

Steelcase

Steelcase Pop Up Powerstrip

Power at your fingertips. With all the devices needed to keep businesses moving, easy-to-access power is a must-have. The Steelcase Pop Up Powerstrip is the power you need in a clean, elegant package. A simple press of the surface panel reveals power options, including standard outlets and charging for devices with USB-A and USB-C ports. Press the surface panel closed to conceal the power sources when not in use.

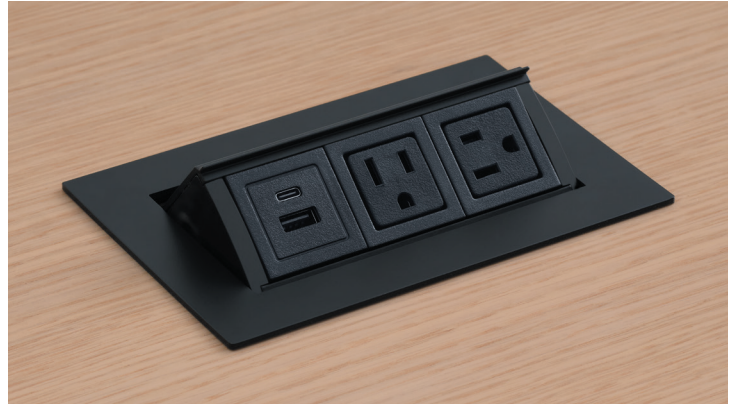

Features + Benefits

Easy Access

Great for private offices, desks and conference tables, the Pop Up Powerstrip mounts directly into the tabletop surface through an opening cut into the table. Just press the panel to reveal the power outlets. Press again and the power is neatly stored away.

Multi-Functional

Multiple power configurations fit all needs — power outlets, USB-A and C 20W, USB-C 100W and data port are available. Can be used to power a single workstation with the standard NEMA plug or standard NEMA plug with under worksurface utility power. The Pop Up Powerstrip is also available as a power option for Steelcase Relay Modular Power System and Steelcase Universal Modular Power System.
