

Seating Specification Guide

Availability

Electronic price list updated with release 200.O (U.S.) and 156.O (Canada), dated October 21, 2024.

All specifications subject to change without notice. Reference the electronic catalog/Hedberg for current pricing.

Transitional products in this specification guide are **maintained for existing customers only** and are likely to be phased out over time. These products are indicated with a . Products that are scheduled to be culled are indicated with an , followed by the last order entry date.

Surface Materials

The surface materials team has announced the launch of the Finish Library, found at www.steelcase.com/finishlibrary/.

► For a list of all trademarks, refer to the last page of this specification guide. © 2024 Steelcase Inc.

Resources	701

For Canadian Pricing

Canadian factor can be found at www.steelcase.com/CADpricing/. Calculate in the following order to avoid rounding errors:

- Multiply the base price and each option by the Canadian factor.
- Round each to the nearest dollar.
- Add base and options for total list price.

Ten Tips: How to Get the Most Out of This Book

Tip 1

Watch the tabs on the right-hand edges of the pages. They'll always indicate which chapter you are in.

Tip 2

Use the Statement of Line pages for an overview of the available components, their sizes, and page references for additional information. Each *Understanding* chapter includes a statement of line after the table of contents.

Tip 3

Find cross references by looking for page numbers flagged with an arrow.

Tip 4

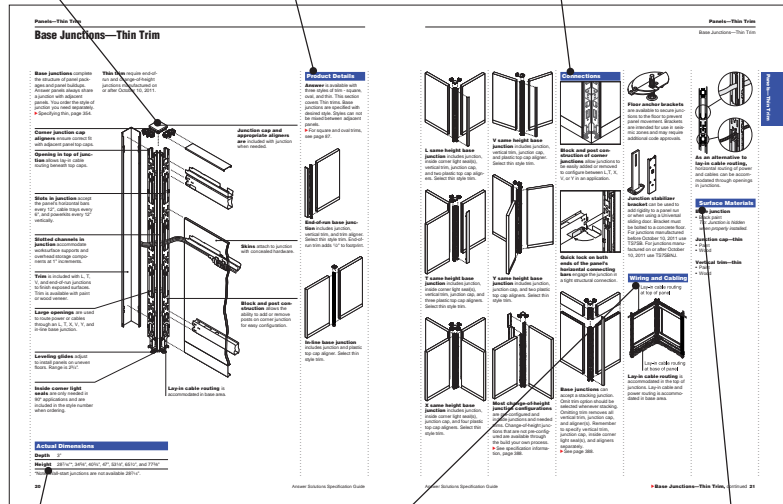

Study the product detail pages in the *Understanding* section to learn everything an expert knows about specific products. Each product detail page in this section contains the following features, where applicable:

- Product Drawing
- Actual Dimensions
- Product Details
- Connections
- Wiring and Cabling
- Surface Materials
- Application Topics

Product Drawing shows you what the product looks like and points out important features.

Product Details gives specific information on the product and how it is used.

Connections describes how the product is assembled or how it attaches to another product.

Actual Dimensions table lists the dimensions of the product.

Wiring and Cabling details the power and cable-management and cable routing capabilities of the product.

Surface Materials lists what material is used for each part of the product.

Ten Tips:
How to Get the Most
Out of This Book

Tip 5

Refer to the specifying pages for all the information needed to order a product. Each product specifying page contains a variety of elements to help you complete a specification:

- Product Drawing
- Standard Includes
- Required to Specify
- Options
- Related Products
- Specification Information
- Dimensions
- Style Number
- Price

Standard Includes (under the red or dark grey band) provides a list of what comes standard with the product.

Required to Specify (under the red or dark grey band) itemizes the information that you must provide to order the standard product and the preferred sequence for specification.

Specification Information (under the teal or light grey band) provides product dimensions, style numbers, and prices for the standard product and any surface material choices that are available.

Product Drawing shows you what the product looks like.

Standard Includes

- Standard 3/4" x 1/2" x 1/2" (3/4" x 1/2" x 1/2") aluminum extrusion
- Base trim with no hardware (see 1790) (see page 18)
- Base trim with hardware (1790) (see page 18)
- Hardware (see page 18)
- Hardware (see page 18)

Required to Specify

- Style Number
- Finish
- Color
- Material
- Hardware

Tip 6

Required to Specify

Specify with *Customiz Stain*

Italic typeface on specifying pages usually identifies wording that you should use in your order.

Tip 7

To determine how many skins are needed to complete a panel, consult the table at the right.

Tip: Remember to order skins for both sides of the panel buildup.

Watch for tips throughout the text that give you explanations and helpful instructions.

Tip 8

Learn what you cannot do by looking for drawings crossed out with an "X."

Tip 9

Use the surface materials listings in the Surface Materials section of this book to find surface material color numbers.

Tip 10

Style Number	Page
TS7042BL	131
TS7042S	130
TS7048BL	131
TS7048S	130
TS7060BL	131
TS7060S	130
TS7072BL	131

Refer to the style number index when you know a style number and you need to find the page that has more details about the product.

Basics of Ergonomic Seating

A well-designed, ergonomically advanced chair that allows a full range of healthy postures throughout the day and can contribute to worker wellness and productivity.

Neck is straight or slightly forward.

Shoulders are relaxed so arms hang naturally.

Back has full contact with the backrest (sit all the way back in your chair).

Elbows and forearms can rest comfortably on the arms of your chair, or on worksurfaces.

Lower back fits into curved lumbar support.

Tension is adjusted so backrest reclines easily, yet provides smooth, even support, and encourages postural change.

Top of monitor should be at eye level.

Screen is 20 to 30 inches from the eyes. Screen is at eye level slightly lower and directly in front of worker so head is not turned.

Wrists should be straight when keying or mousing, not bent up or down.

ANSI/BIFMA is the American National Standards Institute/Business and Institutional Furniture Manufacturer's Association. All Steelcase furniture meets or exceeds ANSI/BIFMA standards for structural quality. Gesture, Leap, Think, Amia, and Series 1 work chairs, as well as Gesture stool, are all tested and warranted for users up to 400 pounds. Steelcase Karman is tested and warranted for users up to 350 pounds. All other Steelcase brand work chairs are tested and warranted for users 300 pounds and under. Collaborative chairs tested and warranted for users 300 pounds and under are: QiVi, cobī, i2i, and Node. Multi-use chairs are tested and warranted for users 300 pounds and under: Move, Max Stack III, and Player (armless only). All Steelcase Seating products also follow the ergonomic guidelines established in BIFMA G1-2013.

When keying or mousing, forearms are parallel to the floor.

Thighs are parallel to the floor.

Feet are flat on the floor or on a footrest.

If worksurfaces and keyboard support are not height-adjustable, raise your chair's seat height to achieve the appropriate relationship to your tasks. If this leaves your feet dangling above the floor, use a footrest.

CAUTION

Regularly inspect for damaged or broken parts and loose fasteners (screws, etc.). If any of these conditions exist, remove from service immediately. Repairs are to be made using only factory authorized parts and methods. Hard wheel casters must be used on carpeted surfaces only. Use on hard surfaces, including floor mats, will affect chair stability. For information on furniture which requires service, call Steelcase toll free at 1.888.783.3522. Failure to follow these instructions could result in property damage or personal injury.

Basics of Adjustability

Steelcase chairs offer varying levels of adjustability to meet the needs of many types of users. Adjustable chairs may offer one or more of these features:

Mechanisms

Natural-glide feature causes the seat to slide forward as the user reclines, keeping the user within his or her vision and reach zone (462).

Weight-activated feature allows for an amount of recline resistance that is directly proportional to the user's weight. The natural-glide feature keeps the user within vision and reach zone (434, 465).

Advanced swivel-tilt feature incorporates a no front-rise design that allows the seat to remain level even when the user leans back (453).

Balanced Action Rocker (BAR) mechanism allows users to recline as the seat flexes. BAR relies on physics to let any user, regardless of posture, height, or weight, find the most comfortable position (487).

Synchro-tilt feature means the chair back and seat are synchronized to move in a 2:1 ratio. When the user leans back, the seat rises only half as much, allowing the user's feet to remain flat on the floor (499, 466, 482).

Dual-swivel feature allows the back and seat to swivel independently as well as together (416).

Advanced synchro-tilt allows the chair back and seat to move in a 2.8:1 ratio. As the user leans back the seat rises slightly to keep the user's feet on the floor (442).

360°-swivel feature allows micromovement to stay engaged at fixed height (428, 480).

Seat Adjustments

Pneumatic height adjustment allows the user to remain seated while adjusting the seat height by way of a control button or lever (all work chairs).

Passive seat edge angle allows front edge of seat to drop down while seat angle remains unchanged (442, 462, 499, 465, 482).

Seat angle adjustment allows the user to change the angle of the seat to a forward position (453).

Seat depth adjustment allows the user to slide the seat forward or back (442, 462, 453, 465, 466, 482).

Gliding seat automatically glides forward and back adjusting to the natural movement of the user's body (428).

Back Adjustments

Lumbar height affords additional lower back support. Grasp lumbar handles and slide up or down to adjust (442, 462, 453, 465, 466, 482).

Lower back firmness changes the amount of firmness user feels in lower back (462).

Upper back tension feature provides an increasing amount of force that increases as the user reclines (462).

Back tension adjustment allows the user to control the amount of resistance felt when leaning back in the chair (all chairs except 487).

Pivoting back automatically follows the natural motion of the user's back as they recline (428).

Your Preference back control includes four settings—weight-activated, boosted, mid-back stop, and upright—that allow for personal preference and work styles (465).

Headrest adjustment allows the user to support head and neck in upright or reclined posture (442, 462, 465, 499).

Variable back stop allows the user to lock the back upright or to preset the range of recline (442, 462, 453).

Upright back lock allows the user to lock the backrest in a full upright position or release it for full recline (466, 482, 499, Kart).

Multi-position back lock allows users to recline the back to the desired angle and lock it in place (466).

Back height adjustment allows the user to raise or lower the chair back (453, 466).

Core equalizer connects the back and seat to the advanced synchro-tilt and allows appropriate amount of lumbar support in any angle of recline (442).

Arm Adjustments

Arm height adjustment allows the user to move the arms up or down independently (442, 462, 453, 465, 466, 482, 499).

Arm width adjustment allows the user to move the arms in or out independently (442, 462, 453, 465, 466, 482, 499).

Arm pivot adjustments allows the user to position arm rests as appropriate for the task being performed (442, 462, 453, 465, 466, 482, 499).

Arm depth adjustment allows users to get closer to their work by chair arms moving out of the way (442, 462, 465, 466, 482, 499).

Other Features

Foot ring height can be adjusted up or down for user comfort. Cannot be done from seated position (434, 442, 462, 453, 465, 482, 487, Kart).

CarbonNeutral Product Certification

CarbonNeutral.com

To be a CarbonNeutral product, the emissions of each chair are measured, calculated and third-party verified across every stage of the chair's lifecycle. The amount of carbon emissions from manufacturing that can't be avoided are offset by investing in trusted projects that focus on emissions avoidance and removal, and social good. Through the investment of these projects, the carbon emissions of these chair options equal zero.

The following product lines have CarbonNeutral product certification options:

- Gesture
- Leap
- Think
- Steelcase Karman
- Amia + Amia Air
- Steelcase Series 2
- Steelcase Series 1

Exceptions (CarbonNeutral product Certification unavailable):

- Leap Plus
- Amia + Amia Air Stools

Additional Resources

Steelcase seating is supported with an array of informational materials, tools, and software to help you plan efficiently.

Product brochures and planning tools can be ordered through your Steelcase area office by calling 1.800.784.0358 or through the Marketing Resources website at village.steelcase.com.

Printed Materials

Surface Materials Reference Manual

This publication provides:

- An explanation of the surface materials and their categories
- "Available on" matrices
- Vertical surface fabric and seating upholstery selection listing
- Technical data for surface materials
- Surface material care and cleaning instructions

Planning Tools

Quick Ship Guide

This handbook describes all Steelcase and Coalesse products that are available for Rapid2 (ships in 2 days), Rapid5 (ships in 5–7 days), or Coalesse Rapid10 (ships in 10 days).

Computer Tools

Digital Publications

You can access these digital publications at www.steelcase.com or village.steelcase.com.

Electronic Catalog

Accurate sales quotations and purchase orders for Steelcase products are created with specification software that uses Steelcase Electronic Catalog data. Use the data to specify and price style numbers and options for every Steelcase product. The data is updated bimonthly by Steelcase and provided to software programs including: the Hedberg Business System, SmartTools – Steelcase's design and specification software (for more information on SmartTools, please email SmartTools@steelcase.com), the ProjectMatrix Project-Symbols libraries, as well as 20-20 CAP Studio.

Furniture Symbol Graphic Data

Steelcase creates 2D and 3D furniture symbols (with attributes) for planning and initially specifying Steelcase products. This data is incorporated into several add-on software packages that work in either a Microstation or an AutoCAD drafting environment.

More Information

For more information about these and other software tools to help you plan effective work environments, email fsl@steelcase.com.

Seating Product Training

Basic training for Steelcase seating products is available through the Steelcase University website at village.steelcase.com.

Support

Steelcase Capabilities

Steelcase products are distributed, installed, and serviced through a network of more than 600 dealers worldwide. Steelcase is also represented with offices and corporate showrooms in 26 U.S. cities, 4 Canadian cities, and in France, Germany, Great Britain, and Japan. Every Steelcase product meets our exceptionally high standards of quality and durability and comes with the Steelcase assurance of excellence in service.

For ordering or product assistance, please call your local dealer, the Steelcase Solutions Resource Team, or the Steelcase Solutions Fulfillment Team at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Call the Steelcase Solutions Resource Team prior to placing an order, when working on a bid, or when you need information about product applications and specifications.

Call the Steelcase Solutions Fulfillment Team if you have submitted an order to Steelcase and you need to speak to your Solutions Fulfillment Team Representative about the order. Also call if you have any post-shipment quality concerns or service parts questions.

For warranty information, please go to <http://www.steelcase.com/warranty/>.

Outside the U.S.A., Canada, Mexico, Puerto Rico, and the U.S. Virgin Islands, call 1.616.247.2500.

For information about Steelcase, the name of your nearest Steelcase dealer, or for product literature, call 1.800.333.9939 or visit our website: www.steelcase.com.

Sustainability

At Steelcase, we believe business can be a force for good. We create long-lasting products that are better for people and better for the planet. Our products and operations use life cycle thinking to meet our commitment to reducing climate change. This commitment is reinforced by practices such as designing to minimize global warming and other life cycle impacts, ensuring material health, and enabling end-of-use strategies.

To learn more at a corporate level, visit: www.steelcase.com/discover/steelcase/esg-overview/environmental/ProductEnvironmentalProfiles, which provide key environmental attributes such as recycled content, embodied carbon and recyclability, as well as product certifications can be found by searching for Steelcase at Origin.build.

Understanding and Specifying Gesture 442 Series Work Chairs

Work Chairs

Highly adjustable task seating offers maximum personalization for fit and comfort for a range of duration and use. By making a series of simple adjustments, you can customize the chair to your body, preferences, and tasks. These chairs provide continuous, stable, comfort, and can be quickly adjusted to support you in upright, and reclining work postures.

Gesture 442 Series

Now available as a CarbonNeutral product, making sure our commitment to a more sustainable future helps yours too.

Gesture is a new sitting experience that is designed for the interface between user and technology, inspired by the movement of the human body, and created for the way we work today.

Back frame, back shell, seat perimeter, arms, and base are standard in black/black or dark/dark color schemes. Polished aluminum base, dark/light, or light/light color schemes are available as options.

Core equalizer provides just the right amount of lumbar support in any angle of recline.

Casters have hard, dual wheels that roll smoothly on carpets. They are 2 1/2" for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats. Glides are also available as an option.

Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Variable back stop with four positions is standard.

Back tension requires only 3 1/2 complete turns and accommodates a broader range of users by allowing user to change the rate of increase in force as the chair reclines.

Pneumatic adjustment mechanism is standard. It adjusts with a 5" range. A 3 3/4" low-range pneumatic seat-height adjustment and a 5 1/2" high-range pneumatic seat-height adjustment are available as options on chairs. Stools have an 8" range.

Seat depth adjusts 2 3/4" to accommodate various leg lengths.

Wrapped upper back upholstery design is available.

360° arm enables 360° of motion to give arm support where it is needed with one release.

3D LiveBack moves with the shape of the user's spine as sitting positions change.

Outer back and outer seat are plastic.

Arm depth can retract 2 1/8" to allow user to get closer to worksurface and into tight corners.

Soft arm caps independently pivot 15° inward and 15° outward to accommodate individual user preferences.

Arm width can adjust parallel from 10 1/4" to 22 1/2" for forearm and elbow support.

Arm height can adjust 4 1/4" for arm and elbow support.

Passive seat edge angle allows the front edge of the seat to flex 1 1/2" to relieve pressure under the user's thighs.

Seat perimeter is made of flexible elastomer that provides comfort to larger users and allows alternative postures.

Five-star base is plastic, a polished aluminum base is available as an option.

Product Details

Adjustability instructions are included with every chair. Instructions can also be found at www.steelcase.com.

3D LiveBack allows the back to move and conform laterally, sagittally, and torsionally to support individual users.

The core equalizer is powered by a torsional spring that adjusts with the angle of the seat and back to provide less lumbar support in a deep recline and more lumbar support in an upright posture.

Rectilinear arms with soft caps are standard.

Product Weight

- Gesture chair: 58 pounds

Coat hanger is field installed. It is offered in one finish, 7360 Merle. The coat hanger supports up to 10 pounds and is not intended to hold bags or backpacks. Not available on: stool models or wrapped back models (including wrapped back with headrest models).

CarbonNeutral.com

CarbonNeutral product Gesture helps organizations achieve their carbon emissions goals. Add **CN** to the end of the style number to specify Gesture with CarbonNeutral product certification.

Adjustment Features

Seat Adjustments

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep weight off the chair. Range of adjustability is 5", from 16"H to 21"H, and is standard on work chairs. An optional 5 1/2" high-range of adjustability (17"H to 22 1/2"H) and a 3 3/4" low-range (14 1/2"H to 18 1/4"H) are available as an option. Stools are standard with an 8 1/4" range of adjustability (24"H to 32 1/4"H).

Seat depth adjusts 2 3/4" (15 3/4" to 18 1/2") by rotating dial while seated for an easy fine-tuned fit. This feature is standard on work chairs and stools.

Passive seat edge angle flexes 1 1/2°, relieving pressure under the user's thighs. This feature is standard on all work chairs and stools.

Flexible side edges.

Comfort goes all the way to edges and requires no adjustment. Perfect for large users and has the ability to side sit.

Adaptive bolstering.

The seat has air pockets carefully placed beneath the foam to give consistent comfort and support to a range of users.

Back Adjustments

Back tension. Turn the knob forward for more resistance and backward for less resistance. Adjust back tension for appropriate amount of resistance.

Variable back stop.

To lock backrest in upright position, lean forward and flip lever down. Flip lever up to unlock for full-range motion. There are four settings to give just the right angle of recline.

Lumbar height adjusts 4" (5 1/4" to 9 1/4") from seat by grabbing exposed tabs and sliding the lumbar support up or down. This feature is optional on work chairs and stools.

Gesture 442 Series, continued

Headrest adjusts 5" vertically and measures 8"H x 10 1/2"W. It tilts 4° forward and the cushion rotates 90°. Plastic shell on the headrest is available in black, merle, or seagull and will match the plastic back shell. Upholstery can match or contrast the seat and back material. It is not available to order separately for installation on existing Gesture chairs. Headrest is available on stools as a special only.

Arm Adjustments

360°-arm. One release enables 360° of motion to give arms support where it is needed. To adjust arm cap position, grasp arm caps and slide in any direction. The 360° provide a great dimensional range for large users and many postures, and ensures proper support when using a range of technology, mobile or fixed.

Arm width adjusts parallel 6 1/8" per arm for a total range of 10 1/4" to 22 1/2" between arms.

Arm height adjusts independently 4 1/4" (7 1/4"H to 11 1/2"H) to relieve upper back and shoulder fatigue.

Arms pivot independently 15° inward and 15° outward. Grasp arm and push front to left or right.

Arm depth adjusts 2 1/8" to enable user to get closer to worksurface.

Other features

Cartoned request on dealer purchase order forces Gesture chairs to ship knocked down in three pieces; the seat and back, the base, and the pneumatic cylinder. This allows for shipment in a smaller carton. Assembly by a qualified dealer installer is required. Assembly instructions are included. This does not apply to Gesture stools. No additional tools are required for assembly.

Armless models are also available.

Column and foot ring on stools adjusts by first lifting ring and rotating it counterclockwise to unlock. Then raise or lower ring up to 3 3/4" to desired position before rotating it clockwise to lock.

Surface Materials

▶ See surface materials on page 632 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Open slats in the back shell will appear as a matching color to the back surface material if specified with Cogent:Connect or 3D Knit. Slats will appear as black if any other seating material is specified.

Upholstery

- Fabric
- Fabric with soil-retardant treatment (option)
- 3D Knit (back and headrest only)
- Leather
- Elmosoft leather
- Select Surfaces leather

Arm caps

- Black
- Leather

Coat hanger

- 7360 Merle

Polished aluminum base is available.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

► See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM)

Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information. Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

What Is It?

Fabric, leather, or vinyl-covered back and seat, 3D Knit back.

Standard upholstery design

Cogent: Connect

Stitched upholstery design

Leather, Vinyl, and All Other Fabrics

Chairs with headrest only

Leather, Vinyl, and All Other Fabrics

3D Knit on Back only

Stitched seams are included on the back cushion of the following:

- Leather
- Upholstery
- Customer's Own Leather (COL)
- Vinyl
- Select Customer's Own Material/Vinyl (COM)

Pattern alignment at the lumbar seam cannot be guaranteed.

Open slats in the back shell will appear as a matching color to the back surface material if specified with Cogent:Connect or 3D Knit. Slats will appear as black if any other seating material is specified.

3D Knit back is made up of three layers: the 3D Knit, a solid fabric that matches the 3D Knit color, and the polyurethane cushion that provides exceptional comfort. The seat on these models can be specified with Cogent: Connect fabric colors to match the 3D Knit color, or in any other material.

Additional stitched seams in the upper left and right corner of the back cushion on Gesture chairs with headrest are included of the following:

- Leather
- Upholstery
- Customer's Own Leather (COL)
- Vinyl
- Select Customer's Own Material/Vinyl (COM)

Tip: Fabrics that show a distinct pattern or texture may demonstrate an undesirable contrast at the upper left and right corners of the top of the back.

Wrapped upper back is upholstered to the top of the back frame.

Plastic shell back is fully exposed.

Headrest chair back is upholstered to the top of the back frame.

Seat and back cushions can be removed and replaced if damaged.

Understanding and Specifying Leap 462 Series Work Chairs

Work Chairs

Highly adjustable task seating offers maximum personalization for fit and comfort for a range of duration and use. By making a series of simple adjustments, you can customize the chair to your body, preferences, and tasks. These chairs provide continuous, stable, comfort, and can be quickly adjusted to support you in upright, and reclining work postures.

Leap Coat Hanger

	72
--	----

Leap 462 Series

Now available as a **CarbonNeutral product**, making sure our commitment to a more sustainable future helps yours too.

Leap is a high-performance chair for customers who place the highest value on ergonomics, health, and productivity.

Outer back and outer seat are plastic.

LiveBack moves with the shape of the user's spine as sitting positions change.

Lumbar height adjusts 5" to provide additional lower back support. It is standard on all chairs, but may be omitted.

Arm height can adjust independently within a 4" range to help relieve upper back and shoulder fatigue.

Seat depth adjusts within a 3" range to accommodate users of varying leg lengths. Seat depth is standard on all models.

Five-star base is available in plastic or polished aluminum.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2½" for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats. Stools are standard with 2" hard casters. Soft casters are available as an option.

Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Arm depth can retract 3" to allow user to get closer to worksurface and into tight corners.

Arm width can adjust 4½" overall to provide forearm support.

Arm caps can pivot 30° in and out to accommodate individual user preferences.

Passive seat edge angle allows the front edge of the seat to flex 1½" to relieve pressure under the user's thighs.

Lower back firmness changes the amount of firmness user feels in lower back. Requires only two complete turns.

Upper back force requires only five complete turns and accommodates a broader range of users by allowing user to change the rate of increase in force as the user reclines.

Variable back stop with five positions is standard.

Seat height adjusts within a 5" range with a pneumatic adjustment mechanism. A 7" range is available as an option. Stools have an 8" range.

Product Details

Parallel slats in the Live-Back shell provide extensive flexibility to allow back to conform to individual users.

Leap Plus offers the benefits and functionality of the standard Leap chair, including LiveBack Technology, to users weighing up to 500 pounds.

Rectilinear arms with soft caps are standard.

Models are standard with adjustable seats that include seat depth and passive seat edge angle.

Adjustability instructions are included with every chair. Fully adjustable arm models include instructions under the arm cap. Instructions can also be found at www.steelcase.com

Controls under the seat include tactile braille designators.

Coat hanger is field installed. It is offered in one finish, 0835 Black. The coat hanger supports up to 10 pounds and is not intended to hold bags or backpacks. The coat hanger cannot be used on stool models.

Cartoned request on your dealer purchase order means Leap chairs will ship knocked down with the chair base separated from the rest of the chair. This allows for shipment in a smaller carton. Assembly instructions are included. This does not apply to Leap stools or Leap Plus.

Uncartoned request on your dealer purchase order means Leap chairs will ship fully assembled.

Product Weight

- Leap chair: 46.7 pounds
- Leap Plus chair: 60.2 pounds

CarbonNeutral.com

CarbonNeutral product Leap helps organizations achieve their carbon emissions goals. Add **CN** to the end of the style number to specify Leap with CarbonNeutral product certification.

Adjustment Features

Seat Adjustments

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. Range of adjustability is 5", from 15½"H to 20½"H, and is standard on work chairs. A 7" range of adjustability (17"H to 24"H) is available as an option. Stools are standard with an 8" range of adjustability (22"H to 30"H). Leap Plus is standard with a 4" range of adjustability (15½"H to 19½"H). A 5" range (17½"H to 22½"H) is available as an option.

Passive seat edge angle flexes 1½", relieving pressure under the user's thighs. This feature is standard on all work chairs and stools.

Seat depth adjusts 3" (15¾"-18¾") by pulling handle up. Slide seat forward or back to accommodate various leg lengths. Release handle to lock. This feature is standard on work chairs and stools. Seat depth adjustment range for Leap Plus is 2" (16¾"-18¾").

Back Adjustments

Lumbar height adjusts 5" (5¼" to 10¼" from seat, 6½" to 11½" on Plus chairs) by grabbing exposed tabs and sliding the lumbar support up or down. This feature is standard on work chairs and stools, but may be omitted.

Lower back firmness adjusts by turning knob two complete turns. Forward increases firmness. Backward decreases firmness. This feature is standard on work chairs and stools.

Upper back force adjusts by turning knob five complete turns. Turn knob forward to increase rate of tension; backward to decrease. This feature is standard on work chairs and stools.

Variable back stop. Rotate handle up or down to set recline angle. Lean back to desired back angle. Five stops are available. This feature is standard on work chairs and stools. *Tip: To stop in upright position, remove weight from back and rotate lever up.*

Headrest (option) adjusts 2¼" vertically and adds 6¾" to 9" to the overall height. Plastic shell on the headrest is available in black only. Upholstery is available to match the seat material or black vinyl only. Headrest is not available on stools or Plus models.

Leap 462 Series, continued

Arm Adjustments

Rectilinear height-, width-, pivot-, and depth-adjustable arms come standard on all arm models of chairs and stools.

Arm height adjusts independently within a range of 4" (7"–11" from the seat, 7¼"–11¼" on Plus models). Push button on outside and under arm cap in while moving arms up or down. Releasing buttons locks arms in position.

Arm width adjusts 2¼" each independently on chairs with this option. Grasp arm and move in or out.

Arms pivot independently 30° inward and outward. Grasp arm and push front to left or right.

Arm depth adjusts approximately 3" to enable user to get closer to worksurface.

Other Features

Height-only adjustable arm is also available and adjusts 4".

Armless models are also available.

Glides are available as an option, except on chairs with polished aluminum package. Glides ship with chair or stool for field installation and maintain same height as casters.

Foot ring height on stools adjusts by first lifting ring and rotating it counter-clockwise to unlock. Then raise or lower ring up to 4" to desired position before rotating it clockwise to lock.

Soft-wheel casters for hard floors are available for specific applications.

Surface Materials

▶ See surface materials on page 632 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Local codes may have special requirements for upholstery.

Leap Upholstery

What Is It?

Fabric, leather, or vinyl-covered back and seat, 3D Knit back.

Fabric

Leather, Vinyl, and Select Fabrics

3D Knit Back

Stitched seams are included on the back cushion and seat cushion of the following:

- Leather
- Customer's Own Leather (COL)
- Vinyl
- Select Customer's Own Material/Vinyl (COM)

Pattern alignment at the lumbar seam cannot be guaranteed.

3D Knit back is made up of three layers: the 3D Knit, a solid fabric that matches the 3D Knit color, and the polyester cushion that provides exceptional comfort. The seat on these models can be specified with Cogent: Connect fabric colors to match the 3D Knit color, or in any other material.

Plastic outer back is fully exposed.

Seat and back cushions can be removed and replaced if damaged.

Steelcase Karman

Now available as a **CarbonNeutral product**, making sure our commitment to a more sustainable future helps yours too.

Steelcase Karman design relies more on physics than mechanism – intuitively responding to your movement and weight while providing effortless comfort. Its proprietary performance textile, Intermix, creates support that never sags or feels stiff for people of all shapes and sizes.

Back frame and seat shell are flexible, encouraging healthy user movement.

Lumbar height adjusts over 3 1/2" to provide additional lower back support and is available as an option.

Arm caps can pivot independently 28° in and 24° out to accommodate individual user preferences.

Arm depth can retract 2" to allow user to get closer to the worksurface and into tight corners.

Comfort dial back control provides four settings for the user's personal preference and work style.

Arm width adjusts 4 5/8" overall to support forearms in neutral position.

Arm height can adjust independently within a 4" range to help relieve upper back and shoulder fatigue.

Seat height adjusts within a 5" range with a pneumatic adjustment mechanism. A 4" or 7" range is available as an option. Stools have a 8" range.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2 1/2" for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats. Glides are also available as an option.
Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Product Details

LiveBack technology allows the backrest to flex and contour to mimic the natural movement of the spine and reinforce a healthy posture.

Patented hybrid seat

Suspension seat with integrated cushioning provides maximum comfort right where you need it most.

Advanced weight-activated mechanism with a natural fluid motion keeps users oriented to their work.

Organic movement is achieved with this advanced weight-activated mechanism that responds automatically to your body with appropriate support as you sit and change postures in every direction.

Available in standard-back and high-back configurations. High-back features an adjustable neck support pillow standard, allowing users to gently support their neck and head during recline. Neck support pillow adjusts 3" vertically, and measures 5³/₄"H x 10"W. Pillow follows Intermix selection of the seat and back configuration, and is field serviceable only on high-back chairs that were originally specified with a neck support pillow. Pillow is not able to be installed on existing Steelcase Karman chairs that did not originally have a neck support pillow specified.

Weight-activated setting

Boosted setting

Mid-back stop recline setting

Upright back stop setting

Comfort dial has four settings that allow for the user's personal preference and work style: (1) weight-activated setting; (2) boosted tension setting that has approximately 20% more resistance than your body is providing; (3) mid-stop recline setting; and (4) an upright lock setting.

Comfort edge on the back and seat frames

The ultra-light back and seat frames flex to eliminate hard edges and pressure points on your legs and body and comfort edge allows users to lean back or sit sideways.

Proprietary Intermix

The versatility from the Intermix proprietary weave process results in three variations:

Intermix is classic and translucent with a more traditional mesh look and feel.

Intermix Shift is color-shifting and provocative with a dynamic visual that changes with light and viewing angle.

Intermix Opaque is luxurious and residential with the hand-feel of upholstery.

Rectilinear arms with soft caps are standard.

Uncartoned request on your dealer purchase order means Steelcase Karman chairs will ship fully assembled.

Cartoned request on your dealer purchase order means Steelcase Karman will ship knocked down with the chair base and pneumatic cylinder separated from the rest of the chair. This allows for shipment in a smaller carton. Assembly by a qualified dealer installer is required.

Tip: Assembly instructions are included.

CarbonNeutral.com

CarbonNeutral product Karman helps organizations achieve their carbon emissions goals. Add **CN** to the end of the style number to specify Karman with CarbonNeutral product certification.

Adjustment Features

Adjustability instructions are included with every chair.

Seat Adjustments

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. Standard range of adjustability is 5" from 16"H to 21"H. A short 4" range of adjustability (14"H to 18"H) and a tall 7" range of adjustability (21"H to 28"H) are available as options. An 8" range of adjustability (21"H to 29"H) is available on stools.

Back Adjustments

Lumbar height adjusts 3¹/₂" (4" to 7¹/₂" from seat) by grabbing exposed tabs and sliding the lumbar support up or down.

Lumbar is available as an option or as a field installed accessory. When ordered initially, the lumbar ships assembled to the chair. When ordered at a later date, the lumbar ships in its own carton and is easily field installed.

Arm Adjustments

4D arms have fully adjustable armrests that raise up and down, pivot in and out, and shift in all directions letting your arms and shoulders fall naturally into place.

Arm height adjusts independently within a range of 4". Push button on outside and under arm cap in while moving arms up or down. Releasing buttons locks arms in position.

Steelcase Karman , continued

Arm width can be adjusted 2" each, 4" overall. Grasp arm cap and move in or out.

Arms pivot independently, 28° inward and 24° outward. Grasp arm and push front to left or right.

Arm depth adjusts by sliding arm caps back 2". Friction-fit keeps arms in position.

Other Features

Height-only adjustable arm is also available and adjusts 4".

Fixed arm models are also available in plastic and polished aluminum finishes.

Armless models are also available.

Foot ring height on stools adjusts by rotating it counterclockwise to unlock. Then raise or lower ring to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

Soft dual-wheel roll-control casters feature an internal brake that activates when the chair is not under load to reduce shifting when user stands up.

Hubless hard wheel casters, hubless soft roll control wheel casters, and hard glides are available as options.

Steelcase Karman Work Chair with Intermix Performance Textile

Standard Height Back with Performance Intermix on Seat and Back

Tip: For more information regarding color schemes, see page 78.

Tip: Leather, vinyl, Customer's Own Material (COM), and Customer's Own Leather (COL) are not available on Steelcase Karman.

Tip: Rear frame, arm frame, and base finish matches color scheme unless Lux Coatings frame is selected.

Tip: If Lux Coatings is selected, rear frame, arm frame, and base will match.

Tip: Polished aluminum base and arms are not available if Lux Coatings is chosen for frame finish.

Tip: Intermix selection is applied on both seat and back and must be the same on both.

Tip: Soil-retardant treatment not available.

Tip: Hard casters are recommended for use on soft flooring (i.e., carpet). Soft casters are recommended for use on hard flooring (i.e., hardwood) to help prevent scuffs and damage.

Tip: When glides are specified, chairs will ship with casters installed and glides provided to install after delivery.

Work Chairs

Highly adjustable task seating offers maximum personalization for fit and comfort for a range of duration and use. By making a series of simple adjustments, you can customize the chair to your body, preferences, and tasks. These chairs provide continuous, stable, comfort, and can be quickly adjusted to support you in upright, and reclining work postures.

Think 465 Series

Now available as a CarbonNeutral product, making sure our commitment to a more sustainable future helps yours too.

Think's award-winning design re-imagined what an office chair could do, and how sustainable it could be. Designed for hybrid workers and their unique needs, it's smart and simple, weight activated, controls allow anyone, anywhere to get comfortable and to get to work. With beauty to match brains, this icon of sustainable design serves up a breadth of style choice that is warm, tailored, and sophisticated.

Back style choice:

- 3D Knit
- Upholstered
- Quilted upholstered

Lumbar height adjusts over 4 1/4" to provide additional lower back support and is available as an option.

Arm caps can pivot independently 30° in and 30° out to accommodate individual user preferences.

Back frame and seat shell are plastic.

Comfort dial back control provides four settings for the user's personal preference and work style.

Seat height adjusts within a 5" range with a pneumatic adjustment mechanism. A 3" or 7" range is available as an option. Stools have a 10" range.

Seat depth adjusts within a 2 1/2" range to accommodate users of varying leg lengths.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2 1/2" for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats. Glides are also available as an option.

Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

LiveBack Flexor System conforms to your spine to provide flexibility and support.

Arm width adjusts 4 1/2" overall to support forearms in neutral position.

Arm height can adjust independently within a 4" range to help relieve upper back and shoulder fatigue.

Arm depth can retract 3" to allow user to get closer to the worksurface and into tight corners.

Passive seat edge angle allows the front edge of the seat to flex 1 1/2" to relieve pressure under the user's thighs.

Five-star base is available in plastic or polished aluminum.

Product Details

LiveBack Flexor System conforms to your spine to provide flexibility and support.

Advanced weight-activated mechanism with a natural fluid motion keeps users oriented to their work.

Comfort dial has four settings that allow for the user's personal preference and work style.

Rectilinear arms with soft caps are standard.

Cartoned request on your dealer purchase order means Think chairs will ship knocked down with the chair base and pneumatic cylinder separated from the rest of the chair. This allows for shipment in a smaller carton. Assembly by a qualified dealer installer is required. *Tip: Assembly instructions are included.*

Uncartoned request on your dealer purchase order means Think chairs will ship fully assembled.

Product Weight

- Think upholstered chair: 34.5 pounds
- Think 3D Microknit chair: 35.6 pounds

CarbonNeutral.com

CarbonNeutral product

Think helps organizations achieve their carbon emissions goals. Add **CN** to the end of the style number to specify Think with CarbonNeutral product certification.

Adjustment Features

Adjustability instructions are included with every chair.

Seat Adjustments

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. Standard range of adjustability is 5" from 16½"H to 21½"H. A 3" range of adjustability (15"H to 18"H), and a 7" range of adjustability (18"H to 25"H) is available as an option. A 10" range of adjustability (22½"H to 32½"H) is available on stools.

Passive seat edge angle relieves pressure under the user's thighs. The passive front seat edge helps properly support the angle of the user's leg and thigh without compromising pelvic support. The front seat edge angle flexes 1½".

Seat depth adjusts 2½" (15½"-18") by pulling handle up. Slide seat forward or back to accommodate various leg lengths. Release handle to lock.

Back Adjustments

Lumbar height adjusts 4¼" (6" to 10¼" from seat) by grabbing exposed tabs and sliding the lumbar support up or down. Fixed lumbar height is available as an option on work chairs and stools. The fixed lumbar is positioned 8" from the seat. The adjustment handles are replaced with inserts that fill the lumbar slot in the back frame.

Weight-activated setting Boosted setting

Mid-back stop recline setting Upright back stop setting

Comfort dial has four settings that allow for the user's personal preference and work style: (1) weight-activated setting; (2) boosted setting that has approximately 20% more resistance than your body is providing; (3) mid-stop recline setting; and (4) an upright setting.

Arm Adjustments

Rectilinear height-, width-, pivot-, and depth-adjustable arms come standard on all arm models of chairs and stools.

Arm height adjusts independently within a range of 4" (7"-11" from the seat). Push button on outside and under arm cap in while moving arms up or down. Releasing buttons locks arms in position.

Foot ring height on stools adjusts by rotating it counterclockwise to unlock. Then raise or lower ring to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

Arm width can be adjusted 2¼" each, 4½" overall. Grasp arm cap and move in or out.

Think 465 Series

Think 465 Series, continued

Arms pivot independently, 30° inward and outward. Grasp arm and push front to left or right.

Arm depth adjusts by sliding arm caps back 3". Friction-fit mechanism keeps arms in position.

Other Features

Height-only adjustable arm is also available and adjusts 4".

Fixed arm available.

Armless models are also available.

Headrest (option) adjusts 4" vertically and 2½" horizontally (front-to-back) to support the head and neck of the user in both upright and recline postures. The plastic stalk and underside of the headrest will coordinate to match the frame color specified: black, platinum, or seagull. The foam pad of the headrest will always be black. Headrest is not available on stools. Whether ordered initially or at a later date, the headrest ships in its own carton and must be field installed.

Think headrest frame will match frame color specified. Headrest cushion is always black and made of a self skinning urethane.

Coat hanger (option) is field installed. The color will coordinate with the frame of the chair, but will not match the frame exactly. The coat hanger supports up to 10 pounds and is not intended to hold bags or backpacks. This option is not available on stools.

Note: Merle monochromatic color scheme receives 6205 black coat hanger.

Foot ring height on stools adjusts by rotating it counterclockwise to unlock. Then raise or lower ring to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

Soft dual-wheel roll-control casters feature an internal brake that activates when the chair is not under load to reduce shifting when user stands up.

All seat cushions have a unique sewn construction that is included in the price of the chair.

Stitch detail across the lumbar region of the back cushion is required on some models with an upholstered backrest. To ensure optimum performance of the Integrated LiveBack System, all Steelcase Select Surfaces, COMs, Leathers, Vinyls, and some standard fabrics will require this sewn detail. The stitch detail is included in the price of the chair.

Optional outer back cover is available on quilted upholstered and upholstered back styles. The fabric back cover conceals the horizontal flexors while keeping the lumbar visible.

Outer back cover is available in fabrics or Brisa.

Outer back cover fabric defaults to match the specified seat back fabric.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

► See *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most seating lines, visit the COM website. To locate the COM website:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to line-one@steelcase.com.

Local codes may have special requirements for upholstery.

Amia 482 Series

Now available as a **CarbonNeutral product**, making sure our commitment to a more sustainable future helps yours too.

Amia effortlessly combines timeless, sophisticated design with high-performing ergonomics at an attainable price point. Amia can be personalized with different back designs expressed through upholstery, 3D Microknit, and plastic Air Back design combinations.

Outer back and outer seat are plastic. Fully upholstered outer back is available.

LiveLumbar system offers a dialed in spring force in the lumbar region that actively supports the lower back.

Arm height can adjust independently within a 4" range to help relieve upper back and shoulder fatigue.

Seat depth adjusts within a 3" range.

Five-star base is standard.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2 1/2" for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats. Stools are standard with 2" hard casters. Soft casters are available as an option.

Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Air LiveBack technology works through an innovative, geometric plastic design that flexes in two dimensions as the user moves to create a responsive, personalized comfort and fit.

Arm depth can be adjusted approximately 3", enabling individuals to get closer to their work.

Arm width can adjust 4 1/2" overall to provide forearm support.

Arm caps can pivot 30° in and out to accommodate individual user preferences.

Passive seat edge angle allows the front edge of the seat to flex 1 1/2", relieving pressure behind the thighs.

Back tension accommodates a broader range of users by allowing user to change the rate of increase, or decrease, in force as the user reclines.

Seat height adjusts within a 5" range with a pneumatic adjustment mechanism. Stools have an 8" range.

Upright back lock allows the user to lock the back in a full upright position, or release it for full-tilt motion.

Product Details

LiveLumbar system allows the user to experience continuous back support with dialed in spring force that can be adjusted to match the user's anatomy. Available on standard Amia chairs.

Integrated LiveBack automatically creates flexibility and movement in the backrest to ensure dynamic back support as you recline. A height adjustable lumbar is also available on the Amia Air with 3D Microknit.

Rectilinear arms with soft caps are standard.

Models are standard with adjustable seats that include seat depth and passive seat edge angle.

Adjustability instructions are included with every chair. Instructions can also be found at www.steelcase.com

Cartoned request on your dealer purchase order means Amia chairs will ship knocked down with the chair back separated from the rest of the chair. This allows for shipment in a smaller carton. Assembly by a qualified dealer installer is required. Assembly instructions are included. This does not apply to Amia stools.

Uncartoned request on your dealer purchase order means Amia chairs will ship fully assembled.

Product Weight

- Amia (plastic back): 48.4 pounds
- Amia Air: 46.4 pounds

CarbonNeutral.com

CarbonNeutral product

Amia helps organizations achieve their carbon emissions goals. Add **CN** to the end of the style number to specify Amia with CarbonNeutral product certification.

Adjustment Features

Seat Adjustments

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. Range of adjustability is 5" from 16"H to 21"H, and is standard on work chairs. A lower range of adjustability (15"H to 19"H) is available as an option. A higher range of adjustability (17"H to 24"H) is available as an option. An 8" range of adjustability (23"H to 31"H) is available on stools.

Passive seat edge angle flexes, relieving pressure under the user's thighs. The front flexes 1½". This feature is standard on all work chairs and stools.

Seat depth adjusts 3" (15½"–18½") by pulling handle up. Slide seat forward or back to accommodate various leg lengths. Release handle to lock. This feature is standard on work chairs and stools.

Back Adjustments

Lumbar height adjusts ¾" (6¼" to 10" from seat) by grabbing exposed tabs and sliding the lumbar support up or down. This feature is standard on work chairs and stools.

Back tension adjusts by turning knob forward to increase back tension, backward to decrease back tension. This feature is standard on work chairs and stools.

Upright back lock.

To release, lean forward and pull toward back. To lock, lean forward and push toward front.

Arm Adjustments

Rectilinear height-, width-, pivot-, and depth-adjustable arms come standard on all arm models of chairs and stools.

Arm height adjusts independently within a range of 4" (7"–11" from the seat). Push button on outside and under arm cap in while moving arms up or down. Releasing buttons locks arms in position.

Arm width adjusts 2¼" each independently on chairs with this option. Grasp arm and move in or out.

Arms pivot independently 30° inward and outward. Grasp arm and push front to left or right.

Arm depth adjusts approximately 3" to enable user to get closer to worksurface.

Other Features

Height-only adjustable arm is also available and adjusts 4".

Armless models are also available.

Amia 482 Series, continued

Glides are available as an option. Glides ship with chair or stool for field installation and maintain same height as casters.

Foot ring height on stools adjusts by first lifting ring and rotating it counter-clockwise to unlock. Then raise or lower ring up to 4" to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

Soft-wheel casters for hard floors are available for specific applications.

Surface Materials

▶ See surface materials on page 632 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Amia Upholstery

What Is It?

Fabric, leather, or vinyl-covered back and seat, 3D Knit back

Fabric

Leather, Vinyl, and Select Fabrics

Stitched seams are included on the back cushion and seat cushion of the following:

- Leather
- Elmosoft leather
- Select Surfaces leather
- Customer's Own Leather (COL)
- Vinyl
- Select Customer's Own Material/Vinyl (COM)
- Select Fabrics

Pattern alignment at the lumbar seam cannot be guaranteed.

3D Knit and 3D Microknit Back

3D Knit back is made up of three layers: the 3D Knit, a solid fabric that matches the 3D Knit color, and the polyester cushion that provides exceptional comfort. The seat on these models can be specified to match the 3D Knit color or in any other material.

3D Microknit back upholstery

is applied directly over plastic air back. A Cogent: Connect fabric can be specified on the seat to color match the 3D Microknit, except seagull. The 3D Microknit can be specified to match or contrast the air back.

Plastic outer back is fully exposed. Fully upholstered outer back is available.

Seat and back cushions can be removed and replaced if damaged.

Steelcase Series 2

Now available as a CarbonNeutral product, making sure our commitment to a more sustainable future helps yours too.

Steelcase Series 2

is the attainable, high-performing task chair that can be personalized with extensive style choices. Its backrest signals comfort and sophisticated support, while the slim profile and light scale look can help optimize any space. The back features an innovative geometric design that flexes in two dimensions to provide continuous support for the spine.

Back frame and seat shell are plastic. Fabric back cover and quilted back are available as options on fully upholstered versions.

Lumbar height adjusts 3¾".

Air LiveBack technology works through an innovative geometric design that flexes in two dimensions as the user moves to create responsive, personalized comfort and fit.

Seat height adjusts within a 5" range with a pneumatic adjustment mechanism. Short or tall range are available as options. Stools have a 7¾" range.

Comfort dial provides three settings for the user's personal preference and work style.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2½" for increased mobility. Soft, dual-wheel roll-control casters are available as an option for use on hard floors or chair mats. Glides are also available as an option. *Tip: Do not roll the chair across asphalt during installation as this may damage the casters.*

Arm width adjusts 2¼" in each direction.

Arm height can adjust independently within a 4" range to help relieve upper back and shoulder fatigue.

Five-star base is available in plastic or polished aluminum.

Arm depth can be adjusted approximately 3".

Arm caps can pivot 30° inwardly and outwardly.

Seat depth adjusts within a 2¾" range.

Product Details

Integrated LiveBack automatically creates the flexibility and movement in the backrest to ensure dynamic back support during recline. Height-adjustable lumbar comes standard on Steelcase Series 2.

Steelcase Series 2 is available in four back types: plastic air back, 3D Microknit, fully upholstered, and quilted upholstery. A fabric back cover is also available on fully upholstered versions.

Advanced weight-activated mechanism with a natural fluid motion keeps users oriented to their work.

Rectilinear arms with soft caps are standard.

Uncartoned request on your dealer purchase order means Steelcase Series 2 chairs will ship blanket wrapped and fully assembled. *Tip: Select cartoned if a box is preferred, cartoned chairs will ship unassembled.*

Cartoned request on the dealer purchase order means Steelcase Series 2 chairs will ship knocked down in four pieces. This allows for shipment in a smaller carton. Assembly does not require tools. Assembly instructions are included.

Product Weight

- Series 2 upholstered chair: 37.4 pounds
- Series 2 3D Microknit chair: 36.1 pounds
- Series 2 AirBack chair: 35.8 pounds

CarbonNeutral.com

CarbonNeutral product Series 2 helps organizations achieve their carbon emissions goals. Add **CN** to the end of the style number to specify Series 2 with CarbonNeutral product certification.

Adjustment Features

Adjustability instructions are included with every chair.

Seat Adjustments

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. Standard range of adjustability is 5" from 16½"H to 21½"H. A short 3¼" range of adjustability (14¾" to 18") and a tall 4¾" range of adjustability (17¼" to 22") is available as an option. A 7¾" range of adjustability (23" to 30¾") is available on stools.

Seat depth adjusts 2¾" by pulling handle up. Slide seat forward or back to accommodate various leg lengths. Release handle to lock. This feature is standard on Steelcase Series 2 work chairs and stools.

Back Adjustments

Lumbar height adjusts 3¾" (6¼" to 10" from seat) by grabbing exposed tabs and sliding the lumbar support up or down. This feature is standard on Steelcase Series 2 work chairs and stools.

Comfort dial has three settings: (1) weight-activated setting; (2) boosted tension setting that has more resistance than your body is providing; and (3) an upright back lock setting.

Headrest adjusts 3¼" vertically to support the head and neck of the user in both upright and recline postures. The plastic stalk and underside of the headrest will coordinate to match the frame color specified: black, seagull, or sterling dark. The foam pad of the headrest is available in all upholstery currently approved on seat and back.

Arm Adjustments

Rectilinear height-, width-, pivot-, and depth-adjustable arms come standard on all arm models of chairs and stools.

Arm height adjusts independently within a range of 4" (7½"–11½" from the seat). Push button on outside and under arm cap in while moving arms up or down. Releasing buttons locks arms in position.

Arm width adjusts 2¼" in each direction.

Steelcase Series 2, continued

Arm depth adjusts approximately 3" to enable user to get closer to worksurface.

Armless models are also available.

Arms pivot independently, 30° inward and outward. Grasp arm and push front to left or right.

Foot ring height on stools adjusts by rotating it counterclockwise to unlock. Then raise or lower ring to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

Hard, dual-wheeled casters are standard. Soft, dual-wheel roll-control casters are available as an option. Glides are also available as an option.

Soft dual-wheel roll-control casters feature an internal brake that activates when the chair is not under load to reduce shifting when user stands up.

Coat hanger (option) is field installed. The color will coordinate with the frame of the chair but will not match the frame exactly. The coat hanger is not intended to hold bags or backpacks.

Arms

- 6205 Black

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most seating lines, visit the COM website. To locate the COM website:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Frame Package Color Scheme Matrix

Color Scheme	Inner Back Frame	Outer Back Frame	Arm Holster	Outer Seat Shell	Base
Black	6205 Black plastic	6205 Black plastic	6205 Black plastic	6205 Black plastic	6205 Black plastic
Sterling Dark	6527 Merle plastic	7250 Sterling Dark paint	7250 Sterling Dark paint	6059 Sterling Dark plastic	7250 Sterling Dark paint
Seagull	6527 Merle plastic	7243 Seagull paint	7243 Seagull paint	6053 Seagull plastic	7243 Seagull paint (6205 Black plastic and 7250 Sterling Dark paint are also available)

Tip: Polished aluminum is available on base for all color schemes with an upcharge.

Steelcase Series 2 Upholstery

What Is It?

Fabric, leather, or vinyl-covered back and seat, 3D Microknit back

Fabric, Leather, and Vinyl

Back

Seat

Stitched seams will be included on all upholstery types, except for select fabrics.

Pattern alignment at the lumbar seam cannot be guaranteed.

Tip: Headrest will include stitched seams in fabrics, leather, and vinyl.

Microknit Back

Back

Seat

3D Microknit back upholstery is applied directly over plastic air back. A Cogent: Connect fabric can be specified on the seat to color match the 3D Microknit, except seagull. The 3D Microknit can be specified to match or contrast the air back.

Tip: 3D Microknit back has no stitched seams. Upholstery seams on seat are driven by specified seat fabric.

Tip: Headrest will include stitched seams in 3D Microknit.

Cogent: Connect and Select Fabrics

Back

Seat

Cogent: Connect and select Customer's Own Material (COM) do not have stitched seams.

Tip: Headrest will include stitched seams in Cogent: Connect.

Quilted Back

Back

Seat

Quilted back is available as an option on fully upholstered versions. Quilted back option features horizontal stitching detail.

Tip: Stitched seams are included on all upholstery types when "quilted back" is selected.

Tip: Headrest will include stitched seams in fabrics, leather, and vinyl.

Fabric back cover is available as an option on fully upholstered styles.

Tip: Fabric back cover is only available in Cogent, Connect and Era.

Plastic Air LiveBack is fully visible in several colors.

Seat and back cushions can be removed and replaced if damaged.

Steelcase Series 1

Now available as a CarbonNeutral product, making sure our commitment to a more sustainable future helps yours too.

Essential ergonomics –

Steelcase Series 1 provides essential ergonomics at a great value, complete with our signature quality. This exceptional entry point into high-performance seating is characterized by space efficiency, weight-activated controls, and a supportive seat.

Back frame and seat shell are plastic.

Lumbar height adjusts over 2 1/4" to provide additional lower back support.

Arm caps can pivot independently 40° inward and 40° outward to accommodate individual user preferences.

Seat height adjusts within a 5" range with a pneumatic adjustment mechanism. Short or tall range is available as an option. Stools have a 7 3/4" range.

Comfort dial back control provides three settings for the user's personal preference and work style.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2 1/2" for increased mobility. Soft, dual-wheel roll-control casters are available as an option for use on hard floors or chair mats. Glides are also available as an option.

Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Arm height can adjust independently within a 5" range to help relieve upper back and shoulder fatigue.

Arm width adjusts 4" overall to support forearms in neutral position.

Arm depth can retract 2" to allow user to get closer to the worksurface and into tight corners.

Seat depth adjusts within a 2 1/4" range to accommodate users of varying leg lengths.

Five-star base is available in paint, plastic, or polished aluminum.

Product Details

Steelcase Series 1

is available in two back designs: 3D microknit (with lumbar and back flexors) and the polypropylene air back.

3D Microknit Back

LiveBack Flexor System

conforms to and mimics the spine to provide flexibility and continuous lower-back support. An additional adjustable lumbar for extra support comes standard.

Air Back

Air LiveBack technology specially engineered geometric wave pattern in the polypropylene back flexes in two dimensions to encourage movement and posture changes while providing the spine with responsive support.

Advanced weight-activated mechanism with a natural fluid motion keeps users oriented to their work.

Comfort dial has three settings that allow for the user's personal preference and work style.

Pill-shaped arms with soft caps are standard.

Uncartoned request on your dealer purchase order means Steelcase Series 1 chairs will ship fully assembled.

Cartoned request on the dealer purchase order means Steelcase Series 1 chairs will ship knocked down in seven pieces. This allows for shipment in a smaller carton. Assembly does not require tools.

Tip: Assembly instructions are included on the box.

Product Weight

- Series 1 chair: 29.2 pounds

CarbonNeutral.com

CarbonNeutral product

Series 1 helps organizations achieve their carbon emissions goals. Add **CN** to the end of the style number to specify Series 1 with CarbonNeutral product certification.

Adjustment Features

Adjustability instructions are included with every chair.

Seat Adjustments

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. Standard range of adjustability is 5" from 16½"H to 21½"H. A short 3" range of adjustability (14¾" to 17¾") and a tall 4¾" range of adjustability (17¼" to 22") is available as an option. A 7¾" range of adjustability (23" to 30¾") is available on stools.

Seat depth adjusts 2¼" (15½"–17¾") by pulling handle up. Slide seat forward or back to accommodate various leg lengths. Release handle to lock.

Back Adjustments

Lumbar height (3D microknit back) adjusts 2¼" (6½" to 8¾" from seat) by grabbing exposed tabs and sliding the lumbar support up or down.

Weight-activated setting

Boosted setting

Upright setting

Comfort dial has three settings: (1) weight-activated setting; (2) boosted setting that has more resistance than your body is providing; and (3) an upright back lock setting.

Headrest adjusts ¾" vertically to support the head and neck of the user in both upright and recline postures. The plastic stalk and underside of the headrest will coordinate to match the frame color specified: black or seagull. The foam pad of the headrest is available in 3D Microknit. The headrest may be ordered as an option and must be field installed or as its own style number which ships in its own carton and must be field installed.

Arm Adjustments

Rectilinear height-, width-, pivot-, and depth-adjustable arms come standard on all arm models of chairs and stools.

Arm height adjusts independently within a range of 4½" (6½"–11" from the seat). Push button on outside and under arm cap in while moving arms up or down. Releasing buttons locks arms in position.

Arm width can be adjusted 2" each, 4" overall. Grasp arm cap and move in or out.

Steelcase Series 1, continued

Arms pivot independently, 40° inward and outward. Grasp arm and push front to left or right.

Arm depth adjusts by sliding arm caps back 2". Friction-fit mechanism keeps arms in position.

Other Features

Height-only adjustable arm is also available and adjusts 4 1/2".

Armless models are also available.

Foot ring height on stools adjusts by rotating it counterclockwise to unlock. Then raise or lower ring to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

Soft dual-wheel roll-control casters

feature an internal brake that activates when the chair is not under load to reduce shifting when user stands up.

Coat hanger (option) is field installed. The color will coordinate with the frame of the chair but will not match the frame exactly. The coat hanger supports up to ten pounds and is not intended to hold bags or backpacks.

Surface Materials

▶ See *Surface Materials Reference Manual* for further information.

Upholstery

- Fabric*
- Fabric with soil-retardant treatment (option)
- 3D Microknit (back and headrest only)
- Elmosoft leather
- Select Surfaces leather
- Leather
- Vinyl
- Customer's Own Leather (COL)
- Customer's Own Material (COM)

Air Back

- 6205 Black
- 6053 Seagull
- 6249 Platinum Solid
- 6BD6 Lagoon
- 6BD7 Saffron

Hard components

Back frame, seat shell, arm retainer, stool ring, headrest, and hanger

- 6053 Seagull
- 6205 Black*

Base

- 6205 Black*
- 7243 Seagull
- 8046 Polished Aluminum

Pneumatic cylinders

- 6205 Black*

Flexors and lumbar finishes are determined by the 3D Microknit color unless specified as contrasting.

Seat shell is determined by the frame finish.

- 6053 Seagull
- 6205 Black*

Arms

- 6059 Sterling Dark (on seagull chair)
- 6205 Black (on black chair)*

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most seating lines, visit the COM website. To locate the COM website:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to line-one@steelcase.com.

Steelcase Series 1 Upholstery

What Is It?

3D Microknit Back

Back

Stitched seams are included on the seat cushion of the following:

- Leather
- Vinyl
- Upholstery
- Select Customer's Own Material/ Vinyl (COM)

Tip: There are no stitching seams in Cogent:Connect.

Air Back

Back

Stitched seams are included on the seat cushion of the following:

- Leather
- Vinyl
- Upholstery
- Select Customer's Own Material/ Vinyl (COM)

Tip: There are no stitching seams in Cogent:Connect.

Seat

Fabric, leather, or vinyl-covered seat; 3D Microknit back only

Seat

Fabric, leather, or vinyl-covered seat.

A Cogent: Connect fabric can be specified on the seat to color match the 3D Microknit, except seagull.

Tip: 3D Microknit back has no stitched seams. Upholstery seams on seat are driven by specified seat fabric.

A Cogent: Connect fabric can be specified on the seat to color match the Air Back colors, except seagull and platinum solid. Cogent: Connect in nickel coordinates with platinum solid.

Tip: Upholstery seams on seat are driven by specified seat fabric.

What Is It?

Series 1 3D Microknit Back (with lumbar and back flexors)

LiveBack
Flexor
System

Back

Seat

Back flexors are fully exposed. Lumbar and flexor colors always match. Lumbar and flexors will also match the 3D Microknit fabric unless contrasting outer back is selected.

Seat and back assemblies can be removed and replaced if damaged.

Exception: Eight 3D microknit colors are only available with contrasting outer back (3D microknit is a different color than the lumbar and flexors): Seagull, Honey, Saffron, Merlot, Aubergine, Lagoon, Peacock, and Jungle.

Understanding and Specifying Tenor

Multi-Use Seating

Product Details

Tenor	198
Dimensions	200

Specifying

Chairs	201
Stools	205

Tenor

Tenor chairs and stools are designed for comfort, mobility, stackability, and tailorability. Everything you need in multipurpose seating and perfectly suited for any learning or corporate environment.

Optional steel bag hook is simple and intuitive to use.

A non-directional seat pan is not only comfortable, but allows the user to move their bodies to follow the flow of learning.

Steel frame is available in any of the Steelcase paints, including Lux Coatings.

Flexible top edge allows for multiple postures while maintaining support and comfort.

The flex back allows for micro-movements and comfort.

The Tenor chair offers an optional comfort footbar to support propping of legs. A footbar is standard on Tenor stools.

Product Details

Tenor chairs and stools come in a four-leg stacking base and are available with hard nylon glides, hard steel glides, soft felt glides, hard casters, and soft casters. Chairs stack six high. Stools stack two-high.

Tenor is designed as a wall-saver, it will not cause damage to walls if contact is made.

Tenor ships with casters or glides separate and must be installed.

Tenor chair is 18.1–19.5 pounds depending on options chosen.

Tenor chairs are tested to 400 pounds maximum weight capacity.

Tenor stools are tested to 300 pounds maximum weight capacity.

Tenor has a finished bottom cover without any pinch points and bumpers for stacking.

Warranty

Limited Lifetime Warranty.

Reply 466 Series

Reply is a global family of value-friendly seating designed with unexpected extras.

Back frame and seat shell are plastic.

Back height adjustment on upholstered chairs allows you to raise or lower chair back from a seated position to support your lower back.

Five-star base is plastic, a polished aluminum base is available as an option.

Arm tube matches the frame finish.

Exception: The height-, width-, pivot-, depth-adjustable arm (maintenance width adjustment) is only available in black.

Arm support is coordinated to match the base finish.

Exception: The height-, width-, pivot-, depth-adjustable arm (maintenance width adjustment) is only available in black. Arm support color is always platinum metallic paint 4799 when the 6053 Seagull frame is selected.

Dual-wheel with roll-control casters may be used on soft and hard flooring surfaces.

Back handle on mesh back chairs provides a convenient handhold to easily move the chair.

Arms, when specified, have a textured plastic arm cap.

Lumbar height adjusts 4" to provide additional lower back support and is available as an option on mesh back chairs only.

Arm depth can retract 3" to allow user to get closer to the worksurface and into tight corners.

Arm height can adjust independently within a 3³/₄" range to help relieve upper back and shoulder fatigue.

Arm caps can pivot independently 18° in and 4° out to accommodate individual user preferences.

Arm width adjusts 1" per arm for a total of 2" overall width adjustment.

Multi-position back lock allows user to recline the back to the desired angle and lock it in place.

Seat depth adjusts within a 1¹/₂" range to accommodate users of varying leg lengths.

Seat height adjusts within a 5" range with a pneumatic adjustment mechanism.

Tilt tension adjustment allows you to control the amount of resistance needed for reclining.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2¹/₂" for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats.

Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Plastic glides are standard. Optional soft glides are available.

Product Details

Synchro-tilt mechanism with a natural fluid motion on work chairs keeps users oriented to their work.

Fixed-height multi-use chairs are available with or without arms.

Cartoned shipment of Reply work chairs is standard. Reply work chairs ship knocked down in a single carton consisting of two components: the base, pneumatic, mechanism, and seat (built up as one component), and the back with the attachment knob. This allows for shipment in a smaller carton. Leg-base multi-use chairs ship two to a carton, when applicable. Assembly by a qualified dealer installer is required for work chairs. Assembly instructions are included. No additional tools are required for assembly.

Uncartoned request means Reply work chairs will ship fully assembled and blanket wrapped.

Stacking density for leg-base multi-use chairs is six on the floor. Arms and casters do not impact the ability to stack.

Adjustment Features

Adjustability instructions are included with every swivel-base chair. Instructions can also be found at www.steelcase.com.

Seat Adjustments

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. Range of adjustability is 5", from 16"H to 21"H.

Seat depth adjusts 1½" by pulling handle up. Slide seat forward or back to accommodate various leg lengths. Release handle to lock. Seat depth is a standard feature on work chairs.

Back Adjustments

Lumbar height adjusts 4" (6" to 10" from seat) by grabbing exposed tabs and sliding the lumbar support up or down. Available as an option on mesh work chairs only.

Variable back lock (4 positions)

Upright setting

Multiple position back lock allows users to recline the back to the desired angle and lock it in place. To lock, recline to desired angle and push back lock handle down. To release, lean forward, lift the handle and apply pressure to the back to disengage the lock.

Back height adjusts 2½" (23"–25½") by pressing and holding the control button on the right side of the back, and sliding the back support up or down. Release the control button to lock. This feature is standard on work chairs with upholstered (non-mesh) backs only.

Back tension adjusts by turning knob forward to increase back tension, backward to decrease back tension. This feature is standard on all work chairs.

Arm Adjustments

Height-, pivot-, and depth-adjustable arms are available as an option on Reply task chairs.

Arm height adjusts independently within a range of 3¾" (7½"–11¼" from the seat). Push button on outside and under arm cap in while moving arms up or down. Releasing buttons locks arms in position.

Width maintenance arms adjust 1" each independently on chairs with this option. To adjust, loosen the screw under the arm tube and move to desired position and tighten.

Arms pivot 18° inward and 4° outward on models with adjustable pivot arms. Grasp arm and push front to left or right.

Arm depth adjusts approximately 3" to enable user to get closer to worksurface.

Other Features

Height-only adjustable arm is also available and adjusts 3¾".

Soft, dark grey treaded, dual-wheel roll-control casters are available as an option for use on hard floors or mats.

Dual-wheel roll-control casters for use on soft and hard flooring surfaces come standard on leg-base multi-use chairs when specified with casters.

Hard glides come standard on multi-use chairs when specified with glides. Soft glides are available as an option.

Reply 466 Series, continued

provides a convenient handhold to easily move the chair.

Upholstered backrest on leg-base models

features a plastic outer shell.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

► See *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Understanding and Specifying Kart Series Multi-Use Seating

Product Details

Kart Series	230
Dimensions	232

Specifying

Nesting Chairs	234
Stools	238

Kart Series

Kart seating collection offers solutions for classrooms, cafeterias, training rooms, and multipurpose rooms.

Seat height adjusts within a 5" range with a pneumatic adjustment mechanism.

Casters have hard, dual wheels that roll smoothly on carpets. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats.

Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Flip the seat on the nesting chairs and eight Kart chairs can nest in the space of two and a half.

Tilt tension adjustment allows you to control the amount of resistance needed for reclining.

Four-arm base is standard on nesting chairs.

Arms, glides, and back-seat connection will always be black.

Back lock mechanism allow users to lock the back in an upright position.

Stools do not nest.

Adjustable 19" diameter chrome foot ring.

The stool has a five-star base.

Product Details

Nesting chairs and stools with casters are available with or without arms.

Kart is available non-upholstered, upholstered seat only, or upholstered seat and back.

360° swivel motion is locked when in nesting mode (seat up and engaged with base).

Nesting chairs have the ability to nest five chairs in a space of 4'6", or 54". Each additional chair adds 7" to the overall nesting length.

Kart chairs and stools come standard uncartoned. There is an option to have Kart cartoned.

Adjustment Features

Adjustability instructions are included with every swivel-base chair. Instructions can also be found at www.steelcase.com.

Seat Adjustments

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. Range of adjustability is 5".

Seat flips on nesting chairs. Pull the lever under the seat toward the front of the chair and tip the seat up. As the seat releases, the pneumatic lift activates and pushes the chair to its full height position. To lock, spin the chair until the seat engages with the base tooth.

Tilt Tension. To loosen, turn control knob counter-clockwise. To tighten, turn control knob clockwise.

Back Adjustments

Forward back lock on nesting and stool with casters. Lean forward, pull triangular knob out until it stops.

Foot Ring Adjustments

19" chrome foot ring adjusts 8½"H to 15½"H by rotating it left or right.

Other Features

Hard dual-wheel casters for use on soft floors come standard on nesting chairs as well as stools with casters.

Soft dual-wheel casters for hard floors on nesting or five-arm base stools are available for specific applications.

Surface Materials

► See surface materials on page 632 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Fabric and leathers will appear loose with comfort wrinkles when upholstered.

Back frame and seat shell are plastic on all Kart models.

Upholstery

- Fabric
- Leather
- Elmosoft Leather

Hard Components

(Base, back supports, and arm support bar)

- Aluminum with paint

(Rub strips, yoke strips, non-upholstered seat, and back)

- Plastic

(Café stool steel frame)

- Paint

Arm Caps

- Black plastic

Foot Ring

- Chrome

Casters

- Black only

Glides

- Standard on café stool and optional on nesting and stools with casters.

Extra Foam

- Available on nesting and stools with casters.

Programs & Services

► See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit www.steelcase.com

Siento 499 Series

Siento desk chairs, designed in collaboration with Jorge Pensi, merge remarkable ergonomic comfort with a slim and sophisticated executive form.

Outer back is fully upholstered.

Patented LiveBack technology (found in Steelcase Leap chair) is embedded in the back to change shape and mimic the user's spine.

Arms are available as either T-arms or enclosed.

Arm uprights are available in polished aluminum, platinum, or black.

Five-star base is available in polished aluminum, platinum, or black.

Headrest option provides additional head and neck support.

Seat height adjusts from 16" to 21" and is standard with pneumatic adjustment mechanism. Fixed-height option is also available.

Front seat edge flexes naturally to relieve pressure under the user's thighs.

3"- hard dual-wheel casters are provided for use on carpet. Soft dark grey treaded, dual-wheel roll-casters are available for use on hard floors or mats.
Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Adjustability Features

- Pneumatic seat-height
- Upright back lock
- Back tension control
- Synchro-tilt mechanism

Product Details

High-back and mid-back desk chairs are available.

Arms are available as T-arms or enclosed. Fixed T-arms are available in urethane or fully upholstered. Adjustable T-arms are available in urethane only. Enclosed arms are always fully upholstered.

All Siento chairs comply with ANSI/HFS and BIFMA standards.

Adjustment Features

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. Standard range of adjustability is 5" from 16"H to 21"H.

Actual Dimensions

	High-Back Desk Chairs with Headrest	High-Back Desk Chairs without Headrest	Mid-Back Desk Chairs
Overall depth	26"	26"	26"
Overall width—outside of T-arms	27½"	27½"	27½"
Overall width—outside of enclosed arms	29½"	29½"	29½"
Overall height	46¾"–51¾"	46"–51"	40"–45"
Seat depth	17½"	17½"	17½"
Seat width	21"	21"	21"
Back height from seat	31½"	30"	24"
Width between arms	20½"	20½"	20½"
Arm height from seat	8"	8"	8"
Angle between back and seat	100° to 114°	100° to 114°	100° to 114°

Seat edge flexes, relieving pressure under the user's thighs.

Upright back lock. Flick switch forward to lock; flick switch back to tilt.

Back tension control adjusts by turning knob. Turn knob forward to increase rate of tension, backward to decrease.

Synchro-tilt mechanism provides synchronized back movement while feet remain flat on the floor.

Height-, width-, pivot-, and depth-adjustable arms are available on select models of chairs.

Arm height adjusts independently within a range of 4" (7"–11" from the seat). Push button on outside and under arm cap in while moving arms up or down. Releasing buttons locks arms in position.

Arm depth adjusts by sliding arm caps back 3". Friction-fit mechanism keeps arms in position.

Arms pivot independently, 30° inward and outward

Arm width can be adjusted 2 1/4" each, 4 1/2" overall. Grasp arm cap and move in or out.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

► See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM & COL) Program

offers the opportunity for customers to select fabrics and leather that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Avoid pattern fabrics and heavily grained leathers. Through the COM & COL program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM & COL fabric and leather directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM & COL fabrics and details regarding yardage requirements for most Seating lines, visit the COM website: www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.

Local codes may have special requirements for upholstery.

SILQ 418 Series

Mechanisms

360°-swivel ●

Seat Adjustments

Pneumatic height ●

Other Features

Foot ring height (stool) ●

SILQ 418 Series

SILQ is a breakthrough in seating design that combines innovation, artistry, and performance to create a personal experience by responding to the unique movements of your body.

Fabric is applied in the warp vertical direction.

Fixed arms are painted plastic. Arm caps are molded plastic. An armless option is available. Polished aluminum is available as an option.

Seat height adjusts 4⁵/₈" from 16¹/₄"H to 20⁷/₈"H with a pneumatic adjustment mechanism.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2¹/₂" for increased mobility. Soft, dual-wheel, roll control casters are an option available for use on hard floors or chair mats. Hard hubless casters, and soft hubless casters are also available as an option.

Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Upper back shell is molded plastic.

Lower shell is painted plastic.

Five-star base is painted or plastic.

Product Details

Five-star base chairs and stools are available with and without arms. Five-star bases are also available with casters or glides.

Product Weight

- SILQ chair: 29.8 pounds

Adjustment Features

Adjustability instructions are included with every chair. Instructions can also be found at www.steelcase.com.

Seat Adjustments

Seat height adjusts pneumatically. To lower, pull lever up while seated. To raise, pull lever up and keep your weight off the chair.

Foot ring height on stools adjusts by first lifting ring and rotating it counterclockwise to unlock. Then raise or lower ring up to 1³/₄" to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

Back Adjustments

Weight activated compliant system responds to the natural movements of the user's body.

Other features

Hard and soft, hubless roll control wheel casters and hard glides are available as options on the five-arm base.

Cartoned request on dealer purchase order forces SILQ chairs to ship knocked down in three pieces; the seat and back, the base, and the pneumatic cylinder. This request forces SILQ stools to ship knocked down in four pieces; the seat and back, the base, the pneumatic cylinder, and the foot ring. Assembly by a qualified dealer installer is required. Assembly instructions are included.

Surface Materials

► See surface materials on page 632 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Upholstery

- Fabric
- Fabric with soil-retardant treatment (option)
- See SILQ Resources on Village for list of approved fabrics (<https://village.steelcase.com/docs/DOC-49519>)
- Tip: Fabric on the SILQ 418 Series will only be applied in the warp vertical/down roll direction. This includes all standard Steelcase fabrics, Select Surfaces, and COMs.*
- See *Fabric Application Direction Guidelines*, page 642.

Solid, non-pattern fabrics are recommended. Steelcase will not pattern match fabrics which have a distinct repeating pattern (stripes, vertical repeats, etc). This includes pattern matching on the single unit but also pattern matching from one component to another. If pattern matching is of concern it is recommended to use one of the standard Steelcase fabrics, vinyls, or non-patterned COM.

Hard Components

All Steelcase seating with standard upholstery fabrics

complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

► See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Local codes may have special requirements for upholstery.

QiVi 428 Series

QiVi is a family of seating, inspired by collaboration and designed to encourage movement and support various postures. With its pivoting backrest and gliding seat, QiVi adjusts automatically to provide comfort for extended periods of time.

Arms are painted aluminum with a soft touch painted plastic arm cap. Polished aluminum arms are available as an option.

Seat height adjusts 4½" from 17½"H to 22"H with a pneumatic adjustment mechanism.

Back frame, seat shell, and arm caps are plastic and will always coordinate finish color.

Frame is painted steel with a soft touch painted plastic arm cap. Polished chrome is available as an option.

Pivoting back rotates 15° automatically, encouraging movement and sitting in multiple postures.

Hard plastic glides are standard, soft glides are available as an option.

Gliding seat has a 1" range. Movement is automatic and follows the user as they shift postures. A fixed seat is available as an option.

Five-star base is standard in plastic. Painted and polished aluminum base are available as options.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2½" for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats. Stools are standard with 2" hard casters. Soft casters are available as an option.

Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Product Details

Five-star base chairs and stools are available with and without arms.

Sled-base is available with arms only.

360° adjustable height swivel mechanism is standard on five-star base models.

QiVi ships standard assembled and uncartoned. Cartoned shipment is available as an option.

Stacking density for sled-base stacking chairs is three on the floor. Bases on the stacking chairs have a slight bend at the front of each leg.

Product Weight

- QiVi chair: 16.4 pounds

Adjustment Features

Adjustability instructions are included with every swivel-base chair. Instructions can also be found at www.steelcase.com.

Seat Adjustments

Seat height adjusts

pneumatically. To lower, pull lever up while seated. To raise, pull lever up and keep your weight off the chair.

Foot ring height on stools

adjusts by first lifting ring and rotating it counter-clockwise to unlock. Then raise or lower ring up to 4" to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

Gliding seat automatically glides forward and back, adjusting to the natural motion of your body. The seat glides within a 1" range and returns to a neutral position when the user leaves the seat. The gliding seat is a standard feature, a fixed seat option is available.

Back Adjustments

Pivoting back automatically

follows the natural motion of your back as you recline, encouraging movement and supporting multiple postures. The backrest pivot range is 15° and will return to the neutral position when the user is not applying pressure to the back.

Other features

Soft wheel casters for hard floors on five-star base models are available for specific applications.

Hard glides come standard on sled base chairs, soft glides are available as an option.

Surface Materials

► See surface materials on page 632 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

- QN07 Scarlet
- QN08 Blue Jay
- QN10 Aubergine
- QN11 Peacock
- QN12 Jungle
- QN13 Merlot
- QN14 Honey
- QN15 Lagoon
- QN16 Saffron

Seat Upholstery

- Cogent: Connect fabric
- Fabric
- Fabric with soil-retardant treatment (option)
- Leather
- Elmosoft Leather
- Select Surfaces leather
- Vinyl
- COM
- COL

Tip: Some Steelcase seating fabrics are available with and without a stitched detail on the seat. See seating upholstery matrix for details.

Base

- Coatings
- 1ATT Cast Shadow

Lux Coatings

- 4B20 Obsidian
- 4B22 Matte Brass
- 4B23 Burnished Bronze
- 4B24 Night Bronze
- 4B25 Matte Copper
- 4B26 Smoked Mica
- 4B29 Cast Iron

Plastic components

- Back frame, seat shell, and arm caps
- 6009 Arctic White
- 6205 Black
- 6249 Platinum

Tip: Only one finish can be selected for all three plastic components.

Base, frame, and arms

- 6205 Black
- 7241 Textured Arctic White
- 4799 Platinum Metallic
- 8046 Polished Aluminum (five-arm only)
- 9201 Polished Chrome (sled only)

Tip: Frame and arm finish are non-specifiable and will always match base finish.

Casters and glides

- 6205 Black

Foot ring on stools

- 6205 Black
- 6249 Platinum
- 7241 Arctic White

Tip: Foot ring and cylinder on stool will coordinate to match the base color.

All Steelcase seating with standard upholstery fabrics

complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

► See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Local codes may have special requirements for upholstery.

cobi 434 Series

cobi is collaborative seating for teams that helps people move freely, change postures, and stay energized and comfortable.

Flexing fingers in back offer support while moving and conforming to the user.

Flexible top edge allows for multiple postures while maintaining support and comfort.

Flexible seat edge on all 3-sides supports multiple postures while relieving thigh pressure.

Arms are constructed of a soft durable rubber compound.

Seat height adjusts with a 5" range from 15½"H to 20½"H with a pneumatic adjustment mechanism.

Weight-activated mechanism provides support by automatically responding to the users movements.

Five-star base is standard.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2½" for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats. Stools are standard with 2" hard casters. Soft casters are available as an option. *Tip: Do not roll the chair across asphalt during installation as this may damage the casters.*

Product Details

Chairs and stools are available with or without arms.

Weight-activated mechanism provides individual support without a tension control by intuitively sensing and supporting the users center of gravity.

cobi ships standard assembled and uncartoned. A cartoned request on a dealer purchase order forces cobi chairs to ship unassembled with the chair seat, back, and cylinder separated from the base. This allows for shipment in a smaller carton. Assembly by a qualified dealer installer is required. Assembly instructions are included. No additional tools are required for assembly.

Product Weight

- Cobi chair: 26.3 pounds

Adjustment Features

Seat Adjustments

Seat height adjusts

pneumatically. To lower, pull lever up while seated. To raise, pull lever up and keep your weight off the chair.

Foot ring height on stools

adjusts by first lifting ring and rotating it counter-clockwise to unlock. Then raise or lower ring up to 3" to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

Flexing fingers in back promote movement and provide support for a wide range of postures.

Soft roll-control caster option features an internal brake that activates when the chair is not under load to reduce shifting when user stands up.

Flexing seat edge on all 3-sides supports multiple postures while relieving thigh pressure.

Surface Materials

▶ See surface materials on page 632 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Back Upholstery

- Connect 3D (back only)

Seat Upholstery

- Cogent: Connect (seat only)
- Fabric
- Fabric with soil-retardant treatment (option)
- Leather
- Elmosoft leather
- Select Surfaces leather
- Vinyl
- COM
- COL

All seat upholstery except standard Cogent: Connect requires a sewn application. Specify with an **S** suffix.

Outer Back

- 6009 Arctic White
- 6205 Black
- 6249 Platinum
- 6295 Near Black

Arm Caps, Top Edge, and Casters

- 6205 Black
- 6249 Platinum

Tip: Frame, base, and cylinder will default to match outer back color.

Tip: If black or near black are specified on the outer back, the arm caps, top edge, and casters will be 6205 black. If platinum or arctic white are specified on the outer back, the arm caps, top edge, and casters will be 6249 platinum.

Glides

- Black plastic

Foot ring on stools

- 4799 Platinum Metallic
- 6205 Black

Tip: Foot ring on stool will coordinate to match outer back color. For example, the 4799 Platinum Metallic foot ring coordinates with the 6249 Platinum Solid outer back color scheme and 4799 Platinum Metallic base.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website.

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Local codes may have special requirements for upholstery.

Standard Includes

- Weight-activated mechanism
- 5" pneumatic seat-height adjustment
- Fixed arms, if selected: plastic to match outer back
- Back upholstery: Connect 3D
- Seat upholstery: Cogent: Connect
- Frame, outer back, and five-star base: Black
- 2½"-diameter, hard composition, dual-wheel casters: black plastic

Required to Specify

- 1 Style number
 - 2 Plastic color number for outer back
 - 3 Connect 3D color number for back
 - 4 Cogent: Connect color number for upholstery on seat
 - 5 Options, if selected (see below)
- See *Surface Materials*, page 632.

*Tip: All seat upholstery except standard Cogent: Connect requires a sewn application. Specify with an **S** suffix.*

Tip: Always add suffixes in alphabetical order when specifying options to cobi seating.

Tip: Leather and vinyl upcharges are in addition to sewn upholstery upcharge.

Collaborative Chairs

Collaborative seating promotes comfort for long periods of time and promotes movement, offers automatic and intuitive adjustments, and supports multiple postures.

- QiVi 428 Series
- cobī 434 Series
- Node 480 Series

Adjustability Features

▶ See page 26 for a comparison to other chairs

Node 480 Series

Mechanisms

360°-swivel

Node 480 Series

Node is a collaborative seating line that accommodates multiple environments including classrooms, clinical settings, and other learning environments. Node supports multiple teaching and learning modes, freedom to change postures, and optional storage.

One piece polypropylene contoured shell is designed for easy maintenance and cleaning.

Arms are designed to support arms, side-sitting postures, and serve as a backpack hook.

Flexible and contoured seat shell supports comfort by allowing many postures.

360°-swivel mechanism is standard.

Backpack storage area is standard.

Casters have hard, dual wheels that roll smoothly on carpets. Soft dual-wheel casters are available for use on hard floors.

Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Personal worksurface moves independently of seat shell and base.

Tablet stand is available on all personal worksurfaces and supports tablets and smart phones.

Personal worksurface is depth adjustable for large and small users and allows for ingress/egress.

Personal worksurface is mounted on the right but appropriate for both right- and left-hand users.

Seat height adjusts with a 5 1/4" range with a pneumatic adjustment mechanisms on five-star base chairs. Chairs with a personal worksurface or Share-Surface adjusts with a 4" range. Stools have a 8 1/2" range. A 7 1/2" range is available as an option.

Five-star base is standard.

Hard, dual wheel casters are standard for use on carpets. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats.

Contoured and flexible seat shell supports comfort by allowing many postures.

The arms are designed to support arms, side-sitting postures, and serve as a backpack hook.

The seat bracket can be customized with accent paint or PerfectMatch paint.

Durable, steel wire frame is lightweight.

Hard glides are standard. Soft, felt glides are available as an option.

One piece polypropylene contoured shell is designed for easy maintenance and cleaning.

Optional seat cushion is available for extended comfort.

Node wood legs are solid maple wood with a polyethylene glide.

Node 480 Series, continued

Product Details

Chairs and stools are available with high-back and mid-back shells. Chairs are available with a tripod base, tripod base with personal workspace, five-star base with pneumatic adjustment, and five-star base with pneumatic adjustment with personal workspace. X base is available in chair and stool height. Wood base is available in chair height only.

Flexing seat shell and arms promotes movement and supports multiple postures. Integrated arms support user's arms, side posture, and act as a backpack hook.

Tripod base reclaims the space under the seat. The space is 1.7 cu/ft. and allows for backpacks or personal belongings to be stored, and serves as a footrest.

Personal workspace is mounted on user's right, and designed to accommodate left- and right-handed users. It is 12"D x 22 1/4"W and features a safety stop to help prevent belongings and laptops from easily sliding off back edge. It is designed to be level when in use and may appear to have a slight upward angle when not in use.

Node tripod, with or without workspace, and Node five-star base chairs with workspace ships standard unassembled and cartoned with the seat shell separated from the base. This allows for shipment in a smaller carton. Five-star base chairs without workspace and stools ship two to a carton. Assembly by a qualified Steelcase dealer installer is required. Node X base and wood base ship fully assembled. Assembly instructions are available at www.steelcase.com. No tools required for assembly.

Adjustment Features

360° fixed height swivel mechanism on tripod base models allows students to remain oriented to instructor, presentation materials, and other students.

360° adjustable height swivel mechanism is standard on five-star base models.

Personal workspace depth adjustment range is 7 1/4" to 15".

Measurement is from lumbar to workspace.

Personal workspace pivot range is 48°.

Personal workspace center pivot is 100°. The center pivot range is measured from the closest position to the furthest position from the user.

Seat height adjusts pneumatically. To lower, pull lever up while seated. To raise, pull lever up and keep your weight off the chair. Range of adjustability is 5 1/4" from 16"H to 21 3/16"H, a 3 3/4" range (17 1/8"H to 20 3/4"H) is available on chairs with a workspace. Stools are standard with an 8 1/2" range of adjustability (23 1/16"H to 31 3/8"H). A 7 1/2" range of adjustability (18 1/2"H to 26 7/16"H) is available as an option.

Glides are available as an option. Glides ship assembled on the chair and maintain same height as casters. Glides are not available on stools.

Foot ring height on stools adjusts by first lifting ring and rotating it counterclockwise to unlock. Then raise or lower ring up to 4" to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

Soft, dual-wheel roll-control casters for hard floors are available on five-star base chairs and stools only.

Cup holder is available as an option on Node chairs with personal worksurfaces. It is retractable under the worksurface when not in use.

Tablet stand is available on Node chairs with personal worksurfaces. The stand supports tablets and smart phones in both portrait and landscape positions, making content easy to view and freeing up space on the worksurface for other materials. It can be field or factory installed.

Tip: Devices are not secure in tablet stand when Node is moved.

The backpack storage area and overall chair width require 23³/₄" of continuous floor space when used with tables. The minimum distance between table bases is 49" to allow two chairs to be pushed under the worksurface. This does not apply to five-star basemodels.

Planning with Node

For Classroom Environments

Pedagogy, technology and space, when carefully considered and intentionally designed, can establish new protocols for advanced learning solutions.

Planning Tips

- 1 Illustrate multiple modes for each drawing to:
 - a) ensure enough space is available for each reconfiguration
 - b) allow the user to understand what's possible
 - c) ensure that sight lines are maintained when the furniture is moved
 - d) confirm that jurisdictional codes are followed for each layout (eg: International Building Code, American Disability Act, etc.)
- 2 Give permission to act differently by including wall guard and enough space to move, supporting simultaneous multi-modal activities.
- 3 Provide both analogue and digital tools in the solution such as whiteboards, personal whiteboards, interactive whiteboards or media:scape.
- 4 Address the needs of classroom and personal storage for both students and teachers. Incorporate this information into each mode to ensure space is adequate.
- 5 Include zones for mentoring, assessment, and/or coaching for teacher-to-student and/or student-to-student interaction.
- 6 Annotate the drawings with design principles to confirm they are being addressed.

Lecture Mode

Group Mode

Discussion Mode

This example: 18* sq. ft. or 1.68 sq. meters per person. *For K-12 applications, See Table 1004.1.1 Maximum Floor Area Allowances per Occupant, 2009 International Building Code.

- A** — 60"/1.52m (ADA)
- B** — 12"/0.3m
- C** — 18"-24"/0.46-0.61m (aisle)
- D** — 36"/0.91m (egress)
- E** — 60"/1.52m (egress)
- F** — 38"/0.97m (aisle)
- G** — 18"-36"/0.46-0.91m (aisle)

Planning with Node

For Healthcare Environments

Clinicians, patients, family, technology, and space should be carefully considered and intentionally designed to create impactful and meaningful healthcare experiences.

Planning Tips

- 1 Demonstrate ability for a clinician to perform three key behaviors:
 - a) input information using a mobile device
 - b) share information with the patient and family member
 - c) connect with patient by moving surface aside for physical exam
- 2 Encourage customers to think differently about other objects within the exam space to encourage collaboration and mutual participation with all participants.
- 3 Provide both analogue and digital capabilities for teaching and learning with the clinician, patient, and family member.
- 4 Optimize real estate by considering a chair-based exam for many exam room applications.

Wellbeing Hub

Room Dimensions: 13'11" x 11'3"

Wellbeing hubs offers a blended space to perform a physical exam and consultative experience.

Retail Exam Space

Room Dimensions: 9'6" x 12'

Retail exam spaces maximize real estate by accommodating the physical exam, consultative experience, and clinician work area.

▶ See *Table 1004.1.1 Maximum Floor Area Allowances per Occupant, 2009 International Building Code.*

Planning Tips, continued**Pediatric Exam Space**

Room Dimensions: 11'6" x 10'

Pediatric exam spaces are about building trust and connection by accommodating clinicians, parents, and children with a more consultative experience.

► See *Table 1004.1.1 Maximum Floor Area Allowances per Occupant, 2009 International Building Code.*

Collaborative Chairs	321
----------------------	-----

Flex Perch Stool

Flex Perch is a short-term seating solution that nests for easy use and storage in your agile team spaces. Its beautiful design, flexibility, and light weight make it the perfect perching option for stand-ups, team huddles, and working sessions. Pair Flex Perch with your current Flex Collection applications for a seamless integration.

Frame and seat are one molded piece, available in five colors.

Seat is designed with a 7.2° angle, ideal for perching.

Plastic frame is a 4-leg base made with ChemCycled Nylon and available in five colors.

Plastic glides are suitable for hard floors or carpet.

Product Details

Flex Perch are available in one height option, have a 4-leg base, and come standard with glides. Choose from single or 4-pack.

Seat and frame are molded out of ChemCycled nylon and are 100% recyclable.

One-piece molded design makes it easy for Flex Perch to be cleaned and sanitized. See *Surface Materials Reference Guide* for detailed cleaning instructions.

Continuing to design with sustainability and increasing product recyclability as core principles, color variation such as swirls, lines, and halos may be visible.

Glides are available in one type suitable for both hard floors and carpet. Glides are designed with texture to keep Flex Perch in place during use.

Flex Perch stool can support up to 300 pounds, despite its lightweight of only 8.7 pounds.

Textured seat provides adequate grip ideal for perching.

Flex Perch nest on the floor in rows. Make rows as long or as short as you'd like. There is no limit to the number of Flex Perch that can nest.

Flex Perch is not intended to be stacked horizontally. Storing or transporting the product in this position could cause scuffing and abrasion. Optimal storage of Flex Perch is nested with glides on the floor.

Surface Materials

Frame and seat

- 6302 Baltic
- 6527 Merle
- 6697 Fog
- 6BD7 Saffron
- 6BE2 Light Peacock

Glides

- Soft plastic glides are made of Thermoplastic Polyurethane and come standard on all models of Flex Perch in 6205 Black.
- Felt glides are unavailable for use with Flex Perch.

Clean promptly to minimize staining. See *Surface Materials Reference Manual* for detailed cleaning instructions.

Shortcut with Tripod Base	342

Shortcut Five-Star Base

Shortcut is a collaborative seating collection that encourages people to move freely, change postures, and stay energized, yet comfortable in many settings.
 ▶ Specifying, pages 336–337

Five-star base multi-purpose chair seat height adjusts with a $4\frac{5}{8}$ " range from $16\frac{9}{16}$ " – $21\frac{3}{16}$ " (no upholstery) with a pneumatic adjustment mechanism.

Five-star base multi-purpose stool seat height adjusts with a $10\frac{3}{16}$ " range from $22\frac{1}{8}$ " – $32\frac{9}{16}$ " (no upholstery) with a pneumatic adjustment mechanism.

Five-star base is standard.

Hard, dual wheeled casters are standard for use on carpets. Soft, roll-control, dual-wheel casters are available for use on hard floors or chair mats.

Abbreviated arms allow users to pull up to a worksurface with ease.

Cut-out provides more flexibility.

The Shortcut shell is made of polypropylene plastic.

Adjustment Features

Seat height adjusts with a $4\frac{5}{8}$ " range from $16\frac{9}{16}$ " – $21\frac{3}{16}$ " (no upholstery) with a pneumatic adjustment mechanism.

Seat height adjusts pneumatically. To lower, pull lever up while seated. To raise, pull lever up and keep weight off of the chair. Lever is located on the left hand side.

Elbow rests are abbreviated to stay out of the way as the user gets closer to the worksurface and supports a wide range of postures. It is designed to be level when in use and may appear to have slight upward angle when not in use.

Cushion option is available for extra support and comfort.

Black glides are available as an option. Glides ship assembled on the chair or stool and maintain the same height as casters.

Soft roll-control caster option features an internal brake that activates when the chair is not under load to reduce shifting when user stands up.

Soft, dual-wheel casters are two-tone, with a merle ring, which makes them easily identifiable.

Shortcut with Tripod Base

► Specifying, page 342

Abbreviated arms allow users to pull up to a worksurface with ease.

Cut-out provides more flexibility.

360°-swivel mechanism is standard.

Backpack storage area is standard.

Casters have hard dual wheels that roll smoothly on carpets. Soft dual-wheel casters are available for use on hard floors.

Tablet stand is available on all personal worksurfaces and supports tablets and smart phones.

Personal worksurface moves independently of seat shell and base.

Personal worksurface is mounted on the right but appropriate for both right- and left-hand users.

Personal worksurface is depth adjustable for large and small users and allows for ingress/egress.

The Shortcut shell is made of polypropylene plastic.

Product Details

Elbow rests are abbreviated to stay out of the way as the user gets closer to the worksurface and supports a wide range of postures.

Personal worksurface is mounted on user's right, and designed to accommodate left- and right-handed users. It is 12"D x 22 1/4"W and features a safety stop to help prevent belongings and laptops from easily sliding off back edge.

Cushion options are available for extra support and comfort.

Tripod base reclaims the space under the seat. The space is 1.7 cu/ft and allows for backpack or personal belongings to be stored.

Adjustment Features

360° fixed height swivel mechanism on tripod base models allows students to remain oriented to instructor, presentation materials, and other students.

Tablet stand is available on chairs with personal worksurfaces. The stand supports tablets and smart phones in both portrait and landscape positions, making content easy to view and freeing up space on the worksurface for other materials.

Tip: Devices are not secure in tablet stand when moved.

Cup holder is available as an option on Shortcut chairs with personal worksurfaces. It is retractable under the worksurface when not in use.

Personal worksurface depth adjustment range is 6" to 16¼". Measurement is from lumbar to worksurface.

Personal worksurface pivot range is 48°.

Personal worksurface center pivot is 100°. The center pivot range is measured from the closest position to the furthest position from the user.

The backpack storage area and overall chair width require 23¾" of continuous floor space when used with tables. The minimum distance between table bases is 49" to allow two chairs to be pushed under the worksurface.

Planning with Shortcut

For Classroom Environments

Pedagogy, technology and space, when carefully considered and intentionally designed, can establish new protocols for advanced learning solutions.

Planning Tips

- 1 Illustrate multiple modes for each drawing to:
 - a) ensure enough space is available for each reconfiguration
 - b) allow the user to understand what's possible
 - c) ensure that sight lines are maintained when the furniture is moved
 - d) confirm that jurisdictional codes are followed for each layout (eg: International Building Code, American Disability Act, etc.)
- 2 Give permission to act differently by including wall guard and enough space to move, supporting simultaneous multi-modal activities.
- 3 Provide both analogue and digital tools in the solution such as whiteboards, personal whiteboards, interactive whiteboards or media:scape.
- 4 Address the needs of classroom and personal storage for both students and teachers. Incorporate this information into each mode to ensure space is adequate.
- 5 Include zones for mentoring, assessment, and/or coaching for teacher-to-student and/or student-to-student interaction.
- 6 Annotate the drawings with design principles to confirm they are being addressed.

Lecture Mode

Group Mode

Discussion Mode

This example: 18* sq. ft. or 1.68 sq. meters per person. *For K-12 applications, See Table 1004.1.1 Maximum Floor Area Allowances per Occupant, 2009 International Building Code.

- A** — 60"/1.52m (ADA)
- B** — 12"/0.3m
- C** — 18"-24"/0.46-0.61m (aisle)
- D** — 36"/0.91m (egress)
- E** — 60"/1.52m (egress)
- F** — 38"/0.97m (aisle)
- G** — 18"-36"/0.46-0.91m (aisle)

Specifying

Swivel-Base Work Chairs	350
Leg-Base Multi-Use Chairs	352
Swivel-Base Stools	354
Cushion Upholstery Packages	356
Accessories	360

Work Chairs

Cachet offers basic ergonomic comfort for people who have varied tasks and tend to be in and out of the office during the day. Features include adjustable seat height and a unique Balanced-Action Rocker (BAR) mechanism that allows users to recline easily without a manual adjustment. Also featured is the no front-rise seat—in other words, when you lean back, the front edge of the seat doesn't rise up, lifting your legs off the floor and cutting off circulation.

Adjustability Features

▶ See page 26 for a comparison to other chairs

--------------------------	---

Cachet 487 Series

Cachet chairs are lightweight, extremely comfortable, multi-use chairs with a unique Balanced-Action Rocker (BAR) mechanism that allows the chair to recline in response to the user's weight.

Flexible, contoured back and seat have parallel slats that conform to individual users.

Nylon injection-molded tubular frame provides strength with minimal weight.

Plastic glides are standard. Optional soft glides are available.

Balanced-action rocker (BAR) mechanism allows every user to fully recline.

Five-star base is standard.

Flip-up arms easily lift to move out of the way or to allow for stacking.

Seat height adjusts within a 5" range (15½"H to 20½"H) with a pneumatic-adjustment mechanism.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2¾" diameter for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors and mats.

Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Product Details

Chair bases are available in three styles—fixed-height four leg, adjustable-height swivel, and adjustable-height stool.

Balanced-action rocker (BAR) mechanism allows the user to recline for optimum comfort.

Upholstered cushions are available for use on chair back and seat. Cushions can be specified for factory installation or ordered separately for field installation. When specified with the chair, cushions are available for seat and back, or seat only. When ordered separately, cushions are available for seat and back, seat only, or back only. The cushions attach to the slats of back and seat.

Tip: You must specify plastic outer back color to match chair.

Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats. Roll-control casters feature an internal brake that activates when the chair is not under load to reduce shifting when user stands up.

Hard plastic glides are standard on leg-base chairs.

Soft felt glides are available as an option for use on non-carpeted surfaces. The soft glide is reversible—soft on one side, hard on the other.

Leg-base chairs stack five high on the floor and 20 high on the dolly. Upholstery does not impact stacking capacity.

Leg-base chairs are available with or without flip-up arms. Chairs with or without arms can be stacked.

Other Features

Foot ring height on stools adjusts by first lifting ring and rotating it counter-clockwise to unlock. Then raise or lower ring up to 2" to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

Transport and storage dolly is available to stack, move, and store up to 20 leg-base chairs. Upholstery does not impact stacking capacity. Swivel-base chairs will not stack.

Unloaded transport dolly measures 48"D x 23"W x 38¾"H.

Fully loaded transport dolly measures 51"D x 23"W x 78¾"H.

Ganging and alignment device is available to link leg-base chairs together in the field for evenly spaced rows. Chairs can be separated easily. Spacing between chairs linked with alignment device is 2".

Tip: You must specify plastic color of ganging and alignment device to match chairs.

Cachet is recommended for indoor use only.

Surface Materials

► See surface materials on page 632 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Hard components (frame, flip-up arms, back, seat, and base)

- Swivel and 4-leg chair models available in black and midnight
- Stool available in black only

Upholstery

- Fabric
- Fabric with soil-retardant treatment (option)
- Leather
- Elmosoft leather
- Select Surfaces leather
- Vinyl

Glides

- Color-matched plastic on leg-base chair
- Color-matched soft plastic on leg-base chair (option)

Casters

- Hard, black plastic wheels on swivel-base chair and stool
- Soft, dual-wheel roll-control black plastic wheels (option)

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

► See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM)

Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Local codes may have special requirements for upholstery.

Understanding and Specifying Player 475 Series Multi-Use Seating

Product Details

Player 475 Series	362
Dimensions	364

Specifying

Leg-Base Multi-Use Chairs	366
Sled-Base Multi-Use Chairs	370
Leg-Base Stools	374
Accessories	376

Multi-Use Chairs

Multi-use chairs are suitable for use as occasional seating within team spaces, workstations, offices, or wherever extra seating is required.

- Player 475 Series
- Move 490 Series

Player 475 Series

Player chairs are guest chairs that also stack. Strength features in the back, arms, and back legs make Player a logical choice for high-traffic areas, and its simple, classic design complements a broad range of work settings.

Back and seat, including outer back, are fully upholstered. High-back and thick-seat options are available.

Arms slope downward and will easily clear the front edge of a worksurface or table. Arms are available in smooth or textured finish.

Steel frame is monochromatic.

Plastic glides with a hard plastic insert are standard.

Casters have hard, dual wheels that roll smoothly on carpets. They are 2" in diameter for increased mobility. Soft, dual-wheel casters are available for use on hard floor or chair mats. Casters available in black only.
Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Product Details

Chair models are available with a leg-base or a sled-base. Stools are available with a leg-base. The leg base arms are available with casters. Chairs and stools are available with several features such as arms, tablet arms, high back, and thick seat.

Stackability for leg-base models is six high on the floor and eight high on the transport and storage dolly. Leg-base models with casters are not recommended to stack as damage to arms may occur. Sled-base models, stools, and chairs with tablet arms will not stack.

High-back option, available on all Player chairs and stools, adds 2½" to back height. Top edge is slightly rounded. Stackability is not affected.

Thick-seat option, available on all Player chairs and stools, increases the thickness of the seat cushion by approximately 1/2". Stackability is not affected.

Tablet arm is available right hand and left hand and is shipped knocked down (K.D.). Tablet arm tilts for easy entrance and exit from chair. Tablet arm measures 25 1/2" x 13 1/2". Tablet arm is not available to order separately for installation on existing chairs.

Plastic glides, with hard plastic inserts on leg-base Player chairs, are recommended for carpeted surfaces only.

Soft felt glides are available on Player chairs for non-carpeted surfaces.

Alignment device is available to temporarily link chairs together for evenly spaced rows. Chairs can be unlinked easily. Spacing between chairs linked with alignment device is 5 7/8".

Ganging device is available to link chairs on a more permanent basis. It attaches to the chair's side frame. Spacing between chairs linked with the ganging device is approximately 9".

Transport and storage dolly is available to stack, move, and store up to eight chairs with or without arms. Without the dolly, chairs will stack up to six high. Sled-base models, stools, and chairs with tablet arms will not stack.

Fully loaded transport dolly measures 32 3/4"D x 25 1/2"W x 55 3/4"H.

Surface Materials

▶ See surface materials on page 632 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Upholstery

- Fabric
- Fabric with soil-retardant treatment (option)
- Vinyl

Hard components (arms, frames, and sled base)

- Monochromatic color from list of seating plastic color numbers can be applied to all hard components.

Arms

- Smooth plastic
- Textured plastic

Tablet arms

- Laminated

Casters

- Black only

Glides

- Plastic with hard plastic inserts come standard on leg-base multi-use chairs when specified with glides. Soft glides are available as an option.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Understanding and Specifying Turnstone Simple

Multi-Use Seating

Product Details

Simple 378

Specifying

Simple 380

Simple

Simple chair is a light-weight, stackable seating family with easily changeable cushions and slipcovers providing a range of aesthetics, price points, and comfort.

► Specifying, page 380

Chair, stool, and lounge are available in several paints.

Seat and back are made of polypropylene plastic.

Simple Chair is light-weight at 12 pounds and ships fully assembled.

Frame is made of steel with a powder coated finish.

Stacking spacers allow chair, stool, and lounge to be stacked up to four high, with or without cushions or slipcovers.

Simple Stool is light-weight at 17 pounds and ships fully assembled.

Hard glides are standard.

Simple Lounge is light-weight at 17½ pounds and ships fully assembled.

Simple Lounge is a lounge chair designed to have the right recline and pitch to work at a lounge height table.

Simple Lounge polypropylene arm caps, back, and seat match paint color selected.

Actual Dimensions

Understanding and Specifying Move 490 Series Multi-Use Seating

Product Details

Move 490 Series	388
Dimensions	390

Specifying

Multi-Use Chairs	392
Multi-Use Stools	396
Perching Stools	400
Accessories	403

Multi-Use Chairs

Multi-use chairs are suitable for use as occasional seating within team spaces, workstations, offices, or wherever extra seating is required.

- Player 475 Series
- Move 490 Series

Move 490 Series

Move chairs are guest chairs that also stack. Live dynamic seat, open cantilever arm design, light weight, and strength make Move a logical choice for multipurpose areas. Move's simple design complements a broad range of work settings.

Arms are cantilevered and will easily clear the front edge of a worksurface or table. The open cantilever design of the arms allows alternative postures and sitting positions.

Steel frame is monochromatic.

Seat and back are available in plastic or with an upholstered cushion.

Plastic glides have a hard plastic insert.

Upholstered back is available on selected styles.

Casters have hard, dual wheels that roll smoothly on carpets. Soft, dual-wheel casters are available for use on hard floor or chair mats. Casters are available in black only.

Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Product Details

Chairs and stools have a leg-base and are available with glides or casters, and with or without arms.

Stackability for leg base chair models is five high on the floor. Stools do not stack.

Plastic glides with hard plastic inserts are recommended for carpeted surfaces.

Soft felt glides for use on non-carpeted surfaces are available as an option.

Transport and storage dolly is available to stack, move, and store up to 10 chairs.

Unloaded transport dolly measures 58½"D x 25½"W x 37½"H.

Fully loaded transport dolly measures 58½"D x 25½"W x 58½"H.

Product Weight

- Move chair: 16.4 pounds

Ganging and alignment device is available to link leg-base chairs together in the field for evenly spaced rows. Chairs can be separated easily. Spacing between chairs linked with alignment device is 4" for chairs with no arms and 7" for chairs with arms.

Move wall saver is available to prevent the back of the chair from making contact with the wall.

All Steelcase seating with standard upholstery fabrics

complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

► See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

Select Surfaces

For information on products within Select Surfaces, including accent paints, Signature plastics, and fabrics from Designtex, Gabriel, Kvadrat, and Pollack, please refer to the *Surface Materials Reference Manual* or visit www.steelcase.com/selectsurfaces.

Custom Surfaces

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Local codes may have special requirements for upholstery.

Understanding and Specifying Turnstone Scoop

Multi-Use Seating

Product Details		
Scoop		406
Dimensions		407
Specifying		
Scoop		408

Scoop

Scoop is collaborative seating for teams that helps people move freely, change postures, and stay energized and comfortable.

► Specifying, page 408

Durable wire frame is lightweight and available in multiple finishes.

Glides are standard for use on carpets. Soft glides are available for use on hard floors or chair mats.

Seat is constructed of molded plastic and available in several colors.

Upholstered seat is also available.

Product Details

Stools are available with or without upholstered seat.

Surface Materials

Understanding and Specifying Nooi Multi-Use Seating

Product Details

Nooi	410
Thought Starters	412
Dimensions	416

Specifying

Nooi Frame-Linking Chairs	418
Nooi Sled-Base Chair	420
Nooi 4-Leg Base Chairs	422
Nooi Stools	424
Nooi Transport Dolly	426

Multi-Use Chairs

Multi-use chairs are suitable for use as occasional seating within team spaces, workstations, offices, or wherever extra seating is required.

- Player 475 Series
- Move 490 Series

Nooi

Nooi is a seating family of multi-use chairs and stools with various arm, base, and upholstery choices. The sophisticated design features an elegant high-gloss exterior shell and a textured interior shell available in different color combinations, with optional upholstery to make a statement in any space. Nooi's generous, flexible seat shell is calibrated to comfortably support a wide range of users with a beautiful aesthetic. The versatile statement of line provides choice and control in a broad range of collaborative spaces ranging from café's, meeting spaces, and townhalls.

Seat and back are one integrated plastic shell. The interior shell is textured and the exterior shell is high gloss.

Upholstered seat is available as an option on chairs and stools.

Upholstered seat and back is available as an option on chairs.

Glides are available in hard and soft options.

Ganging device integrated into frame-linking chairs and sled-base chairs creates an ingenious interlocking frame system that supports simplistic reconfigurability.

Arms are available on frame-linking chairs and 4-leg base chairs.

Product Details

Plastic shell.
Shown: sled-base chair and bar-height stool

Plastic shell with upholstered seat.
Shown: 4-leg chair with arms and cafe-height stool

Plastic shell with upholstered seat and back.
Shown: 4-leg armless chair and frame linking chair with arms

Nooi is available with a plastic seat and back, upholstery on seat and plastic back, or upholstery on seat and back on select styles.

Stackability varies by style number. See specific style number product page for details.

Hard glides are recommended for carpeted surfaces and soft glides are recommended for non-carpeted surfaces.

Product Weight

- Nooi chair: 16.5 pounds

Frame-linking armless chairs

Frame-linking chairs with arms

Frame-linking sled-base chairs

Nooi frame-linking armless chair, chair with arms, and sled-base chairs feature an interlocking frame that allows the chairs to gang together.

Transport dolly is available to stack and move up to eight chairs. It is meant for transport use only. Chairs should not be stored on the dolly.

Unloaded transport dolly dimensions are 32"D x 30"W x 50"H.

Surface Materials

- Fabric with soil retardant treatment (option)
- Leather
- Elmosoft leather
- Select Surfaces leather
- Vinyl

Glides

- Hard glides are recommended for carpeted surfaces and soft glides are recommended for non-carpeted surfaces.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

Select Surfaces

For information on products within Select Surfaces, including accent paints, Signature plastics, and fabrics from Designtex, Gabriel, Kvadrat, and Pollack, please refer to the *Surface Materials Reference Manual* or visit www.steelcase.com/selectsurfaces.

Custom Surfaces

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Local codes may have special requirements for upholstery.

Nooi Frame-Linking Chairs

Tip: Nooi frame linking chairs can stack 15 high on floor and eight high on transport dolly.

Tip: When specifying the shell color, the first color listed indicates the interior, textured shell color. The color after the backslash indicates the exterior, high-gloss shell color.

Tip: The arms on the frame-linking chair are slightly off-set to allow for interlocking frame linking capability.

Understanding and Specifying Max-Stacker III 477 Series Stackable Chair

Product Details

Max-Stacker III 477 Series	428
Dimensions	430

Specifying

Stackable Chair	432
Accessories	433

Stackable Chairs

Stackable chairs offer flexibility and ease of use in classrooms, auditoriums, or wherever extra seating is required.

- Max-Stacker III 477 Series
- Player 475 Series
- Leg-Base Chairs

Max-Stacker III 477 Series

Max-Stacker III is a stacking chair perfect for high traffic areas. With a new texture and an updated finish offering, it fits into any environment.

Shell is available in flexible, contoured plastic.

Two-piece wire-rod frame is 7/16" diameter carbon steel for strength and durability.

Plastic glides are standard. Soft felt glides, optional, are recommended for use on non-carpeted floors.

Product Details

Max-Stacker III can stack up to 12 chairs high when stacked on the floor.

Transport and storage dolly is available to stack, move, and store up to 45 chairs.

Unloaded transport dolly measures 55"D x 22"W x 37½"H.

Fully loaded transport dolly measures 57"D x 22"W x 68½"H.

Without transport dolly stack can be up to 12 chairs high.

Alignment device is available to temporarily link chairs together in the field for evenly spaced rows. Chairs can be unlinked easily. Spacing between chairs linked with alignment device is 2¼".

Understanding and Specifying Turnstone Buoy

Multi-Use Seating

Product Details

Buoy	436
Dimensions	437

Specifying

Buoy	438
------	-----

Buoy

Buoy is collaborative seating for teams that helps people move freely, change postures, and stay energized and comfortable.
 ▶ Specifying, page 438

Buoy is 18" in diameter.

Buoy body comes in 16 different colors, is lightweight at 20 lb and ships in a carton fully assembled.

Base is 6527 Merle.

Buoy cap is upholstered.

Seat height adjusts with a 5½" range from 17¼"H to 22¾"H with a pneumatic adjustment mechanism.

Sits at a 5° tilt.

Product Details

Tilts up to 12° to encourage active sitting.

Adjustment Features

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep weight off. Range of adjustability is 5½".

Surface Materials

▶ See surface materials on page 632 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Brody WorkLounge 488 Series

The Brody WorkLounge

is a private workspace designed to be good for the body and good for the brain—providing places to get away without going away. A drop-in destination for focus in a relaxed posture. Brody includes integrating power, ergonomic comfort in the highly-desired lounge posture, personal storage, lighting, privacy screens offering shelter from distractions and safe shielding, and a personal worksurface that keeps technology at eye level, reducing neck and shoulder strain.

Screen alignment clip

ensures privacy screens remain aligned.

Side surface is a laminate surface and creates space to spread work out.

Storage caddy delivers a convenient place to store belongings off the floor and within arm's reach.

Integrated power is easily accessible, so the user can focus on work and not worry about battery level.

Lower surround is upholstery wrapped and creates a barrier around the workspace.

Footrest tethering is available when using a compatible, off-the-shelf standard laptop cable lock with lock slot.

dash mini LED light integrates seamlessly to deliver adjustable, efficient lighting where it is needed most.

Screens provide shielding from visual distractions and enhance personal privacy and psychological comfort.

Personal worksurface tilts to ergonomically support a user's wrists for keyboarding while also allowing the screen to rise up to eye level, reducing neck strain.

Seat has adaptive bolstering which creates comfort pockets designed to support every user.

Open cavity beneath seat provides storage space for footrest.

Leveling glides on foot adjust 1 1/2" for uneven floors.

Footrest provides additional support for legs and feet, helping maintain a comfortable, reclined posture. Footrest fits under the seat when not in use.

Product Details

Brody WorkLounge is available with and without screens.

Screens on privacy WorkLounge with extension can only be omitted on the opposite side of where the side surface is located.

LiveLumbar offers a dialed in spring force in the lumbar region that actively supports the lower back.

dash mini LED light is available if power has been specified and can be field installed.

dash mini LED light adjusts 19⁷/₈"H from the side surface. The base and head pivot 360°.

Footrest has plastic base and an overall height of 10"H and a diameter of 18".

Integrated loop on footrest allows for easy repositioning of the footrest in the workspace. It is 1³/₄"W x 2" long and can be used to tether the footrest to the frame.

Footrest base is domed in the middle, allowing it to move to adapt to user preferences.

Bottom of footrest has a non-slip surface toward the outside to prevent sliding.

Footrest can be tethered to the frame with a laptop cable lock with lock slot. These can be purchased separately. There are multiple styles available. To complete the tether, use the footrest pull tag and the slot located on the perimeter of the frame.

Two NEMA outlets

One NEMA, one USB outlet

Power is standard with two three-prong NEMA outlets. It is available with one three-prong NEMA outlet and one USB outlet as an option. USB outlet includes one USB-A port and one USB-C port. The cord is 10' long and is available with either a standard three-prong NEMA plug for use with standard receptacles or with Steelcase's proprietary Thread low-profile plug for use with one-door and two-door low-profile connectors.

Proprietary low-profile plug can only be used with the Thread system and will not interface with existing receptacles. In order to achieve ADA compliance for connectors in an egress location, we developed our own plug design.

Tip: Always consult your local inspector prior to purchasing the Thread system to ensure all local codes and ordinances are satisfied since local regulations may supersede those spelled out in the National Electric Code.

Personal worksurface has a cut out to hold technology like smart phones and tablets. The worksurface measures 16⁵/₈"D x 18¹/₄"W and is 26⁷/₈"H from the floor.

Personal worksurface tilts up to 40-degrees allowing users to bring work to eye level.

Personal worksurface swivels 125 degrees in and out to allow easy entry and exit.

Programs & Services

► See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Brody 488 Series

Brody WorkLounge Application Tips

Application Topics

Consider Brody for the following applications across the floorplan:

- Private individual focus area
- At thresholds to the neighborhood
- Along transition paths and in-between spaces
- As supplements to the primary workstation
- Working lounge areas

Parallel:
Side-by-Side/Angled

Booth

Clover

Pin Wheel

Yin Yang

Tip: Individual Brody units do not connect with brackets.

Brody Desk 488 Series

Brody is a destination for focus. Every detail has been designed with focus in mind, creating a place where people can escape while still having access to the tools, information, and people they need to be most productive.

Worksurface is available in laminate or veneer and creates space to spread work out.

dash mini LED light is available to provide additional light when needed.

Power is conveniently integrated into the worksurface.

Screens offer additional privacy and shield from distractions.

Lower surround is upholstery wrapped and creates a barrier around the workspace.

Leveling glides on foot adjust 1 $\frac{1}{2}$ " for uneven floors.

Product Details

Brody desk always comes standard with screens.

dash mini LED light is available if power has been specified and can be field installed.

dash mini LED light adjusts 19 $\frac{7}{8}$ "H from the worksurface. The base and head pivot 360°.

Two NEMA outlets

One NEMA, one USB outlet

Power is standard with two three-prong NEMA outlets. It is available with one three-prong NEMA outlet and one USB outlet as an option. USB outlet includes one USB-A port and one USB-C port. The cord is 10' long and is available with either a standard three-prong NEMA plug for use with standard receptacles or with Steelcase's proprietary Thread low-profile plug for use with one-door and two-door low-profile connectors.

Proprietary low-profile plug can only be used with the Thread system and will not interface with existing receptacles. In order to achieve ADA compliance for connectors in an egress location, we developed our own plug design.

Tip: Always consult your local inspector prior to purchasing the Thread system to ensure all local codes and ordinances are satisfied since local regulations may supersede those spelled out in the National Electric Code.

Power includes one convenience outlet standard below the worksurface to power the available dash mini LED light and retain a single power cord out.

Wire management clips come standard with Brody desk to manage the power cord to the floor.

Surface Materials

▶ See surface materials on page 632 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Screen

- Arcylic – 6559 Satin Ice
- Buzz2 fabric
- COM

Tip: COM selections are strictly limited. Please reference the COM page at www.steelcase.com to make your selections.

Lower surround upholstery

- Fabric
- COM
- Vinyl

Tip: The standard application direction of fabric on the lower surround is warp horizontal. Standard Steelcase fabrics were designed for this application direction.

Trim

- Fabric
- Plastic
- COM

Light

- 4231 Arctic White
- 4710 Low Gloss Black
- 4799 Platinum
- Accent paint (option)

Power

- 4799 Platinum Metallic
- 7243 Seagull
- 7250 Sterling Dark Solid

Worksurface

- Laminate
- Veneer

Lower surround trim, screen brackets, frame, and foot finishes can be found on the color scheme matrix.

▶ See page 452

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products.

Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit www.steelcase.com

Understanding and Specifying Umami Lounge Seating

Product Details

Umami	468
Thought Starters	484
Dimensions	490

Specifying

Platforms	492
Lounges	500
Screens	514
Tables	526

Umami

Umami, with its flexible, modular design, can be used to create spaces that are unique to organizations and individuals. Multiple materials are used to promote variation and encourage creativity and self-expression. Integrated power, tables, and screens support the ability to perform in an open environment or in solitude.

► Specifying, pages 492-528

Lounge seating is upholstered and attaches to other seating or platforms. Different styles allow for a variety of configurations and applications.

Platforms may be used freestanding as tables or benches, or they can be attached to lounge seating or other platforms for additional seating. They can also be used to create purposeful separation between users. Platforms are available in various sizes and materials.

Umami screens are available in two heights, 48"H or 60"H. Screens offer privacy, reduce visual distraction, and provide purposeful space definition and shielding in the open plan.

Integrated tables are available in two shapes and can be optioned on lounges and platforms.

Fascia will match the top of the seat or platform unless the contrasting option is selected.

Power block can be attached below the frame anywhere along the lounge or platform. Power can also be integrated on single platforms with laminate or veneer tops (platform table power option).

Product Details

Single platforms come in 15"D x 30"W or 30"D x 30"W sizes. They are available in upholstery, laminate, or wood veneer.

Double platforms come in 15"D x 60"W or 30"D x 60"W sizes. They are available in upholstery only.

Platforms can be ganged together or ganged to lounge seating.

When selecting contrasting option on platforms with depth of 15", the 15"D sides are the left and right sides. The front is either the 30"W side (if single platform), or 60"W side (if double platform).

Glides come standard on the bottom of platform frame.

Three total sets of glides are included with each Umami platform. One set of each size; low, medium, and high.

Varying glide sizes may be used to level the product on uneven surfaces, or to raise the total height of the product.

Lounges are available in five different shapes:

Corner lounge

End cap lounge

Applications of End Cap Positions

End cap arm position is determined in the user seated position based on the end of a lounge run in which the end cap will be ganged. For example, while in the user seated position, if attaching an end cap to the right end of a lounge, it would be a right arm position end cap.

Left Arm Position End Cap

Right Arm Position End Cap

When seated in the straight lounge unit shown above, the end cap on the user's left is the left arm position end cap. The end cap on the user's right is the right arm position end cap.

Left Arm Position End Cap

Right Arm Position End Cap

When seated in the right arm position end cap shown above, the left arm position end cap is on the user's left. When seated in the left arm position end cap shown above, the right arm position end cap is on the user's right.

Left Arm Position End Cap

When seated in the left arm position end cap shown above, the right arm single lounge is on the user's right and the single platform is on the user's left.

Screens are available at installed heights of 48" or 60".

Standard screens come in widths of 15" or 30".

When a 15" screen is attached to a 30" frame, a 15" fascia must be ordered.

Spanner screens span across two lounge frames and an open space to create a cabin type application. They come in widths of 90" or 105". 90"W spanner screens come with (3) 30"W screens. 105"W spanner screens come with (2) 30"W screens and (1) 45"W center screen. Brackets shown on the screen are on the inside surface of the screens and attach to the frame.

Round or pill tables can only be optioned on straight single, straight double, one arm double, and end cap lounge. Tables can be optioned on all upholstered top platforms except for 15"D x 30"W single platform and 15"D x 60"W double platform.

Tables are optioned as table left or table right (based on user sitting in lounge). Table left is shown above.

Lounge and platforms gang together with two bolts.

Tables may not be specified on 15"D x 30"W or 15"D x 60"W platforms.

Platform table power can only be optioned on single platforms with laminate or veneer tops.

Power blocks can be installed anywhere along the bottom of the fascia on any platform or lounge.

Power blocks and platform table power options come with three power or two power, one USB A+C 20W.

Surface Materials

The fascia will match the top surface unless the contrasting option is specified.

If top of platform is fabric, the fascia cannot be a hard surface. It can only be upholstery.

Fascia grain direction will always match the sides of the platforms when selecting hard surfaces. On 15"D platforms, the grain is a waterfall on 15" sides.

When a platform has a hard surface and either laminate or veneer is selected, only monolithic and contrasting fascia options are available. Contrasting sides is not an option.

When a platform has a hard surface and either laminate or veneer is selected with contrasting fascia, the contrasting fascia must either match the hard surface type or be upholstery. Example: A laminate top can have laminate or upholstered fascia. A veneer top can have veneer or upholstered fascia.

Only one contrasting surface option is available on each product. This includes fascia which is considered a contrasting surface. If more than one contrasting option is desired, please contact a specials representative.

When a lounge or platform is specified with contrasting and Elmosoft is selected for the top, the other contrast area must be specified in Elmosoft. Exception: When Elmosoft is selected for the top and contrasting fascia is specified, fascia may be specified in any upholstery.

- Paint

Solid, non-repeat fabrics are recommended for Umami lounge, platform, and screens. Steelcase will not pattern match fabrics which have a distinct repeating pattern (stripes, vertical repeats, etc). This includes pattern matching on the single unit but also pattern matching from one component to another. If pattern matching is of concern it is recommended to use one of the standard Steelcase fabrics, vinyls, or non-patterned COM.

When specifying a corner unit as an end of run, if using the corner unit in a right hand orientation, the fabric on the seat will be in the same direction as the single unit seats.

When specifying a corner unit as an end of run, if using the corner unit in a left hand orientation, the fabric on the seat will NOT be in the same direction as the single unit seats. Consider using a left arm unit or non directional fabrics.

Programs & Services

For more information on accent paints, Lux Coatings, PerfectMatch program, and Select Surfaces program, please refer to the *Surface Materials Reference Manual*.

The Customer's Own Material (COM) Program

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit www.steelcase.com

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Umami

Materiality

Contrasting fabric on Umami standard screens and spanner screens are available with contrasting fabric on the inside and outside of the screen. Contrasting fabrics must be from the same fabric family.

Screen clips attach screens together and are available in 6527 Merle or 6053 Seagull.

If the top of the platform is upholstered, the fascia must be upholstered.

Double platforms are available in upholstery only.

Round or pill table tops are available in 2HMG Merle and 2883 Seagull laminates.

Integrated round or pill tables can only be optioned onto lounges or upholstered platforms.

If top of platform is a hard surface, the fascia may be upholstered, laminate, or veneer.

When optioning contrasting fascia, the fascia will be contrasting around the entire frame (lower portion of all four sides).

Lounge seating fascia can only be ordered in upholstery. No hard surfaces on lounge or lounge fascia.

Umami

Pill and Round Tables

Pill and round tables

are options added as table left or table right (optioned based on user sitting in lounge).

Pill and round tables

can be optioned on select platforms with upholstered top or on lounge products.

Round tables are 10" in diameter. Pill tables are 10" by 13 1/2".

The post (support) of the table is available in paint.

Table tops are available in 2883 Seagull and 2HMG Merle only.

Locations of round or pill tables are shown below.

Single Platforms

Left location

Right location

Round and pill tables cannot be attached to a 15"D x 30"W or 15"D x 60"W platform.

Double Platforms

Left location

Right location

Round and pill tables cannot be attached to a 15"D x 60"W platform.

Straight Single Lounge

Left location

Right location

Round and pill tables cannot be attached to one arm single, two arm single, or corner lounge.

End Cap

Left location pill table, shown on the right arm position end cap

Right location pill table, shown on the left arm position end cap

Straight Double Lounge

Left location

Right location

Round and pill tables cannot be attached to two arm double lounge.

One Arm Double Lounge

Left location

Right location

Umami

Screens

Standard screens are installed at 48" and 60" high.

Each screen will come with one or two clips that attach screens together in either 6527 Merle or 6053 Seagull.

Screen clips come in two types: straight or corner.

Standard screens come in 15" and 30" widths.

Contrasting fabric on Umami standard screens and spanner screens are available with contrasting fabric on the inside and outside of the screen. Contrasting fabrics must be from the same fabric family.

Screens cannot be placed in between platforms and lounge seating.

30"W screen can only be put on a 15"D x 30"W platform if the platform is attached to another platform or lounge.

30"W screens can be placed on a 30"D platform/lounge or two 15"D platforms.

Spanner screens come in 90" and 105" widths and the center screen goes completely to the floor. They are not allowed to be attached to a platform or end cap lounge.

90"W spanner screens can only be attached to the side of two lounge chairs. They cannot be attached to an end cap lounge or platform.

15"W screens can go on an end of a lounge for partial privacy. In this case, an upholstered fascia must be added.

Two 15"W screens will not fit on a 30"D platform or lounge.

15"W and 30"W screens are only allowed on 15"D x 30"W frames in the shown above configurations.
Tip: When placing a 15"D screen on a 30"W frame, a fascia must be specified.

The following applications are not allowed:

15"W screens cannot span two 15"D x 30"W units.

Specifications above are not allowed for stability reasons.

30"W screens cannot span two 15"D x 30"W units.

15"W screens cannot be mounted in the center of a 30"D x 30"W unit.

Two 15"W screens cannot be mounted to a 30"W unit.

15"D units cannot be ganged to a 30"W frame on the 15"D side.

Fabric direction on Umami spanner screens can only be applied vertically. If you want standard screens to match spanner screens, make sure to specify vertical fabric applications on standard screens.

Fabric direction on Umami standard screens can be applied horizontally or vertically.

90"W spanner screens will come with three 30"W screens. The center screen will go completely to the floor.

105"W spanner screens will come with two 30"W screens on the ends and a 45"W center screen. The center screen will go completely to the floor.

Umami Lounge

End Cap

Left arm position

Right arm position

Tip: The end cap position is determined in the user seated position, based on the end of a lounge run in which the end cap will be ganged. For example, while in the user seated position, if attaching an end cap to the seated user's right end of a lounge run, it would be a right arm position end cap.

Tip: Only a single material scheme can be selected. For example, both contrasting fascia and contrasting front cannot be selected together. If more than one material scheme is desired, contact a specials representative.

Tip: Umami lounge and platforms may show minimal comfort wrinkling depending on the fabric or leather specified.

Tip: Light colored or thin fabrics are not compatible on Umami lounge.

Umami Screens

Spanner Screens

Tip: Spanner screens are not allowed to be attached to a platform or end cap lounge.

Tip: Specify straight clip if end of run and no additional clips required.

Tip: Fabrics will only be applied vertically on spanner screens.

Tip: If you want other screens to match spanner screens, make sure to specify vertical application on standard screens.

► See screen application rules for additional details, page 482.

Tip: Fabrics must be in the same fabric family when specifying contrasting fabrics.

Big Lounge, Half Lounge, Corner Lounge, Ottoman, and Wedge

Big Lounge, Half Lounge, and Corner Lounges

come standard armless with black plastic feet. Available options include single, multiple, or waterfall upholstery.

► Specifying, pages 538–553

Campfire Lounge products

are fully upholstered and have a relaxed appearance. They may show soft comfort wrinkles upon use.

Half Lounge is a generous seat for one at 33"W. When paired with other lounges use ganging brackets (ordered separately) to create a wide range of applications.

Product Details

Straight seating available in Big Lounge or Half Lounge.

Big and Half Lounges with seams are available as standard styles. (TS3BCS and TS3HLS) Seams come standard on 90° and 60° Corner Lounges. Order Half and Big Lounges with seams when specifying with the corner lounges for a cohesive design aesthetic.

Styles with the "S" suffix, noting they have a seam, can also be ordered in multiple fabric combinations.

Actual Dimensions

	Big Lounge	Half Lounge	90° Inside Corner Lounge	90° Outside Corner Lounge	60° Inside Corner Lounge	60° Outside Corner Lounge	Ottoman	Wedge
Depth	32"	32"	32"	32"	32"	32"		17 ⁷ / ₈ "
Width	66"	33"	54 ¹ / ₂ "	55 ¹ / ₄ "	38 ¹ / ₂ "	39 ¹ / ₄ "	24"	33"
Height	29"	29"	29"	29"	29"	29"	16**	29"
Seat Depth	22"	22"	22"	22"	22"	22"		
Floor to Seat Height	16"	16"	16"	16"	16"	16"		

*Tip: Specify Ottoman with low profile glides to achieve 16"H.

Waterfall option on lounges features upholstery that wraps around the top of the back and cascades over the front edge of the seat.

Styles with the "W" suffix, noting they have waterfall upholstery, can also be ordered in a multiple fabric combinations.

When ordering multi-fabric, note "upholstery" refers to the fabric selection for the lower section and "waterfall" refers to the fabric selection across the top.

On waterfall lounges with multiple fabrics, only one thread color is used. The thread color that coordinates with the waterfall upholstery will be used on the entire unit.

90° Lounges are available outside or inside facing.

60° Lounges are available outside or inside facing.

Corner Lounges connected to other lounges require the ganging brackets (TS3GANGING) ordered separately.

Ottoman ships fully assembled.

Ottoman is the same as Aight Round Ottoman. The Aight Round Ottoman with the low-profile glide option decreases the seat height from 19" down to 16". It is often shown with Campfire and referred to as Campfire Ottoman. It is being included in the Campfire lounge specifying section for easy reference.

► Specifying, page 552

Ottoman supports up to 225 pounds.

Wedge comes standard with black plastic feet and stability brackets. Independent Wedges and Half Lounges may be positioned into any configuration without moving or removing the stability brackets.

► Specifying, page 553

Wedges connected to the side of a Half Lounge would use the stability brackets facing towards the back as they come standard.

Wedges connected to the back of a Half Lounge or in-line with another Wedge would require moving the stability brackets to the side.

No more than two Wedges can be attached to a single lounge. Wedges can be freestanding, either alone or next to the Big Lounges or Half Lounges.

Surface Materials

Big Lounge, Half Lounge, and Wedge

- Fabric price groups 1-10
- COM

Solid, non-repeat fabrics are recommended for Campfire Lounge settings. Steelcase will not pattern match fabrics which have a distinct repeating pattern. It is recommended to use one of the standard fabrics or patterned COM.

Comfort wrinkles are intended to occur over the time to increase the comfort of Campfire Lounge. Very little maintenance is required to reduce the definition: smooth the cushion fabric with a spreading/wiping motion.

Lounges, continued

Big Lounge—Waterfall

Tip: Waterfall seams are located at the top of the back, the front edge of the seat, 3½" below the front edge seam and 3½" below the top edge seam on the back of the lounge.

Tip: Campfire Lounges with waterfall upholstery can be ordered as a single or multi-fabric upholstery.

Tip: When specifying multiple COM fabrics, indicate all surfaces where COM applies. Example: TS3BCM with Designtex 1234 on seat and Designtex 5678 on back.

Tip: One thread color is used on waterfall lounges with multiple fabrics. The thread color used on the waterfall upholstery will be used on the entire unit.

Tip: Order ganging brackets TS3GANGING to gang units together for more stable applications.

60° Corner Lounges—Waterfall

Tip: 60° Corner Lounges available inside or outside facing.

Tip: Waterfall seams are located at the top of the back, the front edge of the seat, 3½" below the front edge seam and 3½" below the top edge seam on the back of the lounge.

Tip: When creating an application using Big or Half Lounges, specify the Big and Half Lounges with a seam for a cohesive design aesthetic.

Tip: Campfire Corner Lounges with waterfall upholstery can be ordered as a single or multi-fabric upholstery.

Tip: When specifying multiple COM fabrics, indicate all surfaces where COM applies. Example: TS3HLM with Designtex 1234 on seat and Designtex 5678 on back.

Tip: One thread color is used on waterfall lounges with multiple fabrics. The thread color used on the waterfall upholstery will be used on the entire unit.

Tip: Order ganging brackets TS3GANGING to gang units together for more stable applications.

Large Beam, Wood Legs	579
Small Beam, Aluminum Legs	580
Small Beam, Wood Legs	581
Standing-Height Tables	582

B-Free Collection

The B-Free collection

is a full range of furniture including modular lounges, knit screens, occasional tables, and standing-height tables aimed to design flexible, easily reconfigurable casual and convenient settings where teams can collaborate. Its modular design creates settings that support the individual and group work. B-Free beam and standing-height work table promote creativity and collaboration.

B-Free screens in knit

offer subtle privacy and promote concentration. Screens are available in small and large sizes with left or right applications in a variety of colors. Magnets allow screens to connect to another screen or connect to the large cube.

Occasional tables are available in coffee and corner configurations. They can be placed in between cubes, in front of cubes, on the side of cubes as an end table, or act as a corner piece with a screen configuration.

Lounge top block is contoured and sculpted to provide comfort for multiple postures. Top block is available on the large cube with either a straight application or a corner left or right application. Shown is a corner left application.

Large cubes can be standalone units or ganged together with other large cube units.

Small cube is both a seat and an ottoman. It can be specified with glides or casters.

B-Free Beams

B-Free beam encourages postural changes ranging from sit, perch, and stand, promoting wellbeing through movement while boosting creative thinking and engagement. Pair the beam with the B-Free standing height table which share the same leg design to elevate any team setting, creating a relaxed and informal atmosphere for dynamic collaboration to flourish.

Footrests are painted aluminum with option to contrast the footrest from the leg finish.

Legs are available in finished solid wood or painted aluminum.

B-Free beams are available as a large three seater or a small two seater.

Actual Dimensions

	Depth	Width	Height	Seat Depth
Large cube	29½"	31"	17⅛"	N.A.
Large cube with top block	29½"	31"	31½"	19"
Small cube	16¾"	16¾"	17⅛"	N.A.
Screen (small)	30½"	32"	59"	N.A.
Screen (large)	30½"	40⅞"	59"	N.A.
Coffee table	29½"	17¾"	15⅛"	N.A.
Corner table	29½"	29½"	15⅛"	N.A.
Large beam	16¾"	63"	28⅜"	14¼"
Small beam	16¾"	47¼"	28⅜"	14¼"

Product Details

Corner left and right options on large cube integrate as armrests. The backrest is shaped to “wrap” around the user, providing greater lumbar support.

Ganging brackets are discreet and allow cubes to be well aligned when attached together.

The corner occasional table can be used as a corner piece and/or to bridge together two large cubes. It also fits perfectly next to the cube and inside of the privacy screen, or works well out front.

The coffee occasional table fits perfectly next to the cube and works well out in front of the cube.

Left and right screens are decided based on the user seated position in the cube lounge in front of a large screen. The small side of the screen is on the arm side of the cube. The large side of the screen goes behind the cube. Shown above is a large, right screen application.

The large screen surrounds the cube and part of a coffee table.

The small screen fits perfectly around the cube.

Screen to screen magnets come in a pair and attach two screens together.

Screen to large cube magnets come in a pair and attach to the bottom of the screen and to the bottom of the large cube.

B-Free screens were designed for stationary use. The screens may be moved when lifted and carried. They are not designed to be dragged.

For more information on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Solid, non-repeat fabrics are recommended for B-Free cube lounge settings because of the unique geometric shapes. Steelcase will not pattern match fabrics which have a distinct repeating pattern. It is recommended to use one of the standard fabrics, vinyls, leathers, or non-patterned COM/COL.

B-Free Beam, continued

Upholstery

Fabric Application

Warp horizontal application is the standard application direction for B-Free beam. Horizontal application for this product means that the warp yarns will run along the long end of the beam. If you would like the warp yarns to run parallel to the short end of the beam, specify the direction as warp vertical.

Warp Horizontal
(Railroaded)

Warp Vertical (Woven way)

Pattern matching is not guaranteed on B-Free beam between top and end pieces.

Large Beam

Large beam stitched seams are included on the end of the beam and across the beam, separating the seats.

Small Beam

Small beam stitched seams are included on the ends of the beams and through the center of the beam, separating the seats.

Programs & Services

► See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information. Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

B-Free Standing-Height Tables

B-Free rectangle and pint tables make it easy to leverage in-between space across the entire floor plan and create effective workspaces for people to come together and collaborate. Tables support standing and high-sit postures encouraging postural changes while promoting wellbeing through movement and boosting creative thinking and engagement. Pair the B-Free standing-height table with the beam which share the same leg design to elevate any team setting, creating a relaxed and informal atmosphere for dynamic collaboration to flourish.

Tables are 39 1/2" H.

Top is 1" thick with High-Pressure Laminate or veneer and black backer. Laminate tops have 3 mm edge band on all sides. Edge band color is selectable for laminate tops. Veneer tops have 3 mm wood edge that matches the veneer top finish selection.

Rectangle tops have square corners.

Pint tops have square corners on the wide end of the table and 2" (50 mm) radius edges on the short end of the table. The pint table has standard dimensions of 32"D (short end: leg width 23 1/4"), 44"D (wide end: leg width 31") x 80"W.

Product Details

Solid core tops with 1" nominal edge thickness have a particle board core (45 lb cu ft density) with High-Pressure Laminate or wood veneer on the top and a backer applied to the opposite side for a balanced construction. High-Pressure Laminate, wood veneer, and backer are bonded to the core with a PVA adhesive.

Woodgrain laminates are always oriented with the grain direction running parallel with the length of the table top. You cannot specify woodgrain laminates with end- or side-matched grain directions.

Woodgrain runs parallel to the length on rectangle and pint tops.

Legs are available in powder coated steel. Steel legs are constructed of 2 1/2 mm material bent steel, 3 mm horizontal steel tube, and 3 mm thick powder coated epoxy resin paint.

Legs ship standard with four glides.

- Steel leg table: 5/8" glide adjustment range

Wiring and Cabling

Steel leg profile

Steel leg tables include integrated wire manager and merle cover in the leg.

Horizontal steel beam, located in the middle of the legs, is constructed of 1 1/4 mm bent steel and powder coated epoxy resin paint.

MhoB is a 4" x 5" flip-top power module that mounts at the top surface of the table and can be configured in different power/USB configurations:

- Two receptacles for power
- One power/one dual USB

Single/dual power and USB solutions come standard with a 15-amp, one-circuit power solution with a 10' cord.

► See *Power Matrix* on page 564 for available options and power module locations.

MhoB, one power module, is located 10" from the short end of the table; on the centerline of the width/depth specified.

MhoB, two power modules (center or both ends), are connected by a corded system with just one infeed.

Understanding and Specifying Turnstone Jenny Lounge Lounge Seating

Product Details

Jenny Lounge	586
Application Guidelines	589
Dimensions	590

Specifying

Jenny Lounge	592
--------------	-----

Jenny Lounge

Jenny Lounge products

are fully upholstered and have a relaxed appearance. They may show soft comfort wrinkles upon use.

▶ Specifying, page 592

Standard Jenny chairs

are available in one arm, Armless, Wood Arms, Corner, Ottoman, Round, and Club.

Tip: There are height differences between Jenny Low and Jenny. Please use caution when mixing Jenny Low chairs with standard Jenny due to the lower height of Jenny Low.

Legs have options of wood (square or round), brushed aluminum, and/or with casters.

Jenny Low chairs are available in Club and Round. They have an adjusted seat angle, and lowered height to align for work at lounge posture.

Jenny comes fully assembled.

Legs are standard in black plastic except for Jenny Round which has standard brushed aluminum legs.

Round wood legs are solid maple and are available in three finishes. *Tip: Wood legs are natural wood and may have variations in color.*

Seat is angled to allow a deeper sit.

Product Details

Tablet arm is only available on armless and one arm versions of Jenny.

Jenny tablet is 8¹/₂"W x 15¹/₂"L and ³/₄" thick.

Two Jenny pieces shown as a love seat.

Two Armless Jenny pieces shown as a bench.

Jenny tables are available as a Coffee Table or End Table. Tops of tables are available in Low-Pressure Laminate and High-Pressure Laminate. Sides and bottom of table are only available in Low-Pressure Laminate. Jenny tables ship fully assembled without feet installed. Feet are ready to install.

Legs are standard in black and have options for low feet, aluminum, and wood legs.

Round wood legs are solid maple and are available in three finishes.
Tip: Wood legs are natural wood and may have variations in color.

Jenny Lounge, continued

Jenny seating shown as a sectional.

Hard dual-wheel casters are for use on carpet. Use on hard surfaces, including floor mats, will affect chair stability and may result in personal injury.

Brushed aluminum legs are adjustable and have 3/4" of height adjustment.

Casters are not retrofittable on style numbers TS31403 or TS31404.

There are height differences between Jenny Low and Jenny. Please use caution when mixing Jenny Low chairs with standard Jenny due to the lower height of Jenny Low.

Club, Club Low, Round, and Round Low have deck stitch detail. The rest of Jenny has welting detail.

Surface Materials

Upholstery and hard components

There may be sheen or texture differences when using Low-Pressure Laminate and High-Pressure Laminate in adjacent applications. Please use caution when mixing and matching different work-surface types.

Leather price group option ships at extended lead times.

Jenny Corner

Tip: Standard seat fabric directionality is applied as the diagram above indicates (e.g. TS31406).

Tip: Reverse seat fabric directionality is applied as the diagram above indicates (e.g. TS31426).

With Wood Arms

Note: On Jenny with Wood Arms, due to natural variations in wood, finished products may vary in color, texture, and grain.

Legs

- Black plastic
- Brushed aluminum

With Square Wood Legs

- 3412 Natural Cherry
- 3522 Clear Maple
- 3762 Dark Walnut

With Round Wood Legs

- V1AC Natural Cherry
- V1AM Clear Maple
- V1EW Dark Walnut

Tip: Finish 3522 Clear Maple and V1AM Clear Maple are a clear coat and therefore natural variations in wood will be visible.

Tip: Wood legs are natural wood and may have variations in color.

Dimensions

▶ Page 590

Application Guidelines

The Campfire Skate Table provides work space and slides easily around the Jenny Low feet and over the arms.
▶ See *Conference and Collaborative Tables Specification Guide*.

Jenny seating allows many different configurations using armless, left or right arms only, or corner version. Create a love seat, bench, or sectional using Jenny.

Jenny tables with the optional low foot align well with Campfire lounges.

Occasional Tables

Tip: There may be sheen or texture differences when using Low-Pressure Laminate and High-Pressure Laminate in adjacent applications. Please use caution when mixing and matching different worksurface types.

Tip: Edge band applies to entire table, not just the worksurface.

For laminate group 2 and 3 pricing, please refer to the electronic catalog or SmartTools.

Tip: Brushed aluminum legs are adjustable and have 3/4" of height adjustment.

Tip: Wood legs are natural wood and may show variations in grain and color.

Tip: Low foot option reduces overall table height to 15".

Understanding and Specifying i2i 416 Series Collaborative Lounge Chairs

Product Details

i2i 416 Series	620
Dimensions	622

Specifying

Collaborative Lounge Chairs	624
-----------------------------	-----

Adjustability Features

▶ See page 26 for a comparison to other chairs

**i2i
416 Series**

Mechanisms

Dual-swivel

Back Adjustments

Self adjusting

i2i 416 Series

i2i is collaborative lounge seating that helps people move freely, change postures, and stay energized and comfortable.

Upholstery specified is applied to seat and arms.

Flexing fingers form the back and offer support while moving and conforming to your body.

Dual-swivel mechanism allows the back and seat to swivel independently as well as together.

Four-arm base is standard in polished aluminum.

Glides are standard with the static base.

Product Details

Chairs are available with or without tablet arm.

Flexing fingers in the back promote movement and provide support in a variety of postures.

Dual-swivel mechanism allows the back and seat to swivel independently as well as together.

Tablet arm attaches on the right side of the chair with a dual pivot function providing a range of motion that allows the tablet area to accommodate both left and right handed users. It provides a work-surface 12 $\frac{1}{4}$ "D x 18"W. The tablet ships separately and requires field assembly and installation.

Adjustment Features

Swivel-return cylinder option has a built in memory and will return to the fixed position when the user leaves the chair.

Mobile base includes two rollers on the front arms of the base that allow the chair to be moved easily.

Surface Materials

▶ See surface materials on page 632 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Back Upholstery

- 3D Knit (back only)

Seat and Arm Upholstery

- Cogent: Connect (seat and arm only)
- Fabric
- Fabric with soil-retardant treatment (option)
- Leather
- Elmosoft leather
- Select Surfaces leather
- Vinyl
- COM
- COL

Cogent: Connect maximizes quality and comfort on i2i. The selected upholstery will be applied to the seat and arms. It is standard with a sewn application.

Frame

- 6009 Arctic White
- 6249 Platinum
- 6295 Near Black

Tablet Arm

- Laminate
- Veneer

The laminate surface is available with a black edge only. The veneer surface has a self edge. The tablet ships separately and requires field assembly and installation.

Glides

- Black plastic

Rollers

- Optional rollers on mobile base are available in dark fusion only.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Understanding and Specifying Turnstone Aight Lounge

Lounge Seating

Product Details

Aight Lounge	626
Dimensions	628

Specifying

Aight Lounge	629
--------------	-----

Alight Lounge

Alight comes fully upholstered as a Bench, Round, or Corner Ottoman. Alight supports up to 300 pounds.
▶ Specifying, page 629

Alight Seating comes fully assembled.

Legs come standard brushed aluminum with an option of round wood legs and low profile glides.

Brushed aluminum legs are height adjustable.

Round wood legs are solid maple and are available in three finishes.
Tip: Wood legs are natural wood and may have variations in color.

Alight tables are available as an End Table or Coffee Table.
▶ Specifying, page 630

Alight tables have a glass top.

Alight tables require minor assembly.

Product Details

Alight Bench and Corner Ottoman can be combined to create a variety of configurations.

The low profile glide option reduces the overall height of the Ottoman from 19" to 16".

Alight End Table base can be reversed creating two unique looks.

Surface Materials

This listing includes all the surface material choices that are available for the products in this specification guide.

Resources

For more information about surface materials, refer to the following resources:

Additional surface materials specification tools are available to assist you in the specification process—the Surface Materials Binders.

The global surface materials palette is a core collection of finishes that is available across multiple geographies (Americas/EMEA – Europe, Middle East, and Africa/APAC – Asia Pacific) and on global product lines, where applicable. For a list of finishes included in the offering, see the *Surface Materials Reference Manual*. Additional details, like product approvals by geography and finish number conversions, can also be found in the *Surface Materials Reference Manual* or see www.steelcase.com/surface-materials.

Surface Materials

Binders include:

- Surface Materials Reference Manual
- A complete set of swatch cards for hard surfaces, vertical surface fabrics, and seating upholstery

Plastic

Steelcase Surfaces

Not every plastic color is available on every plastic component.

► Refer to the *Color Availability Matrix* on page 656 before specifying.

Custom Surfaces**Open Line Laminate (OLL)**

Applies to:

- Brody 488 Series desks
- Umami platform

This service allows you to order non-standard laminate at an additional processing fee of \$102 U.S. per unit, plus the cost of the laminate.

High-Pressure Laminate pricing does not include premium or digitally printed patterns from any suppliers. Laminate cost may also vary for basic or standard laminates from other suppliers. Please contact the OLL consultant at 616.475.2426 for pricing. The cost of the laminate will be added to your invoice as a separate line on the acknowledgement.

When processing orders for Open Line Laminate, specify 2900 in the laminate finish field and enter the OLL manufacturer information. Enter the required edge finish as you would a standard laminate.

Laminate Approval and Material Requirements

To confirm whether a particular laminate has already been tested for use on a specific Steelcase product or to determine material square foot requirements:

- Visit www.steelcase.com

For additional information, refer to the *Steelcase Surface Materials Reference Manual*.

Wood Stain

Applies to:

- B-Free beam and standing-height tables with wood legs
- 3860 Espresso
- 3861 Natural Beech

Wood**Steelcase Surfaces**

Veneers are matched for proper balance and consistency. Veneers are available quarter cut, except for Oak, which is rift cut. Refer to the *Surface Materials Reference Manual* for descriptions of each cut.

Open-pore finish is a medium gloss finish that leaves the wood grain texture visible to the eye and distinguishable to the touch.

Applies to:

- Jenny Lounge square wood legs
 - Jenny Lounge wood arms
 - Alight End Table
 - Alight Coffee Table
 - 3412 Natural Cherry **E**
 - 3522 Clear Maple
 - 3762 Dark Walnut
- Tip: Due to natural variations in wood, finished products may vary in color, texture and grain.*

Applies to:

- Jenny Lounge round wood legs
- Alight Ottoman round legs

- V1EW Dark Walnut

▶ See *Coalesce Surface Materials Reference Guide* for more information on these finishes.

Premium Veneers

A selection of Premium veneers in this collection are available on most Steelcase brand products. The collection will be available as close to standard leadtimes as possible. However, because adequate supplies of veneer and solids must be secured, all orders will be scheduled individually. Leadtimes will vary based on Premium veneer and Premium solids availability at the time the order is placed. Please see the Steelcase surface materials section on village.steelcase.com for sample information and product line availability. All premium veneers are in clear-coat.

Applies to:

- Brody 488 Series desks
- i2i
- B-Free
- Umami platform
- 3832 QC/OP Figured Anegre

Tip: Full-fill finish is not available on premium veneers as a standard.

Composite Veneers

Composite veneers are an engineered wood intended to create specific grain patterns and characteristics. They are pre-stained and finished with Steelcase's Clarity water-borne UV topcoat, which protects the environment while providing durability and clarity. Only open-pore finishes are available on composite wood. Composite veneer and matching edge bands are available on most Steelcase brand products. Composites, for use as a solid nosing substitute, are not available. Steelcase does not recommend mixing composite veneers with natural solid nosings because composite and natural wood grain and color matching are rarely compatible. Composite veneers are part of our Select Surfaces program as Wood Group 1 pricing.

Tip: Known for their color consistency, composite veneers feature a clear coat finish. Because the veneers are sourced in large lots, overall color within a specific purchase order should have minimal color inconsistency. However, composite customers should know that colors may vary slightly from dye lot to dye lot. This inconsistency may be noticed when replacement pieces are ordered that may be from different dye lots, or when a new project phase is installed. Also note that composite veneers tend to fade and lighten over time, especially with sun exposure.

Applies to:

- Umami platform

Composite Veneer Group 1**Composite Flat-Cut Open-Pore**

- 3JDX FC/OP Oak Composite
- 3JJX FC/OP Walnut Composite
- 3LAX FC/OP Graphite on Oak Composite
- 3LCX FC/OP Medium Cherry on Cherry Composite

Composite Quarter-Cut Open-Pore

- 3F8X QC/OP European Walnut Composite
- 3GGX QC/OP Zebrano Composite
- 3HGX QC/OP Oak Composite
- 3HVX QC/OP Walnut Composite
- 3LBX QC/OP Clear Walnut on Walnut Composite
- 3LDX QC/OP Natural Walnut on Walnut Composite

Composite Veneer Group 2**Composite Flat-Cut Open-Pore**

- 3LHX FC/OP Espresso on Walnut Composite

Composite Quarter-Cut Open-Pore

- 3LEX QC/OP Desert Oak on Oak Composite
- 3LGX QC/OP Chai on Walnut Composite
- 3LJX QC/OP Ebony on Walnut Composite

Tip: Be conscious if mixing the flat cut and the quarter cut in composites, as there may be large variation in color.

Surface Materials, continued

Custom Surfaces

Customiz stain is a service that allows you to create your own stain colors and finishes on standard veneer. Customiz stain color is available on all product lines that offer wood veneer.

A \$500 stain-matching fee applies on CUSTOMIZ requests (Exception: The \$500 fee does not apply on matches to Coalesse standard finishes, for a low-gloss finish request on a standard color, or for composite stain matching to Steelcase wood seating). The \$500 fee covers the cost of formulating the Customiz color finish and applies regardless of whether or not an order for product is placed.

Tip: Due to natural variation of woodgrain color and texture, the match between composite veneers and composite stain color finishes will be a commercially acceptable match, rather than an exact match.

In addition, an approval form must be signed to indicate customer acceptance of Customiz match. A \$1,500 initiation fee will be charged prior to first order entry. This initiation fee activates the finish for unlimited use on any Steelcase product for an 18 month time period. After the 18 month time period has lapsed, the Customiz finish may be reactivated for another 18 months for a \$1,000 fee at any point within five years after the \$1,500 initiation fee was paid. If the finish is not reactivated within five years after the \$1,500 initiation fee was paid, the finish will be culled and the customer will need to pay the \$1,500 initiation fee again. All style number related Customiz charges products are no cost as of April 2014, with the exception of Umami platform and B-Free table. The matching and initiation fees are not discountable.

Customiz stain takes 10 days to formulate. Consult the *Surface Materials Reference Manual* for more information. Custom veneers are also available and must be quoted by Steelcase specials group. Customiz stain on custom veneers takes 2 to 4 weeks to formulate.

Requirements and information on ordering a Customiz stain color are found in the *Surface Materials Reference Manual*.

Select Surfaces

For information on products within Select Surfaces, including accent paints, Signature plastics, and fabrics from Designtex, Gabriel, Kvadrat, and Pollack, please refer to the *Surface Materials Reference Manual* or visit www.steelcase.com/surface-materials under the Select Surfaces section.

Custom Surfaces**Price Group COM (Customer's Own Material)****Fabric Approval and Yardage**

To confirm whether a particular COM material has already been tested for use on a specific Steelcase product or to determine actual yardage requirements:

- Visit www.steelcase.com

For additional information regarding Customer's Own Material, call (1.888.783.3522) or send an email to line-one@steelcase.com.

Vertical Surface Fabric

Vertical upholstery is not available on all upholstered surfaces.

▶ See the Vertical Surface Fabric Matrix in *Surface Materials Reference Manual*.

E = Established

Understanding Customer's Own Material (COM)

The Customer's Own Material (COM) program allows customers to select textiles that are not offered through the standard Surface Materials program.

The COM process consists of seven steps: COM website, Testing/Approval, Steelcase to Purchase Service, Pricing, Cutting Direction, Yardage Requirements, and the Purchase Orders.

COM Application Testing or "approved for application" means the COM fabric has been reviewed for manufacturability using the standard manufacturing techniques to achieve acceptable appearance per Steelcase quality standards.

COM fabric performance, including durability, pilling, color fastness, stretch, splitting, fraying, etc. is not tested by Steelcase. Therefore, COMs are not covered by the Steelcase Warranty. Each COM vendor is responsible for all warranty claims related to fabric performance.

Steelcase reserves the right to reject or reverse any COM approval that does not meet the manufacturing requirements in actual production. COM approval may be rejected or reversed because not all application testing is based on actual production conditions and because some materials vary in fabrication.

- If the COM is approved, you may continue the order process.
- If the COM has failed, you must reselect a fabric.
- If the COM is not listed, that means Steelcase has not tested that fabric on our products.

Helpful hint: Foundation vinyl does not require testing. Customer's own vinyl is available on all seating products that accept Steelcase standard vinyl.

- If your material has not been tested, then send yardage (4.5 yards for seating, 2 yards for vertical surfaces) and submit a completed COM Application Testing Request form to:

Steelcase, Inc.
Attn: COM Test Lab
Test Request #*
Door 630
901 44th St SE
Grand Rapids, MI 49508

**To avoid delays in receiving, please include the test request number on the shipping label.*

- To ensure rapid processing, please use the electronic COM Application Testing Request form found on the COM website under the "How To Test" tab **or** fax a copy of the COM Testing Request form from the *Surface Materials Reference Manual* to 616.698.4700. **All information on the form is required in order to complete testing. COM tests cannot be performed if information is incomplete. Contact your requested fabric vendor for any missing information.**
- Test results will be returned (by fax or e-mail) in four working days from receipt of fabric and completed form.

COM materials that are approved for application to panel systems might require UL approval after application test approval. UL approval does involve fees and extended lead times.

All vertical surface COMs tested and approved with a content of 100% polyester meet a minimum of class C/UL1286. If class A or B fire rating is indicated, a burn test must be performed. All vertical surface COMs with a blended fabric construction require a UL burn test. For further UL information, contact a COM Consultant at 616.475.2426.

Steelcase to Purchase Service

The COM program also includes a service to purchase approved COM for our customers for use on products. Steelcase will facilitate the ordering, scheduling and shipment of COM directly from the suppliers. There are no additional charges for this service.

Steelcase is the only party that may purchase COM for all products.

In some instances, not all colors in a fabric family are approved. You will be informed of these instances before Steelcase purchases the fabric.

If for some reason the fabric must be ordered directly from the supplier, contact your Steelcase Solutions Fulfillment Team Representative for approval and instructions prior to purchase. The only time the customer can purchase fabric is for testing.

COM Pricing

- Confirm COM is tested and approved.
- Use the COM or COL (Customer's Own Leather) price group found under Surface Materials Options within each product specification guide.
- Calculate yardage required by using the COM Calculator found on the COM website at www.steelcase.com.
- Or call 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.
Helpful tip: Fabric width, repeat and product quantity and style number are required in order to calculate yardage accurately.
- Add the cost of the fabric to the COM or COL price group.
- The cost of the COM will be shown as a separate line on the acknowledgement.

COM vendors require fabric purchases in half or full yard increments. Therefore, Steelcase will round all final yardage calculations to the half yard.

COL (Customer's Own Leather) is calculated by the square foot, but purchased in hide. The customer is responsible for purchasing the minimum hide requirement.

Base price of chair includes standard fabrics. Steelcase will not allow credit or deduct the cost of the standard fabric when a COM fabric is selected in its place.

Steelcase cannot be held responsible for costs incurred when a COM supplier ships a COM fabric that does not meet Steelcase application standards or for costs incurred for late deliveries when a COM supplier commits to shipping a COM fabric for manufacturing by a specific date and misses that date.

COM Warranty

Steelcase standard warranty does not apply to Designtex or any other COM vendor's fabric.

- Designtex and other COM suppliers are responsible for color consistency within commercial tolerances, abrasion resistance, UV stability, and resistance to soiling and perspiration. These fabrics or vinyls are subject to policies regarding appearance, behavior, and durability that have been established by the fabric supplier. The customer's remedy for a fabric defect is limited to the replacement of the fabric by the supplier. Durability, performance, and fabric defects of COM fabrics are not guaranteed by Steelcase.

Steelcase cannot guarantee pattern repeat match from product to product. Steelcase also cannot guarantee pattern repeat match within each product listed. (i.e., seat and back, arms to back, etc.)

COM Yardage Requirements

- For the most accurate yardage requirements, visit the Calculator found on the COM website or call 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.
- The Calculator on the COM website provides the same yardage requirements used by Steelcase purchasing.

Yardage requirements will change depending on:

- width of fabric
 - fabric repeat
 - cutting direction
 - product style number
 - quantity of products being manufactured
- COM vinyl requires upholstering in the railroad cutting direction. Please visit our website or call 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com for yardage requirements.

- Certain fabric treatments and backings require additional yardage or yardage minimums. Please contact the supplier for specific information.

- COM fabric vendors require fabric purchases in half- or full-yard increments, and the Steelcase COM calculator will automatically round all final yardage calculations to the half yard.

- Steelcase is the only party who may purchase COMs.

Fabric Application Direction Guidelines

What is the issue?

Some textiles are simple and look the same regardless of how you apply them to a product. Many other fabrics are patterned, textured, or have luster that will have a distinctly different appearance if applied in different directions on chairs. Because of these differences, and the fact that there are limits to how some fabrics can be applied to Steelcase products, it is important to understand fabric application direction standards at Steelcase in order to avoid being disappointed.

Talking about direction

Fabrics come on rolls. The long yarns that run down the length of the roll are called the "warp" yarns. These yarns are used to define the direction you are viewing the fabric as it is applied to a chair. Fabric directionality is determined by how the fabric comes off the roll. It is NOT determined by the way the pattern looks on the product (i.e., horizontal stripes do not mean the fabric was applied warp horizontal—it could have been applied warp vertical).

In the example below, the fabric is applied warp horizontal although the stripes appear vertical.

Warp horizontal application is the standard application direction for most Steelcase fabrics on Steelcase seating products. Horizontal application means that as you view the chair in its upright position, the warp yarns of the fabric are running in the horizontal direction.

Warp vertical application is the standard application direction for SILQ 418 Series. Vertical application means that as you view the chair in its upright position, the warp yarns are running in the vertical direction.

► See page 644, *Fabric Application Direction Guidelines* matrix, for details on these exceptions.

Steelcase is not responsible for charges associated with replacement or reupholstery of products due to incorrect specifications.

The combination of most seating products (warp horizontal) with SILQ 418 (warp vertical) will result in the fabric patterns running in opposite directions.

To remedy this situation, the following options are available:

- Use non-directional fabric. Only a small selection of fabrics are non-directional.
- Use fabrics that have standard warp vertical application direction.
- Specify warp vertical application on fabrics that are standard warp horizontal.

Tip: If you require warp vertical and it is not the standard, you must specify the warp vertical option on every line in the order.

Warp Horizontal (Railroaded)

Railroaded means the same thing as *warp horizontal* and is often used when talking about chairs. *Across roll* is another term for running the fabric in this direction.

Warp Vertical (Woven Way)

Woven way means the same thing as *warp vertical* and is often used when talking about chairs. *Down roll* is another term for running the fabric in this direction.

What determines fabric direction?

Standard default directions exist for all products. You may specify a fabric to be cut in a specific direction if the product allows it to be applied. The purchase order must clearly state the application direction if it is other than standard. Refer to the following tables for the standard directions.

Tip: If you are changing the application direction of fabric, yardage requirements may increase resulting in an additional upcharge. This upcharge will be applied to the purchase order.

Why do dealers have to specify fabric application direction?

Sometimes COM fabrics have patterns that look awkward or inappropriate if they are applied in the standard direction. Therefore, it is critical to know how the pattern is run on the roll to ensure that Steelcase builds and ships each order to the customer's expectation. Some examples are shown here.

Incorrect?

Correct?

Incorrect?

Correct?

Incorrect?

Correct?

Incorrect?

Correct?

- Steelcase does not know which way your customer wants to see these patterns on their furniture.
- Dealers must specify application direction on all COM orders.

Swatch directions

All Steelcase fabric swatches and samples are shown in the warp horizontal direction. If you hold any fabric sample in the orientation shown below, the fabric will be in the warp-horizontal direction.

Swatch card

Memo sample

To see how a fabric will look if it is applied warp vertical, turn it 90°.

Tip: Fabric direction on samples from COM vendors may vary by product. Most textile companies will swatch their fabrics in a warp vertical (woven way, down roll) direction. Some exceptions might be made to address patterns especially with stripes. Typically, when a fabric is swatched in a warp horizontal (railroad or across roll) direction, the direction is noted on the swatch card or fabric sample. If in doubt of a fabric direction, we encourage you to contact the textile vendor for clarification.

Fabric Application Direction Guidelines, continued

Fabric Application Direction for Seating

Fabric	Standard Application Direction	Tips
Steelcase Textiles Upholstery	Railroaded (warp horizontal)	Fabrics on SILQ 418 Series will only be applied in the warp vertical/down roll direction, this includes all standard Steelcase fabrics, Select Surfaces, and COMs.
Select Surfaces-DesignTex	Varies by fabric Dealers must specify desired fabric application direction on all select surfaces orders.	Confirm test results and application direction on COM website and <i>DesignTex.com</i> prior to ordering.
Select Surfaces-Gabriel	Varies by fabric Dealers must specify desired fabric application direction on all select surfaces orders.	Confirm test results and application direction on COM website and <i>Gabriel.dk</i> prior to ordering.
Select Surfaces-Kvadrat	Varies by fabric Dealers must specify desired fabric application direction on all select surfaces orders.	Confirm test results and application direction on COM website and <i>Kvadrat.dk</i> prior to ordering.
Select Surfaces-Pollack	Warp vertical Dealers must specify desired fabric application direction on all select surfaces orders.	Confirm test results and application direction on COM website and <i>Pollackassociates.com</i> prior to ordering.
COM Fabrics	Varies by fabric Dealers must specify desired fabric application direction on all COM orders.	The most common COM application direction for seating is warp vertical. Confirm test results and application direction on COM website and your textile vendor's site prior to entering COM orders.
COM Vinyls	Varies by fabric Dealers must specify desired fabric application direction on all COM orders.	Most solid vinyls are commonly applied in the warp horizontal application direction.

Maintenance and Cleaning

Inspecting and cleaning. Have your chair's upholstery, finishes, controls, base, and other moving parts inspected and cleaned at least once a year.

Cleaning painted and plastic surfaces. Finishes should be cleaned with water and/ or a non-abrasive cleaner (such as Formula 409® and Fantastik®).

Maintaining upholstery. Use a vacuum cleaner for regular cleaning. Periodic professional dry cleaning is recommended. Do not steam clean.

Removing excess stains or heavy soil. Soak up excess stain with a cloth. Do not dry the stain completely or it may set. For most water-soluble stains (coffee, fruit juice, washable ink), use an upholstery cleaning solution (such as Bissell® upholstery shampoo or Guardsman Fabri-Kleen® products) and follow directions on package. For oil-borne stains, use a dry cleaning solution at room temperature (never hot) and let solution work into the stain. Use quick, light strokes to brush the stain with a soft bristle brush. Work from outside toward the center to prevent rings. Soak up remaining dry cleaning solution, then sponge the fabric with cool water. Let fabric dry completely; then vacuum thoroughly. If stain is still visible, repeat procedure. Several light applications of cleaning solution are more effective and less damaging than one heavy application.

Formula 409 is a registered trademark of Clorox company. Fantastik is a registered trademark of Dow Consumer Products, Inc. Fabri-Kleen is a registered trademark of Guardsman Chemical. All other marks are marks of their respective owners.

Guidelines for Selecting Appropriate Ergonomic Seating

<p>General-Use</p>	<p>High</p> <p>General-Use Seating</p> <p>Group Communicating Group Collaborating</p> <hr/> <p>High-Performance Seating</p> <p>Individual Processing (task intensive) Individual Analyzing/Creating (multi-task)</p> <p>Low</p> <p>Low Autonomy High</p>	<ul style="list-style-type: none"> • Short periods of sitting • Moderate computer use • In some cases, a general-use chair can be used for short-term, individual analyzing/creating.
<p>High-Performance</p>	Content shared with the first row	<ul style="list-style-type: none"> • Long periods of sitting • Heavy computer use • The more repetitive the task (individual processing work), the more critical it is to have a high-performance chair with full adjustability.
<p>Executive</p>	<p>Executive Seating</p> <p>Today's executive is an active participant, not just a delegator. Image is very important in the executive suite, but time at the computer must also be a consideration. Whether image or ergonomics drive the choice, this range of seating is diverse to provide the perfect chair for any executive work setting.</p>	<ul style="list-style-type: none"> • Design that acknowledges image • Aesthetics and detailing that suit the setting • Ergonomic features matched to the kinds of work
<p>Guest</p>	<p>Guest Seating</p> <p>Guest seating must be adaptable to many roles: as side chairs, pulled up to the conference table, in the learning center, in the private office, or in high-traffic areas where long use-life is essential. Guest seating is not intended for long periods of seated work, but must provide short-term comfort and have a welcoming, comfortable look.</p>	<ul style="list-style-type: none"> • A style in harmony with the other furniture • A scale that suits the environment • A durability that fits the intended use
<p>Stackable</p>	<p>Stackable Seating</p> <p>Stackable seating is used when occasional, transportable, easy-to-store seating is needed. Whether used as side chairs, meeting chairs, in classrooms, or cafeterias, the challenge is to maintain an excellent aesthetic combined with great strength even though the chairs are light in scale for portability.</p>	<ul style="list-style-type: none"> • Durability for high-volume, high-traffic use • Light weight for easy stacking and moving • Extra features if needed, such as tablet arms, bookracks, glides, transport and storage dollies, and ganging or alignment devices.
<p>Lounge</p>	<p>Lounge Seating</p> <p>Lounge seating is often multiple and is found throughout the organization from reception areas to executive offices. Lounge seating is the "first impression seating," critical to an organization's image.</p>	<ul style="list-style-type: none"> • Durability related to level of use • A design that looks right in multiples • Size, scale, and appearance that suits the environment

Basics of Adjustability

Steelcase chairs offer varying levels of adjustability to meet the needs of many types of users. Adjustable chairs may offer one or more of these features:

Mechanisms

Swivel feature allows the user to rotate the seat 360 degrees in either direction.
(All)

Seat Adjustments

Pneumatic-height adjustment allows the user to remain seated while adjusting the seat height by way of a control button or lever.
(All)

Back Adjustments

Back-tension adjustment allows the user to control the amount of resistance felt when leaning back in the chair.
(All)

Additional Resources

Wood seating products are supported with an array of informational materials, tools, and software to help you plan an installation efficiently.

Product brochures and planning tools can be ordered through your Steelcase area office by calling 1.800.784.0358 or through the Marketing Resources website at village.steelcase.com.

Product Brochures

The following publications focus on wood seating in greater detail:

Seating Overview
Form number 06-0000890

Collaboration
Form number S11078

Steelcase Inc. Corporate Capabilities Brochure

This publication offers a concise overview of Steelcase including insights into the attitudes and commitments that make the corporation unique. In addition, the brochure provides an illustrated listing of all the products and services offered and international activities are described.

Printed Materials

Surface Materials Reference Manual

This publication provides:

- An explanation of the surface materials and their categories
- "Available on" matrices
- Vertical surface fabric and seating upholstery selection listing
- Technical data for surface materials
- Surface material care and cleaning instructions

Planning Tools

Quick Ship Guide

This handbook describes all Steelcase and Coalesse products that are available for Rapid2 (ships in 2 days), Rapid5 (ships in 5-7 days), or Coalesse Rapid10 (ships in 10 days).

Computer Tools

Electronic Catalog

Accurate sales quotations and purchase orders for Steelcase products are created with specification software that uses Steelcase Electronic Catalog data. Use the data to specify and price style numbers and options for every Steelcase product. The data is updated bimonthly by Steelcase and provided to software programs including: the Hedberg Business System, SmartTools—Steelcase's design and specification software (for more information on SmartTools, please email SmartTools@steelcase.com), the ProjectMatrix ProjectSystems libraries, as well as 20-20 CAP Studio.

Furniture Symbol Graphic Data

Steelcase creates 2D and 3D furniture symbols (with attributes) for planning and initially specifying Steelcase products. This data is incorporated into several add-on software packages that work in either a Microstation or an AutoCAD drafting environment.

For more information about these and other software tools to help you plan effective work environments, please email fsl@steelcase.com.

Support

Steelcase Capabilities

Steelcase products are distributed, installed, and serviced through a network of more than 600 dealers worldwide. Steelcase is also represented with offices and corporate showrooms in 26 U.S. cities, 4 Canadian cities, and in France, Germany, Great Britain, and Japan. Every Steelcase product meets our exceptionally high standards of quality and durability and comes with the Steelcase assurance of excellence in service.

For ordering and product assistance,

please call your local dealer, the Steelcase Solutions Resource Team, or the Steelcase Solutions Fulfillment Team at 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.

Call the Steelcase Solutions Resource Team prior to placing an order, when working on a bid, or when you need information about product applications and specifications.

Call the Steelcase Solutions Fulfillment Team if you have submitted an order to Steelcase and you need to speak to your Solutions Fulfillment Team Representative about the order. Also call if you have any post-shipment quality concerns or service parts questions.

For warranty information, please go to <http://www.steelcase.com/warranty/>.

Outside the U.S.A., Canada, Mexico, Puerto Rico, and the U.S. Virgin Islands, call 1.616.247.2500.

For information about Steelcase, the name of your nearest Steelcase dealer, or for product literature, call 1.800.333.9939 or visit our website: www.steelcase.com.

Collaboration

Collaboration guest chairs, designed by Dennie Pimental and John Duffy, have a classic design that is ideal for conference room, reception area, and dining room seating, or as guest seating in a workstation.

Back and seat are fully upholstered.

Upholstered seat features a webbed panel construction.

Frame is European Beech.

Glides are 1/2" diameter.

Actual Dimensions

Overall depth	24 ¹ / ₄ "
Overall width	22 ¹ / ₂ "
Overall height	31 ¹ / ₂ "
Seat depth	17"
Seat width	18 ³ / ₄ "
Back width	18 ³ / ₄ "
Back height	13 ³ / ₄ "
Width between arms	18 ³ / ₄ "
Seat to floor height	18"
Arm height from floor	25 ¹ / ₂ "

Product Details

All chairs are available with plain hardwood arms.

Surface Materials

Upholstery

- Fabric
- Fabric with soil-retardant treatment (option)
- Leather
- COM
- COL

Frame

- European Beech
- *Tip: Wood finishes applied to European Beech will match the color of stains applied to oak, walnut, or cherry but will not show the same natural grain.*
- Customiz stain (option)

Glides

- Stainless steel only

Wood touch-up kits

- Available in specific finishes for field repairs
- ▶ Page 694

All Steelcase seating with standard upholstery fabrics

complies with requirements of the State of California Technical Bulletin 117. All standard seating is labeled to be in compliance with California 117.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM & COL)

Program offers the opportunity for customers to select fabrics and leather that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Avoid pattern fabrics and heavily grained leathers. Through the COM & COL program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM & COL fabric and leather directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM & COL fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.

Surface Materials

This listing includes all the surface material choices that are available for the products in this specification guide.

Resources

For more information about surface materials, refer to the following resources:

Additional surface materials specification tools are available to assist you in the specification process—the Surface Materials Binders.

The global surface materials palette is a core collection of finishes that is available across multiple geographies (Americas/EMEA – Europe, Middle East, and Africa/ APAC – Asia Pacific) and on global product lines, where applicable. For a list of finishes included in the offering, see the *Surface Materials Reference Manual*. Additional details, like product approvals by geography and finish number conversions, can also be found in the *Surface Materials Reference Manual* or see www.steelcase.com/surface-materials

Surface Materials

Binders include:

- Surface Materials Reference Manual
- A complete set of swatch cards for hard surfaces, vertical surface fabrics, and seating upholstery

Wood

► See *Wood Color Availability Matrix* on page 698 for color availability by product line and wood species.

Tip: The wood used in the construction of chairs is either maple or European beech. Wood finishes applied to maple or beech will match the color of stains applied to oak, walnut, or cherry, but will not have the same natural grain. Composite color finishes will match the color of composites on veneered surfaces, but will not have the same grain pattern.

Custom Surfaces

Customiz stain is a service that allows you to create your own stain colors and finishes on standard veneer. Customiz stain color is available on all product lines that offer wood veneer.

A \$500 stain-matching fee applies on CUSTOMIZ requests (Exception: The \$500 fee does not apply on matches to Coalesse standard finishes, for a low-gloss finish request on a standard color, or for composite stain matching to Steelcase wood seating). The \$500 fee covers the cost of formulating the Customiz color finish and applies regardless of whether or not an order for product is placed.

Tip: Due to natural variation of woodgrain color and texture, the match between composite veneers and composite stain color finishes will be a commercially acceptable match, rather than an exact match.

In addition, an approval form must be signed to indicate customer acceptance of Customiz match. A \$1,500 initiation fee will be charged prior to first order entry. This initiation fee activates the finish for unlimited use on any Steelcase product for an 18 month time period. After the 18 month time period has lapsed, the Customiz finish may be reactivated for another 18 months for a \$1,000 fee at any point within five years after the \$1,500 initiation fee was paid. If the finish is not reactivated within five years after the \$1,500 initiation fee was paid, the finish will be culled and the customer will need to pay the \$1,500 initiation fee again. All style number related Customiz charges products are no cost as of April 2014. The matching and initiation fees are not discountable.

Customiz stain takes 10 days to formulate. Consult the *Surface Materials Reference Manual* for more information. Custom veneers are also available and must be quoted by Steelcase specials group. Customiz stain on custom veneers takes 2 to 4 weeks to formulate.

Requirements and information on ordering a Customiz stain color are found in the *Surface Materials Reference Manual*.

Tip: The wood used in the construction of chairs is either maple or European beech. Wood finishes applied to maple or beech will match the color of stains applied to oak, walnut, or cherry, but will not have the same natural grain. Composite color finishes will match the color of composites on veneered surfaces, but will not have the same grain pattern.

*See *Coalesse Surface Materials Reference Guide* for more information on this finish.

**To ensure an understanding of the color ranges and characteristic variations of natural veneer, a sign-off sheet is required prior to orders being accepted for this clear-coat finish. The sign-off sheet is available through Steelcase advertising stock. Form number 05-0001370

Tip: 3522 Clear Maple is a clear coat. Therefore, the natural variations in wood (maple or European beech) will be visible.

Tip: Due to natural variations in wood, finish products may vary in color, texture and grain.

Guidelines for Directional Fabrics

What is the issue?

Some textiles are plain and look the same regardless of which direction the fabric is applied to the product. But many customers prefer fabrics that have patterns that give a clear direction to the textile. Because there are limits to how directional fabrics can be applied to panels and chairs, it is important to understand directional fabrics to avoid being disappointed.

Talking about direction

Fabrics come on rolls. The long threads that run parallel to the length of the roll are called the warp. The perpendicular threads that run parallel to the width of the roll are called the filling.

Railroaded means the height dimension of the product is perpendicular to the warp of the fabric; *warp horizontal* and *across roll* are other terms for running the fabric in this direction. All Steelcase standard fabrics are railroaded. The yardage requirements for railroaded cutting are calculated using the width of the fabric, quantity ordered, style of chair(s), and pattern repeat.

Woven way means the height dimension of the product is parallel to the warp of the fabric; *warp vertical* and *down roll* are other terms for running the fabric in this direction. The yardage requirements for woven way cutting are calculated using the width of the fabric, quantity ordered, and style of chair(s).

What determines fabric direction?

The width of the roll of fabric and the techniques that are used to apply it to the product can both determine the direction. Standard default direction for seating products with Steelcase standard fabrics is railroaded. No exceptions are possible. COM fabrics are standard woven way. You may specify a COM fabric to be cut in a specific direction if the product allows it to be applied. The purchase order must clearly state the cutting direction if it is other than standard.

Tip: If you are changing the cutting direction of fabric, yardage requirements may increase, resulting in an additional upcharge. This upcharge will be applied to the purchase order.

▶ See *Yardage Requirements* in the *Surface Materials Reference Manual* for specific information.

If you have any questions regarding cutting direction guidelines, please call the Steelcase Solutions Resource Team at 1.888.STEELCASE or 1.888.783.3522. You can also find this information on our website:

- Visit www.steelcase.com

COM pattern exceptions

Sometimes COM fabrics have patterns that look awkward or inappropriate if they are applied in the standard direction (woven way). Those cases are addressed with these two pattern exception rules.

Incorrect

Correct

Incorrect

Correct

1

Fabrics with stripes or flame stitch will be applied so that the patterns are vertical.

Incorrect

Correct

Incorrect

Correct

2

Fabrics with patterns of people, vines, or flower arrangements will be applied so that the pattern is vertical.
