Product Compliance Laboratory Confirmation of Product Compliance

BIFMA
MEMBER

6-Nov-2023

West Elm Health **Slope** seating products have been designed, engineered, and manufactured, to meet or exceed all applicable **ANSI/BIFMA (American National Standards for Office Furnishings)** requirements for safety and performance.

Samples representative of current production have been tested and found to be in compliance with the following ANSI/BIFMA Test Requirements ¹:

ANSI/BIFMA X5.4-2020 – Lounge and Public Seating Tests

ANSI/BIFMA X5.41 (600 lb)-2021 – Large Occupant Public and Lounge Seating Tests ²

ANSI/BIFMA X6.4-2021 – Occasional Use Seating Tests

In addition to ANSI/BIFMA Standards the West Elm Health Slope products have been tested and found to be in compliance with the following standards ¹:

16 CFR Part 1640 – Standard for the Flammability of Upholstered Furniture

California Technical Bulletin 117-2013: Requirements, Test Procedure and Apparatus for Testing the Smolder Resistance of Materials Used in Upholstered Furniture (*Steelcase Standard Fabrics only*)

LOAD LIMITS

West Elm Health Slope series seating products have been tested to increased loads and forces that exceed the ANSI/BIFMA X5.4 Standard. This testing ensures that all West Elm Health Slope seating will support users weighing up to 300 lbs with no loss of performance. **West Elm Health Slope Bariatric** chairs have been tested to the ANSI/BIFMA X5.41 Standard. This ensures that those models tested will support users weighing up to 600 lbs with no loss of performance.

¹ West Elm Health Slope collection products with Style Numbers that begin with WEHSLP were evaluated in these claims.

² Limited to Bariatric models only.

Steelcase uses its own ISO 9001 registered and ISO 17025 accredited laboratories, and accredited independent laboratories, to verify compliance to the Standards and requirements listed. A list of accredited independent laboratories is available upon request.

Sincerely,

Jeff Musculus – Director, Global Testing

This document may be reproduced in full only.

Steelcase products are designed and tested for code and standard compliance when installed and used as an integrated product solution in accordance with Steelcase application guidelines and assembly directions. The use of unauthorized non-Steelcase components, parts, or materials with integrated Steelcase product solutions **VOIDS** all Steelcase claims of product compliance to BIFMA, UL, CSA, LEED, and / or any office furniture safety or performance standards, including all building, fire, and electrical codes. This exclusion includes but is not limited to the use of non-Steelcase panel supported work surfaces, leg supports, panels, brackets, shelves, overhead bins, and other integral components. The use of non-Steelcase components in an integrated product solution not designed, tested, or supported, by Steelcase is an unauthorized modification of the original product which voids all Steelcase warranties, expressed or implied.
