29"D.

Extended height desks and bases adjust 22 3/8"H to 48 7/10"H in any increment.

Basic height-adjustable desks and bases adjust from 27 3/8"H to 46 9/10"H in any increment.

Desk sizes are listed in actual dimensions to allow for 1" gap to adjacent furniture, eliminating any pinch points.

Wiring and Cabling

Low surge electric motor with quiet operation adjusts at 1 1/2" per second. Motor is 110V and includes a 10' power cord. Motor has 0.1W standby power.

Chicago requires that desks shipping into Illinois ship with a 9' power cord.

Sutton desks and bases are listed by ETL.

Cable trays are available as an option or can be ordered separately. 46"W–57 15/16"W desks use the 28" cable tray. 58"W–72"W desks use the 40"W cable tray.

Integrated power is optional and is located in the understructure of a desk. Integrated power consolidates technology to provide one cord out of the desk for convenience to the user. Two versions are available: underworksurface only and underworksurface plus worksurface clamp on convenience power. Worksurface power has two power outlet options, either dual USB-A or USB-C. Desks 57 15/16"W and under receive three power outlets in the understructure and desks 58"W and above receive five power outlets. Over-current power protection is standard on the integrated power option. If the over-current protection trips, reset by pushing the button located on the face of the understructure.

Integrated power is standard with a 10' standard black power cord. A 20' cord option is available if additional length is needed. For extra color, braided cord option is available.

Integrated power is available with either a standard three prong NEMA plug for use with standard receptacles or with Steelcase's proprietary thread low-profile plug for use with one-door and two-door low-profile connectors.

Cable riser, with fence connection, inside dimensions are 1"D x 1"W to accommodate a variety of cord sizes. Overall depth is 2". Order style number **OLCR** separately.

Magnetic cable clips are optimized for the braided one-cord out solution. However, the magnetic cable clips will work on Sutton, Ology, Migration SE, and the standard Flex power cords. The clips are used to manage power cords out of the users way. Order style numbers **FLXMCC2** or **FLXMCC10** separately.

Cable brackets, ordered separately, support horizontal cable management below the worksurface. Order style number **FLXCBK4** separately.

Inside dimensions of cable brackets are 6"D x 2 1/4"W x 1/18"H.

Braided Cord Color Matrix

Braided cord samples are not available to order. Use matrix below that compares the braided cord finish to the nearest Steelcase finish color for color reference purposes.

Tip: Braided cord color is defaulted to 9007 Sterling.

Finish	Similar Steelcase Color
9003 Fuchsia	4BQ7 Fuchsia
9004 Marlin	4AZ5 Marlin
9006 Chili	6338 Chili
9007 Sterling*	6059 Sterling Dark Solid
9008 Honey	4CZ5 Honey
9009 Black	0835 Black
9010 Light Peacock	4CZ8 Light Peacock
9011 Seagull	4858 Seagull

*Default finish on integrated power.

Application Topics

Moving desks can collide with other components. Do not install overhead storage, desk-height power, or desk accessories in the path of height-adjustable desks.

Universal boundary screens are not permitted on height-adjustable desks, as they do not pass minimum safety requirements which could result in the desk tipping over.

Sarto screens are recommended to be used with Sutton height-adjustable desks. Universal and Soffio screens are also compatible.

On extended height desks, any storage higher than 19" will impede the height range of the desk. On basic height desks, any storage higher than 23⁷/₁₀" will impede the height range of the desk.
Tip: Do not place storage underneath controller.

CPU holders are not allowed for use on Sutton. There is no overhang option available to support CPU holders.

All assemblies meet or exceed ANSI/BIFMA standards.

WARNING

Read base only warranty limitations.

Keyboard assemblies are not allowed for use on height-adjustable desks. They do not meet minimum safety requirements.

A modesty panel is available and ordered separately, in widths from 48" to 78". They can be specified in either wood veneer or High-Pressure Laminate. Modesty panels are specified one size smaller than the desk to allow for 2" clearance on both ends to accommodate the legs. Modesty panel can be mounted flush or inset.

Modesty panels may be inset from the back edge of the worksurface to allow for worktool clamps.

For monitor arms, only single and dual flat panel monitor arm applications are permitted for use with height adjustable desks. For further information, see the *Steelcase Worktools Specification Guide*.

Dual monitor arms are not allowed on 23"D worksurfaces.

Sutton, Height-Adjustable Desks Comparison Chart, continued

Installation

Desks ship with pre-drilled holes for mounting bases.

Height-adjustable base requires attachment to the worksurface.

Base supports a maximum distributed weight capacity of 360 pounds.

Tip: When calculating lifting capacity, subtract the weight of the worksurface, understructure, and options.

Tip: A label applied to the underside of the worksurface will include the load-capacity for each desk.

Modesty Panels

Tip: A modesty panel is available and ordered separately, in widths from 48" to 78". They can be specified in either wood veneer or High-Pressure Laminate. Modesty panels are specified one size smaller than the desk to allow for 3" clearance on both ends to accommodate the legs. Modesty panel can be mounted flush or inset with the edge of the worksurface. Modesty panel allows for 1" cord gap between the surface.

Standard Includes

- Modesty panel: High-Pressure Laminate price group 01
- Mounting brackets: black paint

Surface Materials

Wood

Tip: Known for its uniqueness, planked veneer has intentional and natural variations that include, but are not limited to: character marks, grain pattern, color, and natural color aging.

Select Surfaces

For information on products within Select Surfaces, including accent paints and fabrics from Designtex, Gabriel, Kvadrat, and Pollack, please refer to the *Surface Materials Reference Manual* or visit steelcase.com/surface-materials under the Select Surfaces section.

Composite Veneer

Composite veneers are an engineered wood intended to create specific grain patterns and characteristics. They are pre-stained and finished with Steelcase's Clarity water-borne UV topcoat, which protects the environment while providing durability and clarity. Only open-pore finishes are available on composite wood. Composite veneers with natural solid nosings because composite and natural wood grain and color matching are rarely compatible. Composite veneers are Select Surfaces and available as Wood Group 1 pricing.

Upholstery

Select Surfaces Program: Upholstery

Applies to:

- Belle
- Boardwalk
- Brighton
- Mesa
- Willow
- Slope
- Sterling

A collection of textiles

are available as part of a Select Surfaces Program. The collection from the leading suppliers in the market consists of high-performance textiles.

To order these fabrics, enter the finish code which corresponds with the fabric price group.

Price Group	Finish Code
1	59DA
2	59DB
3	59DC
4	59DD
5	59DE
6	59DF
7	59DG
8	59DH
9	59DJ
10	59DK

Then enter the fabric information in the Special Fabric Information pop up window.

Custom Surfaces

Price Group COM (Customer's Own Material)

Fabric Approval and Yardage To confirm whether a particular COM material has already been tested for use on a specific Steelcase product or to determine actual yardage requirements:

- Visit www.steelcase.com

Visit <https://srh.steelcase.com/comcalculator.aspx> for Steelcase Textile calculator.

For additional information regarding Customer's Own Material, call

1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.

Laminate

Tip: When selecting a Steelcase top surface finish, a corresponding Steelcase edge finish must be selected. When selecting West Elm top surface finish, a corresponding West Elm edge finish must be selected.

*** Cloud Velvet available in light mocha, black indigo, slate, and all other finishes are available as graded-in.

Lock and Keying Options

Greenpoint Pedestals and Greenpoint Lateral Files

All locking products are standard with factory-installed, keyed-random locks. Consecutive, specific, and random keying are available as field-installed options.

Locks consist of a field-installed lock cylinder and a factory-installed lock face ring.

Two types of locks are available — the standard keying system (FR series) and the master keying system (XF series). All the locks in the XF series can be opened with a single master key.

Field-Installed Keying

Field-installed locks are only available on products that include factory-installed lock mechanisms.

Specify "plug" when specifying furniture, and the product will ship with a plastic plug in place of the lock cylinder.

Tip: For products with optional lock colors, make sure to specify the color for both the lock and lock face ring.

Front-removable lock cylinders must be specified separately. You must also order a special lock tool to install or remove lock cylinders in the field.

Tip: Lock tools are reusable. You do not need to order additional lock tools with every furniture order.

Lock cylinders will be shipped separately so that you can install the locks when you are ready.

Three keying choices are available for field installation—random (standard), specific, and consecutive. All three are also available with master keying, which means that all locks can be opened with a single master key.

Key random means that the locks will be assigned arbitrarily at the factory with key numbers ranging from FR305 to FR454 (Master keying numbers: XF1001 to XF1150).

Tip: Random keying can mean that different furniture units will have the same key number. If you must have all locks keyed differently, you should specify key specific or key consecutive lock cylinders.

Key specific means that you can specify any key number from FR305 to FR454 (Master keying numbers: XF1001 to XF1150). This option can be used to key all the furniture units in a workstation or department the same.

Tip: Designate the quantity per key number in your specification.

▶ See below.

Key consecutive means that you can specify lock numbers in a consecutive order to ensure that no two locks have the same key number until the key sequence repeats. You must select a beginning key number from FR305 to FR454 (Master keying numbers: XF1001 to XF1150).

Example of a typical lock cylinder specification is shown below:

10	LOCK9201FR FR320
5	LOCK9201FR FR350
15	LOCK9201XF XF1100
30	Total

Lock Cylinders

Tip: Lock price is included in price of furniture with locks.

Tip: For replacement lock cylinders, refer to Service Parts.

Tip: You can change lock cylinders in the field by using the appropriate lock tool.

Standard Includes	Required to Specify
<ul style="list-style-type: none"> Lock cylinder, keyed random: 9201 Polished Chrome or 9250 Ember Chrome Two keys 	<ul style="list-style-type: none"> 1 Style number 2 Options, if selected (see below)

Options	Price	Required to Specify
Key specific	No cost	Select key number from FR305–FR454.
Key consecutive	No cost	Specify <i>key consecutive</i> and must select beginning key number from FR305–FR454.
Master key random	+\$36 each	Specify master key random.
