Premium Whiteboards

Steelcase

SUPPORT COLLABORATION.

Collaborating means sharing information. It means throwing ideas into the mix, or onto the wall. When people work together, innovation happens. Steelcase Premium Whiteboards use vertical space to bring people and ideas together, either spontaneously or in group think sessions.

ENGAGING PEOPLE WITH PRODUCTIVITY.

Steelcase Premium Whiteboards let you put your thoughts where others can see them. Draw a picture. Display information, then build on it. When everyone is sharing information together, they're communicating together, increasing productivity and employee engagement.

SUSTAINABILITY WITHOUT COMPROMISING DURABILITY.

Steelcase Premium Whiteboards are the most environmentally sustainable whiteboards available. e3 ceramicsteel™ is the first whiteboard writing surface to receive Cradle to Cradle certification. In fact, it's 99% recyclable. Yet, the surface is extremely resistant to impact damage, abrasion, scratching, and color fading.

PARAMETRIC SIZING

Parametric sizing is the ability to change dimensions of a product within pre-engineered limits. Parametric sizing allows for the specification of non-standard sizes on the following Steelcase Premium Whiteboards: Edge, Session, 110 and 555 series. Sizes can be specified to 1/16 of an inch, allowing for virtually any size to be ordered. Parametric sizing reduces the need to place orders through specials, leading to a decrease in order processing time, immediate availability of pricing, and an overall cost savings for the customer.

SUSTAINABILITY

At its heart, sustainability at Steelcase is about people. It's about creating and supporting the economic, environmental and social conditions that allow people and communities to reach their full potential.

Research and insights direct our path.

It's not only about creating goods, it's about creating good. It's not only about creating value, it's about living our values. It's not just about reducing our footprint, it's about expanding our reach. It's about creating lasting and meaningful change to enable the long-term wellbeing of current and future generations.

Innovative products and solutions result.

In the development of our products, we work to consider each stage of the life cycle: from materials extraction, production, transport, use and reuse, until the end of its life. We demonstrate performance through third-party verified certifications and voluntary product declarations.

Steelcase's sustainability promises, actions, and results are communicated in an annual Corporate Sustainability Report.
