

RoomWizard
Scheduling Solution

Steelcase

Simple Navigation

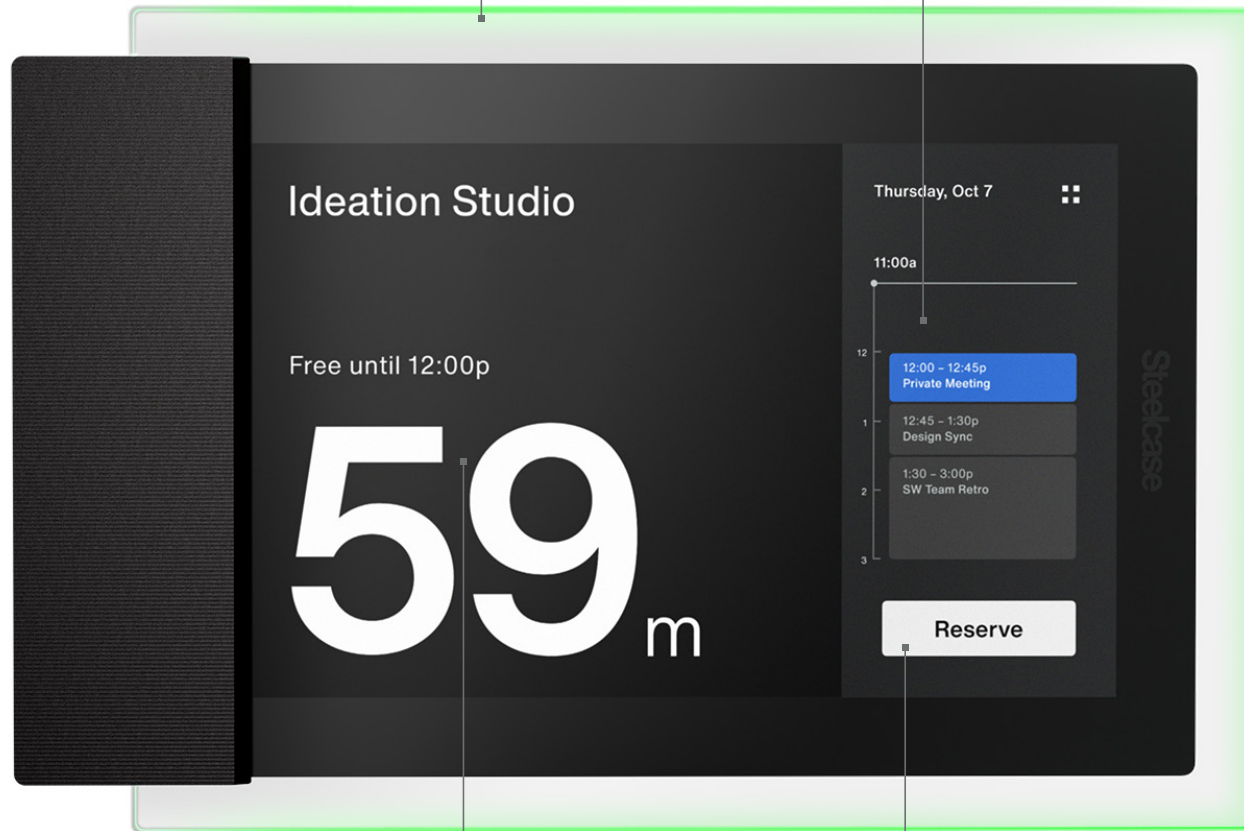

Find and reserve space with confidence. RoomWizard® is a room scheduling solution that makes it easier to get where you need to go. RoomWizard is designed to display critical meeting information so that it's readable from a distance. It assists in wayfinding and makes it easy to schedule meeting spaces from your desk or on demand at the device.

Clear Wayfinding

LED status lights show availability from a distance.

Interactive Timeline

Timeline displays room schedule for the day.

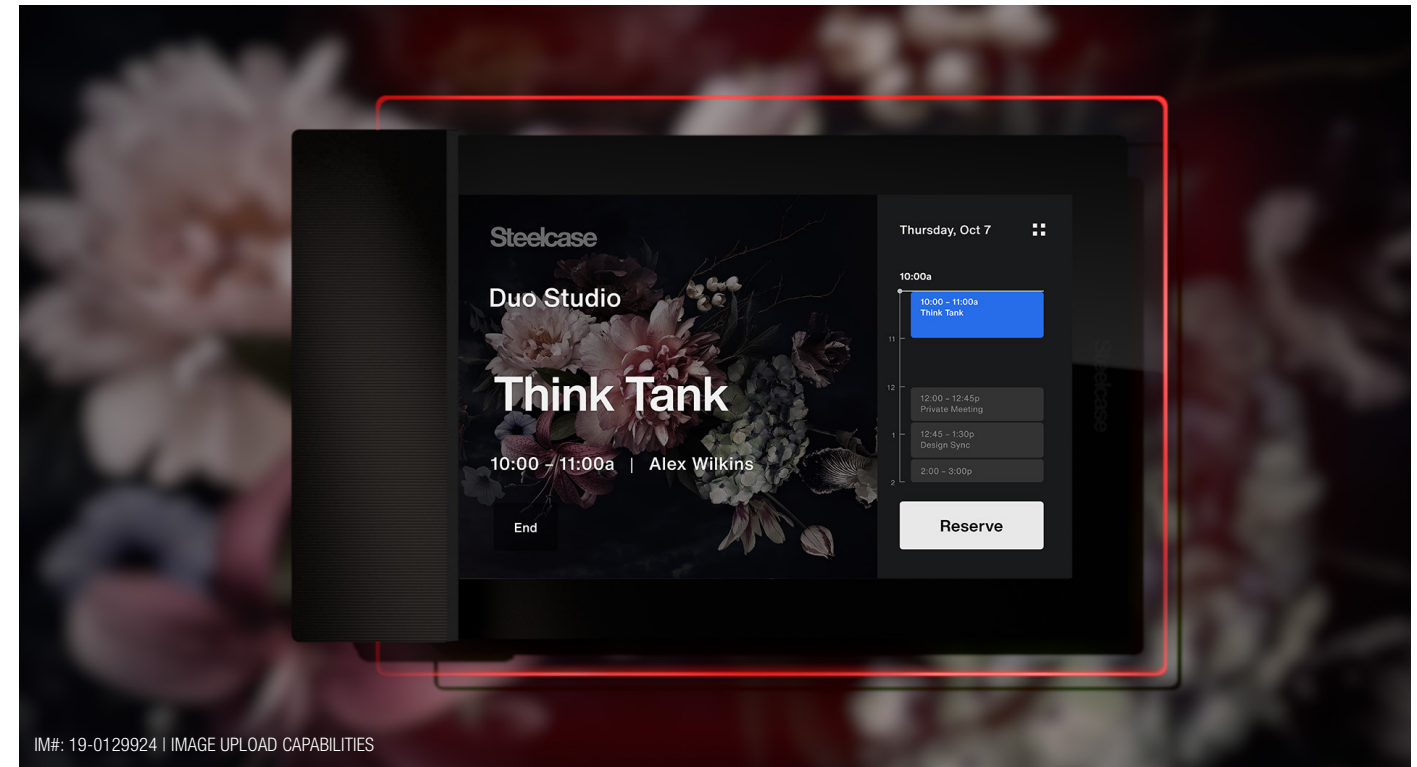

Simple Interface

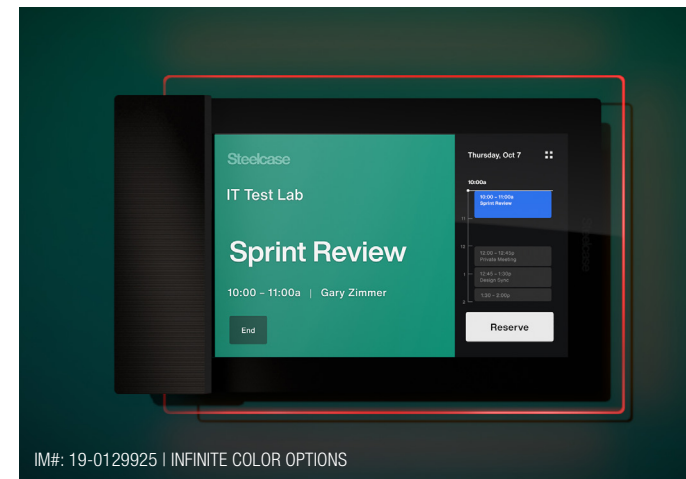

Large font clearly displays space availability and meeting information.

Easy Reservations

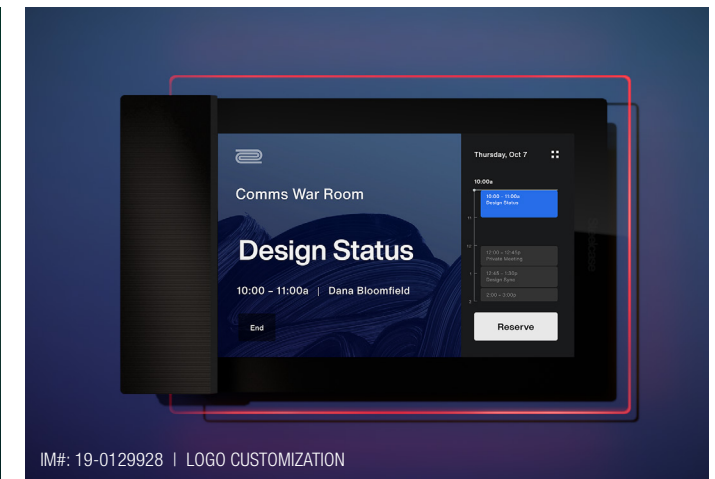

Clear call to actions help users navigate the interface and reserve now or later.

FEATURES

ENTERPRISE PLATFORM

Built on the Microsoft Azure® trusted cloud infrastructure, RoomWizard is a secure, all-in-one enterprise scheduling solution that's easy to use, manage and maintain from a single device manager web application.

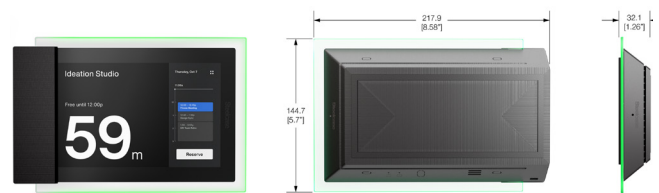

- Encryption is used for transfer of data
- Simple, remote management from Steelcase IoT Admin Portal web application
- Easy to scale
- Global customer support
- Enable meeting check-in at room, room will release if no check-in occurs
- Powered and connected via PoE+
- Integrates into existing scheduling and calendar platforms

RECYCLE YOUR OLD ROOM SCHEDULING DEVICES

At Steelcase, we believe in protecting the environment. We design our products to last for a very long time, but when they do eventually reach the end of their life, we are committed to creative problem solving when it comes to waste materials management. If you own any prior generation RoomWizard II (RW20) devices and are planning to replace them with the new RoomWizard, as part of our product lifecycle end of life strategy, it's important to us that all retired RoomWizards are responsibly recycled with an accredited electronics recycler. If you do not have an existing electronics recycling process, we have a process established and are ready to help.
