Victor Carrasco

Born in Valencia (Spain) in 1974, Victor Carrasco began his professional career after graduating Cum Laude in Industrial Design Engineering at the Polytechnic University of Valencia.

Shying away from trends and fads, he has developed and positioned international brands with remarkable added value, thanks to his passion for synthesis, sustainable growth and his pragmatic vision of the future.

Since 2007, he has been combining his position as strategic director of Viccarbe with that of Director Business Development for the prestigious American multinational Coalesse (Steelcase Inc.). Likewise, as an industrial designer, he has collaborated with numerous international companies.

He was the recipient of the Prince Felipe Award for Business Excellence and he has also won the German Design Award.

Klip

Collection designed by Víctor Carrasco, 2014

Certain pieces will not claim their place on the Olympus of design. Not because they are less valid, nor because their function is forgotten. It is for having the ability to let things happen in a constant and sustained way in time. We are talking about the beautiful art of facilitating, of letting a person carry out their tasks without interruption with comfort and concentration.

The Klip family has become the great ally of educational spaces around the world, from large orchestra rehearsal rooms to library reading areas. But the list goes on: desks, areas for workshops, auditoriums, classes, collaborative areas, theatres, spaces in between... It knows no limits as a seat.

Nor will we find any frontiers in their finishes: both the chair and the stool have evolved in recent years, with the intelligence of the listener. The intelligence of whom, instead of imposing, adapts to the needs that the projects themselves have demanded of them. As we discovered in the first issue of this magazine, Klip was born as a commission from Tokyo Polytechnic University to Víctor Carrasco.

Over the years we have discovered that it has been precisely the umbrella of this same philosophy (that of understanding what the most functional spaces require) that has prevailed in the new additions to the family.

Klip Stool

“Klip knows no limits as a seat. The counter height stool complements conventional work areas. It is a perfect solution for the so-called “in-between” spaces, creative environments, quick and informal meetings or areas dedicated to project development.”
