Universal Privacy/Modesty Screens

Universal privacy/modesty screen

provides a boundary element for height adjustable desks and fixed worksurfaces. It can be used with Ology, Migration SE, Airtouch, Elective Elements, Universal tables, and Universal panel mount worksurfaces.

► Specifying, page 239

Universal privacy/modesty screens

are available in one height, 25⁷/₁₀" , with two mount location options to provide either privacy or privacy/modesty.

Universal privacy/modesty screens

cannot be used on surfaces that have intergrated rails or an additive SOTO rail.

Universal privacy/modesty screen is pin tackable.

The screen is attached to the worksurface using simple L-brackets and 1" screws.

Product Details

The edge of the screen is comprised of two different materials. The upper segment is merle plastic. The lower portion is PET which can be specified in medium heather grey to provide contrast or dark heather grey for a uniform visual.

The screen may be used on 3/4"-1 1/2" thick worksurfaces.

The width of the screen can be equal to or less than the width of the worksurface to which it will attach. Some restrictions apply due to location of worksurface legs and supports.

Surface Materials

Screen

- Fabric
- See *Surface Materials*, page 280.

Edge (upper segment)

- 7360 Merle

Edge (lower segment)

- P630 Medium Heather Grey PET
- P631 Dark Heather Grey PET

Brackets

- 7360 Merle

Application Topics

Universal privacy/modesty screen mounts to worksurfaces using simple L-brackets and screws. The brackets are positioned 3 3/4" in from each side of the screen.

Tip: When specifying grommets on Ology, verify the position of the screen in CET SmartTools Planning.

Screen height attachment locations are determined when specifying privacy (top of screen will be at 48") or privacy/modesty (top of screen will be at 42"). The location cannot be changed in the field.

Privacy configuration provides 19¹/₈" of screen above the worksurface and 5¹/₂" of screen below the worksurface. The height is measured from the top of the mounting surface to the top of the screen, and from the bottom of the mounting surface to the bottom of the screen. The top of the screen will align with the bottom of the top trim on a 48"H Answer panel.

Actual Dimensions

Width	42", 48", 54", 60", or 66"
Height	25 ⁷ / ₁₀ "
Weight	9.79 lb, 10.315 lb, 10.84 lb, 11.365 lb, 11.89 lb
Thickness	3/4"

Screen can be mounted with a 1 1/8" cord drop or flush with no cord drop.

Privacy/modesty configuration provides 13" of screen above the worksurface and 11 7/10" of screen below the worksurface. The height is measured from the top of the mounting surface to the top of the screen, and from the bottom of the mounting surface to the bottom of the screen. The top of the screen will align with the bottom of the top trim on a 42"H Answer panel.

Both the privacy and privacy/modesty configurations allow the height-adjustable desks to be lowered to the lowest position (22") while preserving pinch point gap. Privacy version will not interfere with integrated storage.

Privacy/modesty screens must never be wider than the surface to which they are attached.
Tip: It is recommended that CET SmartTools Planning aid be used to ensure proper application of screen to worksurface or tables.

Universal privacy/modesty screens cannot be used with 58"W Ology desks with leg integrated into storage. The smallest screen width is 42" which would collide with the storage. Must use a minimum 64"W desk when using storage and Universal privacy/modesty screens.

When used with One-High integrated storage, Universal privacy/modesty screens must be a minimum of 18" shorter than worksurface width to allow for pinch point clearances.

Universal Privacy Screens and Aligners

Universal privacy screens provide a boundary and privacy element for height adjustable desks and fixed workspaces. It can be used with Ology, Migration SE, Elective Elements, panel supported Universal workspaces, and TS Series workspaces.

► Specifying, page 240

Product Details

Universal privacy screens are tackable and available in 13½"H and 19½"H, and have widths from 24"W to 96"W.

The edge of the screen is comprised of two different materials. The upper segment is merle plastic. The lower portion is PET which can be specified in medium heather grey to provide contrast or dark heather grey for a uniform visual.

The screen may be used on ¾"–1½" thick worksurface.

The width of the screen can be equal to or less than the width of the worksurface to which it will attach. Some restrictions apply due to location of worksurface legs and supports.

When fabric screens are placed directly adjacent to each other, a small aligner can be placed in between the screens at the top to connect them for planar alignment. Aligners are ordered separately in packages of 10.

Brackets are included with screens. Two brackets are used on all screens.

Universal privacy screen slides onto brackets.

Surface Materials

Screen

- Fabric
- See *Surface Materials*, page 280.

Edge (upper segment)

- 7360 Merle

Edge (lower segment)

- P630 Medium Heather Grey PET
- P631 Dark Heather Grey PET

Brackets

- 7241 Textured Arctic White
- 7360 Textured Merle
- 4799 Platinum

Actual Dimensions

Height	12½" or 18½"
Overall Height	13½" or 19½"
Width	24", 30", 36", 42", 48", 54", 60", 66", 72", 78", 84", 90", or 96"

Tip: Overall height is measured from top of mounting surface to the top of the screen.

Tip: 13½"H screen aligns with a 42" datum from the floor. 19½" screen aligns with a 48" datum from the floor.

Universal Rear and Side Hard Surface Screens

For Use on Height-Adjustable, Universal, and Elective Elements Worksurfaces

Universal Rear and Side
Hard Surface Screens

Universal hard surface screens are made of solid clear plastic and mount to worksurfaces, providing a boundary element for height-adjustable desks and fixed surfaces.

► Specifying, pages 242–244

Actual Dimensions

Solid Clear Screen	
Width	15"–72"
Height	12"–24"
Thickness	0.220"

Tip: Not all dimensions are available for all screens. Please consult the specifying pages or CET SmartTools for list of available sizes.

Tip: Height of solid clear screens are measured from the worksurface to the top of the screen. Final height of screen will be 0.150" shorter than specified height.

Product Details

Screens may be used on 1"–1½" thick worksurfaces. Style numbers are available for standard Steelcase work-surface thicknesses.

Tip: Screen styles ending in '__HS' are for most Steelcase height adjustable worksurfaces (1").

Tip: Screen styles ending in '__US' are for Universal worksurfaces (1½").

Tip: Screen styles ending in '__ES' are for Elective Elements worksurfaces (1½").

The width of the screens can be equal to or less than the width/depth of the worksurface to which it will attach. Some restrictions apply due to location of worksurface legs and supports.

Tip: Refer to existing guidelines about maximum screen widths when installed on height-adjustable desks.

Application Topics

Brackets are positioned 3½" from the edge of the screen.

Rear screens mount with a 1" cord drop for cable management and are attached using 7/8" screws. Cord drop also allows for mounting of clamp-on worktools to the back edge of the worksurface.

Rear screens align with the top edge of the work-surface and do not provide modesty.

Clear solid plastic screens cannot be used on surfaces with integrated rail, an additive SOTO Rail, acrylic modesty panel, or an additive cableway.

Tip: When specifying grommets on Ology, verify the position of the screen in CET SmartTools.

Clear solid plastic screens under 60"W come standard with two brackets. Screens 60"W and wider come with three brackets.

Side screens attach to the side (depth) of a work-surface only.

Side screen brackets wrap over the top of the worksurface to maintain adequate pinch point clearances between adjacent work-surfaces, panels, or walls and are attached using 7/8" screws.

Clear solid rear screens can be used with Ology modesty panels on desks equal to or less than 29" deep. Screens and modesty panels must be a minimum of 6" narrower than the width of the worksurface. Screens can be a maximum of 18"H when used on a worksurface with an Ology modesty panel.

Sarto Privacy/Modesty Screens

Sarto privacy/modesty screen provides a light scale boundary element for height adjustable desks and fixed worksurfaces. It can be used with Ology, Migration SE, Elective Elements, universal tables, and universal panel-mount worksurfaces. ▶ Specifying, page 246

Sarto privacy/modesty screens are available in overall heights from 24" to 30", with a privacy height option to provide varying levels of privacy and modesty.

The screen is attached to the worksurface using simple L-brackets and 1" screws.

Product Details

The screen may be used on 3/4"–1 1/2" thick worksurfaces.

Screens are available in modular or parametric sizes.

The width of the screen can be equal to or less than the width of the worksurface to which it will attach. Some restrictions apply due to location of worksurface legs and supports.

Weight of screens are calculated as follows:
Screen: 0.0044 lb per inch²
Bracket: 0.2 lb per bracket.

Application Topics

Sarto privacy/modesty screen mounts to worksurfaces using simple L-brackets and screws. The brackets are positioned 3 3/4" in from each side of the screen. Two L-brackets are included with screens narrower than 60"W. Three or four L-brackets are included on screens 60"W and wider.

Worksurface type is available for screens 60" wide or wider, and allows the Sarto privacy/modesty screen to mount to a scalloped worksurface (for example Bivi Height-Adjustable Desk).

Screen can be mounted to the back edge of the worksurface with a 1 1/8" cord drop or flush with no cord drop.

Screens 36"W and narrower can be mounted as side screens, and are always mounted flush to the edge of the worksurface. This application grows the footprint of the workstation by 9/16" per screen.

Screens are specified with a privacy height above the worksurface. A 1" thick worksurface is assumed. This privacy height sets the position of the brackets and cannot be changed in the field.

Screens are specified by first selecting an overall screen height (24"–30"), then specifying a privacy height. Privacy height is measured from the top of the screen to the top of the worksurface. Allowable privacy height selection changes based on the specified overall height.

All privacy heights allow a height adjustable desk to be lowered to the lowest position (22") while preserving pinch point gap.

To match screens

ordered on or before June 20, 2021, please consult the following information to determine proper privacy height.

- 24"H Screen, Privacy/Modesty Configuration – Privacy Height = 13 1/2"
- 24"H Screen, Privacy Configuration – Privacy Height = 16 1/2"
- 30"H Screen, Privacy Configuration – Privacy Height = 22 1/2"

Sarto privacy/modesty screens can be used with universal worksurfaces and tables where surface supports and leg brackets are not in same location of the screen L-bracket attachment points.

- Example 1—Worksurfaces supported by a panel side bracket or cantilever can accept privacy/modesty screen placed 6" in from end with these brackets.
- Example 2—Tables with cabby leg or double elliptical post C-legs can accept screens 6" shorter than total table width but not same width.

Privacy/modesty screens can also be used with Elective Elements surfaces with some restrictions when combined with gate leg or the Elective Elements adjustable-height leg.

Privacy/modesty screens must never be wider than the surface to which they are attached.

Tip: It is recommended that CET SmartTools planning aid be used to ensure proper application of screen to worksurface or tables.

Surface Materials

Screen

- Fabric
- ▶ See *Surface Materials*, page 280.

Brackets

- 7360 Merle

Actual Dimensions

Width	23"–70"
Height	24"–30"
Thickness	9/16"

Sarto privacy screens provide a light scale boundary and privacy element for height-adjustable desks and fixed worksurfaces. It can be used with Ology, Migration SE, Elective Elements, universal worksurfaces, and TS Series worksurfaces.
 ▶ Specifying, page 248

Product Details

Sarto privacy screens are tackable. They are available in four modular heights, 13½"H, 19½"H, 23½"H, and 35½"H, and have widths ranging from 24"W to 96"W. Screens can also be specified parametrically.

The screen may be used on ¾"–1½" thick worksurfaces.

The width of the screen can be equal to or less than the width of the worksurface to which it will attach. Some restrictions apply due to location of worksurface legs and supports.

Tip: It is recommended that CET SmartTools planning aid be used to ensure proper application of screen to worksurface or tables.

Brackets and hard stops are included with screens. Screens narrower than 60"W use two brackets, while screens 60"W and larger utilize three brackets. The third bracket is centered on the width of the screen.

Offset brackets are included with 29"W screens, to help maintain appropriate pinch points between the screen and adjacent objects. Side screen option is available for screens 36"W and narrower.

Sarto privacy screen slides onto brackets.

Alignment brackets are available to help eliminate gapping and misalignment between back and side screens. Alignment brackets are available as their own style (**PSCB**).

Weight of screens are calculated as follows:
 Screen: 0.0044 lb per inch²
 Bracket: 1.2 lb per bracket.

Surface Materials

Screen

- Fabric

▶ See *Surface Materials*, page 280.

Brackets and hard stops

- 7360 Merle

Actual Dimensions

Screen Height	12½"–34½"
Overall Height	13½"–25½"
Width	24"–96"

Tip: Overall height is measured from top of mounting surface to the top of the screen.

Sarto Curved Screens

Sarto curved screens provide light scale privacy and modesty for height-adjustable desks and work tables.
 ▶ Specifying, pages 252-254

Curved screens are pin tackable.

Curved screens are attached to the work surface with simple metal L-brackets.

Application Topics

Half desk screens are sized to work with modular size desks. Mounting a pair of half desk screens on a parametric sized desk will create a gap between screens. Parametric width screens are available to create a full wrap of parametric work surfaces.

Tip: It is recommended that CET SmartTools be used to evaluate the gap on the desk.

L-screens are sized to work with popular sized modular width desks. When mounted, the modular widths of the L-screen are designed to cover two thirds of the back of the work surface.

Tip: It is recommended that CET SmartTools be used to evaluate the placement of the screen on the desk.

Fabric is applied in a warp horizontal direction. Due to the size of the screens, fabric is unable to be applied in a warp vertical direction.

Screens are specified by first selecting an overall screen height (18"-24"), then specifying a privacy height. Privacy height is measured from the top of the screen to the top of the work surface. Allowable privacy height selection changes based on the specified overall height.

All privacy heights allow a height-adjustable desk to be lowered to the lowest position (22") while preserving pinch point gap.

To match screens ordered on or before June 20, 2021, please consult the following information to determine proper privacy height.

- 24"H Screen, Privacy/Modesty Configuration – Privacy Height = 13½"
- 24"H Screen, Privacy Configuration – Privacy Height = 16½"

When ordering a single screen, selecting the correct hand is important. Handedness is assigned from the user position when the curved screen is mounted.

Screen is not applicable on shaped work surface edges (knife edge, bullnose, P-edge, etc).

Actual Dimensions

	L-Screen	Half-Desk Screen
Overall Width	43"–66"	43", 49", or 55"
Depth	20"	20"
Width	23"–46"	23", 29", or 35"
Height	17.909", 18", or 24"	17.909", 18", or 24"
Thickness	7/8"	7/8"
Weight: 18"H	5.7 lb, 6.5 lb, 7.2 lb	5.0 lb, 5.6 lb, 6.2 lb
Weight: 24"H	7.3 lb, 8.4 lb, 9.4 lb	6.4 lb, 7.2 lb, 8.0 lb

Brackets

- 6527 Merle

Universal and Sarto Screens Specific Guidelines

Migration SE Specific Guidelines

Rectangular 29"D and 35"D

All guidelines assume the screen is centered on the desk.

Screens are sized to be a minimum of 4" smaller than worksurfaces. They can be placed anywhere along the back edge of a desk but cannot extend past the desk edge.

Ology Specific Guidelines

Rectangular 23"D, 29"D, and 35"D

Tapered 23"D and 29"D

The screen can be placed on the back edge of an Ology without an integrated rail desk utilizing either the 1 1/8" cord drop or no cord drop placement. Screens are sized to be a minimum of 4" smaller than worksurfaces. Optional cable trays and grommets on Ology may cause some interference with screen mounting brackets.

Legend

No interference
Interference or cannot be used
Cannot specify a grommet

Ology Specific Guidelines, continued

90° Corner 23"D

120° Corner 23"D

All guidelines assume the screen is centered on the desk.

When using the universal or sarto privacy/modesty screen on Ology with 1 1/8" cable drop, there are no limits on the horizontal placement of the cable tray beneath the desk.

The universal or sarto privacy/modesty screen can be used with the Ology modesty panel without causing interference.

The universal or sarto privacy/modesty screen can be used on either back edge of a 90° or 120° corner desk configuration.

Ology desks using an integrated storage leg may only mount the universal privacy/modesty screen in the privacy position and cannot use sarto screens due to interference.

The universal or sarto privacy/modesty screen does not mount to an Ology rail or into the Ology cantilevers.

If using overhangs, the leg must be at least 3 1/2" in from its standard position to avoid interference with the screen bracket.

Airtouch Specific Guidelines

Rectangular 22¹/₄" D and 28¹/₄" D

90° 22¹/₄" D

120° 22¹/₄" D

Universal or sarto privacy/modesty screen weight should be considered, along with other items to be used on Airtouch, so as not to exceed weight limit.

Universal or sarto privacy/modesty screens can be placed on the back edge of an Airtouch worksurface, utilizing either the 1¹/₈" cord drop or no cord drop placement without creating interference. The screen must be narrower than the width of the worksurface. Screen cannot exceed the width of table.

Legend

-  No interference
-  Interference or cannot be used
-  Cannot specify a grommet

Soffio Screen

Soffio screen provides privacy and modesty in nearly infinite configurations for height-adjustable desks and fixed workspaces.

► Specifying, page 255

Screen is attached to the worksurface with brackets.

Screen is pin tackable.

Screen includes corrugations, allowing for the screen to curve at any point along the width.

Application Topics

Screen is available in three standard sizes, allowing for a variety of mounting configurations on desks of different sizes.

Tip: It is strongly recommended that CET SmartTools be used to evaluate the placement of the screen on the desk.

Fabric is applied in a warp horizontal direction. Due to the size of the screens, fabric is unable to be applied in a warp vertical direction.

Screen provides 13" of screen above the worksurface and 12" of screen below the worksurface. The height is measured from the top of the mounting surface to the top of the screen, and from the bottom of the mounting surface to the bottom of the screen.

Screen is not handed. The screen can be mounted in a right- or left-hand configuration.

Screen is not applicable on shaped worksurface edges (knife edge, bullnose, P-edge, etc).

Surface Materials

Screen

- Fabric

Brackets

- 6527 Merle

Actual Dimensions

Desk width	56", 68", or 80"
Height	26"
Weight	2.9 lb, 3.6 lb, 4.2 lb
Thickness	1"

Worksurface Side Screens

For Use on Desking, Benching, and Table Worksurfaces with Varying Thickness

Worksurface side

screens provide a territorial boundary between users. Fabric, frosted glass, or clear glass screens are available for different levels of privacy. They are used on worksurfaces 0.808", 1", 1.185" and 1.5" thick. ▶ Specifying, pages 256–258

Worksurface bracket

sits on the worksurface and allows the side screen to work on worksurfaces 22"D–30"D or deeper worksurfaces.

Worksurface side

screen is available in fabric or glass. Fabric screen is pin tackable.

Worksurface bracket is powder coat paint.

Clamp at front of bracket attaches to the front edge of four specific worksurface thicknesses.

Actual Dimensions

	Fabric and Glass Screen	Application
Width	22" or 28" 24" or 30" 23½" or 29½"	FrameOne, Ology, Migration SE, and Flex worksurfaces Elective Elements and Universal worksurfaces Universal worksurfaces with cord drop
Height	12" or 19½"	
Fabric Screen Thickness	¾"	
Glass Thickness	¼"	
Worksurface Bracket Clamp	0.808" thickness 1" thickness 1.185" thickness 1.5" thickness	FrameOne worksurfaces Ology, Migration SE, and Flex worksurfaces Universal worksurfaces Elective Elements worksurfaces

Product Details

Worksurface side screens attach with two screws (#8 x 1/2" large buttonhead wood screws) through the clamp at the front on the underneath of the worksurface. The bracket clamp must be flush to the worksurface flat front edge.

Worksurfaces 0.808" thick utilize the smallest clamp at the front (FrameOne).

Worksurfaces 1" thick utilize a different clamp at the front (Ology, Migration SE, Flex).

Worksurfaces 1.185" thick utilize another clamp at the front (Universal).

Worksurfaces 1.5" thick utilize the largest clamp at the front (Elective Elements).

Tip: Worksurface bracket clamp must be used with the corresponding top thickness as noted above.

Application Topics

Side screens run parallel to the side (depth) of a worksurface only. They can attach anywhere along the front edge of a worksurface as long as the underwork-surface clearance is free from any obstructions.

Worksurface side screen must be clear of any obstruction or interference on top of the worksurface.

The width of screens can be equal to or less than the depth of the worksurface to which it will attach. No overhang is allowed. Some restrictions apply due to location of worksurface legs and supports.
Tip: Consult SmartTools for any application restrictions.

Table-Mounted Translucent and Slatwall Screens

► Specifying, page 262

Screens can be attached above the worksurface to the left, right, and rear sides of table desks with post legs.

Screen attaches to the rear of rectangular table desk top.

Screens are not flush with tables. 12" screens are 15"H from the tabletop and 18" screens are 21"H from the tabletop.

Product Details

Screens, 6" smaller than table desks, do not extend full width or full depth of worksurface.

Table desk tops are shipped without screen holes. To attach screens, holes must be drilled on site using the supplied template. Plugs are available through Service Parts (**TS5YGMTSR**) when screens are not in use and have been removed from the top.

Screen attaches above the worksurface for use as a privacy panel or below the worksurface for use as a modesty panel. Mounting brackets, ordered separately, must be used when attaching screens above and below a worksurface.

► Specifying, page 264

Tip: Cableways may need to be shorter than worksurface width. To determine screen/cableway and height-adjustable worksurface compatibility, see Worktools Compatibility Charts, page 40.

Product Details

Cableway allows user to manage cables and power at worksurface height for a clean aesthetic.

Cableway is a fixed height $\frac{1}{4}$ " above the worksurface.

Cableway with Universal clamp can be used in combination with privacy and modesty screens. ► See page 264

Gap between worksurface and cableway is 1" to allow for cables to feed through.

Cableway is 3" shorter than screen width to accommodate Universal clamp.

Universal clamp, if selected, is for use with worksurfaces 1" to 2" thick.

Universal clamp, if selected, uses a 2" footprint above and below worksurface.

Universal clamp, if selected, is standard with rubber feet to ensure a tight fit without marring worksurface.

Horizontal brackets, if selected, screw into underside of worksurface.

Horizontal brackets, if selected, require 2" of clearance below worksurface.

Application Topics

Cableway/Screen Width	SlatRail Width

Powerstrip Intro

► Specifying, page 268

Product Details

Powerstrip intro offers two power, one power and dual USB-A or two power, one USB-A and one USB-C intelligent 20W with a C-clamp mount for the desktop.

Desktop power configuration options and specifications include:

- Two power
- One power and dual USB-A
- Two power, one USB-A and one USB-C 20W
- Power outlet is 15A, 120V, 60Hz
- Tamper resistant power outlets

Meets spill test criteria.

Two power with 20 watt intelligent USB A+C (3 port):

- If only USB-C in use: delivers what the device needs up to 20 watts
- If only USB-A in use, up to 10 watts
- If both USB A+C in use, USB-A delivers up to 10 watts and 10 watts to USB-C. If USB-A device needs less than 10W, the remainder up to 20 watts goes to the USB-C device
- USB-A watt/amp output (2 port) is 10W/2A per port with dedicated charging ports

Under worksurface optional utility power blocks do not ship with independent mounting hardware. They are designed to mount into the universal cable management kit without additional hardware.

Cable management kit comes standard with each powerstrip. Mounts under the worksurface to manage cords.

Optional Under Worksurface Utility Power

The bottom of each utility powerstrip block has slots. The slots allow the block to slide onto raised bars in the universal cable management trays. These help keep the powerstrip in place when the tray is opened or closed.

Overcurrent protection via a circuit breaker

prevents one powerstrip plus assembly from drawing more than 15 amps of power.

Overcurrent protection

is included as standard with powerstrip plus configurations with more than four outlets and is an option on configurations with less than four outlets. Check with your local authorities having jurisdiction to see if overcurrent protection is required for assemblies with less than four outlets.

USB-A watt/amp output is 10W/2A per port, with dedicated charging ports.

Powerstrip intro includes a 9-foot standard smooth cord with a diameter of 3/8".

Powerstrip intro includes a standard straight 3-prong plug. An overcurrent protection (OCP) 90° plug is also an option. Check with your local authorities having jurisdiction to see if overcurrent protection is required.

Overcurrent protection (OCP) includes a circuit breaker rated for 15 amps.

C-clamp is designed to accommodate worksurfaces up to 1 1/2" thick.

Surface Materials

Housing

- 6009 Arctic White
- 6527 Merle

Tip: Arctic white housing will have arctic white cord and merle housing will have black cord.

Under Worksurface Utility Power

► Specifying, page 272

Product Details

Under worksurface utility power provides multiple power outlets for plugging in a height adjustable desk, computer, and desktop necessities with a one cord out solution.

Cable management kit comes standard and mounts under the worksurface to manage cords.

Utility power blocks do not ship with independent mounting hardware. The blocks are designed to mount into the universal cable management kit without additional hardware.

The bottom of each utility powerstrip block has slots. The slots allow the block to slide onto raised bars in the universal cable management kit trays. This design helps keep the powerstrip in place when the tray is opened or closed. Universal cable management kit's smart straps, if selected, are used to hold the power cord in place. ► See page 273 for universal cable management kit understanding content.

Overcurrent protection is required by UL on these products.

UL Listed: Utility power block outlets are hardwired together in a complete, UL listed assembly.
Tip: Underwriters laboratory (UL) listed. These products have been designed to meet U.S. and Canadian national electrical and energy codes and most local building codes. Local electrical codes vary, so consult with your local authority having jurisdiction as they have final say if the products as installed are compliant with local code.

Tip: Do not plug a powerstrip into another powerstrip or plug a powerstrip in an extension cord.

Tip: Desktop power with optional utility power is hard wired together and safe with a UL listing.

Actual Dimensions

Power blocks

Depth	2"
Width	8 1/4"
Thickness	1"

Four outlets total – One utility block, with three outlets each and one floating female outlet

Seven outlets total – Two utility block, with three outlets each and one floating female outlet

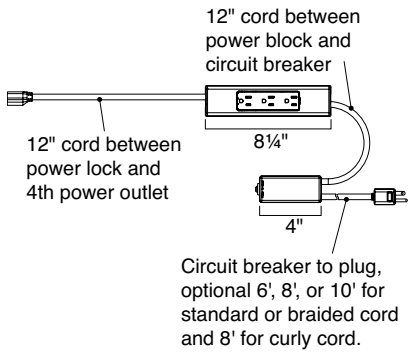

Nine outlets total – Three utility block, with three outlets each.

Floating female outlet for oversized drivers.

Standard NEMA 3-prong plug.

Dimensions

Universal Cable Management Kit

► Specifying, page 273

Product Details

Universal cable management kit provides easy management and access to cords, cables, and power blocks under a workstation.

Optional smart straps allow for easy management of cables and cords in the cable management tray. The large tray ships with 10 straps and the small tray ships with five straps. Straps are 5³/₄" long.

Cable management tray is designed to fit behind the stretcher bar and under-structure of most Steelcase height-adjustable tables.

Cable management tray provides tool-free and hardware-free mounting of under worksurface power from the powerstrip plus.

Cable management tray allows for a 4/5" gap around all four sides between the tray and the worksurface when mounted to allow for cable egress.

The small cable management tray is designed to hold one utility powerstrip and it has four outlets. The tray does not have the capacity to hold more than one utility powerstrip.

The large cable management tray holds two utility powerstrips in the raised bars section. There is capacity to add three utility powerstrips, two in the raised bar area and one more in the tray, strapped down.

Surface Materials

Cable tray
• 6527 Merle

Actual Dimensions

Depth 6⁵/₁₆"
(7⁴/₅" with bracket)

Width 15¹/₂", 30"

Height 2⁵/₈"
(3¹/₂" when installed)

Tip: Universal privacy/modesty screens can be attached to 3/4"-1 1/2" thick worksurface, including height adjustable work-surfaces, universal work-surfaces, and Elective Elements worksurfaces.

Tip: The screens weigh between 9.79 lb and 11.89 lb. Take this into consideration when planning for use on height-adjustable worksurfaces.

Tip: The universal privacy/modesty screen is intended for use on the back of a worksurface.

Tip: Fabric is applied horizontally on the screen.

Tip: Screen allows for 1 1/8" cord drop or no cord drop. See understanding pages for product specific application guidelines.

Universal Side Hard Surface Screens with Solid Clear Plastic

Tip: Style numbers with solid clear plastic (ttS, UHSPRUS, UHSPRES, UHSPSHS, UHSPSUS, UHSPSES) are specified in parametric heights. These heights may not equal actual heights. It is recommended to utilize CET SmartTools to verify actual heights.

Sarto Privacy/Modesty Screens

Tip: Sarto privacy/modesty screens can be attached to 3/4"-1 1/2" thick worksurface, including Ology, Migration SE, Elective Elements, universal tables, and universal panel-mount worksurfaces.

Tip: The screens weigh between 3.51 and 11.64 lb. Take this into consideration when planning for use on height-adjustable worksurfaces. See understanding pages to calculate screen weight.

Tip: Worksurface type option adds a fourth worksurface bracket and repositions brackets to avoid worksurface scallops.

Tip: Side screen option changes standard brackets for smaller L-brackets and only mount flush to the side of the worksurface. Side screen option is only available on screens 36"W and narrower.

Sarto Curved Screens

Half-Desk Screen

Tip: Sarto curved screens can be attached to 3/4" – 1 1/2" thick worksurfaces, including Ology, Migration SE, Elective Elements, Universal tables, and Universal panel-mount worksurfaces.

Tip: Screens weigh between 5.0 and 8 pounds. Take this into consideration when planning for use on height-adjustable worksurfaces.

Tip: Fabric is applied horizontally on the screen.

Tip: All Sarto curved screens have a 20" side leg depth.

Tip: Width refers to the distance from the corner of the worksurface to the edge of the screen when the screen is applied to the back of a worksurface.

Tip: Two half-desk screens (one LH and one RH) are required to wrap a full worksurface.

Standard Includes

- ▶ Need help? Product details, page 218
- Curved desk screen: fabric price group 1
- Brackets: 7360 Merle

Required to Specify

- 1 Style number
 - 2 Width (see below under Required Selections)
